CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VII. TORONTO, ONT., JANUARY 1, 1902 No. 48

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday, Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

FOR SALE—One of the largest and best equipped planing mills and lumber yard in Western Ontario; continued ill health of proprietor reason for selling. Answer Box 24, CANADA LUM ERMAN.

WANTED—75 carloads Rock Elm Strips 2½ x 1¼", in lengths 4 ft. 6 in., 4 ft. 9 in. and 5 ft. Must be perfectly free from knots and full size. Apply OTTAWA LUMBER CO., Ottawa.

SCOTCHMAN (6) SEEKS EMPLOYMENT in timber yard, 13 years experience in office and yard, has excellent references, respectable appearance, and is in robust health. Address "Timber," care Keith & Co., Advertising Agents, Edinburgh, Scotland.

ONE 40 H.P. ENGINE, ONE 45 H.P. BOILER, and one 100 h.p. engine. The larger Engine is now running in our works, but we can dispose with it any time owing to electric power now being installed in Orillia. One Planer and Matcher or Moulder, Shingle Machine, Rip Saw, Dry Kiln Fans and Heater complete, Hangers, Shaftings. All of these we offer at a snap; they were up to October 1st in the Veneer Works, but now that we have taken the Veneer Works into our business we have no use for the machinery we offer.

THE CANADA WOOD SPECIALTY CO., Limited Orillia, Ont.

AUCTION SALE

OF

VALUABLE TIMBER LIMITS

AND LANDS.

There will be offered for sale by Public Auction, at the Russell House, in the city of Ottawa, on

Wednesday, the 19th day of February, 1902,

at two o'clock in the afternoon, the Timber Berths and Properties owned by Mr. William Mackey, on the River Amable Du Fond, Province of Ontario. The limits are in one block containing 129¾ square miles, timbered with white and red pine of superior quality, spruce and other woods, and are well watered, making a very short average draw. Part of the block is still a virgin forest containing large board pine of the finest quality with a very short haul.

With above are included deeded lands on which are built slides and dams; and at Eauclaire station, Can. Pac. Ry., a well-equipped saw, planing and shingle mill run by water power.

The whole will be sold in one block. Maps and descriptions of limits may be obtained from

W. MACKEY.

Ottawa, 4th Dec., 1901.

FOR SALE—CHEAP. 3 cars 1¼ inch Cull Maple, 3 cars 1 inch and 3 cars 2 inch Beech. REID BROS., Hepworth Station.

FOR SALE.

LARGE STEAM SAW MILL, COMPLETE—can ship Seaforth or Brussels. J. R. GOVENLOCK, Seaforth, P. O.

FOR SALE OR RENT.

FIRST-CLASS SAW AND PLANING MILL, in good locality. For particulars apply to A. S. STROME, Fordwich, Ont.

For Sale.

One 54 inch double cant oscillating gang, Wm. Hamilton make, extra strong and in running order. Apply G. B., care CANADA LUMBERMAN.

WANTED—In car lots, mill run or common and better 1½ inch, 2 inch, 2½ inch and 3 inch dry Soft Elm. Also 1 inch and 3 inch fair grade Basswood. State lowest price f.o.b. cars, Markham Station. Address TAYLOR & LOUNT, Markham, Ont.

FOR SALE.

50 LARGE WHITE PINE TREES, THE pick on 75 acres of Pine, Cedar and Tamarac woods. Price $40.00 each as they stand. Tamarac Piles and Cedar for sale at Brantford, Ont. Apply to E. TODD, 131 Brant St., Brantford, Ont.

WANTED

A steady, energetic, thoroughly experienced and competent man as foreman for a large shingle mill, equipped with Dunbar type of machine. Night and day capacity per year, 100 million.

Must be an expert on shingle saw filing and hammering, and thoroughly understand the Dunbar machine, and be able to do mill-wright work, know how to handle men, and write and figure fairly well. None but a strictly temperate man need apply.

Prefer a man not over 40 years old. An excellent salary and steady employment to the right man.

Apply "Shingle," care this paper, for further particulars.

CURRENT TRADE CONDITIONS.

ONTARIO.

It is difficult to give a statement of the lumber market that will show the true situation, but it may be said with certainty that the tendency of white pine prices is upwards. Very few manufacturers are now issuing price lists, for the reason that they have not sufficient stock to offer. Almost every grade is well sold out, the heaviest stocks, perhaps, being in mill culls and common pine plank. Prices of the higher grades have shown a wide fluctuation during the past two weeks, as some manufacturers are apparently more impressed than others with the scarcity of these grades, and are asking correspondingly higher prices. This is also true in respect to lath and shingles, as is demonstrated by the fact that an Ottawa valley manufacturer is asking $3.50 for No. 1 lath at the mill. This figure, however, does not represent the average market quotation. There is considerable inquiry for stock for future delivery, and the trade are inclined to the opinion that prices next season will be fully as high as in 1901.

In hardwoods there has been some improvement. Carload shipments of elm, birch and maple to the United States are being regularly made by manufacturers in the Wiarton district, and it is said that the inspection has not been as severe as last year, thus indicating a stronger market. It is now certain that fewer hardwood logs will be taken out this season than last winter, as millmen are beginning to realize that it is more profitable to leave the timber on the stump than it is to sell it as lumber when prices are low and inspection hard.

QUEBEC AND NEW BRUNSWICK.

Late report from the eastern provinces seem to show that conditions are quite favorable for spruce lumber. Stocks in most districts are below what they were one year ago, while enquiries for next year's cut are quite numerous. South American specifications are much in favor, and if the demand should continue large shipments will be made to that country next season. Full prices are being asked and will no doubt be obtained, as the log supply is likely to be small and insufficient to keep the mills at work throughout the season. Cedar shingles continue strong, on the basis of $3.30 for extras, Boston delivery. Ocean freights have fallen and are dull, while rail freights to the United States rule high.

MANITOBA AND BRITISH COLUMBIA.

The lumber movement at the present time is confined largely to finishing material. This is comparatively large, as building operations in Winnipeg during the past year were on an extensive scale. There is a good outlook for next spring, as retail dealers are not heavily stocked. British Columbia mills continue busy. Several vessels are loading at Chemainus for Australia. The freight market has strengthened considerably, the rate being fully three shillings higher than six weeks ago. There is an exceptionally strong demand for cedar logs. More camps than usual are at work, and a scarcity of men is reported. It is feared that there will be a break in the shingle market owing to the increased production resulting from the several new mills about to be put into operation.

UNITED STATES.

The holiday season has curtailed the lumber demand, but the market has lost none of its strength. On the other hand,

the year closes with high prices and the outlook favorable for a continuation of a firm and advancing market. This applies to almost every class of lumber, with white pine occupying the first position. The upper grades are so scarce that it is impossible to find a sufficient quantity to meet the requirements of the market, while the lower grades are gradually becoming stronger. It is reported that in Tonawanda prices of the lower qualities have recently been advanced quite sharply, and dealers are predicting a further advance on some items within the next month. It is estimated that Chicago dealers who heretofore bought most of their stock at Duluth and Ashland have purchased at least one hundred million feet of white pine lumber at interior mills to be shipped to their yards next season. In Cleveland dealers are asking an advance of from $1 to $2 a thousand on selects, fine common and No. 1 and No. 2 shop. Numerous enquiries are in the market for hemlock lumber. The base price in New York is now established at $15, while during the last week prices have advanced in North Tonawanda until some items are selling at the base price of $16 and as high as $17 in a few instances. The hardwood market continues to show a fair degree of activity. There is a good demand for basswood, elm, and black ash. At a meeting of the Chicago Hardwood Lumber Exchange held last week, discussion revealed the fact that firsts and seconds basswood, birch and ash were extremely scarce, also that many of the dealers were selling some varieties of lumber at less than they could be replaced. Accordingly, advances were decided upon.

GREAT BRITAIN.

As usual at this period of the year, the business doing in lumber is of a quiet character, yet the British market seems to be breaking away from the weakness and uncertainty which characterized it through the greater part of the past year. Some shippers have not yet submitted their price lists for next season. The question now seems to be how much higher prices will go for the first-open-water stocks. This is particularly the case in respect to Canadian lumber, which is showing marked strength. Considerable quantities of spruce deals are said to have been bought for next year at high figures, but even if freights can be obtained at the present rates, which are extremely low, the opening prices are not likely to be below those now ruling. The stock of spruce in all the United Kingdom ports is abnormally low, especially in Liverpool and the Bristol Channel. A very light stock of 11 x 3 and 9 x 3 is held. While pine deals are in heavier stock than spruce, they are rapidly going into consumption. The stock of waney pine is very small and the prices asked for next season's production are said to be the highest ever known. The Importers Section of the Timber Trade Federation took no action at their meeting last week regarding prices, on the ground that it was not practicable to pass a resolution defining any particular course.

SOCKS AND PRICES.

John Jamieson expects to have half a million feet of lumber to ship from Bloomfield, N.B., in the spring.

The city of Winnipeg is asking for tenders up to January 9th for the supply of from 500 to 1,000 cords of cedar.

John Whalen, of Sussex, N.B., who is lumbering for Mr. Mooney, of St. John, expects to get out 2,000,000 feet of logs this winter.

The Saginaw Lumber & Salt Company are announced to have sold to Quebec shippers 200,000 cubic feet of waney board pine to be taken out this winter in the Georgian Bay district.

The Dominion Government is asking for tenders up to January 13th for a permit to cut timber on berths No 995 and 996, in the Province of Manitoba, and until January 20th for a permit to cut on berth No. 998. The two first berths contain an area of 9 square miles each, and the last berth an area of 160 acres.

LAKE OF THE WOODS DISTRICT.

A correspondent writes THE CANADA LUMBERMAN regarding lumbering operations in the Lake of the Woods district as follows :

Lumbering operations in this district are much greater this season than heretofore. The large crop in Manitoba has stimulated the lumber business, and I am looking forward to next season being the most active in our history. There will be cut about 35 million feet, board measure, of saw logs. Labor is in good demand and very fair wages are being paid. The Canadian Pacific Railway Company has let contracts for one and one-quarter million ties and about 10,000 piles and one-quarter million fence posts. This is much in excess of former contracts and points to railway construction in the west. The Northern Railway Company has let contracts for one-quarter million ties and a large quantity of telegraph poles and fence posts. The Northern Railway, or what is known as the Rainy River Railway, is going to open up a large territory, well covered with all kinds of timber. There is a large portion of the territory on which no pine timber has been cut, and I have no doubt that the time is approaching when it will be sold, as the danger from fire is so great along the line of the railway that it necessitates the disposal of the timber in close proximity to the line.

There is a demand for timber of less value than heretofore, by reason of connection with Winnipeg. Cord wood along the valley of the Rainy River is now worth $2.50, with a large demand.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

Available stocks are scarce and prices firm in the local lumber market. Business is dull, a dullness attributable to the scarcity of supply and the cessation in manufacturing operations. The principal planing mills have closed down, to resume business about Jan. 5th. At present all hands are engaged stock-taking, reviewing the year's business and planning for the future.

Shingles are not to be had in any considerable quantities, and lath is very scarce. Good strips and shorts are also about sold out, and the same may be said of 1¼, 1½ and 2 inch sidings Nearly all this stock has passed into third hands, albeit the builder and other consumers.

Circulars sent from a leading mill on Monday quoted prices suggestive of the Klondyke. The prices at the mill ran as follows: No. 1 white pine lath, $3,50; No. 2 ditto, $3.25; No. 1 red pine lath, $3.25; No. 2 ditto, $3.00. It is a question whether these prices can be obtained. Prices already quoted rule in other lines. Everything points to an upward movement, however, as the available stocks are small.

Reports from the limits go to show that the weather conditions are now more favorable then they were earlier in the season. All the larger lates are fit for traffic and recent thaws have improved the roads.

Mr. T. C. Elmitt, of the firm of Hurdman & Elmitt, left last Monday on a business trip to Alabama and Tennessee. He will be away until the middle of January.

Notice has been given that an appeal will be entered by Mr. Alexander Fraser, defendant in the celebratd suit of Dezouche vs. Fraser. Judge Leavergue gave an order calling from defendant a statement of proceeds of sale of limits owned by the firm of Frazer & McCoshan; the latter was Mrs. Dezouche's first husband. The limits were sold after his death. Proceedings were instituted by the widow to determine what share if any her children, the minor heirs of McCoshan; were entitled to. About $500 is involved.

DOORS AND MOULDINGS.

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in the first instance to Empire, care CANADA LUMBERMAN.

FOR SALE.

A number of very valuable pine and other timber limits on the north shore of Lake Huron and elsewhere for sale. Also limits bought and sold on commission and estimates given. For particulars, apply to

TRANSACTIONS IN TIMBER PROPERTIES.

It is rumored that King Bros., of Quebec, have sold their timber limits, mill properties and railways in the province of Quebec to a Glasgow syndicate, who will further develop the properties and put on a special line of steamers to South America.

The Cutler and Savidge Lumber Company are reported to have sold their saw mill located at Cutler, Algoma district, to the Wright Lumber Company, of Bay City, Mich. It is understood that the deal does not carry with it the timber limits in Ontario owned by the company.

New Mill Erected 1901. Capacity 100 Million a Year.
Spicer Shingle Mill Co., Limited

It is not the purpose of this advertisement to try and convince the Lumber Trade of Canada that we are the only company in British Columbia manufacturing and shipping shingles in large quantities, or that we "know it all." We recognize that "there are others" and that we are not the only "pebble on the beach." To try and make you believe that we are the only people who can supply you **promptly** and in **large quantities** with a **high-grade** shingle would not only be a **fish** and a **bear** story combined, but it would be gall of the bitterest kind.

Our competitors in the shingle business in B. C. are nice people, and we presume that they know their business ; but we are nice people too, and as we have been in the trade as long as any of them, and a **great deal longer** than the most of them, we know that we know our business, and that our competitors are not in the possession of any points of value regarding the manufacture of shingles which has not come to **our knowledge**.

Our old mill was burned down in May last, and in its place we have built what is at the present time the **Largest** Shingle Mill in B. C.

Our new Mill has 7 of the latest improved type of Dunbar machine, which we run night and day—giving us a capacity of about **100 Million** a year.

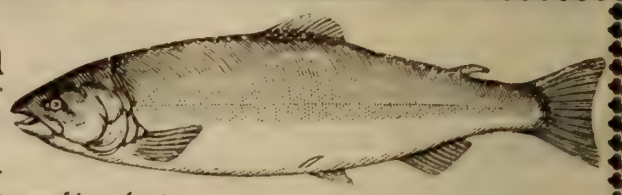
Competent judges who have seen our new mill, tell us that it is one of the most **substantial**, carefully **constructed**, and best **planned** mills in this province. We ourselves think it is **the very best** shingle mill in B. C. ; and we know that it is **equipped** with all the very latest improved Shingle Machinery.

Will the trade please note that our contract with the Pacific Coast Lumber Co. closes at the end of this year. D. Ferguson, of London, Ont., is our representative for that province. Orders sent to him, or to us direct, shall have **prompt** attention.

We want our share of your shingle business, and can **guarantee** your satisfaction in **every particular.**

Spicer Shingle Mill Co., Limited,
VANCOUVER, B. C.

No Fish Stories



go when it comes to speaking about
OUR SHINGLES
FACTS ARE FACTS WHETHER TOLD ABOUT FISH OR SHINGLES
We make a fine 16-inch Shingle.
We make a fine 18-inch Shingle.
We make a fine 24-inch Shingle.
We make all thicknesses from 6-2 inch to 6-3 3/8 inch.
They are going out of our different mills at the rate of 200,000,000 a year. We make more shingles than any one firm in the world. Just think of it!

We claim to be experts. That is not gall. That is a statement which is proven constantly by the testimony of our customers from the Pacific Coast to the Atlantic Coast on the Canadian side, and from Maine to Puget Sound.

Mixed Cars our Specialty. Don't forget that we have all kinds of House Finishing Material in Fir and Cedar, and can load any quantity with shingles.

Come, let us deal together.

CUSTOMERS' ATTENTION.—Please take notice that on and after the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles will be ended, and until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipeg, Man., for Manitoba and the North-West ; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

CORRESPONDENCE INVITED.

THE BOSTON MARKET.

Spruce lumber Boston is in the steady, quiet demand that is almost always incident to this particular season. Perhaps it is fortunate that the demoralization of the mills along the Maine rivers by the recent freshet came at this particular season, when the demand for spruce is very quiet. As it is, the demand is very small here, while it is also true that a big demand could not be taken care of by the mills: Ten and 12 inch dimensions, $20; 9 inch and under, $18 to $18.50; 10 and 12 inch, random lengths, 10 feet and up, $19 to $19.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $16.50; all other randoms, 9 inch and under, 10 feet and up, $17.50; 5 inch and up, merchantable boards, $15 to $16; matched boards, $17.50 to $18.50; out spruce boards, $12.50 to $13; bundle furring, $16 to $17.

Western pine increases in firmness, under the supply steadily growing less. Business is seasonably quiet: Uppers, 1 inch, $70 to $72; 2 1-2 and 3 inch, $75; 4 inch, $80; selects, 1 to 1 1-2 inch, $63 to $65; 2 inch, $65 to $67.50; 2 1-2 to 3 inch, $72 to $75; 4 inch, $75 to $80; fine common, 1 inch, $48; 1 1-4 to 1 1-2 inch, $54; 2 inch $55, 2 1-2 to 3 inch, $63 to $65; 4 inch, $70; barn boards, $23 to $32; coffin boards, $25 to $28.

Hardwood lumber is steady in prices, with the demand steady, of moderate proportions: One inch, whitewood, $38 to $40; thicker, $39 to $42; ⅝ inch, $30 to $35; saps, inch, $25 to $30; common, $23 to $25; quartered oak, $56 to $65; fancy, $70 to $75; plain oak, $40 to $47; black ash, $40 to $50; white ash, $45 to $55; cherry, $90 to $130; maple, $32 to $40.

Shingles continue scarce, with the market firm, though the demand is small: Extra cedar, $3.25 to $3.30; clear, $2.85 to $2.95; second clear, $2.30 to $2.35; sap, $2.15 to $2.25; extra No 1, $1.75 to $1.85; Washington and British Columbia, 16 in, five butts to 2 ins, $3.40 to $3.50.

Clapboards are still scarce and firm, but the demand is small: Extra spruce, $32 to $33; clear, $30 to $31; second clear, $27 to $28; extra No. 1, $18 to $20; pine extra, $48 to $50; clear, $43 to $45; second clear $38 to $40.

Laths are quiet and unchanged: One and five-eighth inch, $3.15; 1 1-2 in, $3.10.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VII. TORONTO, ONT., JANUARY 8, 1902 No 48

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED—An up to date Band Saw Mill with or without carriage, second-hand. Give all particulars and lowest price. Box 38, CANADA LUMBERMAN.

Wanted--To Contract.

THE OUTPUT OF MILLS CUTTING 16" AND 18" Pine and 18" Cedar Shingles of good manufacture and quality. State prices, different grades and when first shipments can be had. Immediate correspondence solicited. Address, J. G. STRAIT & SON, Wolcott, N. Y.

AUCTION SALE
OF
VALUABLE TIMBER LIMITS
AND LANDS.

There will be offered for sale by Public Auction, at the Russell House, in the city of Ottawa, on

Wednesday, the 19th day of February, 1902,

at two o'clock in the afternoon, the Timber Berths and Properties owned by Mr. William Mackey, on the River Amable Du Fond, Province of Ontario. The limits are in one block containing 129¾ square miles, timbered with white and red pine of superior quality, spruce and other woods, and are well watered, making a very short average draw. Part of the block is still a virgin forest containing large board pine of the finest quality with a very short haul.

With above are included deeded lands on which are built slides and dams; and at Eauclaire station, Can. Pac. Ry., a well-equipped saw, planing and shingle mill run by water power.

The whole will be sold in one block. Maps and descriptions of limits may be obtained from

W. MACKEY.

Ottawa, 4th Dec., 1901.

WANTED—BLACK ASH LUMBER, CUT to order. Apply to J. KAUFMAN, Berlin, Ont.

FOR SALE—CHEAP. 3 cars 1¼ inch Cull Maple, 3 cars 1 inch and 3 cars 2 inch Beech. REID BROS., Hepworth Station.

FOR SALE.

LARGE STEAM SAW MILL, COMPLETE can ship Seaforth or Brussels. J. R. GOVENLOCK, Seaforth, P. O.

FOR SALE OR RENT.

FIRST-CLASS SAW AND PLANING MILL, in good locality. For particulars apply to A. S. STROME, Fordwich, Ont.

WANTED—INCH BIRCH, STRICTLY 18 and 28 eight inches and up wide. Quote lowest price delivered on cars point of shipment. J. F. STENGEL, 990 Ellicott Square, Buffalo, N Y.

WANTED—An up-to-date 3 or 4 block carriage, medium weight, for mill of 18 M capacity, must be good as new Give full particulars and price. Address "Righthand Carriage," care CANADA LUMBERMAN.

For Sale.

One 54 inch double cant oscillating gang, Wm. Hamilton make, extra strong and in running order. Apply G. B., care CANADA LUMBERMAN.

WANTED—In car lots, mill run or common and better 1½ inch, 2 inch, 2½ inch and 3 inch dry Soft Elm. Also 1 inch and 3 inch fair grade Basswood. State lowest price f.o.b. cars, Markham Station. Address TAYLOR & LOUNT, Markham, Ont.

Cedar Poles Wanted

A LARGE quantity of cedar telegraph poles wanted, 25 to 65 ft. long, 7 inch top, for early spring delivery. Quote price f.o.b. cars point of shipment' Box 33, CANADA LUMBERMAN.

A FIRST CLASS BAND MILL, SITUATED on the Georgian Bay, is open to contract for sawing from two to four million feet logs during summer of 1902. Good piling ground and shipping facilities. State size and quality of logs. Apply in first instance to this office.

BOX SHOOKS WANTED.

We have large export orders for Box Shooks, principally in Spruce, for butter, candle and soap boxes Also Birch and Maple squares, chair-seats, etc. Apply for particulars to GELLIBRAND, HEYWOOD & Co., Cardiff, Wales, G. B. Payment cash.

WANTED

A steady, energetic, thoroughly experienced and competent man as foreman for a large shingle mill, equipped with Dunbar type of machine. Night and day capacity per year, 100 million.

Must be an expert on shingle saw filing and hammering, and thoroughly understand the Dunbar machine, and be able to do mill-wright work, know how to handle men, and write and figure fairly well. None but a strictly temperate man need apply.

Prefer a man not over 40 years old. An excellent salary and steady employment to the right man.

Apply "Shingle," care this paper, for further particulars.

D. & O. Herrington, planing mill, Unionville, Ont., have dissolved, D. Herrington continuing.

The large saw mill at Fesserton, Ont., owned by W. W. Carter, together with 200 piles of lumber, was totally destroyed by fire on January 1st. The mill alone was worth about $25,000.

CURRENT TRADE CONDITIONS.

ONTARIO.

Business for the week in white pine lumber has been satisfactory. Retail dealers report some buying for immediate requirements, while a feature of wholesale trade is the inquiry for stock for future delivery, an indication that the supply of lumber in the hands of retailers and consumers is light. Some of the largest manufacturers have sold a considerable portion of the coming season's cut, while practically all the British specifications of the Ottawa valley mills have been contracted for. There has been a slight improvement in red pine, which suffered during the past two years from over production and from severe competition from spruce and Baltic timber. Occasionally a report is heard that mill culls are slow of sale, but in view of the strength of other grades, this weakness is likely to be only temporary and to be relieved as the spring season is approached. The expected small production of hardwood logs this winter is having an effect upon that class of lumber, and the feeling is more confident than it has been for some time The quantity of hemlock and cedar logs taken out this winter is likely to be slightly above the average.

QUEBEC AND NEW BRUNSWICK.

No. 2 spruce boards and spruce lath represent the chief lumber moving in the eastern provinces. Shingles are in good demand, but the supply is short. No further advance in prices has as yet taken place, although there are indications in that direction. The statement of stocks wintering at Quebec, recently compiled, makes a most favorable showing in nearly all classes of timber. The stock of pine deals is very small, while that of spruce deals is little more than one-half that of last year. The export of square and waney pine was 2,317,443 cubic feet, leaving the stock over 350,000 feet less than one year ago. Of oak the stock is only 126,000 feet, which is less than half the wintering stock of last year. The export of birch during the year was heavy, and leaves the supply almost exhausted. The situation in elm is different, owing to a heavy production of that timber. There was received at the port of Quebec 1,023,372 feet, the export was 548,869 feet, and the stock wintering is 594,922 feet. The outlook for this timber, in view of the heavy stock, is not very promising, although a very small quantity is being taken out this winter, which will permit of the present surplus being reduced. Altogether, the outlook is favorable for firm prices next season. Lumbermen in the Maritime Provinces report numerous enquiries for stock, and anticipate a large demand from the United States.

MANITOBA AND BRITISH COLUMBIA.

While the retail demand for lumber in the west is small at the present time, operations in the woods are being conducted on an extensive scale. Large contracts for railway ties have been given out, and more men are at work in the Lake of the Woods district than in any previous season. The interest of British Columbia lumbermen is centred in the proposal of the British Columbia Lumber and Shingle Manufacturers' Association to adopt a schedule of prices to apply locally and as far east as Manitoba. Owing to the keenness of competition, cutting of prices has been indulged in to some extent in the past, and consequently the business has not been profitable. Manufacturers hope by working together to bring about better conditions in the trade. It will also be the aim to limit the production, especially of shingles, as the total mill capacity is much in excess of the consumption. A rumor is current that an effort is to be made to combine all the mills on the Pacific coast doing an export trade. The report, however, is not confirmed at time of going to press.

UNITED STATES.

But for the car shortage the movement of lumber in the United States would be much heavier. The activity is remarkable for the season of the year, and augurs well for a brisk spring demand. Reports from the east tell of a very strong market for white pine. Our Buffalo list this week shows an advance of $2 per thousand in all grades of uppers and selects, and of about one dollar on several items of fine common and cutting up stocks. The scarcity of the higher grades is such that dealers are not anxious to sell at present quotations. There is no weakness at any point. Saginaw buyers have secured over 150,000,000 feet of stock already at outside points, which is to be taken to the yards there during the coming season. Better things are expected for hardwoods in the near future. Stocks are becoming reduced and will be light when the new cut is ready for the market. The better feeling at Buffalo has resulted in an advance in the price of thick ash

and of white birch and soft maple. A temporary falling off in the demand for shingles is reported, due to the holiday season. Prices, however, continue unchanged. Lath is moving liberally. At Cleveland No. 1 white pine brings $4; No. 2, $3.50; and No. 1 hemlock, $3 to $3.25.

SOCKS AND PRICES.

The log cut on the Restigouche river, in New Brunswick, this winter is estimated at 30,000,000 feet, or 5,000,000 feet short of last winter.

Mill owners at St. John, N. B., expect to get higher prices for spruce deals than they did last year, and are talking of $13 for city cut deals, with the product of small country mills 50 cents to $1 less.

The strength of hemlock lumber is responsible for a rumor that a further advance in price is to be made by manufacturers. The present base price at Buffalo is $13.50. It is claimed that if the price should be further advanced it will shut off the building of frame houses and injure all classes of building.

F. E. Neale's circular of lumber shipments from Miramichi and Campbelltown for the season of 1901 shows that 13 vessels were loaded at Campbelltown, carrying a total of 11,349,038 superficial feet, and that 29 vessels sailed from Miramichi, with a total of 44,493,334 feet. The above shipments were made by Mr. Neale, representing Frank Harrison & Company, of Liverpool, Eng,

Michigan firms operating in Ontario this winter expect to bank a full supply of logs. W. & A. McArthur Co., of Little Current, will have a stock of about 30,000,000 feet; Spanish River Lumber Co., about 20,000,000 feet; Eddy Bros. & Co., and the Michigan Land & Lumber Co., of Blind River, about 40,000,000 feet; The Moulthrop Lumber Co., John's Island, 18,000,000 feet; Arthur Hill Co., Midland, 15,000,000 feet; Holland & Emery Co., Byng Inlet, 40,000,000 feet; while Pitts & Charlton, of Little Current, and the William Peter Estate, of Parry Sound, are calculating upon a full output.

Concerning the Barbadoes lumber market Messrs S. P. Musson, Son & Company, under date of September 21st, say: The "Lewanika" arrived on December 7th from Hantsport, N.S., with 308,000 feet white pine lumber and 38,000 feet spruce. On the 10th inst. the "Edna" arrived, with 106,000 feet white pine, 174,000 feet spruce and 75,000 feet hemlock, which had been contracted for; and on the 18th the "Kipling," from Bridgewater, N.S., arrived with 85,000 feet white pine shippers and 95,000 feet refuse, which has been sold at $23.11 and $19.11 respectively; second quality, $17.11. In spruce no other arrivals have taken place, but we have a cargo contracted for on the way, and have also placed a nearby cargo, to arrive, at $19 round. We do not think that prices of either white pine or spruce can be maintained if further arrivals take place, unless the neighboring islands are in a position to take some lumber, as the dealers are all supplied with contract cargoes. No further receipts of shingles have taken place. We have sold a quantity of laying at $1,70 to $1.75. Clairemont, Man & Company report that Gaspe long cedar shingles are wanted at $4.40 to $4.75 as to quality, and that a spot sale of cedar laying has been made at $1.90.

While Chicago assortments are in the main fairly balanced and stocks at the majority of the yards are practically as heavy as at the opening of last year, the American Lumberman says there is a most pronounced scarcity of several sizes of piece stuff and boards. In the former 2x12s and 3x12s and 2x10s and 3x10s in the short lengths are among the scarcest and most desirable items wanted. Anything in piece stuff over 18-foot is also in low supply. Some of the recent prices f. o. b. cars are as follows: 2x12—10, 12 and 20, $19,50; 2x12—14, 16 and 18, $19; 2x10-12 and 18, $17; 2x12-14 and 16, $16.50; 3x12-12, 14 and 18, $19.50; 3x12-16, $19; 3x12-20, $20.50. Eight-inch, No. 1 stock boards, 20 to 16-foot, $21; 10-inch No. 1 stock boards, 10 and 12-foot, $22; 14 and 16-foot, $21; 12-inch No. 1 stock boards, 10 and 12-foot, $25; 14 and 16 foot, $24; 8-inch No. 2 stock boards, 16-foot, $19; 10-inch No. 2 stock boards, 10 and 12-foot, $19.50; 14 and 16-foot- $19; 12-inch No. 2 stock boards, 10 and 12-foot, $22; 14 and 16-foot, $21; No. 1 boards all lengths, 10 and 16-foot, promiscuous widths $20; No. 2 boards $19. Shingles, extra *A* white pine, $3; standards, $2.35. White cedars extra *A* $2.85; standards, $2.25. No. 1 pine lath, $3.50; No. 2 lath, $3.25.

THE BOSTON MARKET.

The outlook for spruce lumber at Boston is very firm, though trade is limited at present. Quotations are unchanged: 10 aud 12 inch dimensions, $20; 9-inch and under, $18 to $18.50; 10 and 12 inch random lengths, 10 feet and up, $19 to $19.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, $16.50; all other randoms, 9-inch and under, 10 feet and up, $17.50; 5-inch and up, merchantable boards, $15 to $16; matched boards, $17.50 to $18.50; out spruce boards, $12.50 to $13; bundle furring, $16 to $17.

Hemlock continues to be firmly sustained, with trade quiet: Boards, 12, 14 and 16 feet, $14 to $14.50 for good eastern; Pennsylvania, No. 1, $16 to $17; No. 2, $14.50; random $13 to $13.50.

The position of western pine is explained to be very firm, with the outlook strong. The supply in the immediate west is fully under control, with the pine lands of the farther west being bought up. It is understood that eastern capital is going into these pine lands. Trade here continues quiet: Uppers, 1-in. $70 to $72; 2½ and 3 in. $75; 4.in. $80; selects, 1 to 1½ in. $63 to $65; 2-in. $65 to $67.50; 2½ to 3 in. $72 to $75; 4.in. $75 to $80; fine common, 1-in. $48; 1¼ to 1½ in. $54; 2-in. $55; 2½ and 3 in. $63 to $65; 4-in. $70; barn boards, $23 to $32; coffin boards $25 to $28.

Hardwoods are unchanged, with the demand quiet; One inch, whitewood, $38 to $40; thicker, $39 to $42; 5/8 inch, $30 to $35; saps, inch, $25 to $30; common, $23 to $25; quartered oak, $56 to $65; fancy, $70 to $75; plain oak, $40 to $47; black ash, $40 to $50; white ash, $45 to $55; cherry, $90 to $130; maple, $32 to $40; sycamore, quartered inch, $43 to $45; plain, $35 to $40; walnut, $100 to $130.

Shingles continue firm, though the demand is quiet: Extra cedar, $3.25 to $3.30; clear, $2.85 to $2.95; second clear, $2.30 to $2.35; sap. $2.15 to $2.20; extra No. 1, $1.75 to $1.80; Washington and British Columbia, 16-inch, five butts to 2 inches, $3.46 to $3.50.

Clapboards are scarce and firm, with a limited demand: Extra spruce, $32 to $33; clear, $30 to $31; second clear, $27 to $28; extra No. 1, $18 to $20; pine extra, $48 to $50; clear, $43 to $45; second clear, $38 to $40.

Laths are quiet and unchanged: One and five-eighths inch, $3.15; 1½ inch, $3.10.

WHITE PINE CONDITIONS.

The condition of the lumber market in the Lake Superior district may be taken as the barometer of the white pine trade of the United States and Canada. In the last issue of the Mississipi Valley Lumberman that market is reviewed as follows:

The current conditions in the white pine market, with the single exception of the badly shattered stocks, are all that could be wished by the manufacturer. There has been a falling off in the demand during the past week, caused by the advent of the holidays and the taking of the inventory by the dealers, but a light business at this time was desired by the manufacturers that they might wind up the year's business and see in just what position they were to take care of the spring trade. Inventories are not yet complete, and so the figures showing stocks on hand January 1 are not obtainable, but it is safe to assume that stocks in the Mississippi and Wisconsin valleys taken together are not less than 13 per cent. under those on January 1, 1901. This is taking stocks as a whole, including both the higher and lower grades. The percentage of shortage in the higher grades is very scarce, and, as stated muny times, the shortage will become more pronounced each week. Siding, finishing, boards, fencing, timbers, dimension, lath, shingles are among the most prominent on the "scarce" list.

The past year has been a memorable one for the lumber industry. In the territory tributary to this market building operations were never so active, and the manufacturers have been taxed to their utmost to supply the demand. The country was never in more prosperous condition, and people have spent and are spending their money freely. The net profits to the farmers, who are large users of lumber, from their crops, are much larger than was first supposed, the extremely large prices they are receiving for their products more than making up for any shrinkage in the size of the crops. All this points to a heavy demand during the present year.

BRITISH TIMBER SALE.

Following is the result of an auction sale held by Foy, Morgan & Company, London, Eng., on December 18th:

Pine—Ex. Mount Royal, from Quebec—6-11 ft. 1 x 5 in. unassorted red, £5 per standard. Ex. Montreal from Montreal—12-14 ft. 3 x 11 in. third quality, £13 5s. Ex. Andoni, from Montreal—12 ft. 3 x 11 in. third quality, £12 15s; 13 ft. 3 x 11, £12 15s; 16 ft. 3 x 11, £12 10s; 15-16 ft. 3 x 11, £12 10s; 14-15 ft. 3 x 11, £12 10s.

Spruce—Ex. Bawtry, from Quebec—6-8 ft. 3 x 9-11 in. second and third quality, £7 5s. Ex. Loughrigg Holme, from Quebec—15 ft. 3 x 9 in. £7 5s. Ex. Marian, from Quebec—12 ft. 3 x 11, £7 10s; 9-16 ft. 3 x 11, £7 10s.

FOR SALE.

Has for sale a quantity of Maple, Beech, Birch, Basswood and Soft Elm

QUEBEC WINTERING STOCKS.

The stock of the various classes of timber wintering at the port of Quebec is shown by J. Bell Forsyth's annual circular to be as follows:

Square pine	589,561	cubic	feet
Waney pine	361,488	"	"
Red pine	78,084	"	"
Oak	126,874	"	"
Elm	594,022	"	"
Ash	25,320	"	"
Birch	7,721	"	"

PURCHASE OF TIMBER LIMITS.

It is announced that Harry Patton, of Albany, and F. C. Smith, of New York, have secured options on 65,000 acres of lands in the vicinity of Sherbrooke, N. S. It is also stated that H. Freeman has sold his timber limits, comprising 45,000 acres, to the same parties, at a price of about $100,000, and that negotiations are on foot for the purchase of the Gaspereaux lands of S. P. Benjamin & Company, of Wolfville, N. S. The object is to consolidate all these properties under one management, and in addition to lumbering operations, to establish pulp and paper mills.

New Mill Erected 1901. Capacity 100 Million a Year.
Spicer Shingle Mill Co., Limited

It is not the purpose of this advertisement to try and convince the Lumber Trade of Canada that we are the only company in British Columbia manufacturing and shipping shingles in large quantities, or that we "know it all." We recognize that "there are others" and that we are not the only "pebble on the beach." To try and make you believe that we are the only people who can supply you **promptly** and in **large quantities** with a **high-grade** shingle would not only be a **fish** and a **bear** story combined, but it would be gall of the bitterest kind.

Our competitors in the shingle business in B. C. are nice people, and we presume that they know their business; but we are nice people too, and as we have been in the trade as long as any of them, and a **great deal longer** than the most of them, we know that we know our business, and that our competitors are not in the possession of any points of value regarding the manufacture of shingles which has not come to **our knowledge**.

Our old mill was burned down in May last, and in its place we have built what is at the present time the **Largest** Shingle Mill in B. C.

Our new Mill has 7 of the latest improved type of Dunbar machine, which we run night and day—giving us a capacity of about **100 Million** a year.

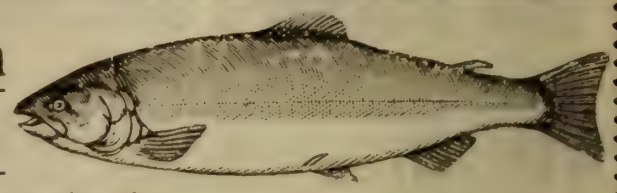
Competent judges who have seen our new mill, tell us that it is one of the most **substantial**, carefully **constructed**, and best **planned** mills in this province. We ourselves think it is **the very best** shingle mill in B. C.; and we know that it is **equipped** with all the very latest improved Shingle Machinery.

Will the trade please note that our contract with the Pacific Coast Lumber Co. closes at the end of this year. D. Ferguson, of London, Ont., is our representative for that province. Orders sent to him, or to us direct, shall have **prompt** attention.

We want our share of your shingle business, and can **guarantee** you satisfaction in **every particular.**

Spicer Shingle Mill Co., Limited,
VANCOUVER, B. C.

No Fish Stories



go when it comes to speaking about
OUR SHINGLES
FACTS ARE FACTS WHETHER TOLD ABOUT FISH OR SHINGLES
We make a fine 16-inch Shingle.
We make a fine 18-inch Shingle.
We make a fine 24-inch Shingle.
We make all thicknesses from 6-2 inch to 6-3 3/8 inch.
They are going out of our different mills at the rate of 200,000,000 a year. We make more shingles than any one firm in the world. Just think of it!
We claim to be experts. That is not gall. That is a statement which is proven constantly by the testimony of our customers from the Pacific Coast to the Atlantic Coast on the Canadian side, and from Maine to Puget Sound.
Mixed Cars our Specialty. Don't forget that we have all kinds of House Finishing Material in Fir and Cedar, and can load any quantity with shingles.
Come, let us deal together.
CUSTOMERS' ATTENTION.—Please take notice that on and after the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles will be ended, and until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipeg, Man., for Manitoba and the North-West; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VII. TORONTO, ONT., JANUARY 15, 1902 No 49

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday, Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED—An up to date Band Saw Mill with or without carriage, second-hand. Give all particulars and lowest price. Box 38, CANADA LUMBERMAN.

Wanted--To Contract.

THE OUTPUT OF MILLS CUTTING 16" AND 18" Pine and 18" Cedar Shingles of good manufacture and quality. State prices, different grades and when first shipments can be had. Immediate correspondence solicited. Address, J. G. STRAIT & SON, Wolcott, N. Y.

AUCTION SALE
OF
VALUABLE TIMBER LIMITS
AND LANDS.

There will be offered for sale by Public Auction, at the Russell House, in the city of Ottawa, on

Wednesday, the 19th day of February, 1902,

at two o'clock in the afternoon, the Timber Berths and Properties owned by Mr. William Mackey, on the River Amable Du Fond, Province of Ontario. The limits are in one block containing 129¾ square miles, timbered with white and red pine of superior quality, spruce and other woods, and are well watered, making a very short average draw. Part of the block is still a virgin forest containing large board pine of the finest quality with a very short haul.

With above are included deeded lands on which are built slides and dams; and at Eauclaire station, Can. Pac. Ry., a well-equipped saw, planing and shingle mill run by water power.

The whole will be sold in one block. Maps and descriptions of limits may be obtained from

W. MACKEY.

Ottawa, 4th Dec., 1901.

FOR SALE.

LARGE STEAM SAW MILL, COMPLETE—can ship Seaforth or Brussels. J. R. GOVENLOCK, Seaforth, P. O.

GOOD QUALITY PINE SAW LOGS WANTED, by mill situated on the Georgian Bay. State quantity, quality, average, price, when cut, and where logs can be seen. Address, Box 92, CANADA LUMBERMAN.

WANTED—INCH BIRCH, STRICTLY 1s and 2s, eight inches and up wide. Quote lowest price delivered on cars point of shipment. J. F. STENGEL, 990 Ellicott Square, Buffalo, N. Y.

For Sale.

One 54 inch double cant oscillating gang, Wm. Hamilton make, extra strong and in running order. Apply G. B., care CANADA LUMBERMAN.

FOR SALE.

100 pine trees suitable for spars and square timber, two miles from station, sixty miles from Toronto. Cedar posts, rails and ladder poles. N. H. HOWARD, Killean P. O.

SCOTCHMAN (26) SEEKS EMPLOYMENT in timber yard, 13 years' experience in office and yard, has excellent references, respectable appearance and is in robust health. Address "Timber," care Keith & Co., Advertising Agents, Edinburgh, Scotland.

WANTED—WHITE BASSWOOD.

200,000 1 1/4 inch Winter sawn, End dried, Common and Better White Basswood, for delivery May, June and July next. Parties able to supply part or whole, address Box 34, CANADA LUMBERMAN.

Cedar Poles Wanted

A LARGE quantity of cedar telegraph poles wanted, 25 to 65 ft. long, 7 inch top, for early spring delivery. Quote price f.o.b. cars point of shipment' Box 33, CANADA LUMBERMAN.

A FIRST CLASS BAND MILL, SITUATED on the Georgian Bay, is open to contract for sawing from two to four million feet logs during summer of 1902. Good piling ground and shipping facilities. State size and quality of logs. Apply in first instance to this office.

BOX SHOOKS WANTED.

We have large export orders for Box Shooks, principally in Spruce, for butter, candle and soap boxes Also birch and Maple squares, chair-seats, etc. Apply for particulars to GELLIBRAND, HEYWOOD & Co., Cardiff, Wales, G. B. Payment cash.

FOR SALE.

400,000 feet 2 x 6, 2 x 8, 2 x 10 and 2 x 12, 12 to 18 feet Hemlock.
70,000 feet 4/4 Hemlock.
20,000 feet 4/4 Pine Mill Run.
15,000 feet 4 x 4, 6 x 6, 6 x 8 and 8 x 8, 12 to 30 feet Pine and Spruce.
Apply to THE WM. BEATTY ESTATE, Parry Sound, Ont.

WANTED

A steady, energetic, thoroughly experienced and competent man as foreman for a large shingle mill, equipped with Dunbar type of machine. Night and day capacity per year, 100 million.

Must be an expert on shingle saw filing and hammering, and thoroughly understand the Dunbar machine, and be able to do mill-wright work, know how to handle men, and write and figure fairly well. None but a strictly temperate man need apply.

Prefer a man not over 40 years old. An excellent salary and steady employment to the right man.

Apply "Shingle," care this paper, for further particulars.

WANTED—BLACK ASH LUMBER, CUT to order. Apply to J. KAUFMAN, Berlin, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

There has been little change in the white pine situation during the past week. Manufacturers find that the stocks with which they went into the winter are gradually being reduced by a considerable car trade, and if there was a better assortment of grades a still larger trade would be done. It is almost impossible to find certain sizes in the upper grades. Manufacturers in the Georgian Bay district are looking forward to a large demand from the United States during the spring months, as Michigan Dealers are likely to be heavy purchasers. In the Ottawa valley district the market is equally strong. Trade is quite active for this season of the year, and the scarcity of stock has brought about an advance in the price of pine sidings and strips. Fewer inquiries are being received for lath and shingles, but recent prices have been well maintained.

QUEBEC AND NEW BRUNSWICK.

Manufacturers of spruce lumber are maintaining a firm attitude and are showing no disposition to close contracts for the coming season's production except at what they consider a reasonable figure. The market for clapboards is exceptionally strong. The supply is short, and prices have advanced at Boston within the past week fully $2 per thousand. Cedar shingles are unchanged, but it is significant that the recent advances have been easily maintained. The annual Miramichi Wood Trade Circular has been issued by the J. B. Snowball Company, but we notice that no figures are given of the wintering stocks. The total export of the province was the smallest since 1896 and shows a falling off of 45,000 standards as compared with 1900. The port of Miramichi shows an increase of 3,500 standards, but it is stated that this is more than covered by the reduction in the wintering stock. The shipments from Nova Scotia ports were less than the previous year, with the exception of Halifax.

UNITED STATES.

The developments of the past week in United States lumber circles have been of more than usual interest and have served to emphasize the optimistic feeling which has prevailed for some time. The action of the white pine manufacturers in advancing price has been followed by the manufacturers of the south. At a meeting of the price list committee of the Southern Lumber Manufacturers' Association held last week it was decided to advance the prices of yellow pine lumber, as it was shown that there is a shortage of upper grades and no large supply of the poorer qualities. The upper grades were consequently advanced $2 per thousand, and dimension timber 50 cents per thousand. There was a disposition to make the advance on the latter grade $1, but the desirability of keeping the price of dimension where it would not retard consumption was urged against this step. A statement from thirty of the largest mills showed the stock on hand January 1 to be 36,000,000 feet less than one year ago. Michigan dealers in white pine have obliged to advance their prices, as will be seen by our price list. Some dealers question whether this advance can be maintained. The most favorable feature of the week is found in the statement of the white pine product of the Northwest, including Michigan, Wisconsin and Minnesota. The total cut of pine lumber in these states in 1901 was 5,372,380,000 feet, a decrease of about 100,000,000 feet as compared with the previous year. The stocks on hand December 1 last were 2,310,476,000 feet, a decrease of over 500,000,000 feet as compared with the previous year and the smallest quantity at a corresponding date in the history of the trade. Taking stocks and product into consideration, the year shows a disposition of about 666,000,000 feet of lumber more than in 1900. The production of shingles in the same territory was 2,476,684,000, practically the same as the previous year, whereas the stock on hand December 1 was 348,545,000, as compared with 649,000,000 in 1900 and 694,000,000 in 1899. Of lath the production was 1,300,000,000, which varies little from the previous year, while the stock on hand was 386,000,000, a decrease of 40,000,000. The cut of hemlock lumber was 1,264,943,000 ft. and the stock on hand 574,407,000 ft. While the production was increased by 98,000,000 feet, the stock on hand shows a decrease of 47,000,000 feet. A study of the above figures leads to the conclusion that the present prices of lumber will be maintained and probably advanced this year.

GREAT BRITAIN.

The course of the British timber market is still surrounded by uncertainty. Importers seem afraid to venture upon new business until they are better able to foresee the extent of consumption. Some buying has been done, confined chiefly to small lots. Some ground for encouragement is found in the fact that the deliveries from the public docks in London during the past year exceeded those of 1900 by some 40,000 standards, of which 35,000 standards were sawn timber and 5,000 standards prepared boards. The supply has thus been reduced to an average quantity, and with a continuation of the present satisfactory state of consumption, the year should witness a substantial advance in the price of lumber. Spruce deals show a remarkable shortage at several importing centres. It is said that a lot consisting of about 60 per cent. 3x7 and 3x8 has been sold at £7 15s per standard c. i. f. Liverpool. These prices are not high when it is considered that $13 per thousand is being asked for deals f. o. b. St. John, N. B. The stock of pine deals is being worked off gradually. Present quotations show that the price of best quality deals, as compared with one year ago, has continued firm, but that there has been a loss of upwards of £1 per standard in second, third and fourth quality. Red pine has also suffered during the year to the extent of about £2 per standard. Waney and square pine occupy a strong position, and are selling at 5 shillings and 2 shillings per standard respectively higher than one year ago.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

The opening weeks of the new year see the local lumber dealers looking forward in pleasurable anticipation to the good things that 1902 has in store for them. While very little business is being transacted at present, the prospects are bright, even roseate. The demand is active and the supply short in the principal grades of good lumber. Prices have advanced accordingly. Good pine sidings, which ranged from $31 to $42, have advanced, and figures run as high as $45. Good strips, previously quoted at $26 to $32, now range from $30 to $35. Pine No. 1 dressing sidings, that sold as low as $18 a few weeks ago, now bring from $20 to $24. Even at these figures it is hard to fill orders, and impossible in many cases.

Mr. Thomas F. Elmitt, of the firm of Hurdman & Elmitt, who has just returned from a trip through the States, speaks very favorably of the prospects for Canadian lumber. Dealers who previously saw no further than Michigan are now looking towards Canada for supplies. The standing timber in Michigan has become practically a thing of the past, and now it is the turn of the Canadians to supply the demand.

In the southern states which Mr. Elmitt visited, there is not as good an opening for Canadian lumber, for the reason that the cheaper grades of lumber with which these states are stocked fill the bill.

Reports from the limits in which Ottawans are interested are brighter as the natural conditions have improved. The prospects for a fair-sized cut are good.

Ottawa, January 11th, 1902.

CANADIAN LUMBER SHIPMENTS.

The following shipments of lumber, etc., from Canadian ports are reported since last issue :

From Halifax, N. S.: Str. Alcides, for Glasgow, Scotland, 359,658 ft. deals, etc., value $2,876. Str. Manchester City, for Manchester, England, 323,145 ft. deals, value $2,680.

From St. John, N. B.: Str. Evangeline, for London, 84,796 ft. deals, 935 ft. ends, by W. M. Mackay ; 1,017 bales pulp, by St. John Pulp Co.; 103,351 ft. deals, 15,678 ft. ends, by George McKean. Str. Manchester Commerce, for Manchester, 500 bales pulp, by St. John Pulp Co.; 559,792 ft. deals, 19,644 ft. ends, 24,060 ft. boards, 2,594 ft. scantling, 195,584 ft. planks, 34,169 feet ends, by W. M Mackay ; 1,170 box shooks, 1,606 bales pulp, 216 pcs. birch squares, 4,140 birch poles, by William Thomson & Co. Str. Numidian, for Liverpool, 284,238 ft. deals, 118 ft. scantling, 13,487 ft. ends, by George McKean ; 297 pcs. oak lumber, by William Thomson & Co. Str. Lake Ontario, for Liverpool, 1,858 doors, 500,000 ft. deals, 2,178 ft. boards, 1,000 bales pulp, by Troop & Son ; 135 tons birch, by W. M. Mackay. Schr. Onward, for Salem, 132,814 ft. plank, by A. Cushing & Co. Schr. Ravola, for New York, 480 pcs. piling, by J. Holly & Son. Schr. Rebecca W. Huddell, for New Bedford, Mass., 203,731 ft. plank, 576,000 cedar shingles, by Stetson, Cutler & Co.

DOORS AND MOULDINGS.

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in the first instance to Empire, care CANADA LUMBERMAN.

THE GLASGOW MARKET.

The annual timber circular of Calder, Henderson & Livingston reviews Canadian woods as follows :

WHITE PINE—WANEY—The import has been light, and as there has been a steady demand throughout the year it leaves an exceedingly small stock to be carried over. First class wood has been in demand, and there has also been a good inquiry for second class. Prices have advanced and are strong at a high level. First class wood of long average is quoted at 3s 3d to 3s 6d, and short girthy wood at 2s 9d to 3s. Second class, at 2s 3d to 2s 8d per c. ft. Square.—The demand has been fair, but the quantity imported has been ample so that the stock carried over shows an increase as compared with this date last year. First class wood is quoted at 2s 5d to 2s 8d for 35 to 45 feet average. G.F.A. at 22d to 2s 2d per c. ft.

RED PINE.—The import has been small but ample for all requirements. First class wood only is inquired for and it has been selling at from 1s 9d to 2s 3d per c. ft.

ELM.—There has been a good demand. The import has been heavy, but as it consisted largely of grey wood any parcels of really prime rock elm were readily taken up at full prices. Quotations are as follows :—Rock elm, 40 to 50 feet average, 2s 9d to 3s; grey elm 50 feet average, around 2s per c. ft.

OAK.—There was an average import, and the demand was good. The stock carried over shows a heavy decrease and is firmly held at from 3s to 3s 3d per c. ft. for first class. Second class wood is quoted at 2s 2d to 2s 6d per c. ft.

ASH.—There has been an average import, but the demand has been exceedingly slow, so that stocks now are heavy and prices weak. Quotations are at 22d to 2s 3d for 14 to 15 inch average.

BIRCH.—Early in the year there was a good demand and prices were high, but with the opening of the St. Lawrence too much came on the market. Prices then fell away and have not yet recovered. 16 inch average is quoted at 18d to 20d per c. ft.

DEALS, BATTENS AND BOARDS. — The year opened with stocks at a low level and an average business was done at fair prices in the first six months. When the earlier imports of pine deals from the St. Lawrence came to hand it was seen that it would be a matter of difficulty to carry through transactions at shippers' ideas on account of the lower standard of quality following on the new classification adopted by Canadian cullers. The bulk of the imports found their way to store, and it was well on in the year before buyers purchased freely. In August freights receded to the lowest quotations on record, and this fact stimulated shipments for a short time. Prices fell in sympathy. It was only in the last quarter that buyers became alive to the fact that the import over all was short. Extensive buying then took place, and we finish the year with our market very bare. PINE—Firsts—The import has been a light one and the stocks are now low. Prices have risen to a material extent. Broad firsts are quoted at from £26 2s 6d to £28 17s 6d per standard. Undersized deals, £18 10s to £20 12s 6d. Good sidings, 1¼, 1½ and 2 inch, 11 to 12 inch average, £20 to £22. Strips, 5 to 7 inch, £16 10s to £18 10s. Seconds—These are not in great demand, but a fair amount of business has been done in them. Broad deals are quoted at £18 10s to £20 10s per standard. 11 inch at £16 10s to £18 10s, and undersized at £12 7s 6d to £14. Thirds—There has been a steady demand throughout the year. Quotations are now as follows :—Broads, £13 15s to £16, 11 inch £11 10s to £12 7s 6d. Undersized, £10 5s to to £11 per standard. Fourths—The import has been low but there has not been a great demand. 11 inch have been selling at from £8 to 18s 9d to £9 5s. Narrows at £8 5s to £9 per standard.

RED PINE.—The stock at the beginning of the year was slightly above the average, but prices continued firm until the opening of navigation, when in sympathy with Baltic they fell to a very low level. Quotations are at from £8 to £10 5s, according to quality and specification. A tendency is towards higher prices, but the stock is much too large. SPRUCE.—The import has been an average one but was largely on

FOR SALE.

Wiarton, Ont.

MANUFACTURER AND WHOLESALE LUMBER DEALER

Has for sale a quantity of Maple, Beech, Birch, Basswood and Soft Elm in good shipping condition. Cedar Shingles and Bill Stuff a Specialty

contract. It is chiefly held by merchants. Quotations are about £8 10s to £9 for an ordinary Quebec specification of third quality.

N. B. BIRCH LOGS.—The remarks made in regard to Quebec apply here. The demand is at present quiet and prices are about 16d to 18d for 15 to 16 inch average.

PLANKS.—The year opened with stocks at a very low level and the imports per liners from St. John in the first four months were readily taken up at about £8 10s to £9. From May onward the import was very heavy and prices rapidly receded until sales were made as low as £6 for Halifax and £6 10s for St. John. Quotations are nominally higher, but as the stock is very heavy there are still anxious sellers at low figures.

N. B. PINE DEALS.—The import has been a moderate one and the demand fair. Prices have run about £8 10s to £9 10s.

N.B. SPRUCE.—The import was not so heavy as last year. There was fair demand, but prices were kept at a low level through competition from the Baltic. Battens and scantling sizes were too heavily imported and sold at low figures. Quotations are now from £6 17s 6d to £9 5s according to specification.

New Mill Erected 1901. Capacity 100 Million a Year.
Spicer Shingle Mill Co., Limited

It is not the purpose of this advertisement to try and convince the Lumber Trade of Canada that we are the only company in British Columbia manufacturing and shipping shingles in large quantities, or that we "know it all." We recognize that "there are others" and that we are not the only "pebble on the beach." To try and make you believe that we are the only people who can supply you **promptly** and in **large quantities** with a **high-grade** shingle would not only be a **fish** and a **bear** story combined, but it would be gall of the bitterest kind.

Our competitors in the shingle business in B. C. are nice people, and we presume that they know their business; but we are nice people too, and as we have been in the trade as long as any of them, and a **great deal longer** than the most of them, we know that we know our business, and that our competitors are not in the possession of any points of value regarding the manufacture of shingles which has not come to **our knowledge**.

Our old mill was burned down in May last, and in its place we have built what is at the present time the **Largest** Shingle Mill in B. C.

Our new Mill has 7 of the latest improved type of Dunbar machine, which we run night and day—giving us a capacity of about **100 Million** a year.

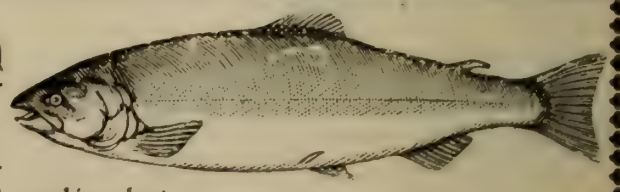
Competent judges who have seen our new mill, tell us that it is one of the most **substantial**, carefully **constructed**, and best **planned** mills in this province. We ourselves think it is **the very best** shingle mill in B. C.; and we know that it is **equipped** with all the very latest improved Shingle Machinery.

Will the trade please note that our contract with the Pacific Coast Lumber Co. closes at the end of this year. D. Ferguson, of London, Ont., is our representative for that province. Orders sent to him, or to us direct, shall have **prompt** attention.

We want our share of your shingle business, and can **guarantee** you satisfaction in **every particular.**

Spicer Shingle Mill Co., Limited,
VANCOUVER, B. C.

No Fish Stories



go when it comes to speaking about
OUR SHINGLES
FACTS ARE FACTS WHETHER TOLD ABOUT FISH OR SHINGLES
We make a fine 16-inch Shingle.
We make a fine 18-inch Shingle.
We make a fine 24-inch Shingle.
We make all thicknesses from 6-2 inch to 6-3 3/8 inch.
They are going out of our different mills at the rate of 200,000,000 a year. We make more shingles than any one firm in the world. Just think of it!

We claim to be experts. That is not gall. That is a statement which is proven constantly by the testimony of our customers from the Pacific Coast to the Atlantic Coast on the Canadian side, and from Maine to Puget Sound.

Mixed Cars our Specialty. Don't forget that we have all kinds of House Finishing Material in Fir and Cedar, and can load any quantity with shingles.

Come, let us deal together.

CUSTOMERS' ATTENTION.—Please take notice that on and after the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles will be ended, and until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipeg, Man., for Manitoba and the North-West; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

CORRESPONDENCE INVITED

THE BOSTON MARKET.

Spruce frames are very steady, with but few of the large mills sawing. Still the demand is limited, and some of the smaller mills have forced some randoms on the market that had to be sold at easier prices, for lack of demand. It is understood that the yards are lightly stocked, with the position firm. Quotations are steady; 10 and 12 inch dimensions, $20; 9 inch and under, $18 to $18.50; 10 and 12 inch random lengths, 10 feet and up, $19 to $19.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, $16.50; all other randoms, 9 inch and under, 10 feet and up, $17.50; 5 inch and up, merchantable boards, $15 to $16; matched boards, $17.50 to $18.50; out spruce boards, $12,-50 to $13; bundle furring, $16 to $17.

Hemlock is steady, though the demand is seasonably light: Boards, 12, 14 and 16 feet, $14 to $14.50 for good eastern; Pennsylvania No. 1, $16 to $17; No. 2, $14.50; random, $13 to $13.50.

Western white pine is still in a very strong position, and though the demand is quiet, prices are fully sustained to stronger: Uppers, 1 inch, $70 to $72; 2½ and 3 inch, $75; 4 inch, $80; selects, 1 to 1½ in. $63 to $65; 2 inch, $65 to $67.50; 2½ to 3 inch, $72 to $75; 4 inch, $75 to $80; fine common, 1 inch, $48; 1¼ to 1½ inch, $54; 2 inch, $55; 2½ and 3 inch, $63 to $65; 4 inch, $70; barn boards, $23 to $32; coffin boards, $25 to $28.

Shingles continue firm, with few being shipped: Extra cedar, $3.25 to $3.30; clear, $2.85 to $2.95; second clear, $2.35 to $2,40; sap, $2.10 to $2.20; extra No. 1, $1.75 to $1.80; Washington and British Columbia, 16 inch, five butts to 2 inches, $3.46 to $3.50.

Clapboards are scarce and very firm with higher prices being paid: Extra spruce, $35 to $36; clear, $33 to $34; second clear, $29 to $32; extra No. 1, $20 to $23; pine extra, $50 to $52; clear, $45 to $48; second clear, $40 to $42.

Laths are easier: One and five-eighths inch, $3 to $3.05; 1½ inch, $2.95 to $3.

Frank Maxwell, of Sackville, N. B., has sold his lumber at Cooksville to Charles Read, of Port Elgin. The quantity is about 500,000 feet.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VII. TORONTO, ONT., JANUARY 22, 1902 No 51

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday, Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED—An up to date Band Saw Mill with or without carriage, second-hand. Give all particulars and lowest price. Box 38, CANADA LUMBERMAN.

Wanted--To Contract.

THE OUTPUT OF MILLS CUTTING 16" AND 18" Pine and 18" Cedar Shingles of good manufacture and quality. State prices, different grades and when first shipments can be had. Immediate correspondence solicited. Address, J. G. STRAIT & SON, Wolcott, N. Y.

AUCTION SALE

OF

VALUABLE TIMBER LIMITS

AND LANDS.

There will be offered for sale by Public Auction, at the Russell House, in the city of Ottawa, on

Wednesday, the 19th day of February, 1902,

at two o'clock in the afternoon, the Timber Berths and Properties owned by Mr. William Mackey, on the River Amable Du Fond, Province of Ontario. The limits are in one block containing 129¾ square miles, timbered with white and red pine of superior quality, spruce and other woods, and are well watered, making a very short average draw. Part of the block is still a virgin forest containing large board pine of the finest quality with a very short haul.

With above are included deeded lands on which are built slides and dams; and at Eauclaire station, Can. Pac. Ry., a well-equipped saw, planing and shingle mill run by water power.

The whole will be sold in one block. Maps and descriptions of limits may be obtained from

W. MACKEY

Ottawa, 4th Dec., 1901.

SAW MAKER WANTS POSITION AS FILER, Band or Re-saws. Twelve years experience, factory, mill. References as to character and ability. Address Box C, CANADA LUMBERMAN.

VALUABLE SAW MILL PROPERTY ON Georgian Bay, in the Province of Ontario, situated at Town of Wiarton, and about 1900 acres of hardwood and hemlock timber-lands on Bruce Peninsula, together with railway sidings and docks. The Saw Mill is a new one, suitable for the manufacture of pine and hardwood lumber and lath, with excellent facilities for shipment by rail or water. The Saw Mill may be purchased with or without the timber lands.

For further particulars apply to the undersigned.

W. J. FERGUSON,
Wiarton, 17th Jan., 1902. Solicitor for Owners.

WANTED

A steady, energetic, thoroughly experienced and competent man as foreman for a large shingle mill, equipped with Dunbar type of machine. Night and day capacity per year, 100 million.

Must be an expert on shingle saw filing and hammering, and thoroughly understand the Dunbar machine, and be able to do mill-wright work, know how to handle men, and write and figure fairly well. None but a strictly temperate man need apply.

Prefer a man not over 40 years old. An excellent salary and steady employment to the right man.

Apply "Shingle," care this paper, for further particulars.

CURRENT TRADE CONDITIONS.

ONTARIO.

It would be hard to conceive of more satisfactory conditions than those which prevail in the white pine trade of Ontario. Manufacturers who have any stock of the upper grades are in a position to fix their own prices, knowing that if these prices are not accepted by the buyer, the probablity is that higher prices will be realized before spring. Numerous inquiries are being received from the Eastern States for small lots of stock, apparently for evening-up purposes, while there is a disposition on the part of dealers to contract for the coming season's cut that is not often exhibited at this season of the year. Building operations in the leading cities of the province are likely to be of a satisfactory volume, and better prices for building lumber are expected. It is a question, however, whether it would be in the interest of the lumber trade that there should be a marked advance in the price of lumber, as it might restrict the volume of building. A satisfactory car trade in hardwoods is reported, with prices stiffening in a moderate degree. The returns from the production of hardwood lumber last year were not very satisfactory. This has caused some manufacturers to turn their attention to pine and hemlock, and the production of hardwoods during the coming sawing season promises to be very light.

There are practically no shingles on the market, and if the demand was more active, a sharp advance in prices would be experienced. Lath is more plentiful than shingles, although by no means in large supply. Prices remain steady.

QUEBEC AND NEW BRUNSWICK.

It is learned that the total stock of spruce deals wintering at the port of Quebec is slightly below 7,000,000 feet. At the close of 190 the wintering stock was 25,000,000 feet. These figures confirm the prediction that was made by some shippers early in the fall that the wintering stock would be exceptionally small. The condition of the spruce market is, on the whole, very satisfactory. and it is the opinion of the trade that the spring will witness considerable activity and a strong demand. Inquiries are being received by manufacturers almost daily for spruce clapboards, the supply in the Eastern States having become short. On Boston rate of freight they are selling at $35 to $3 for extra spruce, and $33 to $34 for clea Shingles remain firm on the basis of th previous quotation of $3.25 to $3.35 f extras.

UNITED STATES.

An indication of the trend of whi pine prices is found in the heavy buyin for future delivery that has taken pla in the Lake Superior district. The co ditions so strongly favor higher pric that dealers and consumers are satisfie that they will make no serious mistal by buying at the present market pric A sale was made at Duluth last week 4,000,000 feet of No. 3 and better at $1 or about $2.50 per thousand more tha the same company realized for its lumb one year ago. There is a decide shortage in dry lumber, and those wh have stock on hand have no difficul in disposing of it at their own figures. Buffalo and Tonawanda a large busine is doing. Uppers have advanced durin the past two months fully $3 per thousar selects $4, and fine common and No. cuts $2. There has been no advance barn boards and box lumber, althoug these have shown more strength of la and may follow in the path of the high grades as soon as the spring deman develops. As far as can be estimate the volume of building this year will b heavy, as the architects universally a busy. Logging conditions in the whit pine district have been favorable, a though a greater supply of snow woul facilitate hauling.

A steady improvement in both deman and inquiry for hardwood lumber i reported. The cautious buying polic that has been pursued by factories ha brought their stocks down to a poin where they must be replenished. Mapl is likely to improve, since Michiga manufacturers have taken united actio towards obtaining a more remunerativ price. Black ash is in good demand an some elm and basswood is moving though prices of the latter show n improvement.

GREAT BRITAIN.

British importers are pursuing a cautious policy, and while there ha been increased activity since the first o the year, the feeling seems to be strongl in favor of a very gradual recovery rather than a sharp advance in prices At the recent auction sales Canadian pine and spruce showed a distinct im provement. Second quality Quebe

spruce brought £9 5s for 3x9 inch and third quality £9 5s. Third quality battens also sold well at £7 15s for 3x8 and £7 10s for 3x7. For best quality pine deals as high as $28 per standard has been realized by private sale, the supply being comparatively light. Prices of second and third qualities are less firm and the stock heavier. Red pine deals have recovered to some extent. During the summer months 9 inch sold as low as £8 5s per standard, whereas the current quotation is about £10. In timber, waney pine is in light supply and selling at advanced prices, while elm and ash are held in large quantities and are slow of sale.

The annual timber circular of Churchill & Sim furnishes interesting statistics of the import of timber into the United Kingdom during the past seven years. The quantity of Colonial deals and battens imported last year was the ssince 1896. The total quantity of timber imported from all countries was 9,193,934 loads, a decrease of 700,000 loads as compared with 1900, and of 250,000 loads as compared with 1889. No complete figures of the stock on hand are obtainable, but the public docks in London show a decrease in deals and battens of 1,600,000 pieces. The figures of London consumption make a very satisfactory showing, being 60,000,000 pieces in 1901, as against 55,000,000 pieces in the previous year.

STOCKS AND PRICES.

The schooner Congo is loading lumber at Weymouth, N. S., for Buenos Ayres.

George Morrow, of Murillo, Ont., has just commenced work on a contract to get out 30,000 ties.

Dickey & McGrath, Tucket, N.S., shipped 12,000,000 feet of deals last year, and will operate about as extensively this season.

W. H. Crowe, of Welland, Ont., has purchased 250,000 feet of pine and hemlock lumber from John Goodwillie.

Milne & Plott have sold their timber limits and saw mill at Jack Lake to William Train, of Burk's Falls.

Mr. Collwell is taking out 2,000,000 feet of logs in the vicinity of Jerusalem, N. B., which have been sold to Andre, Cushing & Company, of St. John.

At a meeting of the shingle manufacturers held in Seattle, Wash., on January 15th, prices of red cedar shingles were advanced to $3 for Clears, $2.55 for Stars, and $1.90 for Standards on 50-cent rate.

The government of British Columbia is asking for tenders up to February 1st for a license to cut timber on a timber limit situated north of the Strait of Georgia and west of Howe Sound, and containing 14 square miles.

C. J. Willis & Company, of Sackville, N.B., have been given a contract to supply 65,000 ties for the electric railway to be constructed in Sydney, N.S., by the Cape Breton Eleciric Company. Col. Granger, of Beechmont, N.S., will supply 10,000 ties for the same purpose.

Prices quoted by jobbers at Buffalo continue on a basis of $7.75 to $8 for elm flour barrel staves, 5 1-2 to 5 3-4 cents for basswood heading, and $8.50 to $8.75 for 6-foot coiled hoops. Tight stock is quiet, with tierce staves $30, hoops $14 and heading 10 cents.

The following shipments of lumber were made from the port of Pictou, N. S., last year: W. M. MacKay, 423,000 feet; P. A. & J. D. McGregor, 1,259,000 feet; Primrose Bros., 1,179,000 feet; Rood & McGregor, 1,059,000 feet; Geo. MacKay, 3,075,000 feet; W. J. Kent, 796,000 feet.

Two lumber-laden vessels which sailed recently from Vancouver, B.C., are reported to have put into Honlulu in distress. The American barque Benjamin Sewell loaded at Moodyville and cleared for Sydney, Australia, on December 29th. The barque Hesper was bound for Fremantle, Western Australia.

A Detroit company who owns St. Ignace and other Islands in Nipegon Straits is about to commence the cutting of the timber. It is estimated that the land contains 500,000 cords of woods, of which 440,000 cords is spruce. The intention is to cut about 10,000 cords this season. The manager of the company is J. S. Bishop, of Detroit, who will make his headquarters in Port Arthur.

The Cleveland Saw Mill & Lumber Company last week sold to Ralph Gray its entire stock of lumber at Cleveland, consisting of white pine, Norway, hemlock, fir and yellow pine, in all about 14,500,000 feet. The company also sold to W. S. Olds, of Cheboygan, Mich., its remaining pine holdings, comprising about 10,000,000 feet, located on the shore of lake Michigan. The consideration for the latter was $40,000.

Joseph Walsh, late of the Delta Lumber Company, Detroit, is this winter taking out 1,000,000 feet of spruce logs and 1,000.000 feet of pine logs which will be watered in Lake Joseph and go down the Moon river to Georgian Bay; also 2,500,000 feet of pine logs which will come out of the Seguin river. The timber being cut on deeded lands, will be exported to the United States. Mr. Walsh is making his headquarters at Parry Sound.

Of the Barbadoes markets Messrs. S. P. Musson, Son & Company say: The only arrival of white pine and spruce is the "Elma" on December 23rd, with 227-000 feet spruce and 103,000 feet shippers and second quality pine. We sold the former at $18 round, boards 7 inches and up wide, 10 feet and up long, shippers quality; and the latter at $20 round, without deductions for shippers, and $17 for second quality. Other cargoes are on the way and the market is amply supplied. There have been no receipts of cedar shingles.

CANADIAN LUMBER SHIPMENT.

The following shipments of lumber, etc., from Canadian ports are reported since last issue:

From Halifax, N. S.: Steamer Grecian, for Liverpool, Eng., 1,094,578 feet deals etc., value $11,049. Str. Loughrigg Holme, Braw Head, England, 1,432,930 feet deals, etc., value $14,521. Str. Ionian, for Liverpool, 309,142 feet, value $2,960. Stu. Concordia, for Liverpool, 202,931 feet, value $2,013.

From St. John, N. B.: Str. Ionian for Liverpool, 978,786 feet deals, 6,042 feet, scantling, 74,536 feet boards, 25,468 ends, 67,983 feet birch deals, 1,403 birch scantlings, 13,260 feet birch ends, by George McKean; 484 pcs. lumber, by Willlam Thompson & Co. Str. Concordia, for Glasgow, 141,200 feet pine deals, by J. B. Snowball Co.; 24,529 feet deals, 25,933 feet deals, 7,032 feet spruce deals, by A. Cushing & Co. Str. Forest Holme, for Cardiff, 49,870 pcs. deals, 3,871 pcs. deal ends, 3,117 pcs. scantling, 10,262 pcs. boards. Str. Manchester City, 47,429 feet birch plank, 3,682 feet birch ends, 983,216 feet spruce deals, 20,315 feet spruce scantling, 65,102 feet boards, 72,688 feet spruce ends, by W. M. Mackay. Sch. William Jones, for New York, 131,596 feet plank, 52,739 feet scantling, 5,495 feet deals, 529,000 laths, by Stetson, Cutler & Co. Sch. John C. Cottingham, for Boston, 24,839 feet plank, 46,112 feet deals, 81,667 feet scantling, 90,947 feet boards, by Stetson, Cutler & Co.

THE PINE OUTPUT.

According to the estimates received by the Department of Crown Lands from the timber agents, 808,000,000 feet board measure of pine logs will be cut in Ontario this winter. Last year the quantity was estimated at 700,000,000 feet, but proved to be only 630,000,000 feet. The chief increases this year are 50,000,000 feet in each of the Webbwood and Sault Ste. Marie districts. The cut in the various districts is estimated as follows:

Pine logs.—	Feet B. M.
Parry Sound	168,000,000
Webbwood	139,000,000
Pembroke	113,000,000
Sault Ste. Marie	110,000,000
Sudbury	100,000,000
Arnprior and Whitney	66,000,000
Rat Portage	35,000,000
Peterboro'	46,000,000
Biscotasing	15,000,000
Port Arthur	16,000,000
Total	808,000,000

FOR SALE.

TRADE OPENINGS.

The following were among the enquiries relating to Canadian trade received at the Canadian Government Office in London during the week ending 10th January, 1902. The names of the parties may be obtained from the publishers of this journal.

Inquiry is made for Canadian exporters of furniture in knock-down condition, chair seats, backs and legs ; also broom handles, brush heads, sashes, flooring, boxes etc.

A London importer has asked to be referred to Canadian makers of turned wood boxes and other similar wood goods, also spindles, broom handles, etc. To parties who could fill orders promptly, considerable business might result.

Jones Bros. will ship about 4,000,000 feet of lumber this year from Apoaqui, N.B.

DOORS AND MOULDINGS.

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in the first instance to Empire, care CANADA LUMBERMAN.

New Mill Erected 1901. Capacity 100 Million a Year.
Spicer Shingle Mill Co., Limited

It is not the purpose of this advertisement to try and convince the Lumber Trade of Canada that we are the only company in British Columbia manufacturing and shipping shingles in large quantities, or that we "know it all." We recognize that "there are others" and that we are not the only "pebble on the beach." To try and make you believe that we are the only people who can supply you **promptly** and in **large quantities** with a **high-grade** shingle would not only be a **fish** and a **bear** story combined, but it would be gall of the bitterest kind.

Our competitors in the shingle business in B. C. are nice people, and we presume that they know their business ; but we are nice people too, and as we have been in the trade as long as any of them, and a **great deal longer** than the most of them, we know that we know our business, and that our competitors are not in the possession of any points of value regarding the manufacture of shingles which has not come to **our knowledge**.

Our old mill was burned down in May last, and in its place we have built what is at the present time the **Largest** Shingle Mill in B. C.

Our new Mill has 7 of the latest improved type of Dunbar machine, which we run night and day—giving us a capacity of about **100 Million** a year.

Competent judges who have seen our new mill, tell us that it is one of the most **substantial**, carefully **constructed**, and best **planned** mills in this province. We ourselves think it is **the very best** shingle mill in B. C. ; and we know that it is **equipped** with all the very latest improved Shingle Machinery.

Will the trade please note that our contract with the Pacific Coast Lumber Co. closes at the end of this year. D. Ferguson, of London, Ont., is our representative for that province. Orders sent to him, or to us direct, shall have **prompt** attention.

We want our share of your shingle business, and can **guarantee** you satisfaction in **every particular.**

Spicer Shingle Mill Co., Limited,
VANCOUVER, B. C.

No Fish Stories

OUR SHINGLES
FACTS ARE FACTS WHETHER TOLD ABOUT FISH OR SHINGLES
We make a fine 16-inch Shingle.
We make a fine 18-inch Shingle.
We make a fine 24-inch Shingle.
We make all thicknesses from 6-2 inch to 6-3 3/8 inch.
They are going out of our different mills at the rate of 200,000,000 a year. We make more shingles than any one firm in the world. Just think of it!
We claim to be experts. That is not gall. That is a statement which is proven constantly by the testimony of our customers from the Pacific Coast to the Atlantic Coast on the Canadian side, and from Maine to Puget Sound.
Mixed Cars our Specialty. Don't forget that we have all kinds of House Finishing Material in Fir and Cedar, and can load any quantity with shingles.
Come, let us deal together.
CUSTOMERS' ATTENTION.—Please take notice that on and after the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles will be ended, and until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipeg, Man , for Manitoba and the North-West ; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

CORRESPONDENCE INVITED

THE BOSTON MARKET.

The spruce lumber market at Boston is quiet, since it is in the midst of the quiet season. But there is no weakness, except possibly on some ransoms that have come forward and must be sold. On the contrary, the position is very firm on schedules and anything that has to be ordered: Ten and 12 inch dimensions, $20; 9 inch and under, $18 to $18.50; 10 and 12 inch random lengths, 10 feet and up, $19 to $19.50; 2 x 3, 2 x 4, 2 x 5, 2 x 6, 2 x 7 and 3 x 4, 10 feet and up, $16.50; all other randoms, 9 inch and under, 10 feet and up, $17.50; 5 inch and up merchantable boards, $15 to $16; matched boards, $17.50 to $18.50; out spruce boards, $12.50 to $13; bundle furring, $16 to $17.

Hemlock holds very firm, but the immediate demand is still light: Boards, 12, 14 and 16 feet, $14 to 14.50 for good eastern; Pennsylvania, No. 1, $16 to $17; No. 2, $14.50; random, $13 to $13.50.

White pine is stronger, with western shippers advancing prices. The claim is that prices "can never be any lower" on account of the small and decreasing supply; uppers, 1 inch, $70 to $72; 2½ and 3 inch, $75; 4 inch, $80; selects, 1 to 1 1-2 inch, $63 to $65; 2 inch, $65 to $67.50; 2 1-2 to 3 inch, $72 to $75; 4 inch, $75 to $80; fine common, 1 inch, $48; 1 1-4 to 1 1-2 inch, $54; 2 inch, $55; 2 1-2 and 3 inch, $63 to $65; 4 inch $70; barn boards, $23 to $32; coffin boards, $25 to $28.

Shingles are very firm, with California redwood shingles abvanced: Extra cedar, $3.25 to $3.30; clear, $2.85 to $2.95; second clear, $3.35 to $3.40; sap, $2.10 to $2.20; extra No. 1, $1.75 to $1.80; Washington and British Columbia, 16 inch, five butts to 2 inches, $3.46 to $3.50.

Clapboards are scarce and firm, and sell at higher prices: Extra spruce, $35 to $36; clear, $33 to $34; second clear, $29 to $32; extra No. 1, $20 to $24; pine extra, $50 to $52; clear, $45 to $48; second clear, $40 to $42.

Laths are easier: One and five-eights inch, $3 to $3 05; 1 1-2 inch, $2.95 to $3.

The dissolution is announced of G. A. Corriveau & Frere, lumber dealers D'Israeli, Que.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VII. TORONTO, ONT., JANUARY 29, 1902 No. 52

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday, Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m on Tuesday to insure insertion in the current week's issue.

All in good working order. For particulars apply GODERICH LUMBER CO., Goderich.

AUCTION SALE

OF

VALUABLE TIMBER LIMITS

AND LANDS.

There will be offered for sale by Public Auction, at the Russell House, in the city of Ottawa, on

Wednesday, the 19th day of February, 1902,

at two o'clock in the afternoon, the Timber Berths and Properties owned by Mr. William Mackey, on the River Amable Du Fond, Province of Ontario. The limits are in one block containing 129¾ square miles, timbered with white and red pine of superior quality, spruce and other woods, and are well watered, making a very short average draw. Part of the block is still a virgin forest containing large board pine of the finest quality with a very short haul.

With above are included deeded lands on which are built slides and dams; and at Eauclaire station, Can. Pac. Ry., a well-equipped saw, planing and shingle mill run by water power.

The whole will be sold in one block. Maps and descriptions of limits may be obtained from

W. MACKEY.

Ottawa, 4th Dec., 1901.

FOR SALE.

VALUABLE SAW MILL PROPERTY ON Georgian Bay, in the Province of Ontario, situated at Town of Wiarton, and about 1900 acres of hardwood and hemlock timber-lands on Bruce Peninsula, together with railway sidings and docks. The Saw Mill is a new one, suitable for the manufacture of pine and hardwood lumber and lath, with excellent facilities for shipment by rail or water. The Saw Mill may be purchased with or without the timber lands.

For further particulars apply to the undersigned.

W. J. FERGUSON,
Wiarton, 17th Jan., 1902. Solicitor for Owners.

WANTED

A steady, energetic, thoroughly experienced and competent man as foreman for a large shingle mill, equipped with Dunbar type of machine. Night and day capacity per year, 100 million.

Must be an expert on shingle saw filing and hammering, and thoroughly understand the Dunbar machine, and be able to do mill-wright work, know how to handle men, and write and figure fairly well. None but a strictly temperate man need apply.

Prefer a man not over 40 years old. An excellent salary and steady employment to the right man.

Apply "Shingle," care this paper, for further particulars.

WANTED—PART, OR THE ENTIRE CUT of a mill making first-class cedar shingles, to handle by the New England trade. Will advance 75 per cent. cash on receipt of each bill of lading. Can get the best market prices. Correspondence solicited. Address, IVERS P. LAWRENCE, Fitchburg, Mass.

FOR SALE.

Large Tract of Timber

In Central Ontario

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited.)

This company has a large tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherrybirch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

While the month of January is usually uneventful in respect to lumber transactions, the past month has witnessed a movement which has further strengthened the white pine market. Buying of the coming season's cut has been quite heavy and at figures invariably satisfactory to the seller. The purchase of lumber in the Ottawa district by a Chicago concern, as reported by our correspondent, is particularly significant as showing that the market for Canadian pine lumber is broadening, and that United States concerns find it advantageous to pay even the high prices which Canadian manufacturers are now asking, in addition to the import duty of two dollars per thousand feet. It is estimated that there is not over 25,000,000 feet of unsold lumber on the mill docks in the Georgian Bay district, and even this quantity is almost certain to find a buyer before spring. There is a firm market for logs which are held at $11 to $13 per thousand. A very small quantity is being cut this winter for export, as the operations for this purpose must be confined to deeded lands, on which the timber is mostly scattered.

An estimate furnished by Mr. Ralph Loveland of the expected output of the mills on the Georgian Bay is interesting and valuable, inasmuch as it shows a smaller cut than has been reported. The figures of the districts are:

	Feet.
Blind River	37,000,000
Cutler	31,000,000
John's Island	15,000,000
Spanish River	15,000,000
Victoria Harbor	25,000,000
Byng Inlet	40,000,000
Collingwood	30,000,000
Parry Sound	71,000,000
Midland	60,000,000
Waubushene	30,000,000
Little Current	70,000,000
Sarnia	25,000,000
Sandwich	25,000,000

According to this estimate the total is less than 500,000,000 feet, but it will be observed that it does not include the cut at French River and one or two other points.

QUEBEC AND NEW BRUNSWICK.

The spruce lumber market is firm, though quiet. It is anticipated that there will be a strong market in the spring, as the volume of building in the Eastern States is likely to call for a large quantity of rough lumber. This, it is thought, will offset any possible falling off in the demand from Great Britain. The winter cut of logs will not be greater in volume than usual, and may be slightly curtailed. White cedar shingles are still selling on the basis of $3.25 to $3.30 for extras on Boston rate of freight, with the demand a little more inactive.

MANITOBA AND BRITISH COLUMBIA.

At the present time the chief interest of the lumber trade of the west centres in the movements affecting the trade of British Columbia. The Provincial Government have put into effect the law prohibiting the export of cedar logs, and British Columbia lumbermen expect to find a market for shingles in certain territory that was formerly supplied by United States manufacturers. The revised price list is also commanding some attention. Cedar shingles are quoted at $1.70 for No. 1, 6 to 2x16 inches, and $1.20 for No. 2 for all points west of Fort William, f. o. b. cars Vancouver. For all points east of Fort William the price is $1.55 and $1.05 respectively. Delivered prices are, of course, quoted in all cases, but the above figures are the basis from which delivered prices are made. The fifty cent. rate covers all points from Fort William west to and including Regina, also a number of the branch roads of Manitoba and the North-West, while the 75 cent. rate covers practically all of Ontario and the city of Montreal.

UNITED STATES.

Several small lots of white pine lumber are changing hands in the Lake Superior district. There is an activity and strength which augers well for a strong market during the early spring. In the Albany market cuts and better have advanced $2 a thousand, and some grades of common about $1 a thousand. Dealers there report that car trade has been exceptionally good this winter. Our Buffalo list this week shows a further

advance in the price of uppers and selects. The tone of the market there is the strongest that it has been since Christmas; orders and enquiries have increased materially. The lower grades are meeting with more inquiry and are likely to be advanced, a feature which gives much encouragement to the trade. The hardwood market is also enjoying a degree of activity. Elm, basswood and maple are selling very well.

GREAT BRITAIN.

The British timber market has not yet made a decided move towards recovering from the recent depression. There has, it is true, been some improvement, but importers are pursuing a policy of precaution and cannot be induced to purchase excepting on a very moderate scale. It may be that there will be a gradual return of complete confidence, which in the end is probably most to be desired. Some of the largest importers predict that the market will be comparatively strong for the first six months of the year, but they seem very uncertain about the course of trade after that time. The curtailment in operations which has been decided upon in Norway and Sweden cannot but have a beneficial effect upon the market, and if the present line of policy is pursued, the import of timber into the United Kingdom this year will witness a further reduction. At recent auction sales buying has been quite active, stimulated no doubt by the higher prices which shippers are asking. Spruce prices have been fairly well maintained, with the exception of 3 x 7 stock, which is slightly lower at Bristol and Liverpool. The receipts of spruce deals by the regular liners from St. John and Halifax has had the effect of checking any further advance in prices. In London second quality 3 x 9 spruce is selling at £10 per standard, and third quality at £9 10s landed at the dock. Several contracts have recently been placed for birch squares, the price of which is about £7 10s per standard.

TIMBER LIMIT TRANSACTIONS.

A couple of weeks ago the Delta Lumber Company, of Detroit, disposed of their timber limit in Mackenzie township, on the Georgian Bay, to Messrs. Avery and Eddy, of Saginaw, and Glenn, of Duluth. It is reported that the consideration was in the neighborhood of $275,000. The Delta Lumber Company purchased this limit from the Holland & Emery Lumber Company in 1895. It comprises nine square miles, is a very desirable limit as to location, and can be lumbered very cheaply. It contains about 5,000-000 feet of red pine, the remainder being white pine.

The Victoria Harbor Lumber Company, Toronto, recently purchased the north half of Ferrie township from the Detroit Lumber Company. It comprises 40½ square miles, the pine of which has been mostly cut off, but there is a considerable quantity of hemlock and cedar.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

Attention in the local lumber market is fixed on the future. Present dealings are few. The event of the midwinter business is found in the operations of the Edwin S. Hartwell Lumber Company, of Chicago. For several weeks past the western concern, one of the largest of its kind, has had a representative in Ottawa negotiating for the purchase of first class white pine lumber. He has made good use of his time, and has secured a large slice of the supply of Ottawa and neighbouring towns. The sales in the aggregate represent about $135,000 in money, and 7,500,000 feet in lumber.

Large purchases were made from J. R. Booth, Hull Lumber Company, Gillies Bros., of Braeside, McLachlin Bros., of Arnprior, and Lemay & Company, Montreal. All the above stock, except that secured from the Hull Lumber Company, operating the Mason mill, has been shipped. The freight alone, at $5 per M, represented an expenditure of about $35,-000, and the duty at $2 per M another $15,000 The same firm has closed a contract for the 1902 cut of the Peters mill at Parry Sound. It secured the cut for 1901, about 20,000,000 feet, and the coming season it is estimated will find the saws quite as busy.

The lumber already shipped was sent by the Canada Atlantic and Grand Trunk Railways to Chicago. The opening of navigation, however, will probably see a change of route, as boat shipments can then be made from Parry Sound and Depot Harbor, the terminus of the Ottawa & Parry Sound branch of the C.A.R.

The Hartwell concern has large factories in Chicago, where the Canadian pine will be utilized. It is not at all unlikely that the firm will be a steady bidder in coming seasons for the product of the Ottawa and neighboring mills. It must have the lumber, as the supply of the Western States is becoming exhausted. Indications would seem to prove that the mill owner of the Ottawa district has in Chicago a market that will rival that of the Eastern States. This latest development of the trade has another interest for the lumber trade. The large purchase of high grade lumber by the Chicago concern has made a marked reduction in the available local supply of the better grades of white pine lumber. For this reason, coupled with the increasing local demand, prices are bound to continue firm, with every prospect of an advance. "Lumber is lumber nowadays" remarked a dealer recently, "and the man who is waiting for prices to ease has a long wait before him." On reliable authority it is learned that the cut of the McLachlin mill at Arnprior for 1902 has also been sold, making another marked reduction in future available stocks.

Unlike the British buyers, the Chicagoians have had no fault to find with the Ottawa sorting. The board lumber has been well selected and satisfactory in every sense to the western buyers. Hence it would not be surprising if early negotiations were closed for still more of the Ottawa mill cut of 1902.

The prevalence of smallpox of mild type in the lumber camps may have the effect of reducing the log cut on the limits this season. In several instances camps have had to be abandoned on account of lack of labor due to the ravages of the disease. In the Gatineau district the trouble is seen at its worst stage, and in the Black river and Coulonge districts W. C. Edwards & Company and Fraser & Company have experienced considerable trouble. The Parry Sound district is also affected and men are quitting work either on account of the disease or through fear of contracting it.

In the Parry Sound district, considerable trouble is being experienced on account of the lack of good solid sleighing. There is plenty of snow in the swamps but no bottom. The absence of frost early in the season has had its effect.

Mr. J. Williams, of the Parry Sound Lumber Company, has been in the city for several days arranging for the purchase and installation of new machinery in the mill. It is the intention to change it from a water to a steam mill. Circular and gang saws are to be taken out and two double-cutting saws and re-saw installed. The box factory which the company recently built will start operations soon on a large contract for boxes for a Canadian manufacturing house.

The death of Hon. R. R. Dobell was deeply regretted in local lumber circles. He, as head of the firm of Dobell, Beckett & Co., was a leading spirit in the British export business. The firm has a large office in the Capital.

Mr. Frank Hawkins, private secretary to the late Hon. Mr. Dobell, has taken a position in the Quebec office of the firm.

BUSINESS NOTES.

Messrs. Sieveking, Podmore & Company, timber merchants, London, England, advise us that they closed their Liverpool office on December 31st, 1901, and that Mr. V. Travers, who has represented them in that city, will in future work independently, but will continue to look after their business in his district.

Mr. John Donogh, manager for the Imperial Lumber Company, Toronto, has sent us a copy of a stock and price list which they send to their customers from time to time. It is in booklet form, and in addiion to the prices for the various sizes and grades of lumber, lath and shingles, shows the freight rates from various shipping points in the Georgian Bay district to over 100 towns and cities in Ontario and to New York, Buffalo, Tonawanda, Boston, Philadelphia and Baltimore.

DOORS AND MOULDINGS.

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in the first instance to Empire, care CANADA LUMBERMAN.

New Mill Erected 1901. Capacity 100 Million a Year.
Spicer Shingle Mill Co., Limited

It is not the purpose of this advertisement to try and convince the Lumber Trade of Canada that we are the only company in British Columbia manufacturing and shipping shingles in large quantities, or that we "know it all." We recognize that "there are others" and that we are not the only "pebble on the beach." To try and make you believe that we are the only people who can supply you **promptly** and in **large quantities** with a **high-grade** shingle would not only be a **fish** and a **bear** story combined, but it would be gall of the bitterest kind.

Our competitors in the shingle business in B. C. are nice people, and we presume that they know their business; but we are nice people too, and as we have been in the trade as long as any of them, and a **great deal longer** than the most of them, we know that we know our business, and that our competitors are not in the possession of any points of value regarding the manufacture of shingles which has not come to **our knowledge**.

Our old mill was burned down in May last, and in its place we have built what is at the present time the **Largest** Shingle Mill in B. C.

Our new Mill has 7 of the latest improved type of Dunbar machine, which we run night and day—giving us a capacity of about **100 Million** a year.

Competent judges who have seen our new mill, tell us that it is one of the most **substantial**, carefully **constructed**, and best **planned** mills in this province. We ourselves think it is **the very best** shingle mill in B. C.; and we know that it is **equipped** with all the very latest improved Shingle Machinery.

Will the trade please note that our contract with the Pacific Coast Lumber Co. closed on December 31, 1901. D. Ferguson, of London, Ont., is our representative for that province. Orders sent to him, or to us direct, shall have **prompt** attention.

We want our share of your shingle business, and can **guarantee** you satisfaction in **every particular.**

Spicer Shingle Mill Co., Limited,
VANCOUVER, B. C.

OUR SHINGLES

FACTS ARE FACTS WHETHER TOLD ABOUT FISH OR SHINGLES

We make a fine 16-inch Shingle.
We make a fine 18-inch Shingle.
We make a fine 24-inch Shingle.
We make all thicknesses from 6-2 inch to 6-3 3/8 inch.

They are going out of our different mills at the rate of 200,000,000 a year. We make more shingles than any one firm in the world. Just think of it!

We claim to be experts. That is not gall. That is a statement which is proven constantly by the testimony of our customers from the Pacific Coast to the Atlantic Coast on the Canadian side, and from Maine to Puget Sound.

Mixed Cars our Specialty. Don't forget that we have all kinds of House Finishing Material in Fir and Cedar, and can load any quantity with shingles.

Come, let us deal together.

CUSTOMERS' ATTENTION.—Please take notice that on and after the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles will be ended, and until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipeg, Man., for Manitoba and the North-West; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

CORRESPONDENCE INVITED

THE BOSTON MARKET.

The spruce lumber position at Boston is firm, with little that is new in the market. Orders are not plenty since it is between seasons. Neither is the supply anything but decidedly limited. When business starts in the spring, it is more than likely that there will be a shortage and stronger prices, following the course of other classes of lumber: Ten and 12 inch dimensions, $20; 9 inch and under, $18 to $18.50; 10 and 12 inch random lengths, 10 feet and up, $19 to $19.50; 2 x 3, 2 x 4, 2 x 5, 2 x 6, 2 x 7 and 3 x 4, 10 feet and up, $16.50; all other randoms, 9 inch and under, 10 feet and up, $17.50; 5 inch and up merchantable boards, $15 to $16; matched boards, $17.50 to $18.50; out spruce boards, $12.50 to $13; bundle furring, $16 to $17.

Hemlock holds firm, in keeping with spruce, though trade is quiet: Boards, 12 14 and 16 feet, $14 to 14.50 for good eastern; Pennsylvania, No. 1, $16 to $17; No. 2, $14.50; random, $13 to $13.50.

White pine is scarce, with the position very firm and higher prices on all the best grades: Uppers, 1 inch, $72 to $73; 2½ and 3 inch, $77.50; 4 inch, $82.50; selects, 1 to 1 1-2 inch, $66 to $67; 2 inch, $68 to $70; 2 1-2 to 3 inch, $73 to $76; 4-inch, $75 to $80; fine common, 1-inch, $55; 1 1-4 to 1 1-2 inch, $60; 2 inch, $55; 2 1-2 and 3 inch, $65 to $67; 4 inch $70; barn boards, $23 to $32; coffin boards, $27 to $32.

Shingles are firmly held, with the demand limited: Extra cedar, $3.25 to $3.30; clear, $2.90 to $2.95; second clear, $2.35 to $2.40; sap, $2.10 to $2.20; extra No. 1, $1.75 to $1.80; Washington and British Columbia, 16-inch, five butts to 2 inches, $3.45 to $3.50.

Clapboards are still very firm: Extra spruce, $35 to $36; clear, $33 to $34; second clear, $29 to $32; extra No. 1, $20 to $23; pine extra, $50 to $52; clear, $45 to $48; second clear, $40 to $42.

Laths are quoted at: One and five-eights inch, $3 to $3 05; 1 1-2 inch, $2.95 to $3.

The dissolution is announced of the Stevenson Lumber Company, of Ottawa East. The business will be continued by G. A. Little.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VII. TORONTO, ONT., JANUARY 5, 1902 No 53

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday, Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

SAW MAKER WANTS POSITION AS FILER, Band or Re-saws. Twelve years experience, factory, mill References as to character and ability. Address Box C, CANADA LUMBERMAN.

FOR SALE.

STEAM SAW MILL, KNOWN AS THE Pickard & Rowan mill, Owen Sound, with yard and water room for lumber and logs, Tramways with iron rails, Lumber Cars, Waggons, Carts, Offices, Large Stable, Booms, Etc., two Boilers, Gun Shot Feed Gauge Edger, Trimmer, Shingle Machine, Heading Machine, Etc., Etc. All in good working order. For particulars apply GODERICH LUMBER CO., Goderich.

AUCTION SALE

OF

VALUABLE TIMBER LIMITS

AND LANDS.

There will be offered for sale by Public Auction, at the Russell House, in the city of Ottawa, on

Wednesday, the 19th day of February, 1902,

at two o'clock in the afternoon, the Timber Berths and Properties owned by Mr. William Mackey, on the River Amable Du Fond, Province of Ontario. The limits are in one block containing 129¾ square miles, timbered with white and red pine of superior quality, spruce and other woods, and are well watered, making a very short average draw. Part of the block is still a virgin forest containing large board pine of the finest quality with a very short haul.

With above are included deeded lands on which are built slides and dams; and at Eauclaire station, Can. Pac. Ry., a well-equipped saw, planing and shingle mill run by water power.

The whole will be sold in one block. Maps and descriptions of limits may be obtained from

W. MACKEY.

Ottawa, 4th Dec., 1901.

100 M ft. 1¼ inch (common and better.
For spring or winter delivery. OTTAWA LUMBER CO'Y, Ottawa, Canada.

FOR SALE.

VALUABLE SAW MILL PROPERTY ON Georgian Bay, in the Province of Ontario, situated at Town of Wiarton, and about 1900 acres of hardwood and hemlock timber-lands on Bruce Peninsula, together with railway sidings and docks. The Saw Mill is a new one, suitable for the manufacture of pine and hardwood lumber and lath, with excellent facilities for shipment by rail or water. The Saw Mill may be purchased with or without the timber lands.

For further particulars apply to the undersigned.

W. J. FERGUSON,
Wiarton, 17th Jan., 1902. Solicitor for Owners.

WANTED

A steady, energetic, thoroughly experienced and competent man as foreman for a large shingle mill, equipped with Dunbar type of machine. Night and day capacity per year, 100 million.

Must be an expert on shingle saw filing and hammering, and thoroughly understand the Dunbar machine, and be able to do mill-wright work, know how to handle men, and write and figure fairly well. None but a strictly temperate man need apply.

Prefer a man not over 40 years old. An excellent salary and steady employment to the right man.

Apply "Shingle," care this paper, for further particulars.

WANTED—PART, OR THE ENTIRE CUT of a mill making first-class cedar shingles, to handle by the New England trade. Will advance 75 per cent. cash on receipt of each bill of lading. Can get the best market prices. Correspondence solicited. Address, IVERS P. LAWRENCE, Fitchburg, Mass.

FOR SALE.

Large Tract of Timber

In Central Ontario

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited.)

This company has a large tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherrybirch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The Company are prepared to sell this timber in blocks ranging from 5,000 to 25,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

The demand for lumber in Toronto is heavier than usual in midwinter, and prices generally are firm. It has seemed difficult to advance wholesale prices to the same extent as has been done at the mills, but the prevailing opinion is that there will be a moderate rise at least before spring. The outlook is regarded as very bright. Box lumber and mill culls are now being shipped in considerable quantities from Ontario to the Eastern states, Chicago and Michigan. Numerous inquiries are being received for stock for shipment as soon as navigation opens. Consumers of hardwoods are adding to their stock of raw material, apparently believing that it will not be possible to obtain hardwood lumber below present quotations for some time at least. Shingles are higher and sell wholesale in Toronto at $3 for XXX, $2 for XX, and $1 for X. The movemet of lath is light, but the tendency of prices is upwards, and as soon as there is an expansion in demand, quotations will immediately follow the advance which has been put into effect in the Lake Superior and Michigan districts.

The latest reports from the woods go to show that the log cut of the present season is to date behind the figures for the same period one year ago. Natural conditions are held responsible for the shortage.

QUEBEC AND NEW BRUNSWICK.

Predictions are made that there will be a strong demand for spruce lumber during the current year. Building operations throughout the Maritime Provinces promise to be on an unusually large scale, while the projected harbor improvements at Montreal, Quebec and St. John will call for a considerable quantity of timber. The erection of large grain handling facilities at Quebec by Capt. Wolvin, of Duluth, is also an undertaking which will consume a considerable quantity of building material. The Eastern States are likely to purchase liberally, while it is probable that about the usual quantity of spruce deals will find a market in Great Britain. Altogether, manufacturers are disposed to anticipate a favorable season. Clapboards at the present time are the strongest feature of the market, selling at $35 for Boston delivery. Cedar shingles are unchanged at $3.25 to $3.30 for extras. Spruce lath is weaker, sales having been made for Boston at $2.90 for 1 5-8 inch.

UNITED STATES.

The lumber business is exceptionally good for this time of the year, with each day adding strength to the position of white pine. In the Lake Superior district the shortage in the supply is an important factor. Some dealers have already advanced the price of piece stuff and No. 1 boards, and it is expected that at the annual meeting of the Mississippi Valley Lumbermen's Association on February 18th, the price list committee will decide upon an advance in the price of nearly all grades. The official price list of the Saginaw Lumber Dealer's Association, which took effect on January 20th last, shows an advance on pine stocks generally, the greatest increase being, of course, in the upper grades. White pine lath is now quoted by that association at $3.75 for No. 1 and $3.25 for No. 2. The supply is light and no person is endeavoring to force sales. The strength of lath is also shared by shingles. Dealers report that it is simply impossible to get shingles to fill orders. Hemlock lath are firm at $2.90 for No. 1, and $2.15 for No. 2, in car lots. A further improvement is reported in the tone of the hardwood market, and it is believed that within a short time there will be a decided change for the better in hardwood prices. The state of New York, in view of an active building season, is buying quite liberally.

Maple flooring has advanced in New York city $1 a thousand on clear, $2 on common, and $1 on factory.

GREAT BRITAIN.

The outlook for shippers of lumber to Great Britain is better than was expected a few weeks ago, although importers are not exhibiting much confidence in the year's operations. It is almost certain that the better grades of pine deals will find a market at remunerative prices. The course of the spruce market, however, is less certain, as it will depend largely upon the extent of imports into Great Britain from the Baltic. If these should prove unexpectedly large and greater than the market can absorb, a slump in spruce prices will likely result. Stocks in London, however, have become considerably reduced during the past two months. The peace proposals that have been made to the British Government are a hopeful sign, and although meeting with refusal, are regarded as indicating that negotiations for a settlement of the South African war will soon be under way.

STOCKS AND PRICES.

The city engineer of St. John, N. B., has been instructed to invite tenders for the supply of 2,500 tons of timber for the building of a wharf.

The cooperage market at the present time is quiet. Buyers are not in the market to any extent. In Chicago pork barrels are offered at from 90 to 95 cents.

Mr. Kennedy, of North Brook, Ont., has taken out 20,000 cubic feet of board timber for Burton Bros., of Barrie. The timber was cut on the Drinkwater limits.

During the year 1901 Buffalo dealers imported from Canada 69,212,106 feet of lumber, 44,803,333 shingles, and 12,071,570 laths. These figures show a large increase over those of 1900, which were 43,562,741 feet of lumber, 23,360,400 shingles, and 3,151,400 laths.

In the Chicago market there are many items of white pine lumber that are exceptionally scarce. No. 1 and No. 2 12-inch boards in any length are difficult to get hold of, and everything over 16-foot in both Norway and white pine piece stuff is exceedingly scarce, also 2 x 12 and 3 x 12.

Hon. C. W. Robinson, Capt. Wright and F. C. Robinson, of Moncton, and C. S. Hickman, of Dorchester, N. B., have purchased the mills and 30,000 acres of timber lands from Gillespie Prescott, of Cumberland county, N. S. The property is situated near Shulee, and the purchase price is about $100,000.

McLachlin Bros., of Arnprior, Ont., recently sold about 8,500,000 feet of 12-inch stock to the Shepard & Morse Company for shipment to South America. The cash equivalent was in the neighborhood of $150,000. Hostilities in the southern republics have interfered with the business for months past, but it is now recovering its former activity.

Mr. G. W. Campbell is understood to have entered into an agreement with the Pacific Coast Lumber Company, of New Westminster, B.C., to handle their entire output. This company is now buildling a mill on Coal Harbor, within the city limits of Vancouver.

The R. Laidlaw Lumber Company, of Toronto and Buffalo, are reported to have purchased the entire output of the Huntsville Lumber Company's mill for the coming season. This company have purchased largely in Ontario within the last two months.

The vessel Wetmore, loaded with lumber, recently became stranded at Tobermorey, Bruce county, Ont. The lumber was en route to Buffalo, being the property of Hurd & Hauenstein and Hurd Bros., of that city. It comprised about 2,000,000 feet, of which about four-fifths has been saved and is now offered for sale by the insurance agents.

The red shingle situation in Washington is marked by a steady improvement in prices. Clears are bringing about $1.85, and stars about $1.65. Stars are stronger in the market than clears, a reversal of the order prevailing near the close of last season. This is attributed to the fact that the poor market for stars which prevailed at that time caused many mills which had been cutting that grade to turn to clears, with the result that the stock of stars has been reduced.

Of the hardwood situation at Buffalo, N. Y., the American Lumberman says: Dealers find that the demand is improving and the supply is not only small, but is growing smaller right along. While New England is not buying as readily as it might, waiting for more favorable prices, New York State and City are quite in line and will have lumber if they can get it, whether the price is what they want or not, for the outlook is that this state is building as it never did before, taken as a whole, and will keep on building as long as general business may be good. What is going to be done for stock, especially oak, is hard to say. Some dealers, who used to be the standbys in that sort of lumber, say that they are very low in it, while others, who are very inclined to boast of their supply, admit that they are out of this or that, especially certain thick cuts. The demand is more general than it was and calls for all sorts and all cuts, but it will have to be satisfied with what there is. Prices are about as formerly, though some dealers are asking more for oak.

A market report from S. P. Musson, Son & Company, dated January 18th, contains the following reference to the Barbados lumber market: "Arrivals have been heavy, and dealers were so fully stocked that a decline was bound to take place, and if further arrivals occur, we shall probably see even lower prices. The arrivals have been the "Alexandria," from Weymouth, N. S., with 29,000 feet white pine, and 180,000 feet spruce; the W. F. Gordon, from Liverpool, N. S., with 50,000 feet shipping and 32,000 feet second quality white pine, 21,000 feet shipping spruce, and 41,000 feet hemlock; and the "Pilgrim," from Bridgewater, N. S., with 8,000 feet shipping and 50,000 feet second quality white pine and 45,000 feet shipping spruce. The former cargo was sold at $23.06 and $17.51 respectively for white pine; $20.36 for shipping, $16.26 for second quality spruce, and $16.87 for hemlock. The cargo of the latter sold at $23.06 and $17 respectively for white pine, and $19.75 for spruce. The "Trader," from Shelburne, arrived on January 12th with 109,000 feet white pine intended for Demarara, but owing to loose sails the vessel could not proceed there and the cargo was sold at $21 for shipping, and $16 for second quality. The cargo of the "Bertha Gray" from Tusket Wedge, N. S., brought $20.60, $16 and $20.05 respectively for white pine, $18.50 and $14 for spruce, and $14 for hemlock. No arrivals of shingles to note.

CANADIAN LUMBER SHIPMENTS.

The following shipments of lumber, etc., from Canadian ports, are reported since last issue:

From Annapolis, N. S.—Schr. Foster Rice, for Barbadoes, 225,000 feet lumber, by Pickles & Mills. Barque Alert, for Buenos Ayres, 637,500 feet lumber, by Pickles & Mills. Schr. Hattie P., for Barbadoes, 100,000 ft. lumber, by Clarke Bros.

From St. John, N. B.—Schr. H. A. Holder, for Boston, 53,538 feet plank, 21,382 feet scantling, 506,133 feet boards, by A. Cushing & Co. Schr. G. H. Perry, for Boston, 64,373 feet plank, 67,408 feet scantling, 184,000 cedar shingles, by A. Cushing & Co. Str. Corinthian, for Liverpool, 208,094 feet deals, by W. M. Mackay; 526,450 feet spruce deals, 47,945 feet birch plank, 7,158 feet birch ends, by George McKean; 7,787 pieces deals and ends, by William Thomson Company. Str. Amarynthia, for Glasgow, 167 pieces oak lumber, by Schoffield & Co.; 1,200 bundles box shooks, 56087 feet spruce deals, 75,211 feet scantling, by A. Cushing & Co.; 55,182 feet pine deals by J. B. Snowball & Co. Str. Bengore Head, for Belfast, Ireland, 70 tons birch timber, by Jarvis Wilson; 9,209 feet pine deals, 198,050 spruce deals, 883 maple blocks, by William Thompson & Co.; for Dublin, 95,647 feet deals, by George McKean.

From Halifax, N. S.—Schr. Nellie Louise, for New York, 173,521 feet lumber, value $2,110. Str. Corinthian, for Liverpool, 418,805 feet deals, etc., value $3,717. Str. Amarynthia, for Glasgow, 315,593 feet deals, value $3,043.

New Mill Erected 1901. Capacity 100 Million a Year.

Spicer Shingle Mill Co., Limited

It is not the purpose of this advertisement to try and convince the Lumber Trade of Canada that we are the only company in British Columbia manufacturing and shipping shingles in large quantities, or that we "know it all." We recognize that "there are others" and that we are not the only "pebble on the beach." To try and make you believe that we are the only people who can supply you **promptly** and in **large quantities** with a **high-grade** shingle would not only be a **fish** and a **bear** story combined, but it would be gall of the bitterest kind.

Our competitors in the shingle business in B. C. are nice people, and we presume that they know their business; but we are nice people too, and as we have been in the trade as long as any of them, and a **great deal longer** than the most of them, we know that we know our business, and that our competitors are not in the possession of any points of value regarding the manufacture of shingles which has not come to **our knowledge**.

Our old mill was burned down in May last, and in its place we have built what is at the present time the **Largest** Shingle Mill in B. C.

Our new Mill has 7 of the latest improved type of Dunbar machine, which we run night and day—giving us a capacity of about **100 Million** a year.

Competent judges who have seen our new mill, tell us that it is one of the most **substantial**, carefully **constructed**, and best **planned** mills in this province. We ourselves think it is **the very best** shingle mill in B. C.; and we know that it is **equipped** with all the very latest improved Shingle Machinery.

Will the trade please note that our contract with the Pacific Coast Lumber Co. closed on December 31, 1901. D. Ferguson, of London, Ont., is our representative for that province. Orders sent to him, or to us direct, shall have **prompt** attention.

We want our share of your shingle business, and can **guarantee** you satisfaction in **every particular.**

Spicer Shingle Mill Co., Limited,
VANCOUVER, B. C.

OUR SHINGLES

FACTS ARE FACTS WHETHER TOLD ABOUT FISH OR SHINGLES

We make a fine 16-inch Shingle.
We make a fine 18-inch Shingle.
We make a fine 24-inch Shingle.
We make all thicknesses from 6-2 inch to 6-3 3/8 inch.

They are going out of our different mills at the rate of 200,000,000 a year. We make more shingles than any one firm in the world. Just think of it!

We claim to be experts. That is not gall. That is a statement which is proven constantly by the testimony of our customers from the Pacific Coast to the Atlantic Coast on the Canadian side, and from Maine to Puget Sound.

Mixed Cars our Specialty. Don't forget that we have all kinds of House Finishing Material in Fir and Cedar, and can load any quantity with shingles.

Come, let us deal together.

CUSTOMERS' ATTENTION.—Please take notice that on and after the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles will be ended, and until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipeg, Man., for Manitoba and the North-West; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

Agents Wood Specialties of all Description.

CORRESPONDENCE INVITED

THE BOSTON MARKET.

For spruce lumber the week shows an improvement in the demand, though slight. The situation is considered very firm, following the remarkably strong position of southern pine, cypress and other woods, for which spruce can be substituted. The actual scarcity of spruce in most sections is also a very strong feature: Ten and 12 inch dimensions, $20; 9 inch and under, $18; 10 and 12 inch random lengths, 10 feet and up, $19 to $19.50; 2 x 3, 2 x 4, 2 x 5, 2 x 6, 2 x 7 and 3 x 4, 10 feet and up, $16 to $16.50; all other randoms, 9 inch and under, 10 feet and up, $17 to $17.50; 5 inch and up merchantable boards, $15 to $16; matched boards, $18 to $19; out spruce boards, $$13; bundle furring, $16 to $17.

Hemlock lumber is well sustained: Boards, 12, 14 and 16 feet, $14 to $14.50 for good eastern; Pennsylvania, No. 1, $16 to $17; random, $13 to $13.50; No. 2, $14.50.

The scarcity and firmness in white pine is a feature of the present lumber market, with little chance of prices being any easier: Uppers, 1 inch, $72 to $73; 2½ and 3 inch, $77.50; 4 inch, $82.50; selects, 1 to 1 1-2 inch, $66 to $67; 2 inch, $68 to $70; 2 1-2 to 3 inch, $73 to $76; 4-inch, $75 to $80; fine common, 1-inch, $55; 1 1-4 to 1 1-2 inch, $60; 2 inch, $55; 2 1-2 and 3 inch, $65 to $67; 4 inch, $70; barn boards, $23 to $32; coffin boards, $27 to $32.

Hardwoods are very firm on some varieties, with quotations unchanged: One inch whitewood, $38 to $40; thicker, $39 to $42; ⅝ inch, $30 to $35; saps, inch, $25 to $30; common, $23 to $25; quartered oak, $56 to $65; fancy, $70 to $75; plain oak, $40 to $47; black ash, $40 to $50; white ash, $45 to $55; cherry, $90 to $130; maple, $32 to $40.

Shingles are very firm with fancy prices quoted for immediate delivery. Extra cedar, $3.25 to $3.30; clear, $2.85 to $2.95; second clear, $2.35 to $2.40; sap, $2.10 to $2.20; extra No. 1, $1.75 to $1.80; British Columbia, 16-inch, five butts to 2 inches, $3.45 to $3.50.

Clapboards are still very firm, with the market largely nominal: Extra spruce, $35 to $36; clear, $33 to $34; second clear, $29 to $32; extra No. 1, $20 to $23; pine extra, $50 to $52; clear, $45 to $48; second clear, $40 to $42.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VII. TORONTO, ONT., FEBRUARY 12, 1902 No 54

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday, Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

FOR SALE.

80,000 feet of one and two inch dry Ash and 30,000 feet of one and two inch dry Soft Elm for sale, also will have the same amount to cut this winter. CHARLES QUERENGESSER, Brodhagen, P. O., Ont

FOR SALE.

All in good working order. For particulars apply, GODERICH LUMBER CO., Goderich.

FOR SALE.

Large Tract of Timber

In Central Ontario

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited.)

This company has a large tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherrybirch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

SAW MAKER WANTS POSITION AS FILER, Band or Re-saws. Twelve years experience, factory, mill References as to character and ability. Address BOX C, CANADA LUMBERMAN.

WANTED—INCH BIRCH, STRICTLY 1s and 2s eight inches and up wide. Quote lowest price delivered on cars point of shipment. J. F. STENGEL, 990 Ellicott Square, Buffalo, N Y.

WANTED—TWO GOOD CIRCULAR SAWYERS, capable of sawing dimension timber. Capacity of mill 30 to 40 thousand per day. Address applications to the PEMBROKE LUMBER Co., Pembroke.

WANTED.

COMPETENT MAN TO RUN SMALL PLANER. Address by letter stating experience and salary expected. BOOTH & GORDON, Azilda P.O., Ont.

Cedar Poles Wanted

A LARGE quantity of cedar telegraph poles wanted, 25 to 65 ft. long, 7 inch top, for early spring delivery. Quote price f.o.b. cars point of shipment' BOX 33, CANADA LUMBERMAN.

BOX SHOOKS WANTED.

We have large export orders for Box Shooks, principally in Spruce, for butter, candle and soap boxes Also 1 inch and Maple squares, chair-seats, etc. Apply for particulars to GELLIBRAND, HEYWOOD & Co., Cardiff, Wales, G. B. Payment cash.

SOFT ELM WANTED.

300 M ft. 3 inch.
100 M ft. 1¼ inch (common and better.
For spring or winter delivery. OTTAWA LUMBER Co'Y, Ottawa, Canada.

WANTED—PART, OR THE ENTIRE CUT of a mill making first-class cedar shingles, to handle by the New England trade. Will advance 75 per cent. cash on receipt of each bill of lading. Can get the best market prices. Correspondence solicited. Address, IVERS P. LAWRENCE, Fitchburg, Mass.

FOR SALE.

VALUABLE SAW MILL PROPERTY ON Georgian Bay, in the Province of Ontario, situated at Town of Wiarton, and about 1900 acres of hardwood and hemlock timber-lands on Bruce Peninsula, together with railway sidings and docks. The Saw Mill is a new one, suitable for the manufacture of pine and hardwood lumber and lath, with excellent facilities for shipment by rail or water. The Saw Mill may be purchased with or without the timber lands.

For further particulars apply to the undersigned.

W. J. FERGUSON,
Wiarton, 17th Jan., 1902. Solicitor for Owners.

WANTED

A steady, energetic, thoroughly experienced and competent man as foreman for a large shingle mill, equipped with Dunbar type of machine. Night and day capacity per year, 100 million.

Must be an expert on shingle saw filing and hammering, and thoroughly understand the Dunbar machine, and be able to do mill-wright work, know how to handle men, and write and figure fairly well. None but a strictly temperate man need apply.

Prefer a man not over 40 years old. An excellent salary and steady employment to the right man.

Apply "Shingle," care this paper, for further particulars.

FOR SALE.

Photos illustrating lumbering in woods and on river. Address W. M. HARMER, Ottawa, Can.

CURRENT TRADE CONDITIONS.

ONTARIO.

The stock lists that are being sent out by the manufacturers of pine lumber are a good indication of the position of the market. They show very clearly that there is practically no good lumber in mill yards that has not been contracted for, and that the stock of the lower grades is considerably broken and much lighter than when the mills closed down. There has been an exceptionally large winter demand, and when sawing operations are resumed the yards will be practically cleaned out. The buying of the coming season's production has been heavy. One manufacturer reports that all the dressing, cuts and better that he can manufacture this year has been contracted for at an advance of 10 per cent. over the prices of last spring. In individual cases the price of certain stock is being marked up. This is regarded as an evidence that further advances will be made by manufacturers as a whole in the near future. It is contended that the greater cost of provisions for both men and horses must result in increasing the value of lumber. Ottawa valley manufacturers, in addition to their usual British contracts, have made large sales of white pine to the United States. The market for red pine, however, is still heavy and uncertain owing to the large stocks held, but some relief will no doubt be afforded by the light operations in that timber this winter.

Implement and furniture manufacturers are reported to be buying more hardwood lumber than for some time past, and in some lines there has been a slight appreciation in values. Maple continues dull of sale and in large supply, but in the other classes of hardwoods stocks are not exceptionally heavy.

The shingle situation is extremely interesting at the present time. The stock list of a large Georgian Bay manufacturer shows that his supply of shingles has become completely exhausted. This is the case with many others, and it is a question where the supply for the spring trade is to be obtained. The Eastern States will this year depend more upon Canadian shingles than ever before, as the new product of Washington will not be ready for the market until late in the spring. Higher prices for both pine and cedar shingles seem evident between now and midsummer.

QUEBEC AND NEW BRUNSWICK.

The spruce market is holding its own, and while prices are not advancing it is believed that there will be an upward movement towards the opening of navigation. The Eastern States have taken so much spruce lumber that manufacturers feel less dependent upon the British market. A contract has been let within the past week for harbour improvements at Three Rivers, Quebec, estimated to cost $750,000. This work will call for a large quantity of timber, and will be commenced at the opening of navigation. Other important public works are to be carried out this year in Quebec province.

Very little chartering has as yet been done by shippers, although the present low rates should be an incentive to close contracts. It is said that arrangements have been made by Hon. J. B. Snowball, of Chatham, to ship a quantity of Miramichi deals by the Donaldson steamers which will sail from St. John, N B, during the remainder of the season to Glasgow.

GREAT BRITAIN.

Lumber prices in the British market have undergone no important change since the close of last year. In the better qualities of pine and spruce deals and in all grades of whitewood there has been a slight advance. Whitewood especially is finding a ready sale and is commanding ten shillings per standard more than it did in December. This has resulted in more liberal buying of spruce, the stock of which has become considerably reduced. First quality pine is low in stock and holders of broads are asking higher prices. Red pine deals in regular sizes are firm, but undersized are weak and selling about £1 lower than at the close of December. American pine doors have continued to improve in value, the latest advance being about three pence. Advices from Great Britain state that this upward tendency is likely to continue until prices reach a materially higher basis.

There has as yet been very little buying for the coming season, importers apparently preferring to wait further developments before contracting for their supply. Agents for spruce shippers are now going the rounds and are said to be asking an advance of 10 shillings per standard over last year's first-open-water prices, whereas buyers do not seem disposed to pay more than 3 shillings above the old figures consequently there is somewhat of a deadlock. The square timber market is firm with little doing.

UNITED STATES.

The advanced prices that are being asked for lumber in the Lake Superior district has apparently not retarded the demand, as the shipments from Minneapolis during January were greater than for the corresponding month of last year. Practically all the dry lumber at the head of the lakes is sold, also the greater portion of the cut of the coming summer. Buffalo concerns have recently bought heavily of good lumber at Duluth and Marinette. At Tonawanda the market is stronger than at any other time since the holidays, and prices have advanced slightly on certain grades. There is an exceptional demand for No. 1 cuts in 1½ and 2 inch. In Chicago, while the greatest demand is for No. 1 boards and strips, there is a strong request for No. 1 pine piece stuff and box lumber, at very satis-

factory prices. Eastern spruce is also stronger, owing to the scarcity, while there has been a material improvement in hemlock. At a meeting of the manufacturers of Wisconsin last week prices on nearly all items in the hemlock list were advanced on edollar per thousand, while at a recent meeting of Michigan producers higher prices were adopted as the basis of future sales. In Michigan there is a decided scarcity of 2 x 4 and 2 x 8 in 14 foot lengths, and for long stuff one dollar more for every additional foot over 16-foot is being obtained. At Bay City and Saginaw the base price for hemlock piece stuff is $11.

STOCKS AND PRICES.

The Huntsville Lumber Company, Huntsville, Ont., expect to cut 750,000 feet of deals for the British market market this year.

Smith Bros., of Central Blissville, Sunbury county, N.B., are getting out 2,000,000 feet of logs this winter for their mill on the South Branch.

The Saginaw Lumber & Salt Company has sold 2,500,000 feet of white pine lumber for next season's delivery. The stock is to be manufactured at Sandwich, Ont.

Extensive lumbering operations are being carried on this winter in the eastern part of the province of Quebec. Price Bros. & Co. are making 125,000 logs on the St. Marguerite River, and 30,000 to 40,000 on the River aux Canards. The Saguenay Lumber Co., of Escoumains, is making over 125,000. Maurice Tremblay is getting out 50,000 to 60,000 on the Black River at St. Simeon, and H. R. Dougall about 100,000 on the Manicougan. A quantity of railway sleepers are also being made on the North Shore, especially at Mille Vaches, Port-Neuf and Laval.

THE GLASGOW MARKET.

Messrs. Allison, Cousland & Co., in their monthly timber market report, dated 1st February, say:

There is little of importance to report during the past month. Saw millers report having had a good start, but sellers have been rather quiet. The stock of spruce and white pine is small, and there is a tendency toward higher values. An advance in price has also taken place in pitch pine, but the stock is still too large to warrant a continuance. Trade, however, cannot be said to be too promising, shipbuilding orders being very scarce, and other allied trades are only moderately employed.

White pine—Waney.—There is little change in the position of the market, what stock there is being very firmly held. Prices are little altered. Quotations.—1st class wood, 3s 6d to 3s 8d; 2nd class, 2s 2d to 2s 8d per c. ft. Square.—Little business is reported, but prices remain firm. Quotations.—45 to 50 feet average, 2s 8d to 3s 2d. G. F. A. wood, 2s to 2s 4d per c. ft.

Red pine.—No business is reported. Quotations.—1st class wood, 2s 1d to 2s 3d; 2nd class, 20d to 22d per c. ft.

Elm.—Business has become very quiet and stocks are heavy; there is a large percentage of grey and soft wood which is very difficult to dispose of.

Oak.—There has been a few small enquiries—long wood is scarce.

Ash.—Business has been a little more active, but there is no advance in prices. Quotations.—17d to 2s per c. ft. according to scantling.

Birch.—Business has been moderate and prices are steadier at about 2d over the inch.

Pine—Firsts—Are all very low in stock, and prices are good. Bread are quoted at £27 10s to £28 17s 6d. Undersized, £19 5s to £20 12s 6d per St. Pet. Std. Seconds.—There has been little business, but prices are firm. Quotations.—Broad and regulars, £19 5s to £22. Undersized, £13 15s to £15 2s 6d per S. Pd. Std. Thirds.—Have been in good request—the stock in first hands is now small. Quotations.—£12 7s 6d to £13 8s 1d for regulars. Undersized, £9 12s 6d to £10 6s 3d per St. Pet. Std. Fourths.—Stocks are light. Regulars are firm at £9 19s 4d to £10 6s 3d. Undersized, £8 5s to £8 18s 9d per St. Pet. Std.

Red Pine.—At present there is little demand, but prices for regulars are firm—oddments, however, are weaker in price. Quotations.—9 in. and up, £11 13s 9d to £13 13s. Oddments £7 4s 4d to £9 19s 4d per St. Pet. Std.

Quebec Spruce.—A brisk business has been done and prices are firm. Quotations.—£6 10s 7d to £8 18d 9d per St. Pet. Std.

N.B. Birch.—Logs are in moderate demand. Planks, however, are still very plentiful and prices are low.

N.B. Deals, Battens and Boards.—The stock is a small one, and with the low stock of 4th Quebec pine prices are well maintained.

N.B. Spruce.—Continues in good request, prices are inclined to be stiffer, present quotations being £6 10s 7d to £9 5s 7d per St. Petersburg standard.

THE BOSTON MARKET.

The spruce lumber market continues firm, though it is still in the midst of the quiet season. It is possible that some lots of random might have to be sold a little below quotations, if shipped on to the market here with instructions to sell. Frames are very firm, though not specially agitated at this time. Prominent dealers look for high prices on spruce as soon as buying sets in: Ten and 12 inch dimensions, $20; 9 inch and under, $18; 10 and 12 inch random lengths, 10 feet and up, $19 to $19.50; 2x3, 2 x 4, 2 x 5, 2 x 6, 2 x 7 and 3 x 4, 10 feet and up, $16 to $16.50; all other randoms, 9 inch and under, 10 feet and up, $17 to $17.50; 5 inch and up merchantable boards, $15 to $16; matched boards, $18 to $19; out spruce boards, $13; bundle furring, $16 to $17.

Hemlock lumber is firmer, with Pennsylvania very firm: Boards, 12, 14 and 16 feet, $14 to $14 50 for good eastern; random, $13 to $13.50; Pennsylvania, No. 1, $16 to $17; No. 2, $14.50.

White pine is in fair demand, with prices very firm: Uppers, 1 inch, $72 to $73; 2½ and 3 inch, $77.50; 4 inch, $82.50; selects, 1 to 1 1-2 inch, $66 to $67; 2 inch, $68 to $70; 2 1-2 to 3 inch, $73 to $76; 4-inch, $75 to $80; fine common, 1-inch, $55; 1 1-4 to 1 1-2 inch, $60; 2 inch, $55; 2 1-2 and 3 inch, $65 to $67; 4 inch, $70; barn boards, $23 to $32; coffin boards, $27 to $32.

There is a fair movement going on in hardwoods. Quotations are well sustained: Quartered oak, $56 to $65; fancy, $70 to $75; plain oak, $40 to $47; black ash, $40 to $50; white ash, $45 to $55; cherry, $90 to $130; maple, $32 to $40.

Shingles are scarce, with prices very firm at the advance. Washington red cedars are further advanced: Extra cedar, $3.25 to $3.30; clear, $2.85 to $2.95; second clear, $2.35 to $2.40; sap, $2.10 to $2.20; extra No. 1, $1.75 to $1.80; Washington and British Columbia red cedar, 16-inch, five butts to 2 inches, $3.45 to $3.50; 18-inch, $4.25 to $4.50.

Clapboards are scarce and nominal, with prices very firm: Extra spruce, $35 to $36; clear, $33 to $34; second clear, $29 to $32; extra No. 1, $20 to $23; pine extra, $50 to $52; clear, $45 to $48; second clear, $40 to $42.

Laths are quoted at: One and five-eighths inch, $2.90; 1 1-2 inch, $2.50.

BRITISH TIMBER SALE.

The following prices were realized for Canadian deals, etc., at an auction sale held by Foy, Morgan & Company, London, England, on January 29th:

Pine—Ex. Manchester shipper, from Montreal—9-11 ft. 3x8-10 in. third quality, £11 5s per standard; 12 ft. 3x11 in. first quality, £26 10s; 13 ft. 3x11, £27 5s; 9-11 ft. 3x4-6, £16 10s; 6-8 ft. 3x4, £15; 12 ft., 3x11 in., second quality, £19 10s; 13 ft. 3x11, £19 5s; 12-16 ft. 3x4-6, £12 5s; 6-11 ft. 3x4-6, £10 15s; 6-18 ft. 3x11 in. first quality red, £15; 6-11 ft. 3x5-9, £10;

DENNY, MOTT & DICKSON, LIMITED
LONDON, ENG.

New Mill Erected 1901. Capacity 100 Million a Year.

Spicer Shingle Mill Co., Limited

It is not the purpose of this advertisement to try and convince the Lumber Trade of Canada that we are the only company in British Columbia manufacturing and shipping shingles in large quantities, or that we "know it all." We recognize that "there are others" and that we are not the only "pebble on the beach." To try and make you believe that we are the only people who can supply you **promptly** and in **large quantities** with a **high-grade** shingle would not only be a **fish** and a **bear** story combined, but it would be gall of the bitterest kind.

Our competitors in the shingle business in B. C. are nice people, and we presume that they know their business; but we are nice people too, and as we have been in the trade as long as any of them, and a **great deal longer** than the most of them, we know that we know our business, and that our competitors are not in the possession of any points of value regarding the manufacture of shingles which has not come to **our knowledge**.

Our old mill was burned down in May last, and in its place we have built what is at the present time the **Largest** Shingle Mill in B. C.

Our new Mill has 7 of the latest improved type of Dunbar machine, which we run night and day—giving us a capacity of about **100 Million** a year.

Competent judges who have seen our new mill, tell us that it is one of the most **substantial**, carefully **constructed**, and best **planned** mills in this province. We ourselves think it is **the very best** shingle mill in B. C.; and we know that it is **equipped** with all the very latest improved Shingle Machinery.

Will the trade please note that our contract with the Pacific Coast Lumber Co. closed on December 31, 1901. D. Ferguson, of London, Ont., is our representative for that province. Orders sent to him, or to us direct, shall have **prompt** attention.

We want our share of your shingle business, and can **guarantee** you satisfaction in **every particular.**

Spicer Shingle Mill Co., Limited,

OUR SHINGLES

FACTS ARE FACTS WHETHER TOLD ABOUT FISH OR SHINGLES

We make a fine 16-inch Shingle.
We make a fine 18-inch Shingle.
We make a fine 24-inch Shingle.
We make all thicknesses from 6-2 inch to 6-3⅜ inch.

They are going out of our different mills at the rate of 200,000,000 a year. We make more shingles than any one firm in the world. Just think of it!

We claim to be experts. That is not gall. That is a statement which is proven constantly by the testimony of our customers from the Pacific Coast to the Atlantic Coast on the Canadian side, and from Maine to Puget Sound.

Mixed Cars our Specialty. Don't forget that we have all kinds of House Finishing Material in Fir and Cedar, and can load any quantity with shingles.

Come, let us deal together.

CUSTOMERS' ATTENTION.—Please take notice that on and after the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles will be ended, and until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipeg, Man., for Manitoba and the North-West; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

Shingle Mill, Hastings, B.C.; Lumber and Shingle Mill, Vancouver, B.C.; Shingle Mill, New Whatcom, Wash.; Shingle Mill, Sumas, Wash.; Shingle Mill, Carroll Siding, Wash.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, ONT., FEBRUARY 19, 1902 No 3

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday, Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m on Tuesday to insure insertion in the current week's issue.

WANTED.

COMPETENT MAN TO RUN SMALL PLANER. Address by letter stating experience and salary expected. BOOTH & GORDON, Azilda P.O., Ont.

FOR SALE.

STEAM SAW MILL, KNOWN AS THE Pickard & Rowan mill, Owen Sound, with yard and water room for lumber and logs, Tramways with iron rails, Lumber Cars, Waggons, Carts, Offices, Large Stable, Booms, Etc., two Boilers, Gun Shot Feed Gauge Edger, Trimmer, Shingle Machine, Heading Machine, Etc., Etc. All in good working order. For particulars apply GODERICH LUMBER CO., Goderich.

FOR SALE.

Large Tract of Timber

In Central Ontario

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited.)

This company has a large tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherrybirch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

FOR SALE.

Photos illustrating lumbering in woods and on river. Address W. M. HARMER, Ottawa, Can.

WANTED—INCH BIRCH, STRICTLY 1S and 2S eight inches and up wide. Quote lowest price delivered on cars point of shipment. J. F. STENGEL, 990 Ellicott Square, Buffalo, N. Y.

WANTED—TWO GOOD CIRCULAR SAWYERS, capable of sawing dimension timber. Capacity of mill 30 to 40 thousand per day. Address applications to the PEMBROKE LUMBER Co., Pembroke.

SCOTCHMAN (26) SEEKS EMPLOYMENT in timber yard, 13 years' experience in office and yard, has excellent references, respectable appearance and is in robust health. Address "Timber," care Keith & Co., Advertising Agents, Edinburgh, Scotland.

DRY PINE.

WE HAVE ABOUT 1,500,000 FEET DRY PINE in 1, 2 and 3 inch common and better, prefer selling in bulk. Will quote freight rate to Buffalo, Chicago or Toronto on application. Correspondence solicited. N.B.—Would like to correspond with consumers of hardwoods. ST. JOE ISLAND LUMBER Co., Sault Ste. Marie, Ont.

BOX SHOOKS WANTED.

We have large export orders for Box Shooks, principally in Spruce, for butter, candle and soap boxes Also Birch and Maple squares, chair-seats, etc. Apply for particulars to GELLIBRAND, HEYWOOD & Co., Cardiff, Wales, G. B. Payment cash.

SOFT ELM WANTED.

300 M ft. 3 inch.
100 M ft. 1¼ inch (common and better.
For spring or winter delivery. OTTAWA LUMBER Co'y, Ottawa, Canada.

WANTED—PART, OR THE ENTIRE CUT of a mill making first-class cedar shingles, to handle by the New England trade. Will advance 75 per cent. cash on receipt of each bill of lading. Can get the best market prices. Correspondence solicited. Address, IVERS P. LAWRENCE, Fitchburg, Mass.

FOR SALE.

VALUABLE SAW MILL PROPERTY ON Georgian Bay, in the Province of Ontario, situated at Town of Wiarton, and about 1900 acres of hardwood and hemlock timber-lands on Bruce Peninsula, together with railway sidings and docks. The Saw Mill is a new one, suitable for the manufacture of pine and hardwood lumber and lath, with excellent facilities for shipment by rail or water. The Saw Mill may be purchased with or without the timber lands.

For further particulars apply to the undersigned.

W. J. FERGUSON,
Wiarton, 17th Jan., 1902. Solicitor for Owners.

WANTED

A steady, energetic, thoroughly experienced and competent man as foreman for a large shingle mill, equipped with Dunbar type of machine. Night and day capacity per year, 100 million.

Must be an expert on shingle saw filing and hammering, and thoroughly understand the Dunbar machine, and be able to do mill-wright work, know how to handle men, and write and figure fairly well. None but a strictly temperate man need apply.

Prefer a man not over 40 years old. An excellent salary and steady employment to the right man.

Apply "Shingle," care this paper, for further particulars.

CURRENT TRADE CONDITIONS.

ONTARIO.

The statistical statement presented at the annual meeting of the Lumbermen's Association of Ontario last week illustrates very clearly the strong position of white pine lumber. Deducting the Rat Portage stock, which is marketed in Manitoba and the Territories, there was only 100,000,000 feet of unsold lumber at the mills in the Georgian Bay district on December 31st last. Since that time considerable shipments have been made by rail and it is probable that there is now little more than 50,000,000 feet of white pine in all grades that has not been contracted for. This quantity will be required before the new cut is in shipping condition, hence a shortage in white pine seems imminent. In the Ottawa Valley district also the stock is exceptionally light and the demand active. Notwithstanding this unprecedently strong position of the pine market, it is the opinion of manufacturers that it would not be in the interest of the industry to take advantage of the situation by advancing prices rapidly, as such a move would in all probability check the consumption and bring about the substitution of other and less expensive classes of lumber. The higher grades of pine may be further advanced, as these grades are in smaller supply than they have been for many years. Mill culls have lately shown considerable strength. The supply is less than one year ago, some manufacturers having been obliged to make purchases at other mills in order to supply their customers.

Sales of hemlock are being made at $9.50 at the mill, with higher prices for long lengths. In hardwoods the movement is about normal for midwinter. The market is firm, with an advancing tendency. In some districts the cut of hardwood logs this winter is not more than half that of last season, and this cannot but have a beneficial effect on prices.

QUEBEC AND NEW BRUNSWICK.

Representatives of Quebec shippers are now in Great Britain canvassing the importers, and have so far met with fair success. It is understood that a considerable quantity of Quebec spruce has been placed at figures which are regarded as satisfactory. Exceptionally high prices are being asked for waney and square pine timber, the quantity of which is each year showing a decrease. The feeling of manufacturers and shippers is in favor of maintaining a firm price for Canadian stocks generally. New Brunswick cedar shingles are in good demand considering the season of the year. Sales of extras are being made at $2.40 at the mill, and clears at $1.90, the figures on Boston rate of freight being $3.30 for extras and $2.85 for clears.

MANITOBA AND BRITISH COLUMBIA.

The lumber market in Manitoba and the North-West Territories is quiet but firm. The annual meeting of the Western Retail Lumbermen's Association was held in Winnipeg last week, at which it was shown that the business of the past year had been satisfactory. The outlook for this year is also good, although the prospect of a general demand by the building trades for higher wages is causing some anxiety, as it is feared that it may result in the postponement of some proposed building operations. Prices of British Columbia lumber and shingles are slightly stronger, with some improvement in demand. A strong effort is being made by the loggers of British Columbia to induce the Government to repeal the act prohibiting the export of timber from the province.

UNITED STATES.

Weather conditions in the United States seem to have had little effect upon the lumber market. The activity in the Eastern States is almost unprecedented for this season of the year. The preparations for building operations show that the season is likely to be an active one, and that lumber will be required in large quantities. Accordingly, eastern dealers have bought heavily in the Lake Superior district. Estimates of the quantity of the cut of the coming season that has been contracted for range from 50 to 75 per cent. of the total production. Consumers in white pine apparently do not expect any decline in prices, while on the other hand a further advance is talked of. There is a feeling, however, that if prices were put up much higher it might result in curtailing the demand. One particularly gratifying feature is the increasing demand for low grade pine, of which the supply is considerab greater than of the upper grades. In Chicago there is a pronounced scarcity of 6-inch strips in all grades, about the only thing really plentiful being 4-inch No. 2 and No. 3 strips. The spruce market is remarkably firm, although the demand is a little quiet.

The consumption of hardwood lumber continues about normal. Among the strongest items are ash and basswood, followed closely by maple and birch. It is believed that higher prices will rule this year for basswood, while birch is expected to be a good seller. A Tonawanda firm is reported to have sold 4,000,000 feet of hardwood lumber last week. The tone of the hemlock market is stronger. Prices at Tonawanda range from $13 to $14, and the demand seems to be on the increase. While shingles and lath are not in great demand, prices are strong and likely to be higher. It is estimated that at North Tonawanda there is not over 1,500,000 white pine lath in the hands of dealers. Eastern spruce lath touched $4 in New York recently.

GREAT BRITAIN.

The course of the British timber market since the first of the year has in the main been steady, but there is an absence of that strong confidence which usually accompanies a revival of trade. The statement of stocks on hand at the leading ports show that there is not the heavy supply that is

generally considered. For instance, the stock of pine and spruce boards in the London docks is less than at the same time last year, while pine and spruce deals are represented by only a slightly heavier stock. At Liverpool the stock of Quebec pine and spruce deals and square and waney timber, as well as red pine timber, is lighter than one year ago, but there is a heavier stock of elm, birch and ash timber. It is reported that several large contracts for spruce have recently been closed at an appreciable advance on last season's figures, also that some 5,000 logs of birch have been placed principally to London, Liverpool and Manchester, at a shade over the prices of last year. The standard sizes in 9 and 11 inch deals are regarded as likely to advance during the year, but the course of irregular sizes and low grade stock is in some doubt. We are told that Quebec pine deals are finding a ready sale at Hartlepool, where first and second quality are almost exhausted and the stock of thirds is limited. On the whole, there seems to be a better demand for Canadian hardwoods and prices all round are a little firmer.

STOCKS AND PRICES.

Richard Vigars, of Port Arthur, has purchased the planing mill of M. S. Kelly at that place, together with the stock on hand.

The Dominion Government is asking for tenders up to March 3rd for construction of breakwaters at Herring Cove, N.S., and at Upper Salmon River, Albert county, N.B., also for the supply of poles for the construction of 125 miles of telegraph lines in Cape Breton.

The City of St. John, N.B., recently invited tenders for 2,000 tons of birch or maple timber and 500 tons of white pine. The contract for supplying the timber has been given to J. M. Scott, of Hawkshaw, York county, at $7 per ton. A. H. Hilyard & Company offered 125 tons of white pine, in lengths from 14 to 22 feet, at $10 per ton, and the longer lengths at $12.50 per ton. C. E. Gallagher, of Perth, tendered on 100 tons of birch or maple in 14 foot lengths, 200 tons in 22-foot lengths, and 200 tons in from 12 to 22-foot lengths, at $5.70 per ton.

TRANSACTIONS IN TIMBER PROPERTIES.

The largest private transaction in timber properties that has taken place in Canada for many years was consummated last week, by which the timber limits, saw mills, water power, and other property of Cook Bros., of Toronto, passed into the possession of George W. Cook, nephew of H. H. Cook, and George J. Cook, members of the old firm, and William Lummis, late manager of part of Cook Bros'. properties. The limits sold are on the north shore of the Georgian Bay and cover eight townships, or 300 square miles of territory. The saw mill is located at what is commonly called Cook's Mills. The exact purchase price could not be ascertained, but it is understood that it was in the vicinity of $1,250,000. The new firm will be known as Cook & Lummis.

Edgar G. Murphy, of New York, has purchased the mill and other property of Henry V. and Frederick Dewar at St. George, N. B. The limits are situated in Charlotte and York counties, and include the lands purchased from the Gilmore estate some years ago, on which some of the best timber of the province is to be found. The consideration is said to be about $60,000. It is understood that the purchaser is acting for a syndicate who have in view the building of a large pulp mill at St. George.

TRADE OPENINGS

The following were among the inquiries relating to Canadian trade received at the Canadian Government Office in London, Eng., during the week ending 7th February, 1902 :

Imformation respecting Canadian hardwoods for street paving purposes is asked for by a selling agent who has experience in placing such goods on the English market.

A London firm at present doing a good business in chair-stock, backs, seats, legs, etc., ask for names of additional exporters of such goods in Canada.

The names and addresses of the parties may be obtained at the office of the CANADA LUMBERMAN.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

"Cleaned out of better lines, scarce in others," is the general report of millmen and dealers on the lumber market. As can be seen by a look over the latest revised market list sent out from Ottawa, there is an advance in all the higher grades, including sidings, strips, shorts, shingles and lath. Good sidings according to dimensions sell from $34 to $45, and in some cases higher figures approaching the half century mark are quoted. Millmen who have stocks are not in a feverish heat to sell, for they know that the demand with the opening of the building season, before the saws again start, will be a large one. In some lines the high prices have placed a damper on business.

Good pine strips, according to dimensions, range from $29 to $35, and shorts for different sizes range between $20 and $30.

Lath and shingles furnish strong features of the market. No. 1 white pine lath sells as high as $3.25, and is scarce at that ; No. 2 is quoted at $2 to $2.25. Red pine lath is quoted at $2 to $2.50. Cedar shingles are in the fancy price list, selling at $2 to $2.25 for clear butts and $2.60 to $3 for xxx. The quotations on pine shingles are xxxx $2.50 to $3, clear butts $1.75 to $2, and xx $1.25 to $1.50. In this connection it may be stated that the shingle of the Ottawa Valley is an 18 inch product, while that of the Georgian Bay mills is 16 inches wide. In former years the latter width was turned out at Whitney, but as there was little or no demand a change was made to the wider and more popular shingle. Occasional orders for the 16 inch shingle have to be filled at the western mills.

A record in the lumber business has been established at Mr. J. R. Booth's mill. Twenty-four hours from stump to saw reaches the limit where the distance is taken into consideration. Logs are brought from the Madawaska district, 180 miles distant, to the Ottawa mill over a spur line and the Parry Sound branch of the C. A. Ry. Trees are felled, fashioned into logs and loaded on cars all in one day. The run by rail is made by night, and at 7 o'clock next morning the logs are on hand at the mill. A 16 foot log brought down recently measured seven feet across the butt. In one sleigh load there was 3,500 feet of lumber. Who says the lumber industry is declining ?

Negotations have not yet been completed for the erection of the mill at Ottawa referred to some weeks ago, but work will be started, it is expected, in time to have the saws going in the fall.

OTTAWA, February 17th, 1902.

THE BOSTON MARKET.

Spruce lumber at Boston is seasonably quiet, with the position firm. Orders are declined at anything below full prices, although it is understood that randoms on the market and forced to be sold do not bring full quotations : Ten and 12 inch dimensions, $20 ; 9 inch and under, $18 ; 10 and 12 inch random lengths, 10 feet and up, $19 to $19.50; 2x3, 2 x 4, 2 x 5, 2 x 6, 2 x 7 and 3 x 4, 10 feet and up, $16 to $16.50; all other randoms, 9 inch and under, 10 feet and up, $17 to $17.50 ; 5 inch and up merchantable boards, $15 to $16 ; matched boards, $18 to $19 ; out spruce boards, $13 ; bundle furring, $16 to $17.

Hemlock lumber is fully sustained, with the outlook very firm : Boards, 12, 14 and 16 feet, $14 to $14 50 for good eastern ;

35 and 36 Freehold Loan Building TORONTO, Ont.

random, $13 to $13.50; Pennsylvania, No. 1, $16 to $17; No. 2, $14.50.

White pine is in fair request, with the position just as firm as previously noted. Dealers are confident that low prices are never again to be known: Uppers, 1 inch, $72 to $73; 2½ and 3 inch, $77.50; 4 inch, $82.50; selects, 1 to 1 1-2 inch, $66 to $67; 2 inch, $68 to $70; 2 1-2 to 3 inch, $73 to $76; 4-inch, $75 to $80; fine common, 1-inch, $55; 1 1-4 to 1 1-2 inch, $60; 2 inch, $55; 2 1-2 and 3 inch, $65 to $67; 4 inch, $70; barn boards, $23 to $32; coffin boards, $27 to $32.

Hardwoods are in fair movement, steady and unchanged. Quartered oak, $56 to $65; fancy, $70 to $75; plain oak, $40 to $47; black ash, $40 to $50; white ash, $45 to $55; cherry, $90 to $130; maple, $32 to $40.

Shingles are firm, with the supply short, but it is in the midst of the season of dull demand. Quotations are pretty well established as follows, though it is suggested that higher prices have been obtained on special orders of special shingles: Extra cedar, $3.25 to $3.30; clear, $2.75 to $2.85; second clear, $2.25 to $2.35; sap, $2.10 to $2.20; extra No. 1, $1.75 to $1.80; Washington and British Columbia red cedar, 16-inch, five butts to 2 inches, $3.45 to $3.50; 18-inch, $4.25 to $4.50.

Clapboards are scarce with the demand also limited: Extra spruce, $35 to $36; clear, $33 to $34; second clear, $29 to $32; extra No. 1, $20 to $23; pine extra, $50 to $52; clear, $45 to $48; second clear, $40 to $42.

Laths are quoted at: One and five-eighths inch, $2.90; 1 1-2 inch, $2.50.

EASTERN AGENT: A. F. BURY AUSTIN, 507 Merchants' Bank of Canada Bldg., MONTREAL Que.

New Mill Erected 1901. Capacity 100 Million a Year.

Spicer Shingle Mill Co., Limited

It is not the purpose of this advertisement to try and convince the Lumber Trade of Canada that we are the only company in British Columbia manufacturing and shipping shingles in large quantities, or that we "know it all." We recognize that "there are others" and that we are not the only "pebble on the beach." To try and make you believe that we are the only people who can supply you **promptly** and in **large quantities** with a **high-grade** shingle would not only be a **fish** and a **bear** story combined, but it would be gall of the bitterest kind.

Our competitors in the shingle business in B. C. are nice people, and we presume that they know their business; but we are nice people too, and as we have been in the trade as long as any of them, and a **great deal longer** than the most of them, we know that we know our business, and that our competitors are not in the possession of any points of value regarding the manufacture of shingles which has not come to **our knowledge**.

Our old mill was burned down in May last, and in its place we have built what is at the present time the **Largest** Shingle Mill in B. C.

Our new Mill has 7 of the latest improved type of Dunbar machine, which we run night and day—giving us a capacity of about **100 Million** a year.

Competent judges who have seen our new mill, tell us that it is one of the most **substantial**, carefully **constructed**, and best **planned** mills in this province. We ourselves think it is **the very best** shingle mill in B. C.; and we know that it is **equipped** with all the very latest improved Shingle Machinery.

Will the trade please note that our contract with the Pacific Coast Lumber Co. closed on December 31, 1901. D. Ferguson, of London, Ont., is our representative for that province. Orders sent to him, or to us direct, shall have **prompt** attention.

We want our share of your shingle business, and can **guarantee** you satisfaction in **every particular.**

Spicer Shingle Mill Co., Limited,
VANCOUVER, B. C.

No Fish Stories

go when it comes to speaking about

OUR SHINGLES

FACTS ARE FACTS WHETHER TOLD ABOUT FISH OR SHINGLES

We make a fine 16-inch Shingle.
We make a fine 18-inch Shingle.
We make a fine 24-inch Shingle.
We make all thicknesses from 6-2 inch to 6-3 3/8 inch.

They are going out of our different mills at the rate of 200,000,000 a year. We make more shingles than any one firm in the world. Just think of it!

We claim to be experts. That is not gall. That is a statement which is proven constantly by the testimony of our customers from the Pacific Coast to the Atlantic Coast on the Canadian side, and from Maine to Puget Sound.

Mixed Cars our Specialty. Don't forget that we have all kinds of House Finishing Material in Fir and Cedar, and can load any quantity with shingles.

Come, let us deal together.

CUSTOMERS' ATTENTION.—Please take notice that on and after the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles will be ended, and until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipeg, Man., for Manitoba and the North-West; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

Shingle Mill, Hastings, B.C.; Lumber and Shingle Mill, Vancouver, B.C.; Shingle Mill, New Whatcom, Wash.; Shingle Mill, Sumas, Wash.; Shingle Mill, Carroll Siding, Wash.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, ONT., FEBRUARY 26, 1902 No. 4

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday, Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED — TWO GOOD CIRCULAR SAWYERS, capable of sawing dimension timber. Capacity of mill 30 to 40 thousand per day. Address applications to the PEMBROKE LUMBER CO., Pembroke.

MODERN STEAM CIRCULAR SAW MILL on Railway near large town, with about eight miles of standing timber, within three or four miles of mill and not over a mile to draw to water; pine, hardwood and hemlock. Satisfactory reasons for selling; prices reasonable. Drawer 67, LUMBERMAN.

DRY PINE.

WE HAVE ABOUT 1,500,000 FEET DRY PINE in 1, 2 and 3 inch common and better, prefer selling in bulk. Will quote freight rate to Buffalo, Chicago or Toronto on application. Correspondence solicited. N.B.—Would like to correspond with consumers of hardwoods. ST. JOE ISLAND LUMBER CO., Sault Ste. Marie, Ont.

BOX SHOOKS WANTED.

We have large export orders for Box Shooks, principally in Spruce, for butter, candle and soap boxes. Also Birch and Maple squares, chair-seats, etc. Apply for particulars to GELLIBRAND, HEYWOOD & CO., Cardiff, Wales, G. B. Payment cash.

FOR SALE.

VALUABLE SAW MILL PROPERTY ON Georgian Bay, in the Province of Ontario, situated at Town of Wiarton, and about 1900 acres of hardwood and hemlock timber-lands on Bruce Peninsula, together with railway sidings and docks. The Saw Mill is a new one, suitable for the manufacture of pine and hardwood lumber and lath, with excellent facilities for shipment by rail or water. The Saw Mill may be purchased with or without the timber lands.

For further particulars apply to the undersigned.

W. J. FERGUSON,
Wiarton, 17th Jan., 1902. Solicitor for Owners.

WE ARE PREPARED TO CONTRACT WITH mill men for this season's cut of Hardwood Lumber; will inspect at the mill and pay cash. LONDON LUMBER CO., London, Ont.

WANTED—HARDWOOD LUMBER.

SOFT ELM, BIRCH, BLACK ASH, 1STS and 2nds preferred. J. F. STENGAL, 993 Ellicott Square, Buffalo, N.Y.

WANTED

TO BUY A MILLION GOOD NO. 2 WHITE Pine Lath and one-half million No. 1. Must be standard size, 4 feet, and well manufactured. Quote best cash prices delivered f.o.b. cars Pittsburg, Pa. AMERICAN LUMBER & MFG. CO., Pittsburg, Pa.

WANTED

TO MAKE AN ARRANGEMENT WITH some large white pine manufacturer with facilities for making rail shipments, to cut for us a block of two to three million feet white pine No. 1 cuts and better, including all thicknesses from 1 to 4". We would want yard room to dry this stock and ship mixed cars. Address, AMERICAN LUMBER & MFG. CO., Pittsburg, Pa.

WANTED

A steady, energetic, thoroughly experienced and competent man as foreman for a large shingle mill, equipped with Dunbar type of machine. Night and day capacity per year, 100 million.

Must be an expert on shingle saw filing and hammering, and thoroughly understand the Dunbar machine, and be able to do mill-wright work, know how to handle men, and write and figure fairly well. None but a strictly temperate man need apply.

Prefer a man not over 40 years old. An excellent salary and steady employment to the right man.

Apply "Shingle," care this paper, for further particulars.

CURRENT TRADE CONDITIONS.

ONTARIO.

The position of the white pine market is extremely satisfactory. Manufacturers have sold heavily of the coming season's cut, and are receiving many enquiries for stock for shipment to the United States. The Turner Lumber Company, of Midland, is reported to have sold 29,000,000 feet, to be manufactured the coming season, to the Skillings, Whitneys and Barnes Company, of Tonawanda, who have also purchased the Parry Sound Lumber Company's cut, estimated between 25,000,000 and 30,000,000 feet. Easton & Company, of Albany, are said to have purchased the entire cut of McArthur Bros'. mill at Little Current, estimated at 30,000,000 feet, while other large transactions have taken place which indicate that no difficulty will be found in marketing all the white pine lumber that will be manufactured this year. Other United States firms have purchased a large quantity of logs and have arranged to have them manufactured at mills in the Georgian Bay district. While all grades of white pine are strong, there is an exceptionally good demand for boards 12 inches and wider. Mill culls are also moving actively considering the season of the year, and box grades have come into prominence recently. The scarcity of lath continues and is not likely to be relieved until the mills resume sawing. Hardwoods are a little firmer and manufacturers and dealers look for an expansion in the demand as soon as the spring season opens up.

QUEBEC AND NEW BRUNSWICK.

The position of spruce lumber is practically unchanged. The opinion is quite general that lumber intended for the local and United States markets will hold firm until midsummer, and manufacturers and dealers are making their arrangements accordingly. The buying of British spruce deals would seem to indicate that shippers are confident of their position, although it is understood that less than the usual quantity has so far been placed with British importers. Spruce lath, which was weak early in January, has recovered, and sales of 1⅝ inch are now being made to Boston at $3. Extra cedar shingles are firmer, the quotation on extras for Boston delivery being $3.35.

MANITOBA AND BRITISH COLUMBIA.

Lumber manufacturers and wholesale dealers have booked a considerable number of orders for spring delivery, and are looking forward to an active season, as building operations in Manitoba and the Territories promise to be of large volume. A few recent price changes have taken place. B. C. cedar base has declined $5 per thousand, making the price now $42.50 in Winnipeg. Cedar casing has declined $7.50, and B. C. fir dimension $2.50 to $4 per thousand. The export trade of British Columbia has started off well. Several vessels have been chartered to load lumber and quotations are somewhat higher. In anticipation of the enforcement this spring of the Act prohibiting the export of timber from British Columbia, the price of cedar logs has advanced $2 per thousand feet.

UNITED STATES.

No material change in the lumber situation has occurred in the past week, the market continuing strong and the buying being of a most liberal character. Stocks in white pine are low at wholesale markets as well as in distributing yards. Wholesale lumbermen have bought very heavily, it being estimated that more than half the entire 1902 product of white pine on the great lakes has already passed into second hands, while some districts have sold more than three-fourths of the cut. The annual meeting of the Mississippi Valley Lumbermen's Association was held last week, but no action was taken in the direction of advancing the price list. The report of the secretary, however, showed a pronounced shortage in the stocks in the hands of manufacturers. It is said that Buffalo and Tonawanda dealers are likely to make an all-round advance in the price of white pine lumber, as they believe this course is warranted by the high prices that are asked by manufacturers and by the outlook for building operations and the lumber demand generally. Our Buffalo list this week shows an advance of one dollar per thousand on fine common and No. 1 and No. 2 cutting-up stock, also $2 per thousand on thick white ash. The hardwood market has undergone a distinct improvement. Stocks have become low and the demand greater, and altogether higher prices are looked for. Oak and maple are leading, but the supply of the latter is too large to warrant much of an advance. The Wisconsin Hardwood Lumbermen's Association, at a special meeting at Wausau on February 13th, put into effect a new list advancing most hardwood items from $1 to $3 per thousand feet. This is looked upon as the forerunner of other advances.

GREAT BRITAIN.

The British timber market has not kept up the activity which characterized the trade of the month of January. Recent unfavorable weather has checked building operations, and buying of lumber has accordingly fallen off. Importers do not seem confident regarding the future of prices, and are not disposed to enter into large contracts at the figures that are asked by shippers. Accordingly, different views of the market are expressed. From one port comes the report that the representatives of Quebec shippers have put through no large contracts, while the information from another port is that an average amount of business in contracting for the coming season's requirements has been done. It is certain, however, that such contracts as have been closed show a substantial increase on the prices of one year ago. Sales of white pine deals have been made to Glasgow at an advance of 20 shillings to 30 shillings per standard over last season's quotations. A correspondent at Cardiff states that the high prices which shippers are asking for

spruce have caused a run on Austrian whitewood, which merchants are getting in long lengths and good widths at rather less than the price asked for spruce Another opinion is that spruce will keep at about its present price for several months to come, even after the first consignments begin to arrive, for the reason that the consumption will probably keep ahead of the import.

At recent auction sales in London second quality 3x9 spruce deals brought £9 13s to £10, and third quality £9 per standard. For 3x11 fourth quality pine $12 was obtained, and for one lot £12 5s. These figures show an advance for this class of lumber.

STOCKS AND PRICES.

The barque A. Tavela sailed recently from the Hastings mills, Vancouver, B.C., laden with lumber, for Ostend, Belgium.

The Saginaw Lumber and Salt Company, of Saginaw, Mich., have purchased 1,000,000 feet of mill culls at Cutler, Ont.

J. Stiles is getting out 1,250,000 feet of spruce and hardwood deals at Hopewell Hill, N. B.

Lath and high grade lumber have been shipped in considerable quantity to Pittsburg and other Pennsylvania points during the past two months.

The Dominion Government is asking for tenders for the construction of a large breakwater at Pointe St. Pierre, Gaspe county, Quebec.

The Central Lumber Company, of Saginaw, Mich., has bought 5,000,000 feet of pine logs cut this winter on deeded lands in the vicinity of Parry Sound, Ont., The logs will be rafted to Saginaw.

Pine and spruce lath have advanced in the Albany market to $3.50. At Saginaw No. 1 white pine lath is quoted at $3.00; No. 2, $3.10; No. 1 Norway, $3; No. 1 hemlock, $3; No. 2 hemlock, $2.20.

The following prices are asked for shingles in the Saginaw valley: No. 1 white pine, $3.80 to $3.90; clear butts, $2.60 to $2.75; 4 × 18 in. cedar, $2.60; clear butts, $2.60; 4 × 16 in. cedar, $3.10.

It is said that the Edward Hines Lumber Company, of Chicago, have purchased 12,000,000 feet of logs from Hale & Bell, and have arranged to have them manufactured by N. N. Wright & Company at Cutler, Ont.

The steamer Ionian sailed from St. John, N. B., last week for Liverpool with the following cargo of timber: 203,342 ft. birch deals, 29,349 ft. birch ends, 652,348 ft. spruce ends, 14,832 ft. boards, shipped by W. M. Mackay; 15,075 ft. deals, by George McKean; 330,330 ft. spruce deals, 12,372 ft. birch timber, by William Thomson & Co.

The J. S. Hartwell Lumber Company, of Chicago, have bought from McFadden & Ferguson, of Ottawa, 15,000,000 feet of logs, which will be manufactured by the Conger Lumber Company at Parry Sound, Ont.

Timber berths were sold at the Crown lands office, Fredericton, N. B., last week as follows: Two miles on Thirty-three Mile Brook, N. W. Upsalquitch river, at upset price; 2½ miles on Memansey Brook to George W. Thompson, at $20 per mile.

It is understood that E. H. Lemay, of Montreal, has again purchased the entire cut of McLachlin Bros., of Arnprior, Ont., and will market a considerable portion of it in the United States, through his selling agents, W. M. Crombie & Company, 81 New street, New York. Mr. Lemay has also purchased other large lines of white pine, basswood and ash, and is also carrying a large quantity of log run spruce.

Messrs. S. P. Musson, Son & Company, in their market report of February 1st, review the lumber market as follows: "During the fortnight there has been only one arrival, the "E. A. Sabean," to our address, with 62,000 feet shippers and 25,000 feet second quality white pine, 138,000 feet hemlock and a small lot of spruce. Dealers are heavily stocked, and it was with difficulty that we could place it at $20.60 and $16 respectively for white pine; $13 for shipping and $11 for second quality hemlock; and $18.50 and $16 for shipping and second quality spruce. It is very desirable that all receipts should cease for some time to come, in order that dealers may get rid of a fair portion of their present supply. Only one small lot of 42,000 dimension shingles has arrived by Halifax steamer, which we placed at $6.79 for 5-inch and $7.39 for 6, 7 and 8-inch. There is very little demand for laying; no arrival has taken place, but we are daily expecting a large cargo, about half of which is in fulfilment of contract."

THE BOSTON MARKET.

There is a better call at Boston for spruce lumber, notwithstanding that the storm has hindered matters somewhat. It is mentioned by leading houses that trade is uncommonly good for February, with promise of an active market early. Quotations are fully sustained: Ten and 12 inch dimensions, $20; 9 inch and under, $18; 10 and 12 inch random lengths, 10 feet and up, $19 to $19.50; 2x3, 2 x 4, 2 x 5, 2 x 6, 2 x 7 and 3 x 4, 10 feet and up, $16 to $16.50; all other randoms, 9 inch and under, 10 feet and up, $17 to $17.50; 5 inch and up merchantable boards, $15 to $16; matched boards, $18 to $19; out spruce boards, $13; bundle furring, $16 to $17.

Hemlock is really firmer, with the demand good for the season: Boards, 12, 14 and 16 feet stock, $14.50 to $15 for good eastern; random, eastern, $13.50 to $14; Pennsylvania, No. 1, $16 to $17; No. 2, $14.50.

White pine is in good winter request, with the market exceedingly firm: Uppers, 1 in., $72 to $73; 2½ and 3 inch, $77.50; 4 in. $82.50; selects, 1 to 1 1-2 inch, $66 to $67; 2 inch, $68 to $70; 2 1-2 to 3 inch, $73 to $76; 4-inch, $75 to $80; fine common, 1-inch, $55; 1 1-4 to 1 1-2 inch, $60; 2 inch, $55; 2 1-2 and 3 inch, $65 to $67; 4 inch, $70; barn boards, $23 to $32; coffin boards, $27 to $32.

Hardwoods are in pretty good request at steady prices: Quartered oak, $56 to $65; fancy, $70 to $75; plain oak, $40 to $47; black ash, $40 to $50; white ash, $45 to $55; cherry, $90 to $130; maple, $32 to $40; sycamore, quartered inch, $43 to $45; plain, $35 to $40.

Shingles are scarce and really firmer, though the demand is still limited: Extra cedar, $3.30 to $3.35; clear, $2.90 to $3; second clear, $2.35 to $2.50; sap, $2.10; extra No. 1, $1.75 to $1.90; British Columbia red cedar, 16-inch, five butts to 2 inches, $3.45 to $3.50; 18-inch, $4.25 to $4.50.

Clapboards are in quiet demand at firm prices: Extra spruce, $35 to $36; clear, $33 to $34; second clear, $29 to $32; extra No. 1, $20 to $23; pine extra, $50 to $52; clear, $45 to $48; second clear, $40 to $42.

Laths are firm, and a little higher: One and five-eighths inch, $3; 1 1-2 inch, $2.85.

SALE OF OTTAWA LIMITS.

A large number of lumbermen gathered in the rotunda of the Russell House, Ottawa, on Wednesday, February 19th, on which day it was announced that the extensive timber limits owned by William Mackey on the Amable du Fond river would be offered for sale. The limits comprise 129¾ miles and were offered in one block, Mr. Peter Ryan wielding the hammer. The bidding started at $200,000 and soon advanced to $650,000, the bidders being Mr. W. C. Edwards, M. P., Mr. H. K. Egan, Mr. J. C. Brown and Mr. J. B. Fraser. Mr. J. R. Booth, who had not yet submitted a bid, raised the figure $5,000, and at the price of $655,000,

the limits were knocked down to him by the auctioneer.

It is generally believed that Mr. Booth secured a bargain, as it is stated that over $1,000,000 was asked for the limits recently by private sale. It is claimed that the limits were originally bought by Mr. Mackey thirty years ago for $1,800, and since that time he has taken off them a large quantity of square timber.

Among those present at the sale were: J. R. Booth, Fred Booth, C. Jackson Booth, Claude McLachlin (Arnprior), Alex Fraser, W. C. Edwards, M. P., George Dewar, Peter Whelen, W. C. Whitney, A. E. Dyment, M. P., (Thessalon), H. K. Egan, Hiram Robinson, George H. Perley, ex-Mayor Bingham, J. B. Fraser, William Fraser, F. W. Powell, J. Barnett (Pembroke), J. B. Klock, R. H. Conroy, Wm. McAuliffe, Harry Cameron, Robert Hurdman, Captain Cameron, John Gilmour, Wm. Gilmour, David Gillies, Hon. George Bryson, Thomas Mackie, M. P., (Pembroke), Wm. J. Conroy, W. G. Perley, George Francis (Pakenham), James Bryson (Fort Coulonge), W. A. Allan, Edward Skead.

The wholesale lumber business of the H. M. Tyler Lumber Company, Tonawanda, N. Y., having been closed out, W. W. Tyler and his son, Van Tyler, have formed a partnership under the firm name of W. W. Tyler & Son, to conduct an export and domestic business.

New Mill Erected 1901. Capacity 100 Million a Year.

Spicer Shingle Mill Co., Limited

It is not the purpose of this advertisement to try and convince the Lumber Trade of Canada that we are the only company in British Columbia manufacturing and shipping shingles in large quantities, or that we "know it all." We recognize that "there are others" and that we are not the only "pebble on the beach." To try and make you believe that we are the only people who can supply you **promptly** and in **large quantities** with a **high-grade** shingle would not only be a **fish** and a **bear** story combined, but it would be gall of the bitterest kind.

Our competitors in the shingle business in B. C. are nice people, and we presume that they know their business; but we are nice people too, and as we have been in the trade as long as any of them, and a **great deal longer** than the most of them, we know that we know our business, and that our competitors are not in the possession of any points of value regarding the manufacture of shingles which has not come to **our knowledge**.

Our old mill was burned down in May last, and in its place we have built what is at the present time the **Largest** Shingle Mill in B. C.

Our new Mill has 7 of the latest improved type of Dunbar machine, which we run night and day—giving us a capacity of about **100 Million** a year.

Competent judges who have seen our new mill, tell us that it is one of the most **substantial**, carefully **constructed**, and best **planned** mills in this province. We ourselves think it is **the very best** shingle mill in B. C.; and we know that it is **equipped** with all the very latest improved Shingle Machinery.

Will the trade please note that our contract with the Pacific Coast Lumber Co. closed on December 31, 1901. D. Ferguson, of London, Ont., is our representative for that province. Orders sent to him, or to us direct, shall have **prompt** attention.

We want our share of your shingle business, and can **guarantee** you satisfaction in **every particular.**

Spicer Shingle Mill Co., Limited,
VANCOUVER, B. C.

OUR SHINGLES

FACTS ARE FACTS WHETHER TOLD ABOUT FISH OR SHINGLES

We make a fine 16-inch Shingle.
We make a fine 18-inch Shingle.
We make a fine 24-inch Shingle.
We make all thicknesses from 6-2 inch to 6-3⅜ inch.

They are going out of our different mills at the rate of 200,000,000 a year. We make more shingles than any one firm in the world. Just think of it!

We claim to be experts. That is not gall. That is a statement which is proven constantly by the testimony of our customers from the Pacific Coast to the Atlantic Coast on the Canadian side, and from Maine to Puget Sound.

Mixed Cars our Specialty. Don't forget that we have all kinds of House Finishing Material in Fir and Cedar, and can load any quantity with shingles.

Come, let us deal together.

CUSTOMERS' ATTENTION.—Please take notice that on and after the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles will be ended, and until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipeg, Man., for Manitoba and the North-West; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

CORRESPONDENCE INVITED

THE COOPERAGE MARKET.

The Sutherland, Innes Company, Chatham, Ont., in the National Coopers' Journal, review the cooperage market as follows:

The sales of No. 1 stock in 28½ and 30, including elm, during January have been extremely active, especially in flour-barrel staves. Meal-barrel staves have received a fairly active inquiry, though not as brisk as expected. The inquiry has been sufficient to reduce the stocks on hand last fall to a minimum basis, at which there will probably be no difficulty in disposing of long before the present season's output is seasoned and put on the market. Good grades of patented hoops have been moving somewhat actively, and fetching fairly remunerative prices. Heading sales have not been as brisk as many manufacturers would like to see them. The stocks in hand of the most salable lines and sizes are not very heavy, and in the larger sizes of basswood manufacturers have advanced the prices, and are only contracting sales on a firm and sure basis, on the supposition that buyers will make active and ready disposition of the parcels they secure.

So far the weather for logging operations has been anything but desirable in the Western States and Canada. The absence of sleighing and the high prices prevailing for timber have prevented mill owners from putting in anything but light stocks, and the majority of factories have not secured any timber at all.

The demand at present for white-oak or light staves is very active and well-seasoned stocks are apparently eagerly sought after, while oak-heading sales have been fairly brisk.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, ONT., MARCH 5, 1902 No 5.

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING MONTREAL.

Weekly Lumberman, published every Wednesday, Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at come and abroad.

Lumberman, Monthly. A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED — TWO GOOD CIRCULAR SAWYERS, capable of sawing dimension timber. Capacity of mill 30 to 40 thousand per day. Address applications to the PEMBROKE LUMBER Co., Pembroke.

40,000 of choice beech.
50,000 of hard maple.
Full particulars on application. THE LEISHMAN MAUNDRELL Co., Woodstock, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

The active buying of Ontario white pine lumber which has been reported for some time past shows no indication of falling off, but on the contrary new buyers have entered the market and the competition is keener than ever. The Edward Hines Lumber Company, of Chicago, have purchased heavily and have taken a large quantity of lumber which would otherwise probably have found a market in the Eastern States. The quantity of stock of the coming season's cut that has been contracted for is almost unprecedented in the history of the trade, while the stock of dry lumber at the mills is so small that manufacturers are obliged in some instances to refuse orders on account of inability to fill them. Sales of certain grades of lumber have recently been made in the Ottawa valley at prices higher than ever before realized. This applies not only to lumber, but also to square and waney pine timber. Lath and shingles are especially strong. It is impossible for dealers to secure lath enough to fill orders, and shingles have been bought up to such an extent that the market is almost bare. Winter mills are said to be selling shingles green from the saw. Conditions are most favorable for a sharp advance in prices, but it is a question whether this will occur except in certain grades in which the shortage is very pronounced. Hardwood lumber is looking better. Old stocks are being worked off, and the new cut will not be heavy. Maple has shown considerable life and seems likely to sell higher.

QUEBEC AND NEW BRUNSWICK.

Quebec shippers have purchased a considerable quantity of spruce deals for shipment to Great Britain. Although prices have not transpired, it is reported that they are in some instances higher than those of last year. The low freight rates will enable the shippers to place the lumber on the British market at a small cost, and by this means they may be enabled to make a fair profit, but the position of the British timber trade does not seem to altogether warrant the high prices that are said to have been paid in one or two instances. There is a good demand for spruce clapboards for shipment to the Eastern States, prices there continuing firm and giving promise of an early advance. New Brunswick cedar shingles are in strong request, and the present price of $3.30 for extras, Boston delivery, is being willingly paid by dealers. It is believed that the scarcity of shingles will result in higher prices for all kinds within the next two months.

UNITED STATES.

With the advance of the year the demand for lumber in all parts of the United States is increasing, and it will probably be heavier than last year. The present situation would seem to indicate that there will be a shortage in some grades of pine, and accordingly prices are decidedly strong. While no united action was taken last week by the Mississippi Valley Lumbermen's Association, the Minneapolis manufacturers have put into effect an independent list making the following advances on the December list: All dimensions and timbers, No. 3 boards, No. 1, 2 and 3 fencing in 6-inch widths, and No. 1 and 2 fencing in 4-inch widths, an advance of 50 cents; inch finish, D stock and better and clear Norway, and thick finish, $2; No. 1, 2 and 3 shop common, $1; 4 and 6-inch flooring, $2; 4 and 6-inch siding, $1; all kinds of lath, 25 cents. In spite of these advances the demand shows no abatement. The price list committee of the Wisconsin Valley Lumbermen's Association have decided upon the following advances: Timber and piece stuff, 50 cents; No. 1 and No. 2 boards and strips, 50 cents; selects and better, $1; lath, 25 cents; shingles, 25 cents. Similar action has been taken during the week by the Pacific Coast Lumber Manufacturers' Association, the increases being $1 on flooring and drop siding and all cedar and spruce lumber, and 50 cents on lath. There is a general scarcity of lath all over the northern country. In Chicago yards No. 1 white pine is quoted at $4.25, No. 1 mixed $4, and No. 2 mixed and hemlock $3.75. Hardwoods are coming into more prominence; in fact, the requirement is said to be quite large, furniture factories being among the best buyers. Buffalo and Tonawanda dealers are advancing their prices on several grades. Maple is plentiful, while basswood is scarce.

GREAT BRITAIN.

There does not seem to be much life to the British timber trade. Some buying has been in evidence, but the transactions have in most cases represented small lots of lumber. Shippers are making a strong effort to close contracts, without

however, being willing to reduce their asking prices. A consignment of spruce deals, all 3 x 9 and of good average length, arrived at Liverpool recently and is being stored, the shippers declining to sell at less than £8 10s. c. i. f. The stock of 3 x 9 in best deals is small. Representatives of Quebec and New Brunswick shipping houses are making their usual trips through Ireland. Business has been done in spruce and red pine deals, but the purchases of white pine have been very light. A correspondent writes that shippers expect to get £5 15s f. o. b. for an ordinary specification of spruce. At a recent auction sale in London 3 x 11 second quality pine sold at £16 16s, which was considered a fair price in view of the quality of the specification. Spruce was offered in mixed quantities and brought satisfactory prices.

STOCKS AND PRICES.

The Rat Portage Lumber Co. expect to cut 35,000,000 feet of lumber at their Rainy River mills this season.

The Lake Superior Timber Company, of Windsor, Ont., are taking out pulp wood in the vicinity of Nepigon Bay.

The Canada Wood Specialty Company, of Orillia, Ont., are making 64,000 hammock reclining chairs for shipment to South Africa.

Fred and Charles Lutes, of North River, N. B., have a portable mill in the woods north of Hicksville, sawing deals and scantling.

T. Pickard & Son, of Glamis, Ont., will start their saw mill this week with the largest stock of hemlock for local trade or shipment in their experience.

A three mile timber berth on the south branch of Benjamin River was sold at the Crown lands office, Fredericton, N. B., last week to the Prescott Lumber Company, at $8 per mile.

A. E. Fulljames, of Winnipeg, is asking for tenders for the supply of 2,000,000 first quality pine lath, to be delivered in Winnipeg in quantities of from two to five hundred thousand per month.

The Eastern Lumber Company, of Tonawanda, is said to have purchased $2,000,000 feet of lumber during the present wtnter, most of it to be manufacsured this year.

Sims Bros., of Little Current, Ont., have sold their season's output of logs on the White Fish River, and a quantity of tawn lumber on Picnic Island, to the Edward Hines Lumber Company, of Chicago, the consideration being about $100,000.

David Seath, secretary of the Montreal Harbor Commissioners, is asking for tenders up to noon of Friday, 7th inst., for furnishing 2,000 piles, 50 feet in length and 9 inches diameter at the small end, of white pine, red pine, tamarac, spruce or rock or gray elm.

The Dominion Lumber Company, of Ingram River, N. S., of which W. D. Beardmore, of Toronto, is president, have received a large shipment of machinery from the Robb Engineering Company, of Amherst, and are making preparations for a large cut of lumber the coming season.

The following are the quotations at Buffalo for slack cooperage stock: Dry elm staves, $7.75 to $8 for first-class; $4.25 to $4.50 for second-class; basswood heading, 5½ to 5¾ cents for first-class, 3½ to 3¾ for second-class, hoops $8.50 to $8.85 for 6-foot coils, $8 to 8.50 for 5 1-2 foot, $5 for hickory.

The demand for hemlock is assuming a stronger tone than for several months. Piece stuff sells in the Chicago market at about $12.50 in carload lots. Long hemlock is in special request and is difficult to find. In New York city the base price of hemlock is $15 and in Buffalo $13.50, but it is thought that an advance will soon be put into effect.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

The sale of the extensive Mackay limits was the stellar attraction in local lumber circles last month. Although the property was sold by public auction, it was a foregone conclusion that Mr. J. R. Booth, the veteran lumber baron, would be the purchaser against all comers. Mr. Booth made but one bid and that one was entered, on the earnest request of Mr. Peter Ryan, auctioneer, who had threatened to withdraw the limits after the other bids were all entered. Mr. Booth secured the limits, 129¾ miles in extent and situated on the river Amable du Fond, for $655,000. The limits were purchased 48 years ago from the Ontario Government for $1,800. Mr. Mackay's purchase certainly brought him no regrets, as the square timber taken of the limits since has netted him, it is estimated, over $3,000,000. The limits are still well timbered with white and red pine of superior quality, suitable for sawlogs. The limits are well watered and permit of a short average draw. Included in the property sold were a well equipped saw, planing and shingle mill at Eauclaire Station, on the main line of the C. P. R., and slides and dams. Virgin forest covers part of the limits, which contain considerable spruce, suitable for pulp making. An outlet for this will probably be found in the pulp mills which Mr. Booth proposes to erect at the Chaudiere opposite his present mill. The sale of the limits was a record one, according to Auctioneer Ryan, in price obtained and time considered. It was probably the largest sale ever made by public auction in Canada, and it was all over inside thirty minutes.

The thaw and heavy rains which marked the closing days of February have added to the weight of troubles the present season has brought to the lumber operators. The roads, which were poor in some places, will be rendered impassable and a considerable quantity of the present season's cut will in all likelihood have to be left on the limits until next year. This, of course, means a shortage in the supply for the mills. Disease in the camps proved a great handicap in the log production, and combined with the climatic conditions, has brought the cut below the average. In some districts, on the other hand, the thaws have done good service by reducing the great depth of snow. Mr. Robert Hurdman, the veteran lumberman, reports operations on his limits as progressing satisfactorily.

The production of cedar ties has been seriously interfered with by the adverse climatic conditions of the past winter. The lack of frost in the earlier part and the subsequent heavy snow-falls made access to the cedar swamps very difficult, and as a result there has been a marked decrease in the output of ties. The demands of the railways will be met only part way, and prices are bound to advance in a considerable degree. Another factor in the advance in price is the yearly increasing difficulty of getting suitable stock. Dealers now have to go farther afield. Last summer only about 10,000 ties were loaded between Ottawa and Coteau, according to a reliable authority, where 12 years ago 150,000 were handled. The lowly tie is bound to become more valuable as the years bring the extension of the railways, and the reduction of the immediate available supply of ties.

The Rideau Lumber Company has just closed the sale of a raft of square timber to W. & J. Sharples, of Quebec. The raft was taken out on the Dumoine river during the present season. Robert Hurdman got out one raft on the same stream and three on the Kippewa. A few years ago five times this amount of square timber was taken out on these streams. The Rideau Lumber Company got a price considerably in advance of last year's

figure, proving that pine is enjoying a permanent advance.

Ex-Mayor Bingham, of Ottawa, is a candidate for the Provincial Legislature. Mr. Bingham has had charge for many years of the movement of the logs on the Gatineau river, and is well known to the lumber trade.

Military operations in South Africa have delayed the resumption of the lumber trade between that country and Canada. Ald. Davidson, of the firm of Davidson & Thackeray, reports no orders of importance from the firm's representative recently stationed in South Africa. The close of the war, however, promises to mark a boom.

The following prices were recently secured by a local mill owner: White pine lath, 1⅜ inch wide, $2.50 per M.; xxx 18 in. cedar shingles, $3.25; xx cedar shingles, $2.25. These prices are the highest obtained in years.

In my correspondence in a recent number of the Weekly Lumberman, dealing with the question of shingles the term "width" was substituted by accident for "length." The Ottawa shingle is 18 inches in length and the western prodnct 16 inches.

OTTAWA, March 4th, 1902.

The steamer Gorotea, 1,827 tons, has been fixed to load deals in the Bay of Fundy in April or May for w.c. England at 36s 3d.

New Mill Erected 1901. Capacity 100 Million a Year.

Spicer Shingle Mill Co., Limited

It is not the purpose of this advertisement to try and convince the Lumber Trade of Canada that we are the only company in British Columbia manufacturing and shipping shingles in large quantities, or that we "know it all." We recognize that "there are others" and that we are not the only "pebble on the beach." To try and make you believe that we are the only people who can supply you **promptly** and in **large quantities** with a **high-grade** shingle would not only be a **fish** and a **bear** story combined, but it would be gall of the bitterest kind.

Our competitors in the shingle business in B. C. are nice people, and we presume that they know their business; but we are nice people too, and as we have been in the trade as long as any of them, and a **great deal longer** than the most of them, we know that we know our business, and that our competitors are not in the possession of any points of value regarding the manufacture of shingles which has not come to **our knowledge**.

Our old mill was burned down in May last, and in its place we have built what is at the present time the **Largest** Shingle Mill in B. C.

Our new Mill has 7 of the latest improved type of Dunbar machine, which we run night and day—giving us a capacity of about **100 Million** a year.

Competent judges who have seen our new mill, tell us that it is one of the most **substantial**, carefully **constructed**, and best **planned** mills in this province. We ourselves think it is **the very best** shingle mill in B. C.; and we know that it is **equipped** with all the very latest improved Shingle Machinery.

Will the trade please note that our contract with the Pacific Coast Lumber Co. closed on December 31, 1901. Orders sent to us by letter or telegraph shall have our best attention.

We want our share of your shingle business, and can **guarantee** you satisfaction in **every particular.**

Spicer Shingle Mill Co., Limited,
VANCOUVER, B. C.

OUR SHINGLES

FACTS ARE FACTS WHETHER TOLD ABOUT FISH OR SHINGLES

We make a fine 16-inch Shingle.
We make a fine 18-inch Shingle.
We make a fine 24-inch Shingle.
We make all thicknesses from 6-2 inch to 6-3⅜ inch.

They are going out of our different mills at the rate of 200,000,000 a year. We make more shingles than any one firm in the world. Just think of it!

We claim to be experts. That is not gall. That is a statement which is proven constantly by the testimony of our customers from the Pacific Coast to the Atlantic Coast on the Canadian side, and from Maine to Puget Sound.

Mixed Cars our Specialty. Don't forget that we have all kinds of House Finishing Material in Fir and Cedar, and can load any quantity with shingles.

Come, let us deal together.

CUSTOMERS' ATTENTION.—Please take notice that on and after the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles will be ended, and until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipeg, Man., for Manitoba and the North-West; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

CORRESPONDENCE INVITED

THE BOSTON MARKET.

While the spruce lumber position at Boston is very firm, trade has ruled dull since the storm, which interfered a good deal with building. Quotations are not reduced in the slightest degree. On the contrary, prominent buyers have requested sellers for the mills to guarantee them against further advances in prices: Ten and 12 inch dimensions, $20; 9 inch and under, $18; 10 and 12 inch random lengths, 10 feet and up, $19 to $19.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, $16 to $16.50; all other randoms, 9 inch and under, 10 feet and up, $17 to $17.50; 5 inch and up merchantable boards, $15 to $16; matched boards, $18 to $19; out spruce boards, $13; bundle furring, $16 to $17.

While hemlock has been ruling quiet for a few days, for the same reason as spruce, the position is very firm, with a further advance suggested. Boards, 12, 14 and 16 feet stock, $14.50 to $15 for good eastern; Vermont, $13 to $14; random, eastern, $13.50 to $14; Pennsylvania, No. 1, $16 to $17; No. 2, $14.50.

Shingles are in short supply and firm, though the demand is the usual quiet one of winter: Extra cedar, $3.30 to $3.35; clear, $2.90 to $3; second clear, $2.35 to $2.50; sap, $2.10; extra No. 1, $1.75 to $1.80; Washington and British Columbia red cedar, 16-inch, five butts to 2 inches, $3.45 to $3.50; 18-inch, $4.25 to $4.50.

Clapboards are scarce and firm. At the same time the demand is small: Extra spruce, $35 to $36; clear, $33 to $34; second clear, $29 to $32; extra No. 1, $20 to $23; pine extra, $50 to $52; clear, $45 to $48; second clear, $40 to $42.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, ONT., MARCH 12, 1902 No 6.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday, Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's Issue.

SOFT ELM, BIRCH, BLACK ASH, 1STS and 2nds preferred. J. F. STENGAL, 990 Ellicott Square, Buffalo, N.Y.

WANTED—FOR EXPORT, ABOUT 240 M. feet Prime Soft Elm, 1 inch to 4 inch thick, usual widths and lengths. About 100 M. feet 1 inch Soft Elm Coffin Boards, 13 inches and wider, 6½ and 7 feet 01 multiples. For shipment during Montreal season. Cash against R. R. B. L. Address "PRIME," CANADA LUMBERMAN.

WANTED

TO BUY A MILLION GOOD NO. 2 WHITE Pine Lath and one-half million No. 1. Must be standard size, 4 feet, and well manufactured. Quote best cash prices delivered f.o.b. cars Pittsburg, Pa. AMERICAN LUMBER & MFG. CO., Pittsburg, Pa.

TO LUMBER MANUFACTURERS.

THE ADVERTISERS ARE PREPARED TO act as agents and bookers in Great Britain and in the Continent for shippers, making contracts for them for shipment during the season and making advances in cash against stocks. Reference, The Bank of England. They now want stocks of White and Norway Pine, Hardwood Lumber and Logs, and Birch for chair seats. For further particulars address Box 47, THE CANADA LUMBERMAN, Toronto, Canada.

FOR SALE.

BAND MILL FOR SALE ON GEORGIAN Bay, eight miles from Parry Sound. Capacity 40 M. feet per day. Modern mill of our own manufacture throughout. Ample boiler capacity, fine piling grounds with tramways; 16 to 20 feet of water right up to dock; mill situated in a well sheltered harbor. This plant can be bought cheap, considerably less than its orginal cost. Immediate possession can be given and stock of 2 or 3 million logs can be sawn by the thousand or purchased at a reasonable price. Address WATEROUS, Brantford, Canada.

FOR SALE.

100,000 feet of 1 x 6, 8 and 10 pine, 10 to 16 feet, common and dressing.
50,000 1 inch chestnut, wormy, and common and better.
20,000 1 inch soft maple.
20,000 3 inch soft maple.
12,000 1 inch soft elm.
30,000 1, 1½, 2 inch red oak.
Piece stock in Red and White Oak, Black and White Ash and Chestnut.
To cut to order { 40,000 of choice beech. 50,000 of hard maple.
Full particulars on application. THE LEISHMAN MAUNDRELL CO., Woodstock, Ont.

FIRES.

The saw mill and stave factory of J. E. Murphy at Hepworth, Ont., were destroyed by fire last week. The loss is about $8,000, partially covered by insurance.

The factory of the Columbia Handle & Tool Company, London, Ont., was completely destroyed by fire on 9th inst. The loss on plant and stock is about $20,000.

Mr. V. Travers, of Liverpool, England, is about to visit Canada and the United States in connection with contracts for the importation of timber. The trip is being undertaken in the interest of his firm and that of Messrs. Sieveking, Podmore & Company, 7 Crosby Square, London.

CURRENT TRADE CONDITIONS.

ONTARIO.

Another circumstance has transpired to further strengthen the position of white pine lumber. The recent mild weather has seriously interfered with logging operations, and in many districts prevented entirely the hauling of logs to the streams. Should the weather continue mild, a large quantity of logs will necessarily be left in the woods. An operator in the Georgian Bay district states that fully one-third of the winter's cut of logs on the north shore remains to be hauled, and that the present outlook is anything but encouraging. As a large proportion of the white pine production of the coming season has already been contracted for, a considerable reduction in the cut of the mills would be likely to bring about a famine in this class of lumber. The market at the present time, therefore, is exceptionally strong. Ottawa valley manufacturers speak most hopefully of the prospective demand. The heavy buying in that district of late by United States concerns has almost wiped out the supply of good lumber, while the stock of the lower grades has been reduced to a point which gives the seller the advantage in effecting sales. The building season is opening up satisfactorily, although in Toronto talk of labor troubles has produced a somewhat unsettled feeling and may restrict the volume of building until the matter is finally settled. The open weather has created a brisk enquiry for shingles. Hemlock lumber is stronger, sales in Toronto ranging from $12.50 to $13. Implement and furniture factories are buying hardwoods liberally, and although prices have not materially improved, it is believed that the foundation is being laid for a substantial advance later on.

QUEBEC AND NEW BRUNSWICK.

The probability of early spring sawing has caused a slight weakening of the spruce lumber market in respect to local trade. There has been an average input of logs, and if weather conditions this spring should be favorable for lumbermen, the mills are likely to make a large cut. Some manufacturers will this year saw a smaller quantity of British deals than usual and give more attention to the United States and home markets. Prices of clapboards continue high, sales of extra spruce having been made for Boston delivery at $36. Extra cedar shingles are selling at $3.30, while some manufacturers are holding out for a ten-cent advance on this figure. Spruce laths have improved, the average quotation for 1⅝ inch, on Boston freight rate, being $3.10.

UNITED STATES.

Adverse weather conditions have affected the lumber conditions of the past ten days. In the Eastern States storms and high water have limited the volume of business, and in almost every section some trouble from this cause is reported. In the logging districts the weather has been so mild that it has been necessary to cease hauling in some instances, and as the result a shortage in the log crop may be encountered. This condition has further strengthened the white pine market. Eastern dealers report that they have sufficient orders on hand to keep them busy for another month. A general advance in the price of low grade pine seems to be due, and it is the wonder of the trade that it has not taken place. Hardwood prices are showing a tendency to advance. Considering the light stock of most grades, prices are not as high proportionately as white pine. Numerous inquiries are reported for maple and ash. Lath are scarce and high in price. Dealers are picking up shingles wherever they can, and although the sawing season may open earlier than usual, the supply is not likely to be more than equal to the demand. Best 18-inch hemlock shingles are quoted in New York at $3.15 to $3.20, and clear pine at $3.75. Hemlock boards and piece stuff are selling in the Saginaw valley at $11 and $12.50. At North Tonawanda the base price for hemlock is $13.50 to $14.00.

GREAT BRITAIN.

The position of the British market has not materially changed. Operations in Baltic and Swedish goods have been characterized by indifference, while the buying of Canadian lumber has been of a more careful character than usual. The standard sizes of deals are meeting with a ready sale, but there is much difficulty in disposing of inferior qualities. A report from Manchester states that spruce deals are offering c.i.f. for the coming season at about 15 shillings a standard under the highest figures touched in 1901, but even at these prices buyers are not eager to close contracts. This statement no doubt refers to New Brunswick and

Nova Scotia spruce, as it is understood that a considerable quantity of Quebec spruce has been placed through the usual channels. The present stocks in Manchester and Liverpool contain a large quantity of 7 and 8 inch deals, 9 x 3 and 11 x 3 being very scarce. The claim is made that in recent years shippers have reduced the quantity of wide sizes in their specifications, and while the usual cut of deals formerly contained 25 per cent. 11 x 3 and 40 per cent. 9 by 3, now 10 and 15 per cent. respectively are all that is included, the practice being to take out the wide deals and sell them at enhanced prices. It is contended that this practice is not satisfactory to the British importer. The demand for timber is steady; waney pine and rock elm are scarce and strong, while square pine and soft elm are inactive and weaker. There is a large stock of ash at several ports, as owing to the high price substitutes are being used to some extent.

STOCKS AND PRICES

The city of Kingston, Ont., is asking for tenders up to the 13th inst. for the supply of 200,000 feet B. M. of pine plank, 3, 2 and 1½ inch, and 40,000 lineal feet of cedar sleepers, 5 x 4 inch.

Thomas Pitts & Company, of Bay City, sold on March 1st to Cleveland parties 8,000,000 feet of lumber to be manufactured at Cutler, Ont., this season. The price is not given, but is understood to be about $16.50.

The wharf to be built by the Dominion Government at Caraquet, N. B., will require 306,000 feet of spruce timber, 98,000 feet hemlock timber, 142,000 feet birch timber, to be sawed, 1,370,000 feet hemlock logs, and 63,000 lineal feet ballast poles, of spruce, 7 inches at top. The contractors for this work are Simons & Burpee, of Gibson, N. B.

Sims Bros., of Little Current, Ont., confirm the report that they have sold this season's cut of logs to the Edward Hines Lumber Company, of Chicago, They advise us that they have also just sold last year's cut of white pine to Potter, Teare & Company and the Saginaw Bay Company, of Cleveland. Good prices were realized in each case, the sales aggregating about $100,000.

Concerning the Barbadoes lumber market Messrs. S. P. Musson, Son & Company, in their report of February 15th say: "Arrivals have again been free during the fortnight, and the market continues in an overstocked condition. The "Rachael H. Boyd" has arrived with a cargo of 30,000 feet spruce and 76,000 feet white pine. The former was placed at $17.25 for shipping and $12.25 for second quality, and $11.50 for inferior. The "Foster Rice" arrived on 6th inst. from Annapolis, N.S., with 220,000 feet white pine, which had been sold to the contractor to H. M. Forces, for delivery at Antigua. The "Congo" arrived on the 7th from Weymouth, N. S., with 130,000 shipping white pine and 53,000 feet second quality, and on the 12th the "Damietta & Joanna" arrived from Calais to our address with 57,000 feet white pine boards, 37,000 feet white pine plank, and 12,000 feet spruce scantling, which we placed at $20.10 for shipping and $15.10 for second quality boards, $16.00 for shipping and $11.00 for second quality plank, and $12.00 for second quality spruce scantling. This steamer brought 2,000,000 cedar laying shingles, of which 1,000,000 was placed on contract at $2.00; the remainder, owing to dealers being filled up, brought only $1.70.

THE GLASGOW MARKET.

The following review of the Glasgow timber market is furnished by Messrs. Edmiston & Mitchells, under date of 28th February:

There has been more activity in the timber trade this month than last, and a fair amount of business has been done at firm prices. Several shipments of Quebec and Lower Port spruce and red pine are rived during February, and in all cases a sale was effected from the ships' side at satisfactory prices. The amount of business done here in contracting forward for Quebec timber and deals has been of only moderate dimensions, due no doubt to the high prices quoted by the shippers. White pine, both in logs and deals, continues very dear, and seems likely to continue so from all appearances. Deliveries from stock have been reasonably well maintained during the month, and of pine goods particularly the amount on hand must now be very small.

The Clyde shipbuilding returns show that 16 vessels, aggregating about 41,000 tons, were launched, compared with 15 vessels of 60,000 tons at the same period last year. Unfortunately the amount of new business being placed is by no means considerable, which is not surprising, in face of the low freights ruling. The house-building trade is showing a considerable revival fortunately, and new work amounting to about half a million sterling has been fixed during the past two months.

WHITE PINE—Business during the month has been quiet. We hear of no transactions in waney boardwood, but there have been a few sales of first-class square deckwood, prices ranging from 2s. 6d. to 2s. 9d. per cubic foot, according to size. The stock of first quality waney pine is practically exhausted in first hands. There is, however, more than sufficient of square wood for prospective wants.

RED PINE—We hear of no sales to report. Prices, however, are firm, the stock being low.

OAK—There has been a fairly good demand during the month, chiefly for medium-sized wood, and we hear of a parcel or two of small wood, 12 to 14 inches, being cleared at 2s. 9d. to 2s. 11d. per cubic foot.

ELM—There has been a moderate enquiry during the month, and quite a number of sales. Prices of first-class rock elm are firm, but there is a disposition to accept lower prices for soft elm, as the stock of this class is heavy.

QUEBEC BIRCH—The amount of business done during the month has been only trifling, and prices are unchanged at about 16d. for 14 inch average. The stock on hand is small, and there is very little inquiry.

N. S. BIRCH—The stock on hand moves off very slowly, and prices show no improvement at a penny over the inch.

QUEBEC PLANKS—The stock of Quebec planks have been cleared out, but there is still a large amount of Lower Port planks on hand. A shipment of about 100 standards Halifax planks arrived this month, and was disposed of at £6 10s. per standard "ex quay" terms.

ASH—The market continues to be quite unusually dull, and there is not now the demand that used to exist in this market. When the price was raised so much a year or two ago, the principal consumers of Quebec ash looked out for a cheaper substitute and found it in poplar, and now a number of them prefer the latter. The stock on hand is large, and is ample for requirements for some time to come.

THE BOSTON MARKET.

Again a snow-storm has made a quiet market on spruce lumber. But if orders are wanted—anything that has to be sawn—full prices have to be paid. Small randoms on the market, in cargoes that must be sold, hardly bring full prices, but even such lumber promises to do better as soon as house-building starts. Quotations are steady: Ten and 12 inch dimensions, $20; 9 inch and under, $18; 10 and 12 inch random lengths, 10 feet and up, $19 to $19.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and

35 and 36 Freehold Loan Building TORONTO, Ont.

up, $16 to $16.50; all other randoms, 9 in. and under, 10 feet and up, $17 to $17.50; 5-inch and up merchantable boards, $15 to $16; matched boards, $18 to $19; out spruce boards, $13; bundle furring, $16 to $17.

Hemlock boards are firmer and higher: Boards, 12, 14 and 16 feet stock, $15 to $15.50 for good eastern; Pennsylvania, No. 1, $16 to $17; No. 2, $14.50 to $15.

White pine continues very firm: Uppers, 1-in. $72 to $73; 2½ and 3 in. $77.50; 4-in. $82.50; selects, 1 to 1½ in. $66 to $67; 2-in. $68 to $70; 2½ to 3 in. $73 to $76; 4-in. $75 to $80; fine common, 1-in. $55; 1¼ to 1½ in. $60; 2-in. $55; 2½ and 3 in. $65 to $67; 4-in. $70; barn boards, $23 to $32; coffin boards, $27 to $32.

Hardwoods are in rather quiet demand, but the market is steady: One-inch, whitewood, $38 to $40; thicker, $39 to $42; ⅜ inch, $30 to $35; saps, inch, $25 to $30; common, $23 to $25; quartered oak, $56 to $65; fancy, $70 to $75; plain oak, $40 to $47; black ash, $40 to $50; white ash, $45 to $55; cherry, $90 to $130; maple, $32 to $40.

Shingles continue in short supply and with a firm market: Extra cedar, $3.30 to $3.35; clear, $2.90 to $3; second clear, $2.35 to $2.50; sap, $2.10; extra No. 1, $1.75 to $1.90; Washington and British Columbia red cedar, 16-inch, five butts to 2 inches, $3.45 to $3.50; 18-inch, $4.25 to $4.50.

Clapboards are very scarce and firm and very high prices would be paid for lots where wanted. Pine clapboards are out of the market: Extra spruce, $36 to $38; clear, $36 to $38; second clear, $33 to $35; extra No. 1, $24 to $26.

New Mill Erected 1901. Capacity 100 Million a Year.

Spicer Shingle Mill Co., Limited

It is not the purpose of this advertisement to try and convince the Lumber Trade of Canada that we are the only company in British Columbia manufacturing and shipping shingles in large quantities, or that we "know it all." We recognize that "there are others" and that we are not the only "pebble on the beach." To try and make you believe that we are the only people who can supply you **promptly** and in **large quantities** with a **high-grade** shingle would not only be a **fish** and a **bear** story combined, but it would be gall of the bitterest kind.

Our competitors in the shingle business in B. C. are nice people, and we presume that they know their business; but we are nice people too, and as we have been in the trade as long as any of them, and a **great deal longer** than the most of them, we know that we know our business, and that our competitors are not in the possession of any points of value regarding the manufacture of shingles which has not come to **our knowledge**.

Our old mill was burned down in May last, and in its place we have built what is at the present time the **Largest** Shingle Mill in B. C.

Our new Mill has 7 of the latest improved type of Dunbar machine, which we run night and day—giving us a capacity of about **100 Million** a year.

Competent judges who have seen our new mill, tell us that it is one of the most **substantial**, carefully **constructed**, and best **planned** mills in this province. We ourselves think it is **the very best** shingle mill in B. C.; and we know that it is **equipped** with all the very latest improved Shingle Machinery.

Will the trade please note that our contract with the Pacific Coast Lumber Co. closed on December 31, 1901. Orders sent to us by letter or telegraph shall have our best attention.

We want our share of your shingle business, and can **guarantee** you satisfaction in **every particular.**

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, ONT., MARCH 19, 1902 No. 7

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday, Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at come and abroad.

Lumberman, Monthly. A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

CURRENT TRADE CONDITIONS.

ONTARIO.

As the season advances the outlook for the lumber trade becomes more promising. The number of permits issued within the past fortnight for new buildings to be built in the city of Toronto shows that a large quantity of lumber will be consumed in building operations. It now seems probable that serious labor troubles in that city will be averted, in which case a season of great activity may confidently be predicted. In other parts of the province there promises to be more building than last year. The lumber market received an unexpected boom by the recent mild weather, which almost put an end to logging operations for the time being. It is doubtful whether there will be sufficient cold weather, accompanied by the necessary snow fall, during the next month to enable logging operations to be completed as arranged, while it is feared that there will be a scarcity of water for the drives this spring. It is predicted that weather conditions will curtail the quantity of logs available for this year's sawing by at least 20 per cent.

The stocks at the mills are so small that buyers are finding difficulty in obtaining the necessary assortments. There is practically no good lumber in white pine that has not been contracted for. Of the common grades the supply is more plentiful, although it is estimated that nothing will be left in the yards when the mills resume operations. Some manufacturers are asking $14.50 to $15.50 for box and common, the latter for 12 to 16 feet lengths. For 1 by 10 and 12 inch mill culls $12 at the mill is asked. Hemlock lumber sells on the basis of $9.50 for 2 × 4 up to 12 inch, in lengths from 12 to 14 feet. It is almost impossible to give a quotation on white pine shingles, as very few manufacturers have any for sale. For No. 1 pine lath as high as $2.85 at the mill has been asked, but the average quotation is about $2.75.

QUEBEC AND NEW BRUNSWICK.

There is not so much life to the spruce market as earlier in the year. The fact that the British trade has not improved to the extent that was expected has restricted the volume of buying on that account, but holders of Quebec spruce deals are showing no anxiety as to the future, believing that the market will absorb the supply at good prices. Fancy prices are being paid for clapboards for shipment to the United States, where the supply is very light. The quotation for No. 1, Boston delivery, is $38. Cedar shingles continue to sell on the basis of $3.30 for extras. The log supply has become an important factor in the market. What is believed to be an early breaking up of winter has resulted in the decision of one or two operators not to attempt to drive their logs this year, as unless there should be large snow-falls within the next month, the streams will not be suitable for driving purposes. It is estimated that the cut this year on the Upper St. John river in New Brunswick was about 130,000,000 feet, which is about the same as last year. On the Lower St. John, however, unfavorable weather conditions curtailed the output. The total cut of spruce logs this winter was perhaps slightly less than one year ago, with the probability that a considerable proportion of the production will not reach the mills for this season's sawing.

UNITED STATES.

Our Albany price list this week shows an advance of one dollar per thousand in the price of 1 to 2 inch fine common and 1 by 12 inch shippers. This indicates the tendency of the white market. The recent mild weather has stimulated the buying of lumber. Dealers are picking up stock in the Lake Superior district and are paying prices which a few months ago would have been regarded as excessive. There is an active demand for No. 4 boards. This is one of the hopeful features of the white pine situation, as the supply of lower grades, while not large, is much greater than of good lumber. Should the demand develop as now seems probable, something approaching a famine in white pine will likely be experienced, particularly as the available crop of logs for the sawing season has been reduced in quantity by the recent mild weather. Spruce lumber is firm. The amount of dry stock on hand is gradually decreasing, whereas the new cut will not be in shipping condition for some time yet. Hemlock lumber has improved of late. An advance of one dollar per thousand has been made, the base price being $14.50 at Buffalo, $15 at Albany, $16 at New York, and $17 at Boston. It is claimed that the demand is greater than the supply. Hardwoods are stronger. Thick white ash has advanced at Buffalo to $35 to $37 for 1¼ to 2 inch, and $40 to $42 for 2½ to 4 inch. Birch is being used quite largely for house finish. Basswood is meeting with a larger inquiry. A marked shortage of lath is reported from producing points and from eastern wholesale markets. In Chicago the yard quotation on No. 1 white pine lath is $4.25, and on No. 2 mixed and Norway $3.75. At

Duluth and Ashland No. 1 is bringing $3.75, and No. 2 $3.25 in large quantities, and 25 cents more in car load lots. Shingles are firm in price, and the demand is increasing. It is predicted that extra A red cedar shingles will bring $3 in the Minneapolis market before the close of this year. The present price is $2.65. Clear white pine shingles are bringing $3.40 in Chicago.

GREAT BRITAIN.

We cannot report a material improvement in the British timber market. Very little buying is being done by importers, as there is an impression that the prices which shippers are asking are too high, and that sooner or later they must be adjusted to the level of the market. The consumption is moderately active, but dealers are obtaining their requirements from the stocks now landed, which in most cases can be bought on more liberal terms than in the case of new stock to arrive. First quality pine deals of broad average are inquired for, and recent sales have been made at high prices. The lower qualities are less firm. The outlook for spruce does not seem to be as good as it was two months ago. Prices at auction sales have shown weakness, 3 x 7 unassorted selling as low as £7 5s, and a small lot of third quality Quebec spruce, 3 x 11, at about £8 10s. The stock of waney timber at Glasgow and Liverpool is small and there has been some activity in demand. Messrs. Denny, Mott and Dickson state that the attempt to substitute swamp elm for Canadian rock elm has caused much friction and dissatisfaction to dealers and cousumers in Great Britain.

STOCKS AND PRICES.

Mill culls are held as high as $15 by some Buffalo dealers. The range of box lumber is from $17 to $25.

Butler Bros., of Woodstock, Ont., have recently made an extensive purchase of shingles in British Columbia.

John Cameron, of Watson's Corners, Ont., has sold 100,000 feet of pine lumber to H. S. Toffey, of Portland, and 50,000 feet to T. B. Caldwell, of Lanark.

R. A. Brown, of Grand Forks, B. C., is taking out 2,700,000 ft. of logs on the north fork of the Kettle river, to be manufactured at the mill of Lequime & Powers on Smelter Lake.

W. H. McAuliffe, of Ottawa, has purchased 2,000,000 feet of dry lumber, the cut of A. Lumsden's mill at Temiscaming. Some of the lumber will be shipped to the United States and the balance sold in the local market.

It is estimated that the cut of logs during the past winter on the Canaan river in Queen's county, N. B., was about 5,000,000 feet. Of this quantity West Bros. got out over one million, the Sussex Mercantile Co. one million, and H. B. Heatherington over one and a half million.

The recent mild weather has been a drawback to logging operations. The Parry Sound Lumber Company have their logs cut in their own camps about all watered, but some of their jobbers are behind with their work. Hamill Bros. have 20,000 pieces yet to water, and McCormick & McLeod have 100,000 logs to draw. The William Peter Estate have made good progress with their logging operations.

Quotations at the Chicago yards for No. 1 pine piece stuff range from $16 to $20 for short and from $18 to $26 for long, the latter quotation being 3x12-30. No. 1 boards are quoted at from $25 to $26 for 12 inch, $21 to $22.50 for 10 inch and $22.50 for 8 inch. No. 2 boards are based on $22 to $23.50 for 12 inch, $19.50 for 10 inch and $18.50 for 8 inch. No. 3 boards sell at $16.50, $17 and $17.50 for 8, 10 and 12 inch respectively.

Messrs. S. P. Musson, Son & Company in their report of March 1st, say of the Barbadoes market: "The arrivals have been the "Mercedese," from Belliveau Cove, N. S., and the "Hattie P," from Annapolis, N.S. The cargo of the former was sold for another market; that of the latter, consisting of 40,000 feet white pine, 44,000 feet spruce and 5,000 plain hemlock, has been sold at $20.05 shipping, $14.50 second quality white pine; $17.05 shipping, $13.05 second quality spruce; $11 hemlock. It is reported that other cargoes are on the way, and the market is heavily stocked. No receipts of shingles have taken place.

There are in the St. John river above and below the Fredericton booms and at Grand Falls, N B., about 30,000,000 feet of loose logs which have come down from the drives and are now in the ice. At a meeting of representative lumbermen held last week, tenders were opened for delivering the logs at the different mills, but as they were considered too high, it was decided that the lumbermen should do the work themselves, under the direction of J. Fraser Gregory. The logs are so situated that should the ice suddenly run the logs would be in danger of being carried out to the sea.

THE BOSTON MARKET.

The spruce lumber market is firmer, with a better demand. The departure of the snow has started up building operations, or would have but for the transportation strike. But that is now over. Meantime advices from the northern and eastern spruce mills say that the snow is about all gone, and that the cut of spruce logs has been considerably shortened. Lumbermen also fear that the drives must be hung up for the want of water. Orders are better, but full prices have to be paid: Ten and 12 inch dimensions, $20; 9 inch and under, $18; 10 and 12 inch random lengths, 10 feet and up, $19 to $19.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, $16 to $16.50; all other randoms, 9 in. and under, 10 feet and up, $17 to $17.50; 5-inch and up merchantable boards, $15 to $16; matched boards, $18 to $19; out spruce boards, $13; bundle furring, $16 to $17.

Hemlock is fully sustained at the recent advance: Boards, 12, 14 and 16 feet stock, $15 to $15 50 for good eastern; Pennsylvania, No. 1, $16 to $17; No. 2, $14.50 to $15.

White pine is firmer and higher, with advices of a still further shortened supply, from which there is never to be any relief: Uppers, 1-in. $75 to $80; 2½ and 3 in. $80 to $85; 4-in. $85 to $88; selects, 1 to 1½ in $66 to $68; 2-in. $69 to $70; 2½ to 3 in. $74 to $76; 4-in. $79 to $80; fine common, 1-in. $56 to $58; 1¼ to 1½ in. $62 to $66; 2-in. $68 to $70; 2½ and 3 in. $69 to $71; 4-in. $80; barn boards, $23 to $33; coffin boards, $27 to $32.

Hardwoods are steady, with a quiet request: One-inch, whitewood, $38 to $40; thicker, $39 to $42; ⅝ inch, $30 to $35; saps, inch, $25 to $30; common, $23 to $25; quartered oak, $56 to $65; fancy, $70 to $75; plain oak, $40 to $47; black ash, $40 to $50; white ash, $45 to $55; cherry, $90 to $130; maple, $32 to $40.

Shingles are in short supply: Extra cedar, $3.30 to $3.35; clear, $2.90 to $3; second clear, $2.35 to $2.50; sap, $2.10; extra No. 1, $1.75 to $1.90; Washington and British Columbia red cedar, 16-inch, five butts to 2 inches, $3.45 to $3.50; 18-inch, $4.25 to $4.50.

Clapboards continue scarce and fancy prices are paid: Extra spruce, $38 to $40; clear, $36 to $38; second clear, $33 to $35; extra No. 1, $24 to $26.

Laths continue firm: One and five-eighths inch, $3 to $3.25; 1½ inch, $2.85 to $3.

TRADE OPENINGS.

The following were among the enquiries relating to Canadian trade received at the Canadian Government Office in London during the week ending 10th March, 1902. The names of the parties may be obtained from the publishers of this journal.

Inquiry is made by an Irish house for all classes of timber, spruce sheetings, floorings, mouldings, etc.

A London agent has a demand for birch, maple, oak and pitch pine wood blocks for flooring ; c.i.f. any port in the United Kingdom ; also for furniture wood and coffins and caskets in shook.

Inquiry is made by a wholesale stationery firm for Canadian mills turning out large quantities of manilla folding box boards.

A London importer has asked to be referred to Canadian makers of turned wood boxes and other similar wood goods, also spindles, broom handles, etc. To parties who could fill orders promptly, considerable business might result.

The shingle mill of the British Columbia Manufacturing Co. on False Creek, near Vancouver, B.C., was destroyed by fire last week. The capacity of the mill was 76,000 shingles per day, and the loss is estimated at $12,000.

New Mill Erected 1901. Capacity 100 Million a Year.

Spicer Shingle Mill Co., Limited

It is not the purpose of this advertisement to try and convince the Lumber Trade of Canada that we are the only company in British Columbia manufacturing and shipping shingles in large quantities, or that we "know it all." We recognize that "there are others" and that we are not the only "pebble on the beach." To try and make you believe that we are the only people who can supply you **promptly** and in **large quantities** with a **high-grade** shingle would not only be a **fish** and a **bear** story combined, but it would be gall of the bitterest kind.

Our competitors in the shingle business in B. C. are nice people, and we presume that they know their business ; but we are nice people too, and as we have been in the trade as long as any of them, and a **great deal longer** than the most of them, we know that we know our business, and that our competitors are not in the possession of any points of value regarding the manufacture of shingles which has not come to **our knowledge**.

Our old mill was burned down in May last, and in its place we have built what is at the present time the **Largest** Shingle Mill in B. C.

Our new Mill has 7 of the latest improved type of Dunbar machine, which we run night and day—giving us a capacity of about **100 Million** a year.

Competent judges who have seen our new mill, tell us that it is one of the most **substantial**, carefully **constructed**, and best **planned** mills in this province. We ourselves think it is **the very best** shingle mill in B. C. ; and we know that it is **equipped** with all the very latest improved Shingle Machinery.

Will the trade please note that our contract with the Pacific Coast Lumber Co. closed on December 31, 1901. Orders sent to us by letter or telegraph shall have our best attention.

We want our share of your shingle business, and can **guarantee** you satisfaction in **every particular.**

Spicer Shingle Mill Co., Limited,

VANCOUVER, B. C.

No Fish Stories

go when it comes to speaking about

OUR SHINGLES

FACTS ARE FACTS WHETHER TOLD ABOUT FISH OR SHINGLES

We make a fine 16-inch Shingle.

We make a fine 18-inch Shingle.

We make a fine 24-inch Shingle.

We make all thicknesses from 6-2 inch to 6-3 3/8 inch.

They are going out of our different mills at the rate of 200,000,000 a year. We make more shingles than any one firm in the world. Just think of it!

We claim to be experts. That is not gall. That is a statement which is proven constantly by the testimony of our customers from the Pacific Coast to the Atlantic Coast on the Canadian side, and from Maine to Puget Sound.

Mixed Cars our Specialty. Don't forget that we have all kinds of House Finishing Material in Fir and Cedar, and can load any quantity with shingles.

Come, let us deal together.

CUSTOMERS' ATTENTION.—Please take notice that on and after the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles will be ended, and until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipeg, Man , for Manitoba and the North-West ; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

Shingle Mill, Hastings, B.C.; Lumber and Shingle Mill, Vancouver, B.C.; Shingle Mill, New Whatcom, Wash.; Shingle Mill, Sumas, Wash.; Shingle Mill, Carroll Siding, Wash.

The Hastings Shingle Mfg. Co., Limited

Office, 450 Westminster Ave., Vancouver, B.C.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, ONT., MARCH 26, 1902 No. 8

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING. MONTREAL.

Weekly Lumberman, published every Wednesday, Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED—A RAFT OF PINE LOGS ON Georgian Bay; apply at once to Box 20, CANADA LUMBERMAN.

CUSTOM SAWING

Can contract for one million feet or more, pine or hemlock; good shipping facilities. Write, SIMS LUMBER CO., Sault Ste. Marie, Ontario.

FOR SALE.

SAW MILL, CAPACITY 15,000; A BARGAIN for cash; f. o. b. G. T. R. or C. P. R., for $800. Box 156, Thamesville, Ont.

WANTED.

A FIRST-CLASS CIRCULAR SAWYER, must understand cutting dimension timber. Apply giving references and wages expected, to A. & P. WHITE, Pembroke.

TELEPHONE POLES FOR SALE.

THE UNDERSIGNED HAVE IN STOCK, and ready for shipment, 5,000 cedar telephone poles, in all lengths from 25 to 65 feet. Prices given on application for lots of one carload or more, f. o. b. here, or delivered at points required in Canada or United States. GEORGE & MCGREGOR, Killaloe Station, Ont.

SPECIAL TO LUMBERMEN.

WITH A THOROUGHLY EQUIPPED PLANING Mill at Orillia, we solicit orders for re sawing and planing of lumber, in any quantity; can match 26 inches wide; all work guaranteed first-class; prices on application. Address, NATIONAL BOX CO., Orillia, Ont.

DRY PINE.

WE HAVE ABOUT 1,500,000 FEET DRY PINE in 1, 2 and 3 inch common and better, prefer selling in bulk. Will quote freight rate to Buffalo, Chicago or Toronto on application. Correspondence solicited. N.B.—Would like to correspond with consumers of hardwoods. ST. JOE ISLAND LUMBER CO., Sault Ste. Marie, Ont.

WANTED—HARDWOOD LUMBER.

SOFT ELM, BIRCH, BLACK ASH, 1STS and 2nds preferred. J. F. STENGAL, 990 Ellicott Square, Buffalo, N.Y.

TIMBER SAWYER WANTED.

FIRST-CLASS MAN WANTED BY APRIL 1st for fast circular steam feed mill. Address, COLUMBIA RIVER LUMBER CO., Golden, British Columbia.

FOR SALE.

Rock Maple Peavey Handles, in any quantity. Lengths, 4 ft. 10 inch. to 5 ft. 6 inch. Write for quotations; prices will surprise you. DOUGLAS BROS., Stanley, N. B.

$8,000 WILL BUY A GOOD NEW Circular Sawmill; first-class site, mouth Thessalon River, and 3,000,000 ft. of standing pine, hemlock, cedar and birch, very convenient; mill alone worth more money. Apply DOBIE & CO., Thessalon, Ont.

WANTED.

NO. 1 SAWED SPRUCE OR PINE STAVES wanted. The above to be 23 in. long, plump ½ in. thick, and free as possible from knots and to be of standard, average width. Address, stating price, to M. CARL, Cooper, Goderich. Ont.

POSITION WANTED.

AS LUMBER SALESMAN; CAPABLE OF sorting lumber; have a thorough knowledge of the lumber business, having been connected therewith for fifteen years; not afraid of work. Address Box 37, CANADA LUMBERMAN, Toronto.

FOR SALE.

ONE HARDELL COMPOUND ENGINE, 45 h. p.; 1 Stave Machine and bolt Equalizer; 1 Shingle Machine with Saw Jointer and Bunchers; 42' 14" 5-ply Balata Belt; Mill Carriage Feed Gear, Saw Rig, Bull Wheel, Slab Saw, Shafting and Belts. All good as new. GEO. F. WEBSTER, Creemore, Ont.

FOR SALE.

100,000 ft. Dry 1", 1¼" and 1½" Maple.
30,000 ft. 1" Birch.
130,000 ft. 1" 1¼", 1½" Beech.
120,000 ft. 1" dry Pine, No. 1 Mill Culls and Box and Better Shorts.
Lath, Shingles, Pine and Cedar Timbers, etc.
A. P. EBERT, Wiarton, Ont.

CANADIAN TIMBER WANTED.

The advertiser solicits correspondence from Canadian firms who may be in position to supply ash, walnut and quartered oak timber for the New Zealand market. Address, in the first instance, "New Zealand," care of CANADA LUMBERMAN, Toronto, Canada.

PARTNER WANTED.

AM OWNER OF A ROTARY SAW-MILL with 40 horse-power boiler and engine; also six square miles of lumber licenses, timbered chiefly with pine and hardwood; near railway station in N. B. Am desirous of entering into a partnership to turn the business into a general wood-working establishment. Address "Pine," care of this paper, for further particulars.

FOR SALE.

100,000 feet of 1 x 6, 8 and 10 pine, 10 to 16 feet, common and dressing.
50,000 1 inch chestnut, wormy, and common and better.
20,000 1 inch soft maple.
20,000 3 inch soft maple.
12,000 1 inch soft elm.
30,000 1, 1½, 2 inch red oak.
Piece stock in Red and White Oak, Black and White Ash and Chestnut.
To cut to order { 40,000 of choice beech. 50,000 of hard maple.
Full particulars on application. THE LEISHMAN MAUNDRELL CO., Woodstock, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

With one exception the outlook for the lumber trade is of the brightest character. That exception is the possibility of labor troubles in one or two of the larger cities of the province. Whether the present difficulties will be amicably arranged is a matter of much uncertainty, but with this obstacle removed there will doubtless be a large amount of building throughout the province. The demand for lumber during March was considerably greater than in the previous month. The heavy buying by United States concerns has continued. It is estimated by one who recently visited Georgian Bay manufacturing points that the greater portion of the coming season's production has already been contracted for. This is probably correct, inasmuch as the possible production has been reduced by the early breaking up of logging operations. In addition to the shortage in the quantity of logs that will reach the streams, it is probable that there will be low water for driving and that many logs that have been successfully banked will not reach the mills. The weather conditions of this spring would seem to have removed all prospects of lower prices for white pine during this year, and it would not be surprising if there should be a material appreciation in some grades. Even if the British market should continue depressed, there will be no difficulty in marketing all the lumber manufactured, as a considerable shortage in the production of the United States is predicted. Hardwoods have at last followed the course of white pine and are showing improvement. The buying is of a character which augurs well for the future. Dealers report no difficulty in effecting sales. One dealer who took the road for a couple of days ostensibly for the purpose of getting in touch with the situation reports that he was given orders for several carloads of hardwoods. The more sanguine ones predict that there will be a decided shortage in hardwood lumber during the year, as dry stocks are not large and the production of logs last winter was much below the average, perhaps not more than one-half that of 1900. In a certain section of the Wiarton district where three million feet of hardwood logs were taken out one year ago, not more than one million was cut the past winter. In quality, however, the logs are better than usual. There is a good demand for cedar and hemlock, of which the stock is light. Hemlock readily brings $9.50 at the mills. White pine shingles and lath are practically out of the market and buyers have almost given up searching for them. Hemlock shingles are bringing $2.40 and $2.50 at the mill.

QUEBEC AND NEW BRUNSWICK.

In order to take advantage of the exceptionally low freight rates now ruling, a considerable quantity of deals has been shipped to England by the regular liners from St. John to Halifax. Accordingly, the small wintering stocks at these ports and on the Miramichi will be almost depleted by the opening of navigation, and the first open-water shipments are likely to be lighter than usual. The market for spruce deals is likely to be firm through the spring months at least, and the early breaking up of winter cannot but have the effect of strengthening prices. The present indications are that the stock of logs which will reach the mills will not be sufficient for the season's requirements and will bring about a reduction in the lumber output. It is expected that large shipments will this year be made to South America, France and Germany. There will be considerable activity this season in square and waney timber, as it is estimated that the cut during the past winter was considerably greater than usual. There continues to be a good demand for clapboards and shingles for shipment to the Eastern States.

MANITORA AND BRITISH COLUMBIA.

Building operations in Winnipeg are starting off with a boom, and promise to be more brisk than for some years. Architects have plans in hand for many important buildings, including one to be built by Lord Strathcona which will cost about $150,000 and will require nearly one million feet of lumber. The extent of the lumber demand, however, will be to some extent in proportion to the movement of wheat. At the present time immense quantities of wheat have not been moved and elevators are being built to accommodate the surplus of last season's record crop. Prices of lumber and shingles are unchanged, although an advance in the price of British Columbia fir flooring and some lines of British Columbia cedar lumber is talked of. The lumber trade of British Columbia is quite

active. Seven vessels are loading lumber at Vancouver for export, shippers evidently wishing to take advantage of the present low freights. Large orders have been placed with Vancouver mills for piles for shipment to the Phillipine Islands, but it is feared that the exportation of piles is prohibited by the recent legislation. There is an active demand for cedar logs and prices have advanced $2 per thousand feet. The price of shingles is also firmer, although no sustained advance is looked for.

UNITED STATES.

The probability of an early opening of navigation is regarded favorably by wholesale dealers in the Eastern States whose stocks of white pine have become broken and who feared that they would not have a sufficient supply for their customers. The demand in the east is showing considerable activity, even the lower grades being more inquired for than for some time. Further advances have been made in the price of uppers, which are now selling in the Buffalo market at $70 for 1 to 2 inch and $75 for 2½ to 4 inch. Inch No 1 cutting-up stock has been advanced to $40 at Buffalo and Tonawanda. Our Bay City list this week shows an advance of $2 in 1 to 2 inch uppers and 1 to 1½ inch selects, and $4 in No. 2 inch cutting-up stock. Twelve-inch barn boards in all grades are marked up $2. There is a great scarcity of 12-inch boards. Manufacturers in the Lake Superior district will endeavor to make a large cut in the sawing season now approaching, but the short supply of logs will likely restrict the production. The spruce situation is gaining strength. Special frames for immediate delivery are quoted fifty cents higher, while randoms are a little weaker. Hardwoods are going into consumption quite freely. Dry stocks have become nearly exhausted and the outlook is encouraging for higher prices for all kinds of hardwoods. Basswood and oak are particularly scarce. Birch is in good demand, but ash and maple are moving slower than the other varieties. The recent advance in the price of hemlock lumber has been maintained and has apparently not affected the consumption, as the demand continues strong. The manufacturers in Michigan recently made an advance of $1.50 per thousand.

GREAT BRITAIN.

The desire of importers to reduce their stocks before the new goods arrive is responsible for a large quantity of lumber being offered at auction during the past fortnight. Spruce and pine deals comprised almost the entire catalogue of a sale by Foy, Morgan & Company, London, on March 12th. Prices on the whole were well maintained, although odd sizes did not sell nearly as well as regulars, the quantity of which is quite limited. First quality Quebec pine 3x11 brought £24 15s for 11 feet and 3x9 inch £18. Second quality 3x11 sold at $16. Quebec spruce was well taken on the basis of £9 5s for 3x9 inch third quality. The red pine was in little demand, and it is said that the prices realized in many cases represent a loss to the importers.

There is considerable buying of square timber. Oak suitable for wagon making is in demand, particularly in Scotland, where stocks are low. For prime timber 2s to 2s 4d per cubic foot is readily obtainable. Good ash logs are likewise in request, the quotation for them being about 2s per cubic foot.

So far as buying of this year's production is concerned, we are told that little progress has been made, and that shippers and importers must come nearer together in their ideas of prices before there will be much life to the trade. Nevertheless, Canadian shippers are said to have met with fair success. It is reported that they have reduced their prices in some instances and have made sales at £9 c. i. f. for 3x9 second quality spruce and £8 10s for third quality. A report from Belfast, Ireland, states that there has been considerable business done in Canadian spruce for spring shipment at advanced prices, although it is believed that the market will weaken towards midsummer. Sales of waney board pine have been made at very satisfactory figures.

STOCKS AND PRICES.

Gilmour & Company will have a quantity of lumber cut this season at Carew's mill at Lindsay, Ont.

The Rathbun Company, of Deseronto, took out some 35,000 logs and railway ties in Cavendish township during the past winter.

Present quotations for shingles at Buffalo are $4.50 for the best grade of 18-inch pine and $4.25 for red cedar Perfections.

The Revelstoke Lumber Company, Revelstoke, B. C., have secured a stock of about 3,500,000 feet of logs for this season's sawing operations.

James Ludgate, of Seguin Falls, has taken a contract to drive all the logs for the William Peter Estate and the Parry Sound Lumber Company that go down the Seguin river.

The Saginaw Lumber & Salt Company, of Sandwich, Ont., put in 200,000 feet of board pine last winter in the Georgian Bay district, which has been sold to Quebec parties for export.

It is reported that J. & T. Charlton, of Collingwood, have sold their entire season's cut, the last sale reported being 6,000,000 feet of white pine to Fish, Bradley & Company, of Bay City, Mich.

The cooperage market does not show the normal amount of activity for this season. Stock is offered freely. In the Minneapolis district some strength is exhibited and $8.50 is being asked for No. 1 Michigan staves.

Tonawanda and Buffalo dealers are reported to have purchased about 10,000,000 feet of white pine from the Ontario Lumber Company, to be manufactured this season at the company's mills at French River, Ont.

Twenty-seven car loads of square timber have been shipped this spring by Mooney & McDougall from Almonte to Quebec. The timber is pine, oak, ash and rock elm and is destined for the Liverpool market.

Destructful floods occurred last week in several sections at New Brunswick. By the breaking of a dam at Lepreaux 3,000,000 feet of logs owned by J. A. Gregory, of St. John, were carried away. They had been cut and hauled along the river banks ready for the spring drive. Mr. Gregory estimates his loss at $15,000.

The following vessels are loading lumber at Vancouver: "Reuce," for Sydney, Australia; "Andromeda," for Callao; "Rose," for Geraldtown; "Amaranth," for Taku; "Adderley," for Sydney; "Prince Louis," for Cardiff.

Keenan Bros., of Owen Sound, Ont., have purchased the mill of the Goderich Lumber Company at that place, together with their stock of dry lumber now in the yard, amounting to about 1,500,000 feet of hemlock, cedar and pine. They have also secured about 3,000,000 feet of hemlock and hardwood logs for this year's supply, and expect to have the mill in operation very shortly.

At a recent auction sale held by Churchill & Sim, London, England, oak timber sold at a range from 82s 6d per load for 12½ x 18¼ inch, 14 to 29 feet long, to 105s for 10 x 16 in., 31-47 ft. Ash timber from Quebec sold at the following prices: 13-21 in., 12 to 14 ft. long, 36s per load; 12½ x 15 in., 14 to 30 ft., 55s; 12 1/2 x 15 in., 14 to 29 ft., 47s; 11 1/2 x 15 1/2, 10 to 17 ft., 45s; 12¼ x 15 1/2, 15 to 30 ft., 47s; 12¾ x 16, 8 to 21 ft., 45s. A small quantity of elm timber, 11¾ x 12 1/2 in., 26 feet long, brought 41s per load of 50 cubic feet.

It is estimated that the cut of logs last winter on the South-west Miramchi, in New Brunswick, was a little more than one-half that of the previous winter, the shortage being due in a large measure to the scarcity of men and the high price of supplies. The cut of the different firms is given as follows: William Richard & Company, 11,000,000 feet; T. Lynch, 7,000,000 feet; M. Welsh, 5,000,000 feet; H. Bentley, 3,000,000 feet; E. Hutchinson, 500,000 feet, a total of 26,500 000 feet. The cut on the Restigouche river will be about 20,000,000 feet, as compared with 30,000,000 feet one year ago.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

Business is dull in local lumber circles shipments by rail being light. The American inquiry is not as active as it was a month ago, but better things are expected with the resumption of operations at the mills.

It is now a settled fact that the new mill talked of for several months will not be built before the autumn months at the earliest, and perhaps not till next spring. Difficulty over the question of transportation has caused a delay. The mill will probably be built at Deschenes.

All last year's mills will be operated again this season, and the small mill on the Bronson property at the Chaudiere, may be fitted up for a season's cutting. Gillies Bros. will operate four mills, one Bræside, one at Black Point, one at Sandy Hook, and one at Folger.

A gentleman who has just returned from the Kippewa and Temiscamingue districts confirms the report that the recent thaw has placed several of the lumber operators in a tight corner as regards the movement of their logs. All, however, hope to get most of this season's cut out of the woods before the roads break-up. One feature of the winter's operations was the amount of square timber produced. It was equal to that of any year in the previous decade. Fully 1,500,000 cubic feet of square timber will be rafted and floated down the Ottawa during the coming summer. Thomas Munro, of Pembroke, has four rafts, and Robert Hurdman, of Ottawa, three rafts, the combined cut amounting to about 900,000 cubic feet. The Rideau Lumber Company got out a couple of smaller rafts and other operators gave the square timber attention. Mr. Munro will be able to get his logs down early, as they are piled on the bank of the main stream of the Ottawa. The early break-up has made the transfer of fodder and supplies to the limits a difficult matter. Most of the operators were actively engaged in this branch of the work when the roads were broken by the thaw. They will have to complete their delivery by wagon and jumper at double the cost.

A feature in the market is the good prospects for spruce. This lumber was looked on for some time past as a poor seller at low price. Reports from New York show that it is in increased demand and likely to command better prices. This will prove gratifying news to mill owners who are going to cut any considerable quantity of spruce. The only hardwood that is in active demand is basswood.

The Rideau Lumber Company will cut considerable stock at Hagar & Company's mill at Plantaganet during the coming season.

Mr. Robert Hurdman's output of logs for the season just closing was between 82,000 and 100,000.

The best sale of the past few days was that made by Mr. T. A. Low, of Renfrew, who sold 3,000,000 feet of Barnet Low's stock cut at their mill at Little Current to a North Tonawanda firm.

No change in quotations is reported on the local market. Lath, shingles and deals remain firm in price.

Mr. Wm. B. Bartram, late sargeant of Strathcona's Horse, and now representing Davidson & Thackray, of Ottawa, in Cape Town in the lumber business, has been elected a member of the Chamber of Commerce for South Africa.

The government has changed the position of the slides at the Chaudiere Falls on the Ottawa River in order to improve the water power and faciliate the passage of timber.

Ald. Charles Desmarais, of Hull, contractor for telephone and telegraph poles, reports the last winter's cut below the average. The deep snow and the short season combined to make the work in the bush difficult. Ald. Desmarais had 80 men at work and secured about 4,000 poles in the Gatineau and Pontiac districts. The supply, he states, is far short of the demand and he has had half a dozen offers for his entire stock. He looks for an advance in price.

Mr. Wm. Mackey, the veteran lumberman who recently sold his limits to Mr. J. R. Booth for $655,000, has presented St. Patrick's R. C. church with a new altar costing $5,000. It was consecrated on St. Patrick's Day. A tablet bearing mention and appreciation of Mr. Mackey's generosity will be placed in position in the church shortly.

The prospects for the season's building in Ottawa are good. Rumors of strikes furnish the only dark streak in the prospect. All the mill owners look for an active local demand. Shingles are exceedingly scarce and are bound to advance in price with the resumption of building operations.

OTTAWA, March 23rd, 1902.

MANCHESTER, ENGLAND

THE BOSTON MARKET.

The outlook for spruce lumber is very strong. Freshets have carried supplies of logs down river, while the season for lumbering and getting new logs has been cut most decidedly short by the very early departure of the snow. The late drive last year contained 28,000,000 feet of logs for Bangor. About 5,000,000 of these logs were carried out to sea by a freshet early in the winter, and now the present freshet has carried at least 12,000,000 out to sea. Hence the Bangor supply must be very small till new logs come down. Meantime, the demand begins to improve, with every indication of a good business, and leading spruce men feel sure that under such conditions prices are extremely likely to go still higher, although already about the highest on record: Ten and 12 inch dimensions, $20; 9 inch and under, $18; 10 and 12 inch random lengths, 10 feet and up, $19.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, $16.50; all other randoms, 9 in. and under, 10 feet and up, $17.50; 5-inch and up merchantable boards, $16; matched boards, $18 to $19; out spruce boards, $13; bundle furring, $16 to $17.

Hemlock is well sustained with the demand good: Boards, 12, 14 and 16 feet stock, $15 to $15.50 for good eastern; Vermont, $13.50 to $14.50; random, eastern, $13.50 to $14.50; Pennsylvania, No. 1, $16 to $17; No. 2, $14.50 to $15.

The great strength in the white pine position is continued, with quotations very firm: Uppers, 1-in. $75 to $80; 2½ and 3 in. $80 to $85; 4-in. $85 to $88; selects, 1 to 1½ in. $68; 2-in. $69 to $70; 2½ to 3 in. $74 to $76; 4-in. $79 to $80; fine common, 1-in. $56 to $58; 1¼ to 1½ in. $62 to $66; 2-in. $68 to $70; 2½ and 3 in. $69 to $71; 4-in. $80; barn boards, $23 to $33; coffin boards, $27 to $32.

Hardwoods are in quiet request, with prices very firm: One-inch, whitewood, $38 to $40; thicker, $39 to $42; ⅝ inch, $30 to $35; saps, inch, $25 to $30; common, $23 to $25; quartered oak, $56 to $65; fancy, $70 to $75; plain oak, $40 to $47; black ash, $40 to $50; white ash, $45 to $55; cherry, $90 to $130; maple, $32 to $40.

Shingles are in short supply and firm, though the demand is small: Extra cedar, $3.25 to $3.35; clear, $2.85 to $2.95; second clear, $2.35 to $2.50; sap, $2.10; extra No. 1, $1.75 to $1.90; Washington and British Columbia red cedar, 16-inch, five butts to 2 inches, $3.45 to $3.50; 18-inch, $4.25 to $4.50.

Clapboards are very firm, with the supply small. The demand is also small: Extra spruce, $38 to $40; clear, $36 to $38; second clear, $33 to $35; extra No. 1, $24 to $26.

Laths are very firm: One and five-eighths inch, $3 to $3.25; 1½ inch, $2.90 to $3.

BRITISH TIMBER SALE.

A large quantity of pine and spruce lumber was disposed of at an auction sale held by Foy, Morgan & Company, London, England, on March 12th. The large quantity offered "without reserve" is said to have had a depressing effect on the bidding, but on the whole prices throughout were better than anticipated and it is considered that the demand for both pine and spruce is improving. This is especially the case with the New Brunswick spruce. The result of the sale is given below:

PINE.—Ex. Ontarian, from Quebec.—12 ft. 3x11 first quality, £24 15s per std; 14-16 ft. 3x11, £25; 10-11 ft. 3x11, £22; 14-16 ft. 3x10, £17 16s; 13-16 ft. 3x9, £18; 13-16 ft. 3x8, £16 15s; 11-12 ft. 3x7-10, £13 15s; 9-10 ft. 3x7-10, £15 15s; 6-9 ft. 3x11-20, £19 10s; 6-8 ft. 3x7-10, £15 5s; 12 ft. 3x11, second quality, £15 15s; 13 ft. 3x11, £16; 14 ft. 3x11, £15 10s; 15 ft. 3x11, £15 15s. Ex. Prome, from Quebec—10-16 ft. 2x9 in. unassorted red, £10 5s per std; 10-17 ft. 2x7, £8; 10-16 ft. 2x4, £8; 10-18 ft. 2x5, £6 15s. Ex. Rosarian, from Quebec—11 ft. 3x11 in. first quality, £24 15s and £25; 10 ft. 3x11, £24 10s; 12-13 ft. 3x10, £18 15s; 12-13 ft. 3x8, £18 10s. GRADING OF CANADIAN PINE.

The threatened boycott of Canadian pine by British importers as the result of the adoption by shippers of what was claimed to be a lower standard of grading has evidently been abandoned, as in the last issue of the Timber Trades Journal we find the following under the heading of "The Culling of Pine":

"The sub-commtttee of the Importers' Section of the Timber Trade Federation appointed to deal with the culling of pine has been in correspondence with the shippers, the negotiations culminating in a conference on Friday last week. A circular has now been issued by the Federation, in which it is stated that as the result of the interchange of views it has become evident to the committee that the resolution binding many members not to contract for new supplies of pine unless shippers undertook to revert to the old style of bracking cannot be maintained in face of circumstances which have been brought under their notice. At the same time the committee feel that the protest which has been made by importers has not been without practical effect in emphasizing the dissatisfaction which has existed in regard to the new culling, which was admitted by the representatives of the shippers to have greatly improved, the bracking towards the end of the year being better than previously. It has been explained to the committee that as regards shipments for the present season it would be quite impossible to obtain anything like the old culling, but they are informed that sales have been effected subject to a guarantee that the culling was to be "equal to that prevailing towards the end of last season, which was understood to be better than that immediately preceding it." In view of the determined and somewhat assertive attitude originally taken, the decision comes somewhat as a surprise. Possibly a more diplomatic course of procedure in the first place would have saved the Federation some loss of dignity."

New Mill Erected 1901. Capacity 100 Million a Year.

Spicer Shingle Mill Co., Limited

It is not the purpose of this advertisement to try and convince the Lumber Trade of Canada that we are the only company in British Columbia manufacturing and shipping shingles in large quantities, or that we "know it all." We recognize that "there are others" and that we are not the only "pebble on the beach." To try and make you believe that we are the only people who can supply you **promptly** and in **large quantities** with a **high-grade** shingle would not only be a **fish** and a **bear** story combined, but it would be gall of the bitterest kind.

Our competitors ir the shingle business in B. C. are nice people, and we presume that they kn ow their business; but we are nice people too, and as we have been in the trade as long as any of them, and a **great deal longer** than the most of them, we know that we know our business, and that our competitors are not in the possession of any points of value regarding the manufacture of shingles which has not come to **our knowledge**.

Our old mill was burned down in May last, and in its place we have built what is at the present time the **Largest** Shingle Mill in B. C.

Our new Mill has 7 of the latest improved type of Dunbar machine, which we run night and day—giving us a capacity of about **100 Million** a year.

Competent judges who have seen our new mill, tell us that it is one of the most **substantial**, carefully **constructed**, and best **planned** mills in this province. We ourselves think it is **the very best** shingle mill in B. C.; and we know that it is **equipped** with all the very latest improved Shingle Machinery.

Will the trade please note that our contract with the Pacific Coast Lumber Co. closed on December 31, 1901. Orders sent to us by letter or telegraph shall have our best attention.

We want our share of your shingle business, and can **guarantee** you satisfaction in **every particular.**

Spicer Shingle Mill Co., Limited,
VANCOUVER, B. C.

OUR SHINGLES

FACTS ARE FACTS WHETHER TOLD ABOUT FISH OR SHINGLES

We make a fine 16-inch Shingle.
We make a fine 18-inch Shingle.
We make a fine 24-inch Shingle.
We make all thicknesses from 6-2 inch to 6-3 3/8 inch.

They are going out of our different mills at the rate of 200,000,000 a year. We make more shingles than any one firm in the world. Just think of it!

We claim to be experts. That is not gall. That is a statement which is proven constantly by the testimony of our customers from the Pacific Coast to the Atlantic Coast on the Canadian side, and from Maine to Puget Sound.

Mixed Cars our Specialty. Don't forget that we have all kinds of House Finishing Material in Fir and Cedar, and can load any quantity with shingles.

Come, let us deal together.

CUSTOMERS' ATTENTION.—Please take notice that on and after the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles will be ended, and until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipeg, Man, for Manitoba and the North-West; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, ONT., APRIL 2, 1902 No. 9

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the Canada Lumberman."

Toronto, Canada
C. H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of four 3 cent Canadian postage stamps

THE CANADA LUBERMAN,
Toronto, Canada.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m on Tuesday to insure insertion in the current week's issue.

WANTED—A RAFT OF PINE LOGS ON Georgian Bay; apply at once to BOX 20, CANADA LUMBERMAN.

CUSTOM SAWING

Can contract for one million feet or more, pine or hemlock; good shipping facilities. Write, SIMS LUMBER CO., Sault Ste. Marie, Ontario.

FOR SALE.

SAW MILL, CAPACITY 15,000; A BARGAIN for cash; f. o. b. G. T. R. or C. P. R., for $800. Box 156, Thamesville, Ont.

WANTED—HARDWOOD LUMBER.

SOFT ELM, BIRCH, BLACK ASH, 1STS and 2nds preferred. J. F. STENGAL, 990 Ellicott Square, Buffalo, N.Y.

FOR SALE.

Rock Maple Peavey Handles, in any quantity. Lengths, 4 ft. 10 inch, to 5 ft. 6 inch. Write for quotations; prices will surprise you. DOUGLAS BROS., Stanley, N. B.

WANTED.

NO. 1 SAWED SPRUCE OR PINE STAVES wanted. The above to be 23 in. long, plump ½ in. thick, and free as possible from knots and to be of standard, average width. Address, stating price, to M. CARL, Cooper, Goderich. Ont.

FOR SALE.

ONE HARDELL COMPOUND ENGINE, 45 h. p.; 1 Stave Machine and bolt Equalizer; 1 Shingle Machine with Saw Jointer and Bunchers; 42' 14" 5-ply Balata Belt; Mill Carriage Feed Gear, Saw Rig, Bull Wheel, Slab Saw, Shafting and Belts. All good as new. GEO. F. WEBSTER, Creemore, Ont.

FOR SALE.

100,000 ft. Dry 1", 1¼" and 1½" Maple.
30,000 ft. 1" Birch.
130,000 ft. 1" 1¼", 1½" Beech.
120,000 ft. 1" dry Pine, No. 1 Mill Culls and Box and Better Shorts.
Lath, Shingles, Pine and Cedar Timbers, etc.
A. P. EBERT, Wiarton, Ont.

CANADIAN TIMBER WANTED.

The advertiser solicits correspondence from Canadian firms who may be in position to supply ash, walnut and quartered oak timber for the New Zealand market. Address, in the first instance, "New Zealand," care of CANADA LUMBERMAN, Toronto, Canada.

PARTNER WANTED.

A MOWNER OF A ROTARY SAW-MILL with 40 horse-power boiler and engine; also six square miles of lumber licenses, timbered chiefly with pine and hardwood; near railway station in N. B. Am desirous of entering into a partnership to turn the business into a general wood-working establishment. Address "Pine," care of this paper, for further particulars.

DRY PINE.

WE HAVE ABOUT 1,500,000 FEET DRY PINE in 1, 2 and 3 inch common and better, prefer selling in bulk. Will quote freight rate to Buffalo, Chicago or Toronto on application. Correspondence solicited. N.B.—Would like to correspond with consumers of hardwoods. ST. JOE ISLAND LUMBER CO., Sault Ste. Marie, Ont.

WANTED.

BASSWOOD; ONE MILLION FEET BASSWOOD, 12 ft. long, common and better. Also elm and red birch. JAMES S. BARRON & CO., Box No. 726, New York city.

SPECIAL TO LUMBERMEN.

WITH A THOROUGHLY EQUIPPED PLANING Mill at Orillia, we solicit orders for resawing and planing of lumber, in any quantity; can match 26 inches wide; all work guaranteed first-class; prices on application. Address, NATIONAL BOX CO., Orillia, Ont.

FOR SALE.

BAND MILL FOR SALE ON GEORGIAN Bay, eight miles from Parry Sound. Capacity 40 M. feet per day. Modern mill of our own manufacture throughout. Ample boiler capacity, fine piling grounds with tramways; 16 to 20 feet of water right up to dock; mill situated in a well sheltered harbor. This plant can be bought cheap, considerably less than its orginal cost. Immediate possession can be given and stock of 2 or 3 million logs can be sawn by the thousand or purchased at a reasonable price. Address WATEROUS, Brantford, Canada.

TO

Pine and Spruce MANUFACTURERS.

Correspondence is solicited with Canadian manufacturers of pine or spruce who wish to form a connection with a reliable British house. Advertiser will shortly visit Canada and desires to have a personal interview with mill-men now doing or seeking to do an export trade. Best of references as to reliability and standing. Box 42, CANADA LUMBERMAN.

CURRENT TRADE CONDITIONS.

ONTARIO.

Notwithstanding that within a few weeks there will be a general resumption of sawing operations in Ontario, the lumber market continues decidedly strong. As far as can be learned, prices have not receded in a single instance, and it is even predicted that current quotations will rule after the mills are sawing, owing to the large quantity of the season's cut that has already been placed. It is reported that as much as 100,000,000 feet of Ontario pine has been contracted for by a large firm of Michigan dealers. It was known that the firm in question had been heavy buyers, but few supposed that their purchases would reach this large amount. The buying of dry stock continues to the extent that suitable lumber can be found, but in some grades and sizes, such as 12 inch boards, the market is almost bare. The best grade of pine lumber has not yet been advanced in Ontario as much as in the Eastern States, where uppers are bringing from $65 to $75.

Opinion is becoming more general that hardwood lumber will witness an improvement during the year. Consumers are showing a disposition to purchase in advance of requirements and to contract for lumber to be cut. Some dealers tell of a slow demand for oak, b this lumber will no doubt improve in t near future, as favorable reports of come from the United States.

The outlook in Toronto has be darkened by labor troubles. It w thought a fortnight ago that strikes wou be prevented, but subsequent events ha changed the situation, and it now seet that there will be a strike of painters a carpenters, with the possibility of t difficulties extending to the other trade Consequently some persons who contet plated building have decided to postpo their work for another year or until t present labor troubles are disposed of.

QUEBEC AND NEW BRUNSWICK.

The spruce situation has not improv during the past week. Shippers ha been successful in placing only a sm portion of their prospective shipments Great Britain, and are, therefore, n disposed to purchase further from man facturers. Although freight rates a exceptionally low, chartering is inactiv and it is understood that the quantity deals so far booked to go forward comparatively small. The uncertain regarding the log drives is the o feature which tends to hold the mark firm. Should a considerable quantity logs be hung up, as now seems probab owing to the small quantity of snow in t woods, there would doubtless be a go demand at fair prices for all the lumb manufactured. It is estimated that t state of Maine did not produce within per cent. of the usual quantity of lo last winter, while the cut in New Brun wick and Nova Scotia was curtail slightly. In Quebec operations in t woods were commenced early last f and a full stock of logs has been secur by most of the operators. Cedar shingl continue firm on the basis of $3.30 extras, on Boston rate of freight. The is a good demand for spruce lath.

MANITOBA AND BRITISH COLUMBIA.

Building and railway construction pro ises to be very active in Manitoba and North-West Territories this year. Winnipeg the number of real estate tra actions during the past month has be very large, and many import buildings are projected. The contract the Strathcona block has been awarded Mr. P. Burnett. This block will cost ab $150,000, and will require a large qu tity of finishing lumber. The outlook the lumber and shingle business in Bri Columbia is bright. The number of tim limit licenses issued for the first t months of this year was 35, as compa

th 19 for the same period last year. ear cedar logs are now selling in Vanuver at $10.

A fortnight ago the British Columbia Lumr and Shingle Manufacturers' Associan announced an increase in the price of veral grades of lumber. Rough and mmon fir, formerly quoted at $10 to 7.50, was raised $1 per M, and is now oted at $11 to $18.50. Dressed fir lumr, common S. I. S., formerly quoted at 1, is now $12, and shiplap, formerly $12, now $12. Cedar boat lumber, doubleessed, 2nd quality, up to 20 feet, was vanced $5 to $25 to $30. Shingles were so advanced from $1.25 and $1.75 to .50 and $2.

UNITED STATES.

All kinds of lumber continue to show an ward tendency in the United States, d although prices are exceptionally gh, it has not resulted in a perceptible ling off in the demand. Dry stocks e badly broken at manufacturing and olesale centres, but the probability of early sawing season will soon relieve e situation. Following the recent adnce of two dollars in the price of uppers d selects at Bay City and Saginaw, we e told that an advance in the price of op lumber will be made this week. This ss of lumber is exceedingly scarce and quiries are being received by dealers m large manufacturing concerns. From icago comes the report that sales of). 1 pine stuff have been made at $14.50 early delivery, and that holders are w asking $15. This is the highest price which pine piece stuff has ever been d in that market. There is an active mand for hardwoods and consumers ow a disposition to buy for the future. ere is a good call for maple, while it is nost impossible to secure 1¼ inch oak. Short hemlock is quoted in Chicago at m $10.75 to $11, and long at $12.50 to 3, with the demand greater than the lls can supply. White cedar is stronger. a meeting of the price list committee of Northwestern Cedarmen's Association d at Marinette, Wis., on March 24th, it s reported that the cut of logs had been rtailed fully 25 per cent. As a result it s decided to recommend immediate vances as follows: One cent on 5 to nch 7-foot posts; ½ cent on 3-inch nds; 2 cents on 7-inch; 5 cents on 8-ch; 3 and 5 cents on 10-foot lengths; cents on 12, 14 and 16-foot lengths. legraph poles were raised 5 cents and ing one cent. Star shingles were adnced from $2.20 to $2.90, and standards m $2.10 to $2.30.

GREAT BRITAIN.

Recent advices from Great Britain do t tell of a very flourishing condition of e lumber trade. The heavy losses susned last year have had the effect of king dealers extremely cautious, and ere has been little buying beyond the tual needs of their business. The tightss of money and the quietness in the ilding trade have also affected the lume of business. Prices generally ow no improvement, but Canadian timr seems disposed to break away from depression governing the trade at ge. There has been of late a slight provement in white pine. Glasgow has ught Quebec white pine deals at from enty shillings to thirty shillings per ndard more than last season's quotans. There is no difficulty in placing regular sizes, but for irregular lots a duction in price must be made in order to effect a sale. Spruce deals are steady. Such dimensions as 3 x 11 and 3 x 9 are exceedingly scarce. Spruce battens have sold well under the hammer, a parcel of 3 x 7 unassorted, from Saguenay, Quebec, averaging £7 12s 6d per standard, as compared with £7 2s 6d one week previous.

STOCKS AND PRICES.

The Merrill & Ring Company, of Duluth, Minn., last week sold 14,000,000 feet of No. 3 and better pine, the first of this year's cut.

The cut of logs in the district of East Kootenay, B. C., during the past winter was greater than for many years, aggregating over 200,000 logs.

Lumbermen at River Hebert and Shulee, N. S., lost a large quantity of logs and piling through the breaking of dams and booms by last week's freshet.

The corporation of Napanee, Ont., is asking for tenders up to April 21st for supply of pine sidewalk plank and three inch stringers, the latter of cedar.

C. Reid's Sons, of Bothwell, Ont., have purchased the timber on a 550 acre lot near their mills at Bothwell. They have three years in which to move the timber.

It is reported that the Turner Lumber Company, of Midland, Ont., have disposed of their season's cut of pine to Skillings, Whitney & Barnes, of Ogdensburg, N. Y.

W. B. Dickson, who represents W. M. Mackay, of St. John, in Albert county, N. B., reports that the cut of logs this season in that county will aggregate about 40,000,000 feet.

The Munro Lumber Company, of Pembroke, Ont., have 100 cribs of timber ready to take to the water for shipment to Quebec. The timber is at Seven League Lake.

The tender of the Rathbun Company has been accepted for the supply of lumber to the city of Kingston, Ont., at the following prices: Two and three inch lumber, $18.85 per M feet; 1 and 1½ feet, $18.85; cedar sleepers, 2¾ cents per lineal foot.

James Rae, of Ahmic Harbor, Ont., writes that on account of the early breakup of winter, some pine and hardwood logs have been left in the woods. The hardwood mills in that vicinity are fairly well stocked with logs and will soon be running again.

At Buffalo dealers are asking $4.50 for best grade white pine shingles and $4.25 for red cedar Perfections, and some dealers are even talking about asking higher prices. In the Saginaw valley white pine are quoted at $2.60 to $3.90 and cedar at $2.00 to $2.75.

For the supply of 54,000 lineal feet of hemlock deals to the city of St. John, N.B., tenders were submitted as follows: J. M. Driscoll, $10.75 per M; George McKean, $9.50; John E. Moore & Company, $9.00, the latter being accepted. F. E. Sayre & Company offered to supply 133 tons of hemlock timber at $4.50 per ton, and 90 tons of red pine at $6.00 per ton. Murray & Gregory will supply 3,000 square yards of spruce blocks at 50 cents per yard.

The following references to the Barbadoes market is found in the report of S. P. Musson, Son & Co., dated March 15th: "The only landing to note is the 'Neva,' from Bear River, N. S., with 58,000 feet second quality white pine, which was sold at $15.60. There are full stocks of both white pine and spruce, but dealers show a willingness to buy at about late rates. We had the "Onora" from Liverpool, N. S., on 9th inst., but dispatched her to Demarara under an offer of $27.00 for 46,000 feet shipping, $22.00 for 41,000 feet second quality white pine, and $22.00 for 47,000 feet hemlock. No receipts of any kind of shingles have taken place, but there is little inquiry.

There is not much start in the cooperage trade, says the American Lumberman, all slack shops being decidedly quiet and the demand for tight work not being large. There is a scarcity of tierce staves and fewer slack hoops than of other things in that trade. Flour mills are running much slower than is common this spring, as the export demand for flour is very light. Slack quotations by jobbers at Buffalo are as follows: $7.75 to $8 for first class, $4.24 to $4.50 for second class; basswood heading, 5½ to 5¾ cents for first class, 3¼ to 3½ cents for second class; coiled hoops, $8.50 to $8.75 for 6-foot, $8.00 to $8.50 for 5 1-2 foot, $5 for hickories. In tight work $29 for tierce staves, $19 for heading, $12.50 for hoops, $22 for pork staves, $16 for heading, $10.50 for hoops.

A report of the hemlock market at North Tonawanda, N. Y., says: "The market gives promise of becoming more remunerative this season than for some years; the demand is strong and prices are advancing in both Pennsylvania and Michigan stock. The new price list that became operative several weeks ago is stronger than some dealers expected it would be. While stock is decidedly scarce with most dealers it is not expected that the situations will continue embarrassing in this respect much longer. Mills in the west and in Pennsylvania have begun to operate with all the vigor possible and stock should be moving more freely in another month at the latest. The base price of piece stuff is $14.50. A local dealer who is acquainted with the situation at the mills in Michigan states that $10 is being secured for 16 foot boards and under, while boards 18 feet and from 22 to 24 feet in length are bringing $11 and $12.50 respectively."

SPRUCE DEALS IN IRELAND.

A correspondent of the Timber News, Liverpool, England, thus refers to the spruce situation and the opinion of the timber trade in Ireland:

"Spruce deals continue high in price—too high, it is thought, to last. It is true, or rather alleged, that prices of materia and labour in Canada have increased; even so, the increase in cost of production does not warrant, on a dull and declining 35s. freight, an £8. 5s. c.i.f. price, or anything near it, for spruce deals. The feeling in the timber trade in Ireland is that prices of Canadian goods will be very much cheaper later on, when the quantities of all kinds in view for shipment during the season will be more readily available for accurate computation. It is believed the quantities then ascertainable and ready for sale and shipment will be much larger than what can now be only roughly guessed at, and as a consequence lower prices are expected to rule. This has happened before, and we can only read the future by the past. There is one thing regrettably uppermost in the minds of distracted steamer managers and industrious shipbrokers, and it is that freights are not going to "boom" for many months to come, if for years, in view of the total collapse and smash in the freight markets of the world. Timber importers can therefore reasonably calculate upon, for at least 1902, the cheapest freight market experienced since probably the dark freight days of 1885 and 1886, leaving thus only the probable f.o.b. prices to be considered. A large share of what is said of the increased cost of production in Canada may be perfectly true, and, we may venture to hint, some of it may be—otherwise."

TRADE OPENINGS.

The following were among the enquiries relating to Canadian trade received at the Canadian Government Office in London during the week ending 14th March, 1902. The names of the parties may be obtained from the publishers of this journal.

A London firm of wholesale and export cabinet makers ask to be referred to Canadian shippers of chair stock, seats, backs, legs, &c.

A commission agent at Newcastle with good connection wishes to hear from Canadian manufacturers desiring representation in that quarter.

The agency for a Canadian exporter of wood pulp is desired by a Brussels firm who could take up the representation for Belgium and Holland.

CANADIAN LUMBER SHIPMENTS.

The following shipments of lumber, etc., from Canadian ports are reported since last issue:

From Halifax, N. S.: Str. Hebe, for Preston, Eng., 879,327 feet deals, value $9,400. Str. Alf, for London, 404,847 feet deals, value $3647. Str. Ulanda, for St, John, Nfld., 14,691 feet lumber, value $248.

From St. John, N. B.: Schr. James L. Malloy, for New York, 890,000 laths, by John E. Moore. Schr. Canadian, for St. Pierre, 72,401 feet boards, by L. G. Crosby. Barque Culdoon, for Las Pamas, 120,418 feet pine boards, 134,000 feet pine plank, 7,798 feet deals, 76,855 feet ends, by A. Cushing & Co. Str. Wyandotte, for London, 2000 bales pulp, by St. John Sulphite Pulp Co.; 200 crates veneer, by G. McKean. Str. Ionian, for Liverpool, 987,889 ft. spruce deals, 238,894 ft. birch deals. Schr. Romeo, for Newhaven, 23,531 ft. boards, 87,404 pine pickets, by A. Cushing & Co. Schr. Priscilla, for Newport, 8,781 ft. deals, 74,197 ft. plank, 68,435 ft. scantling, by A. Cushing & Co. Schr. A. P. Emerson, for City Island, 289,004 ft. deals, by A. Cushing & Co. Schr. Beaver, for Providence, 252,404 ft. plank, by A. Cushing & Co.

Freight rates are decidedly weak and the outlook for the coming season is not very promising for shipowners. Recent deal charters include the following: Str. Simonside, St. John, N. B., to w.c. England, 35s; str. Kinsdale, Halifax, N.S., to w.c. England, 36s 6d; barque Nino Frauega, 960 tons, Halifax to Cardiff or Swansea, 40s; Steamer Trunkby, Miramichi, N. B., to w.c. England, 40s, June sailing; str. 1,300 stds., St. John to w.c. England, 35s, June; Dalhousie, N. B., to Bowling, 800 stds., 40s; Riviere de Loup, Que., to Londonderry, 800 tons, deals, 42s 6d; Gaspe, Que., to w. c. England or e. c. Ireland, 280 tons, 41s 3d; Nova Scotia port to east Scotland, 330 stds., 43s 9d; St. Lawrence port to Preston, three steamers, June, July and August loading, 42s 6d.

WINNIPEG LUMBER PRICES.

Following is the new wholesale list of white pine lumber prices. The terms applicable to these prices are 60 days or 2 per cent. off for cash in 20 days from date of invoice. These prices are on a delivered basis :

TIMBER AND DIMENSION.—Timber 4x10, 12, 6x10 and 12, and 8x8 to 12x 2, 14 and 16 feet long, $18.50; timber, 6x6, 6x8, 4x4 to 4x8 and 3x6 to 3x12, 14 and 16 feet long, $17; dimension, 2x4 to 2x8, 12, 14 and 16 feet long, $16.50; dimension, 2x10, 2x12, 12, 14 and 16 feet long, $17; dimension, 2x4,10 feet long, $17.50; dimension, 2x8 to 2x12, 10 feet long, $16; dimension, 2x6, 10 feet long, $15; dimension, 2x4 to 2x12, 6 and 8 feet long, $13.50; cull plank, all widths, $10.50; cull planks, re-sawn, $10.50. $1.00 per M advance on each inch over 12 in. in depth and width. $1.00 per M advance on each 2 feet over 16 feet.

LATH—Per M, $3.50.

PINE SHINGLES—6 in. clear butts, per M., $1.50.

CONDITIONS AT ALBANY.

Owing to the unusually heavy trade the past winter, pine stocks are rather light and if business holds out as it has started, and the indications are that it will, the market will be pretty well gutted before new lumber can be received by canal. The New York Lumber Trade Journal says that spruce stocks are even in a worse condition than pine, as almost everything saleable in that line was cleaned out before navigation closed last fall. The spruce dealers, however, are already beginning to receive stock from their mills by rail, and will soon have on hand a complete assortment, and are at present booking orders for anything in their line. Prices on both pine and spruce are stiff and high, and there is no probability of their weakening any before new stock arrives, even if they do then.

Buyers have been quite numerous in the district during the past week and have bought liberally.

BAY CITY AND SAGINAW.

Navigation is due to open any day, as the ice in the river disappeared some time ago and very little is reported in the bay. There will not be many million feet of lumber to ship by water, but the receipts the ensuing season are estimated at 125,000,000 feet. The greater portion of this will come from Canada, and charters have already been made on a basis of $1.50 a thousand feet. Dealers will want this lumber as fast as it can be obtained, but much of it is already in the log. Local stocks have been somewhat depleted during the winter, the volume of business having kept up remarkably well for this time in the year. Some dealers have been getting in lumber bought in the Northern portion of the State and elsewhere by rail, which has helped out in replenishing stocks. L. C. Slade has purchased block at Gravling and at Manistee whic comes in by rail, and 200 carloads fro Duluth, which will keep him going unt the middle of the summer. Other deale are also getting in stock. The Saginaw Lumber & Salt Company, which has re moved its mill to Sandwich, Ont., is clear ing up the remainder of its stock cut here and sold 1,750,000 feet the present wee to local dealers. The mill of the firm a Sandwich will be started in April, havin 5,000,000 feet of logs in boom and a bi raft all made up in Georgian Bay, read for the tugs to hitch to. Three or fou river mills are cutting lumber, and other are getting ready for work. The lumbe market continues strong, with quotation running from $16 to $25 for white pine lo run and $13 to $16 for box. In the yard business is good, and the tendency o prices is along the hardening lines. Car are fairly supplied. Lath continues scarc at $3.60 for No. 1 and $3.10 for No. white pine; No. 1 hemlock $2.90, an No. 2 $2.15.—Timber Trade Journal.

Correspondence Solicited.

THE BOSTON MARKET.

The outlook for spruce lumber at Boston very strong indeed. The supply is rtainly cut short, and promises to be ort all the season. There was a meet- g of the retail dealers on March 27th to nsider the plan of advancing prices. It reported that all the dealers agreed to advance but one of the largest, and his t assenting defeated the rise for the esent. His idea was that to advance ices now must result in a check to ilding. Hence quotations are exceed- gly firm as they are: Ten and 12 inch mensions, $20; 9 inch and under, $18; and 12 inch random lengths, 10 feet and up, $19.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, $16.50; all other randoms, 9 in. and under, 10 feet and up, $17.50; 5-inch and up, merchantable boards, $16; matched boards, $18 to $19; out spruce boards, $13; bundle furring, $16 to $17.

Hemlock is very firm, with the demand pretty good: Boards, 12, 14 and 16 feet stock, $15 to $15.50 for good eastern; Vermont, $13.50 to $14.50; random, eastern, $13.50 to $14.50; Pennsylvania, No. 1, $16 to $17; No. 2, $14.50 to $15.

White pine continues to be advanced as rapidly as occasion offers, with the reports indicating a positive shortage at all points: Uppers, 1-in. $75 to $80; 2½ and 3 in. $80 to $85; 4-in. $85 to $88; selects, 1 to 1½ in. $68; 2-in. $69 to $70; 2½ to 3 in. $74 to $76; 4-in. $79 to $80; fine common, 1-in. $56 to $58; 1¼ to 1½ in. $62 to $66; 2-in. $68 to $70; 2½ and 3 in. $69 to $71; 4-in. $80; barn boards, $23 to $33; coffin boards, $27 to $32.

Hardwoods are very steady with prices strong: One-inch, whitewood, $38 to $40; thicker, $39 to $42; ⅝ inch, $30 to $35; saps, inch, $25 to $30; common, $23 to $25; quartered oak, $56 to $65; fancy, $70 to $75; plain oak, $40 to $47; black ash, $40 to $50; white ash, $45 to $55; cherry, $90 to $130; plain, $35 to $40.

Shingles are in small supply, with the demand also limited. The position is firm: Extra cedar, $3.30 to $3.35; clear, $2.85 to $2.95; extra No. 1, $1.75 to $1.90; Washington and British Columbia red cedar, 16-inch, five butts to 2 inches, $3.75 to $3.80; 18-inch, $4.25 to $4.50.

Clapboards continue in decidedly limited supply, with the market very firm. At the same time, the demand is also limited: Extra spruce, $38 to $40; clear, $36 to $38; second clear, $33 to $35; extra No. 1, $24 to $26.

Laths are firmer snd higher at $3.10 to $3.15 for 1⅝ inch; 1½ inch, $2.90 to $3.

Loyalist, from St. John, 10-23 ft. 2 and 2½ x 11 in. hemlock, £6 5s.

HEMLOCK SHINGLES.

We have been asked to give the specifications for hemlock shingles such as are now selling in the New York market at $3.15 per thousand. We find that there are no rules covering the inspection of hemlock shingles applicable to the New York market. The shingle in question, however, must be 18 inches long, cut plump 5 to 2 inches, and be rift sawed. It must be of perfect manufacture, with no feathered ends, and free from knot and rot defects or evident shake. We understand that very few hemlock shingles are used in the New York market.

New Mill Erected 1901. Capacity 100 Million a Year.

Spicer Shingle Mill Co., Limited

It is not the purpose of this advertisement to try and convince the Lumber Trade of Canada that we are the only company in British Columbia manufacturing and shipping shingles in large quantities, or that we "know it all." We recognize that "there are others" and that we are not the only "pebble on the beach." To try and make you believe that we are the only people who can supply you **promptly** and in **large quantities** with a **high-grade** shingle would not only be a **fish** and a **bear** story combined, but it would be gall of the bitterest kind.

Our competitors in the shingle business in B. C. are nice people, and we presume that they know their business ; but we are nice people too, and as we have been in the trade as long as any of them, and a **great deal longer** than the most of them, we know that we know our business, and that our competitors are not in the possession of any points of value regarding the manufacture of shingles which has not come to **our knowledge**.

Our old mill was burned down in May last, and in its place we have built what is at the present time the **Largest** Shingle Mill in B. C.

Our new Mill has 7 of the latest improved type of Dunbar machine, which we run night and day—giving us a capacity of about **100 Million** a year.

Competent judges who have seen our new mill, tell us that it is one of the most **substantial**, carefully **constructed**, and best **planned** mills in this province. We ourselves think it is **the very best** shingle mill in B. C. ; and we know that it is **equipped** with all the very latest improved Shingle Machinery.

Will the trade please note that our contract with the Pacific Coast Lumber Co. closed on December 31, 1901. Orders sent to us by letter or telegraph shall have our best attention.

We want our share of your shingle business, and can **guarantee** you satisfaction in **every particular.**

Spicer Shingle Mill Co., Limited,
VANCOUVER, B. C.

No Fish Stories

go when it comes to speaking about

OUR SHINGLES

FACTS ARE FACTS WHETHER TOLD ABOUT FISH OR SHINGLES

We make a fine 16-inch Shingle.
We make a fine 18-inch Shingle.
We make a fine 24-inch Shingle.
We make all thicknesses from 6-2 inch to 6-3⅜ inch.

They are going out of our different mills at the rate of 200,000,000 a year. We make more shingles than any one firm in the world. Just think of it!

We claim to be experts. That is not gall. That is a statement which is proven constantly by the testimony of our customers from the Pacific Coast to the Atlantic Coast on the Canadian side, and from Maine to Puget Sound.

Mixed Cars our Specialty. Don't forget that we have all kinds of House Finishing Material in Fir and Cedar, and can load any quantity with shingles.

Come, let us deal together.

CUSTOMERS' ATTENTION.—Please take notice that on and after the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles will be ended, and until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipeg, Man , for Manitoba and the North-West ; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

Shingle Mill, Hastings, B.C.; Lumber and Shingle Mill, Vancouver, B.C.; Shingle Mill, New Whatcom, Wash.; Shingle Mill, Sumas, Wash.; Shingle Mill, Carroll Siding, Wash.

The Hastings Shingle Mfg. Co., Limited
Office, 450 Westminster Ave., Vancouver, B.C.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, ONT., APRIL 9, 1902 No. 10

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad

Lumberman, Monthly. A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermer. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations or everyday service to lumbermen.

Prepared by the Editor of the "Canada Lumberman."

Toronto, Canada
C. H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of six 2 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED—A RAFT OF PINE LOGS ON Georgian Bay; apply at once to Box 20, CANADA LUMBERMAN.

FOR SALE.

34 INCH BAND SAW WITH GUIDE, price $65; pony planer, 20 inch, feed rolls, with countershaft, price $60; some anvils; all second hand, in good order. COPP BROS. CO., Hamilton.

WANTED—TO SAW BY THE THOUSAND or to purchase for spot cash, two to four million feet of pine logs, delivered North Shore or Georgian Bay, as early as possible after this date. Write, giving description, price and where located, to A. P. EBERT, Wiarton, Ont.

WANTED — POSITION BY A TRUSTWORTHY man, 34 years old, 5 years commercial accounting, eleven years railroading experience. Strictly sober and well recommended. Address Rhobythal, P. O. Box No. 163, St. Hyacinthe, Que.

CUSTOM SAWING.

Can contract for one million feet or more, pine or hemlock; good shipping facilities. Write, SIMS LUMBER CO., Sault Ste. Marie, Ontario.

FOR SALE.

SAW MILL, CAPACITY 15,000; A BARGAIN for cash; f. o. b. G. T. R. or C. P. R., for $800. Box 156, Thamesville, Ont.

WANTED—HARDWOOD LUMBER.

SOFT ELM, BIRCH, BLACK ASH, 1STS and 2nds preferred. J. F. STENGAL, 990 Ellicott Square, Buffalo. N.Y.

WANTED.

NO. 1 SAWED SPRUCE OR PINE STAVES wanted. The above to be 23 in. long, plump ½ in. thick, and free as possible from knots and to be of standard, average width. Address, stating price, to M. CARL, Cooper, Goderich. Ont.

FOR SALE.

100,000 ft. Dry 1", 1¼" and 1½" Maple.
30,000 ft. 1" Birch.
130,000 ft. 1" 1¼", 1½" Beech.
120,000 ft. 1" dry Pine, No. 1 Mill Culls and Box and Better Shorts.
Lath, Shingles, Pine and Cedar Timbers, etc.
A. P. EBERT, Wiarton, Ont.

CANADIAN TIMBER WANTED.

The advertiser solicits correspondence from Canadian firms who may be in position to supply ash, walnut and quartered oak timber for the New Zealand market. Address, in the first instance, "New Zealand," care of CANADA LUMBERMAN, Toronto, Canada.

PARTNER WANTED.

AM OWNER OF A ROTARY SAW-MILL with 40 horse-power boiler and engine; also six square miles of lumber licenses, timbered chiefly with pine and hardwood; near railway station in N. B. Am desirous of entering into a partnership to turn the business into a general wood-working establishment. Address "Pine," care of this paper, for further particulars.

DRY PINE.

WE HAVE ABOUT 1,500,000 FEET DRY PINE in 1, 2 and 3 inch common and better, prefer selling in bulk. Will quote freight rate to Buffalo, Chicago or Toronto on application. Correspondence solicited. N.B.—Would like to correspond with consumers of hardwoods. ST. JOE ISLAND LUMBER CO., Sault Ste. Marie, Ont.

WANTED.

BASSWOOD, ONE MILLION FEET BASSWOOD, 12 ft. long, common and better. Also elm and red birch. JAMES S. BARRON & CO., Box No. 726, New York city.

SPECIAL TO LUMBERMEN.

WITH A THOROUGHLY EQUIPPED PLANING Mill at Orillia, we solicit orders for re sawing and planing of lumber, in any quantity; can match 26 inches wide; all work guaranteed first-class; prices on application. Address, NATIONAL BOX CO., Orillia, Ont.

FOR SALE.

BAND MILL FOR SALE ON GEORGIAN Bay, eight miles from Parry Sound. Capacity 40 M. feet per day. Modern mill of our own manufacture throughout Ample boiler capacity, fine piling grounds with tramways; 16 to 20 feet of water right up to dock; mill situated in a well sheltered harbor. This plant can be bought cheap, considerably less than its orginal cost. Immediate possession can be given and stock of 2 or 3 million logs can be sawn by the thousand or purchased at a reasonable price. Address WATEROUS, Brantford, Canada.

TO

Pine and Spruce MANUFACTURERS.

Correspondence is solicited with Canadian manufacturers of pine or spruce who wish to form a connection with a reliable British house. Advertiser will shortly visit Canada and desires to have a personal interview with mill-men now doing or seeking to do an export trade. Best of references as to reliability and standing. Box 42, CANADA LUMBERMAN.

CURRENT TRADE CONDITIONS.

ONTARIO.

There are no evidences that the white pine market will weaken when the mills commence sawing. On the other hand, the outlook is decidedly promising, as the volume of trade is expanding and inquiries are becoming more numerous. There has been heavy buying of dry stock as well as of the coming season's production. The strength of the market is clearly indicated by the fact that contracts have been closed for the new cut at prices about two dollars per thousand above the current quotations for dry stock. The highest price which has come to our knowledge is $17.25 for log run. This is doubtless an exceptionally high price, and one which has caused the trade to question whether buyers are justified in paying such a figure. It is argued that as many of the mills will not commence sawing until the first of June, and two months must elapse before the stock is in shipping condition, most of the lumber will actually be marketed in 1903. In the meantime unforeseen circumstances might have brought about much lower values. Nevertheless, the outlook is for higher prices for white pine in the immediate future, not to speak of later developments. The buyers at the top prices have in most instances been United States dealers

Local trade is quite brisk, as are also shipments to the Eastern States. The lath market is somewhat uncertain, owing to the high prices ruling. Sales of No. 1 are being made in Toronto at $3.50 wholesale, and of No. 2 at $3. Shingles are steady. For 16-inch $2.60 at the mill is asked, and the wholesale price in Toronto ranges from $3 to $3.25. Satisfactory reports come to hand of hardwoods. Buffalo dealers have recently purchased a large quantity of birch, the price of which is tending upwards.

QUEBEC AND NEW BRUNSWICK.

While pruce deals for the British market are quiet, there is a considerable movement of lumber to the Eastern States. The buying of clapboards has consumed almost the entire stock, and sales are now being made as high as $40 for best quality, Boston delivery. Square and waney pine timber is exhibiting unusual strength. Sales have taken place at the equivalent to 58 cents for waney pine, delivered at Quebec. This is an advance over the prices ruling one year ago. It is believed that prices of square and waney pine will gradually work higher, as there are few limits on which board timber can now be taken out economically and profitably. Cedar shingles are higher, some manufacturers asking $3.40 for extras on Boston freight rates. Spruce lath are also firmer at $3.20 for 1⅝ inch.

UNITED STATES.

The lumber market has been well sustained nothwithstanding the near approach of the sawing season. Shipments from the Lake Superior district during the month of March were slightly less than for the same month one year ago. This was due to broken stocks and the inability of manufacturers to supply the wants of their customers. The demand has not diminished, but on the other hand dealers and consumers are showing a disposition to close contracts as early as possible and thus be assured of an ample stock. Box lumber in both pine and spruce is in large request. White pine which could be purchased one year ago at $16.00 now commands $18.00. The opinion seems to be that there will be a scarcity of the better grades of lumber this year. It is probable that low grade pine boards and dimension may weaken a little about midsummer, but no person expects that there will be a general slump. Spruce lumber is exhibiting as much strength as pine and an advance of $2.00 per thousand is talked of. It is stated that fully

one-quarter of the cut of logs on the Kennebec river, in Maine, has been left in the woods, which accounts for the buoyancy of the spruce market. There seems to be a desire on the part of dealers to prevent the price of spruce from going much higher, on the ground that it might be disastrous to building operations.

Hemlock continues to improve. Sales of cargo hemlock this spring are from $1.50 to $2.00 higher than at the close of navigation last fall. The demand is large, while stocks are only moderate. An advance of 50 cents was put into effect at Philadelphia last week, bringing dimension hemlock to $15.50 and boards to $17.00. At New York the base price is $16 00 and at Buffalo $14.50. Basswood and birch are leading among the hardwoods, although all kinds are selling satisfactorily. The east is buying oak at good prices. Maple is moving liberally, but it seems difficult to advance prices. A Saginaw firm last week bought 1,250,000 feet of basswood at $20.00 for log run at shipping point.

Saginaw valley dealers report a famine in lath and are offering $3.50 and $4.00. White pine shingles are quoted at Saginaw at $4.05 for 4x18 inch stocks, and $3.00 for clear butts; 16-inch pine are worth $3.45 for *A*, and $2.45 for clear butts; 18-inch cedars $3.90 for XXXX, and $2.90 for clear butts; 16-inch cedar $2.85 for *A* and $2.25 for clear butts. Best grade 18-inch pine shingles brings $4.50 at Buffalo, and 16-inch $3.60.

GREAT BRITAIN.

Importers in Great Britain have not yet become convinced of the necessity of purchasing at present prices, and are holding off in the hope that shippers will weaken. In the meantime there is a steady consumption of Canadian pine and spruce, and stocks are becoming greatly diminished. It seems probable that the delay in placing orders will in itself result in bringing about higher prices as soon as stocks reach the point where they must be replenished. In regard to spruce, it is said that while shippers have made a number of contracts for Ireland and some parts of the British coasts, very little contracting has been done by the merchants of Liverpool and other Lancashire ports. The stock now on hand is largely of inferior quality. Broad deals in all grades are in demand. Flooring boards and unassorted battens are weaker than they were one month ago.

First quality pine deals are quoted at 27 10s to £30 5s per standard for broads and £24 to £25 for 11 inch. Second quality range from £14 for undersized to £20 for broads. Quebec spruce deals are selling at £8 10s to £9 5s for regulars. Red pine is still heavy, although prices have risen materially from the lowest point. Quotations are £8 to £10 5s per standard.

STOCKS AND PRICES.

Tenders are invited up to Wednesday, 16th inst., for supply of deals, etc., required by the city of Quebec.

George Lewis, of Duncan's, B.C., has taken a logging contract for the Boyd Lumber Company at Cowichan Lake.

The mill of the Conger Lumber Company at Parry Sound, Ont., is about to commence operations, having a supply of logs in the pond.

The Saginaw Lumber and Salt Company last week sold 1,250,000 feet of low grade lumber, cut at their Crow Island mill, to Saginaw dealers.

John Fenderson & Company, of Sayabec, Quebec, have secured a large stock of logs and will operate their mills to full capacity this season.

The Pigeon River Lumber Company expect to have their new saw mill at Port Arthur, Ont., ready for operation May 1st. The Company have secured a full stock of logs.

H. G. March, of Tonawanda, has recently purchased 1,000,000 feet of white pine and other lumber in Ontario, to be manufactured into cooperage stock at Young Y

The town council of Toronto Junction have accepted the tender of A. H. Clummer for sidewalk lumber, at the following prices: Pine, $14.69 per thousand; cedar $13.98; tamarack, $15.53.

The Moulthrop Lumber Company, of John's Island, Ont., have bought 10,000,000 feet of logs in the Georgian Bay district from J. W. Munro & Sons. They will be cut at the John's Island mill.

The Montgomery Door and Box Company have recently purchased the Clark, Swan and Jackson stock at Tonawanda, comprising about 8,000,000 feet of white pine. The price is not made public.

Hicks Company, lumber merchants, of Peterborough, Ont., have secured the contract for supplying 100,000 feet of maple flooring for the American Cereal Company's new building in that town.

W. & A. McArthur & Company, of Little Current, Ont., are reported to have put in about 15,000,000 feet of logs. Owing to the early break up they are said to have about 1,400 pieces left on the skids.

The E. S. Hartwell Lumber Company, of Chicago, is reported to have purchased the 1902 cut of the mill of Pitts & Charlton at Victoria Harbor, Ont. The price is believed to be in the neighborhood of $17.00 for log run.

James Duncan, of Montreal, and his brother, have recently returned from New York, where they disposed of a portion of this season's cut of lumber. This is the first year that they have sold direct to the New York market.

The International Lumber Company, of Sault St. Marie, Ont., recently sold 40,000 cubic feet of waney pine timber to Quebec parties at 50 cents per foot on cars at the Soo. This is equivalent to 58 or 60 cents delivered at Quebec.

The mill of the Michigan Land and Lumber Company at Blind River, Ont., has been cutting hardwood stocks since February, but will change to pine as soon as the logs reach the mill. About 25,000,000 feet of logs were taken out by the company last winter.

Mershon, Schuette, Parker & Company, of Saginaw, Mich., have about 15,000,000 feet of last year's cut in the Georgian Bay District to move to Saginaw. The firm has a stock of 120,000,000 feet in sight, and expects to handle at least 100,000,000 feet during the year. Practically all of this stock has been purchased in Ontario. Owing to the scarcity of pine shingles, they are bringing 4,000,000 red cedar shingles from the Pacific coast.

The Cook, Lummis Lumber Company, of Toronto, has been incorporated, with a capital of $600,000. The members are W. D. Lummis and H. W. Welsh, of Toronto; G. W. Cook, of Morrisburg; Hon. J. P. B. Casgrain, of Montreal; and C. E. Smith, of Spragge.

THE BOSTON MARKET.

The spruce lumber outlook at Boston is even stronger as the season begins to open. The sudden shutting off of winter has certainly left a large percentage of the cut of logs in the woods till another year. Then, there is not a particle of snow in the woods, and, though some of the streams are open, they are very low, while the lakes and other "dead water" are still encased in ice. Such conditions are retarding driving, and promise to continue to do so. Still, the lumber people are rushing all the men possible forward to the drives, and they will be armed with dynamite and every means for breaking up the ice and starting the logs forward. But, at the very best, it looks as though the driving must be slow and very difficult, hence still further shortening the crop of logs.

Quotations on spruce are very firm, and are likely to be advanced right away: Ten and 12 inch dimensions, $20; 9 inch and under, $18; 10 and 12 inch random lengths, 10 feet and up, $19.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, $16.50; all other randoms, 9in. and under, 10 feet and up, $17.50; 5-inch and up, merchantable boards, $16; matched boards, $18 to $19; out spruce boards, $13; bundle furring, $16 to $17.

Hemlock is in a position of absolute scarcity. Few of the mills have any to offer, and stronger prices are asked by the few holders. The logs promise to be short and delayed, along with spruce: Boards, 12, 14 and 16 feet stock, $15 to $15.50 for good eastern; Pennsylvania, No. 1, $16 to $17.50; No. 2, $15 to $15.50.

White pine is still very firm, with the tendency upward. Western shippers talk of higher prices, under still smaller supplies: Uppers, 1-in. $75 to $80; 2½ and 3 in. $80 to $85; 4-in. $85 to $88; selects, 1 to 1½ in. $68; 2-in. $69 to $70; 2½ to 3 in. $74 to $76; 4-in. $79 to $80; fine common, 1-in. $56 to $58; 1¼ to 1½ in. $62 to $66; 2-in. $68 to $70; 2½ and 3 in. $69 to $71; 4-in. $80; barn boards, $23 to $33; coffin boards, $27 to $32.

Hardwoods are very steady with a fair demand: One-inch, whitewood, $38 to $40; thicker, $39 to $42; ⅝ inch, $30 to $35; saps, inch, $25 to $30; common, $23 to $25; quartered oak, $56 to $65; fancy, $70 to $75; plain oak, $40 to $47; black ash, $40 to $50; white ash, $45 to $55; cherry, $90 to $130; maple, $32 to $40.

Shingles are in small supply and firm, while reports from the Aroostock mills at least say that the crop of cedar logs will be reduced by the same causes as will reduce the supply of spruce. Firmer prices are being quoted: Extra cedar, $3.30 to $3.40; clear, $2.90 to $3; second clear, $2.25 to $2.40; extra No. 1, $1.75 to $1.90; Washington and British Columbia red cedar, 16-inch, five butts to 2 inches, $3.75 to $3.80; 18-inch, $4.25 to $4.50.

Clapboards are in remarkably small supply, with the demand also small. But for those that must be had fancy prices are paid: Extra spruce, $38 to $40; clear, $36 to $38; second clear, $33 to $35; extra No. 1, $24 to $26.

Laths are firmer and higher at $3.15 to $3.20 for 1⅝ inch; 1½ inch, $3.

The National Lumber Company, of Toronto, has been incorporated, with a capital of $100,000.

CANADIAN LUMBER SHIPMENTS.

The following shipments of lumber, etc., from Canadian ports are reported since last issue:

From Vancouver, B.C.: Str. Rence, for Sydney, Aus., 1,251,013 feet rough fir, value $12,510, by British Columbia Mills, Timber & Trading Company.

From Halifax, N. S.: Str. Ionian, for Liverpool, 271,592 feet lumber, value $2,693. Str Ulunda, for Liverpool, 177,817 feet, value $1,778. Str. Aquila for Penarth Roads, for orders, 1,775,443 feet lumber, value $18,717. Str Indrani, for Glasgow, 217,242 feet, value $2,872.

From St. John, N.B.: Str Indrani, for Glasgow, 1,615 maple blocks, 486,683 feet deals, by Schofield and Co.; 320 bundles flooring by J. S. Findlay, Owen Sound; 50,250 feet deals, 2,400 bundles shooks, by A. Cushing & Co. Str Dunmoor Head, for Belfast, 332 pieces elm lumber, by John Harrison & Son, Owen Sound; 115,110 feet deals, by George McKean; 746,720 feet deals, 4,243 feet ends, by W. M. Mackay. Str Parthenia, for Cape Town, South Africa, 124 bundles doors, by Gilmour & Co., Trenton; 204 pcs chair stock, by North American Bent Chair Co., Owen Sound. Str Manchester Commerce, for Manchester, 291,677 feet deals, 51,131 feet scantling, 7,149 feet ends, by George McKean; 755,766 feet deals, 56,486 feet scantling, 22,956 feet ends, by W. M. Mackay. Str Parisian, for Liverpool, 1,532,280 feet deals, 1,335 feet scantling, 5,517 feet ends, by George McKean. Schr Ina, for Boston, 70,051 feet boards, 59,723 feet plank, by A. Cushing and Co. Schr Myra B., for Boston, 32,164 feet boards, 60,809 feet plank, 202,000 cedar shingles, by A. Cushing and Co. Schr Luta Price, for Milton, 135,019 ft. boards, by N. H. Murchie. Schr W. H. Waters, for City Island, 151,128 feet plank, 1,347 feet deals, by Stetson, Cutler and Co. Schr Ida May, for City Island, 11,000 laths, by A. Cushing and Co. Schr Hattie Muriel, for Boston, 29,300 feet spruce boards, 35,619 feet pine boards, 29,267 ft. scantling, by A. Cushing and Co.

We are advised by Mr. Gain Robinson, wholesale lumber dealer, of Springfield, Mass., that he has secured the services of Mr. C. H. Bracken, of Boston, so long and favorably known to the trade in the territory covered by eastern Massachusetts, Rhode Island, Vermont, New Hampshire, Maine, and the eastern provinces of Canada. The acquisition of Mr. Brecken's experience and services, added to those of Mr. Carlos Ruggles, who will continue as representative in the territory he has covered for the past ten years in the interest of Mr. Robinson, represents one of the most substantial and intelligent lumber distributing organizations in the east.

TO THE LUMBER TRADE

We will be represented in South Western Ontario by Mr. Frederick Shaw, of Forest, Ont., who comes with us as travelling salesman on May 1st, and who will call on the trade regularly. We are running our mills day and night and offer to the trade a well manufactured stock of band sawed lumber put up in grades under Michigan inspection rules. We solicit your inquiries, and all correspondence given prompt attention.

The Cleveland-Sarnia Saw Mills Co., Limited

SARNIA, ONT.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

Continued firmness in the lumber market may be safely predicted for the summer months, although it is claimed in some quarters that the replenishing of standing stocks with the coming season's mill cut will have a tendency to lower prices. Mr. Hiram Robinson, of the Hawkesbury Lumber Company, states that prices are bound to remain firm, with good prospects of an advance. The advance already registered has not, according to Mr. Robinson, been in keeping with the advance in the cost of producing the stock. Lumber operators were compelled to pay high figures for labor, provisions and fodder. The prevalence of smallpox had a depressing effect, and incidentally increased the cost of actual production. The increased demand from the American side furnishes another argument in favor of the predicted increase. The advance already established has been greater on the high grade lumber, which furnishes but a small proportion of the whole cut. For this reason the mill owners have not been reimbursed in the degree that was generally supposed, and hence a marked advance in lower grades may be looked for. The Hawkesbury Company is furnishing large quantities of lath to dealers in the States at prices ranging from $2.00 to $2.40 per 1000 pieces f.o.b. at Hawkesbury. The early break-up of winter interfered with the operations on several limits and the supply of logs will be smaller than last year, another argument in favor of higher prices.

While lumbermen in general agree that prices will be maintained and perhaps advanced, a letter received from an American dealer points to a break in white pine prices. There is little of this stock moving, according to this party. Spruce has picked up in the States, and it is just possible that Canadian white pine may relax a degree. A feature of the Ottawa Valley operations is the large cut of square timber. Part has been sold at a slight advance on last year's prices. Last week the Munro Lumber Company, of Pembroke, had 7,600 pieces of timber drawn to the Ottawa river from their Mattawa limits. The raft will be ready to leave Seven League Lake this week. The company expects to have two more rafts ready by the middle of the month, making 400,000 cubic feet of board timber taken off the Mattawa limit this season. Another raft of 150,000 cub. ft. will be floated on the Opeongo river about the end of the month. Other rafts will follow later on. About 400 men will be employed on the drive.

The spring and summer rates on the railways went into effect on April 1st. The rates from Ottawa to New York and vicinity by barge lines from Albany are as follows:—On soft wood in lots of 50,000 feet and upwards $3.00 per M, but on lots under that figure $3.50 per M. The rate on hardwoods in quantities over 50,000 ft. is $4.50 per M, and on quantities below that figure $4.75 per M. The rate on laths of 250,000 pieces and over is 60 cents per thousand pieces and on lots below those figures 70 cents; on shingles in lots of 100,000 shingles the rate is 45 cents per thousand shingles. Lumber in lots under 50,000 feet, lath in lots under 250,000 pieces, and shingles in lots less than 500,000, are subject to extra towage. The summer rates to Montreal went into effect on the same date. On lumber for export the rate is $1.10 per M, and on lumber for local delivery 4 cents per hundred pounds.

The Hawkesbury Lumber Company's mills at Hawksbury are now running full capacity, employing 700 men. The water power is naturally greater in the earlier months of the year, and full advantage of the fact is taken. The company will run two mills night and day and two in the day time alone. The McLaren mills at Buckingham are also in operation nearly a month earlier than last year.

Daily large gangs of men are being forwarded from Ottawa for the drives, and daily large numbers are returning from the shanties; the latter are all treated to a specially prepared bath on arrival at the depot, to prevent any possibility of a spread of smallpox in the Capital through their presence. Men for the drives are receiving $40 a month as against $45 a year ago. J. & P. Burke, hiring agents, this week sent 75 forward for the South River Lumber Company, 100 for the Morgan Company at Chelmsford, 75 for the Michigan Land and Lumber Company, Nairn Center, and 50 for the McLeod McCormick Company at Spanish River.

In the presence of a distinguished gathering and about 300 employees of the Company, Mr. W. C. Edwards, M. P., on Monday evening opened the Working Man's Club fitted up by him for the men employed at his Ottawa mills. The men greeted with applause the announcement that there is a prospect of their sharing in the profits of the firm. Mr. Edwards also announced his intention of establishing a similar club at his Rockland mills. The Ottawa Club is housed in cozy apartments near the mill. During their spare time the men will be able to enjoy themselves with games, books and papers interesting and instructive.

A settlement out of court has been effected in the celebrated case of Dezouche vs. Fraser, by which defendant agrees to pay $100,000. The legal battle was fought on one issue, the legality of the sale of certain valuable limits operated by the firm of Fraser & McCosham. In 1885, after the death of the latter, the limits were sold in order to close up the partnership affairs. At public auction they realized $165,000. A few years after Mr. J. R. Booth purchased the limits, on which considerable quantities of valuable timber have since been secured. McCosham was plaintiff's first husband. She alleged that in the sale in 1885 the interests of the McCosham children, the minor heirs, had suffered. She asked through the court that Mr. Fraser be ordered to account for the value of the timber taken off since the sale in 1885, as well as the price then procured. Judge Lavergne ruled that under the Quebec law governing the rights of minors, the sale of the Black River limit in that province was illegal. He, however, ruled that the sale of the Ontario limits on the Opeongo and Schyar rivers was legal. From this judgment both plaintiff and defendant appealed, but the appeals have not yet been argued. It is understood the $100,000 or thereabouts to be paid over by Mr. Fraser includes $50,000 held by him in trust as the share of the McCoshams, in profits of business tsansactions carried on under the firm's name after the death of McCosham. Although the report on the value of the limits and timber removed has never been made, it is estimated that the share claimed by plaintiff for herself and children was about half a million dollars.

THE COOPERAGE MARKET.

Messrs. Sutherland, Innes & Company, Chatham, Ont., send us the following comments on the cooperage market :

"The condition of the cooperage stock market at the present time is very unsettled. On account of trade being dull, manufacturers are selling their stock very much lower than they are warranted, taking into consideration the cost of logs. This, however, we do not expect will last very long, as the demand will soon spring up, and then we expect that prices will be very much higher.

"Staves in the west are selling in large blocks on the basis of $6.50 per gross mille f.o.b. cars at mills for No. 1 stock, and from $3.00 to $3.50 per gross mille for No. 2. These are the prices at which American buyers have bought for ordinary 28½ and 30 inch staves, with proportionate prices for longer or shorter lengths. We do not anticipate any change in the market for some time to come. The grade of stock required for the home trade being very much higher for this length of staves than what is demanded for the U.S., prices for home consumption are considerably higher. Staves for this country have to be put up in three grades, No. 1 of extra quality, the rough staves which are too good for the No. 2, but which would go in the ordinary No. 1's for the U.S. trade, being put in the meal barrel grade, while the No. 2 required for Canada are demanded of the extra good quality. Coopers in this country, however, are willing to pay extra prices for extra quality of stock, which is very much higher than the standard grades in the U. S. markets."

The National Box Cnmpany, Limited, are establishing a factory in Orillia for dressing and redressing all kinds of lumber in transit. The factory will have a daily capacity of 50,000 feet, and will be equipped with first-class machinery, which, with the employment of skilled workmen, will enable the company to execute the work at a minimum cost. The head office of the company is at the corner of George and Esplanade streets, Toronto.

The Canadian Northern Railway have put into effect a schedule of lumber rates on softwood lumber showing a reduction of one cent per 100 pounds from the rates in effect by the Canadian Pacific Railway from the Rainy River district to points in Manitoba. The present rates are as follows ; Port Arthur to Winnipeg, 15 cents per 100 pounds ; Portage la Prairie and Carman, 17 cents ; Gladstone, 19 cents ; Dauphin, 23 cents ; Brandon and Hartney, 15 cents.

New Mill Erected 1901. Capacity 100 Million a Year.

Spicer Shingle Mill Co., Limited

It is not the purpose of this advertisement to try and convince the Lumber Trade of Canada that we are the only company in British Columbia manufacturing and shipping shingles in large quantities, or that we "know it all." We recognize that "there are others" and that we are not the only "pebble on the beach." To try and make you believe that we are the only people who can supply you **promptly** and in **large quantities** with a **high-grade** shingle would not only be a **fish** and a **bear** story combined, but it would be gall of the bitterest kind.

Our competitors in the shingle business in B. C. are nice people, and we presume that they know their business ; but we are nice people too, and as we have been in the trade as long as any of them, and a **great deal longer** than the most of them, we know that we know our business, and that our competitors are not in the possession of any points of value regarding the manufacture of shingles which has not come to **our knowledge**.

Our old mill was burned down in May last, and in its place we have built what is at the present time the **Largest** Shingle Mill in B. C.

Our new Mill has 7 of the latest improved type of Dunbar machine, which we run night and day—giving us a capacity of about **100 Million** a year.

Competent judges who have seen our new mill, tell us that it is one of the most **substantial**, carefully **constructed**, and best **planned** mills in this province. We ourselves think it is **the very best** shingle mill in B. C. ; and we know that it is **equipped** with all the very latest improved Shingle Machinery.

Will the trade please note that our contract with the Pacific Coast Lumber Co. closed on December 31, 1901. Orders sent to us by letter or telegraph shall have our best attention.

We want our share of your shingle business, and can **guarantee** you satisfaction in **every particular.**

Spicer Shingle Mill Co., Limited,
VANCOUVER, B. C.

No Fish Stories

go when it comes to speaking about

OUR SHINGLES

FACTS ARE FACTS WHETHER TOLD ABOUT FISH OR SHINGLES

We make a fine 16-inch Shingle.
We make a fine 18-inch Shingle.
We make a fine 24-inch Shingle.
We make all thicknesses from 6-2 inch to 6-3⅜ inch.

They are going out of our different mills at the rate of 200,000,000 a year. We make more shingles than any one firm in the world. Just think of it!

We claim to be experts. That is not gall. That is a statement which is proven constantly by the testimony of our customers from the Pacific Coast to the Atlantic Coast on the Canadian side, and from Maine to Puget Sound.

Mixed Cars our Specialty. Don't forget that we have all kinds of House Finishing Material in Fir and Cedar, and can load any quantity with shingles.

Come, let us deal together.

CUSTOMERS' ATTENTION.—Please take notice that on and after the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles will be ended, and until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipeg, Man , for Manitoba and the North-West ; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, ONT., APRIL 16, 1902 No. 11

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the "Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of six 2 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada.

DRY PINE.

WE HAVE ABOUT 1,500,000 FEET DRY PINE in 1, 2 and 3 inch common and better, prefer selling in bulk. Will quote freight rate to Buffalo, Chicago or Toronto on application. Correspondence solicited. N.B.—Would like to correspond with consumers of hardwoods. ST. JOE ISLAND LUMBER CO., Sault Ste. Marie, Ont.

SPECIAL TO LUMBERMEN.

WITH A THOROUGHLY EQUIPPED PLANING Mill at Orillia, we solicit orders for resawing and planing of lumber, in any quantity; can match 26 inches wide; all work guaranteed first-class; prices on application. Address, NATIONAL BOX CO., Orillia, Ont.

FOR SALE.

BAND MILL FOR SALE ON GEORGIAN Bay, eight miles from Parry Sound. Capacity 40 M. feet per day. Modern mill of our own manufacture throughout Ample boiler capacity, fine piling grounds with tramways; 16 to 20 feet of water right up to dock; mill situated in a well sheltered harbor. This plant can be bought cheap, considerably less than its orginal cost. Immediate possession can be given and stock of 2 or 3 million logs can be sawn by the thousand or purchased at a reasonable price. Address WATEROUS, Brantford, Canada.

TO

Pine and Spruce MANUFACTURERS.

Correspondence is solicited with Canadian manufacturers of pine or spruce who wish to form a connection with a reliable British house. Advertiser will shortly visit Canada and desires to have a personal interview with mill-men now doing or seeking to do an export trade. Best of references as to reliability and standing. Box 42, CANADA LUMBERMAN.

WANTED—A RAFT OF PINE LOGS ON Georgian Bay; apply at once to Box 20, CANADA LUMBERMAN.

WANTED.

BASSWOOD: ONE MILLION FEET BASSWOOD, 12 ft. long, common and better. Also elm and red birch. JAMES S. BARRON & CO., Box No. 726 New York city

WANTED—SEVERAL FIRST-CLASS DUNBAR Shingle Sawyers. Apply the Hastings Shingle Mfg. Co., Limited. See our ad in this paper about our new mill. Mill to be free from dust.

VALUABLE 35 HORSE POWER SAW AND Shingle Mill for sale in a new settlement (Township Lyell), District of Nipissing; first class hardwood section. For particulars apply to POSTMASTER, Cross Lake P.O., Ont.

FOR SALE.

SAW AND SHINGLE MILL WITH BIG stock of logs, been running all winter. IMPERIAL LUMBER CO, Toronto, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

The past week has shown more activity in the lumber trade. Retail buying has been a feature. Dealers who purchased quite heavily last fall have in many cases almost completely sold out their stock, and generally at a good profit, as prices of white pine are higher than they were at the close of the sawing season last year. Wherever possible wholesale dealers are increasing their holdings of dry lumber, which they are able to purchase on more favorable terms than can be made for the new cut. Indeed, many persons identified with the lumber trade are asking the question whether prices of new stock are not getting a little too high for healthful business. They point out that the buying this spring has in some instances been of the "boom" nature, where a disposition is shown to obtain something no matter at what price. These persons evidently have in mind the contracting that has been done by certain American buyers, who have agreed to purchase mill cuts, log-run, at high prices without first having inspected the log. This is, to say the least, a speculative venture, inasmuch as the quality of log run lumber may vary very widely. In some directions precaution in buying is being advised. On the other hand manufacturers seem confident that there will be no slump.

In Toronto the building trade is being affected by the labor troubles. Architects have considerable work in hand which may be postponed in case of a strike, but which will be immediately carried to completion this season should the labor difficulties be settled at an early date. Hemlock lumber is scarce and strong. Higher prices are being asked for hardwoods. These would seem to be warranted by conditions, as owing to the light crop of logs last winter it would not be surprising if a scarcity of hardwoods should develop before next fall.

QUEBEC AND NEW BRUNSWICK.

A number of transactions in waney pine timber have taken place within the past week, the prices indicating an exceptionally strong market. As compared with last fall, prices at Quebec are fully five cents per cubic foot higher. It is understood that a large quantity of waney pine was taken out last winter, so that the recent advance is in the face of a larger output, and therefore very gratifying to the trade. Other kinds of timber are quiet, with no particular improvement in prices. There has been a little more activity in spruce deals, the outlook for which is somewhat brighter. There is much uncertainty as to the log supply, and it is feared that St. John mills will of necessity remain idle for a portion of the season. Every effort is being put forth to get logs to the mills, but water is low on most of the streams.

MANITOBA AND BRITISH COLUMBIA.

Manitoba dealers have been notified of an advance in prices of British Columbia lumber on several lines. No. 2 edge grain stepping has been advanced $1 to $36. Flat grain stepping is also $1 higher at $31. No. 2 clear fir, 1, 1¼, 1½ and 2 inch, up to 12 inches wide, has been advanced $1.50 to $30, and 14 to 20 inches to $35, which is an advance of $1.50. No. 3 fir flooring, 4 or 6 inch, is up $1 to $24. No. 3 ceiling, 1x4 or 6 ins., is up $1 to $24. No. 3 siding is also $1 higher at $24. No. 1 clear red cedar, 1 inch, 8 to 12 inches wide, is advanced to $38; 14 to 18 inches to $39; 20 to 24 inches to $50. Clear squares have also been advanced as follows: 3x3 and 3x4, 5x5 and 6x6, advance $1.50; 7x7 and 8x8, $3; 10x10, $6. ½ inch bevel cedar siding is advanced $2.

UNITED STATES.

The demand for lumber in the United States has not shown any particular change, but the undertone is strong. Shipments from Buffalo and Tonawanda have not been as heavy of late owing to the scarcity of certain items. There has been a very heavy call for strips. Our Buffalo list this week shows an advance of about $5 per thousand on fine common, $2 on No. 1 cutting up stock and No. 2 moulding strips, and $1 on certain sizes of barn boards. No person seems to be expecting lower prices, probably for the reason that building operations in the Eastern States

are very active. During the month of March 738 permits were granted by the city of Philadelphia, representing a valuation of $6,000,000. In many other cities the volume of building is correspondingly large. Chicago reports a heavy movement of lumber, with some irregularity in prices of common inch boards and strips. The base price of piece stuff is $17.50 for short lengths and a dollar or two added for anything over 18 feet. Norway pine and hemlock show an advancing tendency. The last sales of hemlock in Chicago have been at $10.75 and $11. At Saginaw hemlock piece stuff is worth $12, and boards one dollar more. Sales of pine lumber at Duluth have not been numerous of late. One transaction included 4,000,000 feet of No. 3 and better at $18.

The scarcity of hardwoods at eastern points is causing some alarm. At Buffalo the supply of quartered oak is almost exhausted. Maple, birch and basswood are good sellers. Maple is steadily advancing and brings about $2 more than three weeks ago, but the price is yet considered too low. The spruce market continues very firm as regards both demand and prices. The supply of dry stock is light and $20 is talked of in Boston.

GREAT BRITAIN.

Recent developments in the British timber market have been rather favorable. Buyers are apparently more disposed to operate at current prices, although contracts have generally been for small lots. Prices of pine and spruce deals are quite firm, and the better qualities show a slight appreciation. For 3 x 9 spruce deals £8 10s. c.i.f. London is being asked. This size is very scarce and likely to advance. The stock of Canadian pine deals at the public docks at London on March 31st last was 890,000 pieces, almost the same as one year ago. Of spruce deals the stock was 1,259,000 pieces, an increase of 159,000 pieces over the stock of March 31, 1901. Messrs. Foy, Morgan & Company have compiled the following statistics, showing the supply of deals, battens, etc., at London at the present rate of consumption :

	1902	1901	1900	1899
Deals	3.6	3.5	2.0	2.1
Battens	3.1	2.7	2.0	2.1
Boards	5	4.6	3.2	2.8
Pine	5.6	3.8	2.7	3.6
Spruce	3.9	2.5	1.7	2.5
Floorings	3.7	3.8	3.1	2.6

As the consumption is rapidly increasing, it is thought that a more favorable showing will be made when the next monthly report is issued. The supply of Canadian lumber at Glasgow is proportionately smaller than at London or Liverpool. The stock of Quebec spruce deals is less than one year ago. This is also the case with first and fourth quality pine deals, but second and third quality are in larger supply. There is a heavy stock of soft elm timber, birch planks and red pine deals. Large sales of Canadian waney and square white pine are reported to have been made to Irish houses, chiefly for ship-building purposes, at high prices.

The assignment is reported of O. P. Fraser, lumber dealer, Liscombe, N.S.

Duncan, Ewing & Company, timber merchants, Liverpool, England, announce that they have taken James M. Lamb, who has been associated with them for some years, into partnership. The style of the firm remains unchanged,

STOCKS AND PRICES.

At Springhill, N. B., merchantable spruce logs are worth $10 and battens $8.

Tenders are invited by the city of Halifax, N.S., for the annual supply of lumber.

D. L. Mather, of Rat Portage, Ont., took out over 300,000 railway ties during the past season.

Tenders for the annual supply of lumber for the city of Winnipeg are invited up to 8 p.m. of the 17th inst.

Mickle, Dyment & Son will supply lumber for the corporation of Barrie, Ont., at $18 to $19 for pine, $14 for cedar, and $12 for hemlock.

It is understood that the price at which the cut of the South River Lumber Company was purchased was $19 for log run, mill culls out.

Williamson & Morrison, of Montreal, have sold their 1902 output of three inch spruce deals to Dobell, Beckett & Company, of Quebec.

The management of the Mispec pulp mill at St. John, N. B., expects to take 5,000,000 feet of logs down the Mispec stream this spring.

M.R. Mackay, of Keewatin, Ont., took out during the past winter 100,000 railway ties, 25,000 cords of stave bolts, and 2,500,000 feet of logs.

C. L. Peck has finished sawing 200,000 feet of lumber at Hopewell Hill, N. B. McClellan Bros. are sawing on a 300,000 feet contract at same place.

The R. Laidlaw Lumber Company, of Toronto, are understood to have purchased the cut of the South River Lumber Company, and a portion of the cut of the Huntsville Lumber Company, the latter consisting largely of the upper grades.

The Pine Lumber Company, of Cartier, Ont., are reported to have sold their waney pine timber to W. & J. Sharples, of Quebec, at the price of 37 cents per cubic foot on cars at Cartier. The timber was of small average.

It is estimated by lumbermen that it will cost $25,000 to save and raft the logs which went past Fredericton, N. B., in the recent freshet. It is said that about 60,000 pieces are already boomed at the mills, and about 40,000 more are safely in booms up river awaiting transporation.

T. D. Robinson, of Winnipeg, has secured the contract from George A. Mitchell to supply over half a million feet of lumber for the Strathcona apartment building to be built in that city. The fir joists will be brought from British Columbia, the hardwood flooring from Ontario, and the balance from the Lake of the Woods district.

Messrs. S. P. Musson, Son & Company, in their last report of the Barbadoes market, say: "There have been no arrivals of either white pine or spruce, and although the market is amply stocked with the former, and fairly so with the latter, there is rather a better feeling, and next arrivals should readily bring late prices and probably a shade better. No receipts of shingles have taken place, but there is no inquiry."

The Timber News says that St. John and Miramichi, N.B., spruce deals are being held at £5 15s to £6 per St. Petersburg standard f.o.b., which is not considered an inducing or safe price at which to operate extensively. This journal further says:—"A few sales have also been concluded in Bosnian whitewood of late, the shippers accepting £8 15s. c.i.f. London for 3x11 unsorted, and £8 5s. for a few 3 by 9, the 11 in. being the principal line in the contract. These are slightly lower prices than those demanded by the Canadian shippers for spruce. Whether the quality and manufacture of the European whitewood is fully equal to that of the spruce shipped from the Gulf of St. Lawrence we leave to experts to decide, but it is evident that in certain quarters the Canadian wood is being displaced, the difference in price being the sole reason for the change."

During the month of March the imports to London from Canada, according to Churchill & Sim, were as follows : Pine deals, 16,000 pieces ; spruce deals, 12,000 pieces ; birch planks, 10,000 pieces. In 1901 there were no imports of pine deals, but 22,000 pieces of spruce deals and 28,000 pieces of birch planks. These brokers say : "There has been little change in the pine deal market in London during March. Considerable sales of the new shipment from Newfoundland have been effected at rates which must be relatively satisfactory and the general market remains quiet, steady and well protected by the high prices being realized for further supplies. The demand here, however, is hardly as good as it was last month. In spruce deals there is no change to report here, prices are kept firm by the undeniable scarcity of further supplies for arrival, but the stock is a large one. The demand shows no elasticity and buyers continue to disbelieve in the threatened famine. Any large demand in the next three months would nevertheless not be easy to cope with. There is no change to report here in white pine timber or in oak. Birch, elm and ash have been but little enquired for.

THE BRITISH MARKET.

Messrs. Edmiston and Mitchells, in their report of the Glasgow market, make the following comments on Canadian stock :

WHITE PINE.—There have been a few enquiries for waney boardwood during the month, but we hear of no sales to report. There has been rather more doing in square wood, several sales having resulted at prices ranging from 2s. 6d. to 2s. 9d. for first quality and 2s. 3d. to 2s. 6d. for 2nd quality, according to size.

RED PINE.—There has been the usual small demand, and the stock is now only about 250 loads. The price is firm at 1s. 9d. for 800 feet wood.

OAK.—The demand has been quiet, though a few retail sales have been made at 3s. 6d. per cubic foot for long wood, and 2s. 10d. to 3s. for small wood of 12 inches to 14 inches on side. The stock is low, there being only about 700 loads on hand.

ELM.—There has been little enquiry during the month. Prices of 1st-class rock are firm on the basis of 3s. 1d. for 900 cubic feet per page. Soft wood and small squared wood are difficult to move except at low prices. The stock is heavy.

QUEBEC BIRCH.—The stock on hand is now reduced to a small compass, and prices are, if anything, rather firmer than they were, a small parcel of 15 inch logs having been disposed of this month at 18½d. per foot "ex store." Prospects for the coming season seem fair, assuming that the import is not overdone.

N. B. BIRCH.—The stock is chiefly composed of Pictou wood, which is moving off slowly at about 15d. to 16d. per cubic foot for 15-inch average.

ASH.—The stock on hand though small is difficult to move off on account of the poor quality generally. Buyers here have not responded to the advance in price asked by Quebec shippers, and only really good logs of fair size would sell at anything over 2s. per foot. Ash lumber has come more into favour of late, and the import from the States is increasing.

DEALS, &C.—Business during the month has been extremely quiet ; the deliveries from public yards are, however, over the average, showing that consumption is good. Stocks of all kinds of pine goods are very low and record prices are being got for small parcels of broad 1st pine sidings and deals arriving per liners. Prices of spruce are firm Current values are as under :—Broad first pine deals, £26 to £30 ; 11-inch, £23 to £25 ; ends and non-dimensions, £18 to £22. Second pine deals, 11-inch and up, £18 10s. to £21 ; non-dimensions, £12 10s. to £15. Third pine deals, 11-inch and up, £11 10s. to £13 ; ends and non-dimensions, £8 10s. to £10. Fourth pine deals, 11-inch and up, £9 10s. to £10 ; narrows, £7 10s. to £8 5s. Red pine deals, 9 and 11 inch, £10 to £12; narrows, £8 to £8 15s. First pine sidings and strips, 9 and 10-inch average, £16 to £18 ; 10 to 12-inch average, £20 to £22 10s. ; 13 and 14-inch average, £23 to £25. Spruce deals, 9-inch and up, £8 10s. to £9 10s. ; 7 and 8-inch, £7 5s. to £8. Lower port pine and spruce, 9-inch and up, £8 10s. to £9 ; 7 and 8-inch, £7 10 to £7 15s.

Messrs. Alfred Dobell & Co. review the Liverpool market as follows :

Waney Board and Square Pine are in fair request. Prices are very firm.

Oak—The stock of first class wood is exceptionally light and full prices are being obtained.

Birch Logs—The consumption has been small, but values are firm. Planks have again arrived freely, and although a considerable quantity has gone into consumption the stock is still excessive and the prices easier.

Pine Deals and Boards—There has been an improved demand, but the stock remains heavy, although firmly held.

New Brunswick and Nova Scotia Spruce Deals—The arrivals have been large, but the consumption has been on a corresponding scale; 11 and 9-inch deals are exceptionally light in stock and

---

TO THE LUMBER TRADE

We will be represented in South Western Ontario by Mr. Frederick Shaw, of Forest, Ont., who comes with us as travelling salesman on May 1st, and who will call on the trade regularly. We are running our mills day and night and offer to the trade a well manufactured stock of band sawed lumber put up in grades under Michigan inspection rules. We solicit your inquiries, and all correspondence given prompt attention.

The Cleveland-Sarnia Saw Mills Co., Limited

SARNIA, ONT.

command very high prices, but there are too many narrow deals in the market and low prices for such have to be accepted to effect sales.

Prices rule about as follows :

		£ s. d	£ s. d.

THE BOSTON MARKET.

The spruce lumber market at Boston is exceeding firm, with a threatened rise of $2 per thousand. Indeed, some of the Maine mills are returning orders on schedules, at present quotations, saying their price is $20 or nothing. Notwithstanding the firmness of the situation the demand is not what it should be at the commencement of the building season, and some of the best posted merchants in the trade doubt the expediency of further advancing prices when there is danger of cutting off the demand. Building—especially house building—is largely optional, and the price of spruce advanced too far, it is vastly easy for the builder to put off building "this year." Quotations are not yet changed, though one or two prominent factors in the trade are asking $2 per thousand higher: Ten and 12 inch dimensions, $20; 9-inch and under, $18; 10 and 12 inch random lengths, 10 feet and up, $19.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, $16.50; all other randoms, 9-inch and under, 10 feet and up, $17.50; 5-inch and up, merchantable boards, $16; matched boards, $18 to $19; out spruce boards, $13; bundle furring, $16 to $17.

Hemlock is very scarce, with mills offering but little, and logs scarce: Boards, 12, 14 and 16 feet stock, $15 to $15.50 for good eastern; Vermont, $14 to $14.50; random, eastern, $14 to $14.50; Pennsylvania, No. 1, $16 to $17.50; No. 2, $15 to $15.50.

White pine continues to increase in value, with stronger quotations from the mills: Here, uppers, 1-in, $75 to $80; 2½ and 3 in, $80 to $85; 4-in. $85 to $88; selects, 1 to 1½ in. $68; 2-in. $69 to $70; 2½ to 3 in. $74 to $76; 4-in. $79 to $80; fine common, 1-in. $56 to $58; 1¼ to 1½ in. $62 to $66; 2-in. $68 to $70; 2½ and 3 in. $69 to $71; 4-in. $80; barn boards, $23 to $33; coffin boards, $27 to $32.

Hardwood lumber is active and prices are very strong at a sharp advance. The following quotations are for strictly carlots, and 1-inch is meant in each variety, with usual advances for thicker: Quartered oak, $62 to $65; plain oak, $41 to $45; common and rejects, $38 to $42; red oak, no market; whitewood, $42 to 43; sap and common, $30 to $35; brown ash, $41 to $44; white ash, $43 to $46; maple, $28 to $30; end-dried white maple, $38 to $42; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Shingles are very firm, very few extras on the market. The following quotations are for delivery after the middle of May, when new shingles will begin to arrive. Spot prices would be even higher: Extra cedar, $3.35 to $3.40; clear, $2.85; second clear, $2.35; extra No. 1, $1.75 to $1.90; Washington and British Columbia red cedar, 16-inch, five butts to 2 inches, $3.75 to $3.80; 18-inch, $4.25 to $4.50.

Clapboards are still in very small supply, with the demand also small. Prices are at a wide range, and depend on how much they are wanted: Extra spruce, $38 to $40; clear, $36 to $38; second clear, $33 to $35; extra No 1, $24 to $26.

Laths are very firm at $3.15 to $3.20 for 1⅝ inch; 1½ inch, $3.

CANADIAN LUMBER SHIPMENTS.

The following shipments of lumber, etc., from Canadian ports are reported since last issue :

From Vancouver, B.C.; Barque Amaranth, for China, 1,380,414 ft. rough fir, value $17,380, by B. C. Mills, Timber & Trading Co.; Barque Adderly, for Australia, 950,645 ft. rough fir, 110,212 ft. dressed fir, 144,700 laths, value $1,1000, by B. C. Mills, Timber & Trading Co.

From Halifax, N.S.: Str. Parisian, for Liverpool, 171,250 ft. lumber, value $1,773.; Barque Fortuna, for Swansea, Eng., 799,052 ft. lumber, value $7,867.

From St. John, N.B.: Str. Manchester City, for Manchester, 731 pcs. elm lumber, by J. Kinnear, 449,678 ft. deals, 28,792 ft. scantling, 14,123 ft. ends, 27,639 ft. boards, 27,050 ft. birch planks, 2,412 ft. birch ends, by W. M. Mackay; 292,593 ft. deals, 50,535 ft. scantling, 19,738 ft. boards, 75,268 ft. ends, by George McKean. Schr. Frank and Ira, for Providence, 922,500 cedar shingles, 250,000 spruce shingles, 6,000 ft. boards, by Stetson, Cutler & Co. Schr. Fraulein, for City Island, 910,000 laths, by A. Cushing & Co. Schr. Ada G. Shortlands, for Newhaven, 12,918 ft. boards, 46,196 ft. scantling, 103,321 ft. plank, 69,966 ft. deals, 38,505 ft. pine boards, by A. Cushing & Co. Schr. Annie E. Booth, for City Island, 100,379 ft. boards, 96,888 ft. plank, 110,576 ft. deals, by Stetson, Cutler & Co. Schr. Bonnie Doon, for City Island, 91,043 ft. deals, 66,593 ft. boards, 7,200 laths, by N. H. Murchie. Schr. Otis Miller, for City Island, 158,141 ft. deals, by A. Cushing & Co. Str. Concordia, for Glasgow, 8,250 ft. deals, by Schofield & Co.; 2,550 maple blocks, 36

Tunisian, for Liverpool, 448,905 ft. spruce deals, 55,064 ft. scantling, 47,000 ft. ends, 13,142 ft. birch plank, 160 tons timber, by W. M. MacKay; 218,969 ft. deals, 17,196 ft. scantling, 925 ft. ends, by George McKean; 23,760 ft. deals, 10,130 maple blocks, by Wm. Thompson & Co.; Schooner Jennie C., for Westerly, 151,245 ft. boards, by Stetson, Cutler & Co.; Schr. Georgia E., for East Greenwich, 50,000 ft. boards, 10,200 ft. scantling, 698 ft. plank, by Stetson, Cutler & Co.; Schr. I. N. Parker, for Salem, 130,190 ft. boards, 691 ft. plank, 41 70 ft. scantling, by Stetson, Cutler & Co.; Schr. Alice Maud, for City Island, 57,900 ft. pine boards, 10,175 ft. planks, 78,975 ft. deals, by Stetson, Cutler & Co.

The Tonawanda Lumbermen's Association and the Longshoremen's Union have agreed on a scale of rates to be charged for unloading lumber from vessels at the Tonawandas this season. The rate on white pine will remain at 30 cents per thousand feet. On norway pine and hemlock the rate will be 35 cents, an increase of 2 cents. An advance of nearly 10 cents, to 50 cents, was made on all hardwoods excepting basswood, on which the charges will be the same as last season. Slight advances were made on shingles and lath and an increase of 5 cents on No. 5 boards and scoots and 4-inch strips where the amount to be handled exceeds 50,000 feet, making the rate 35 cents. The rate at Buffalo is 34 cents on white pine.

BUSINESS NOTES.

W. H. White & Company, lumber, North Tonawanda, are opening an office at Buffalo.

The National Lumber Company has been organized in Toronto by H. M. L. Weller, J. T. Wardell, E. A. Taylor, W. R. P. Parker, and E. H. Bickford. The capital is $100,000.

The Clark, Swan, Jackson Company, of North Tonawanda, has decided to dissolve partnership. Messrs. Clark and Jackson will give their attention to lumber interests in the west, while Mr. Swan and others, under the name of L. H. Swan & Company, will conduct a white pine business at Tonawanda.

TRADE OPENINGS.

The following were among the enquiries relating to Canadian trade received at the Canadian Government Office in London during the week ending 4th April, 1902. The names of the parties may be obtained from the publishers of this journal.

A Sheffield firm is seeking agencies for the following Canadian goods for the English market :—Bicycles, office furniture, (desks, cabinets, etc.) freezers, organs, washing machines, wringers, chairs, clothes pins, enamelled ware and wooden novelties.

A Barcelona (Spain) house have requested to be placed in touch with wholesale lumber firms having interests in the maritime provinces of Canada who require representation in that city.

A London importer desires to be placed in communication with Canadian basswood mill owners able to ship large quantities of panels for piano-key makers ; panels to be 48" x 18" x 7/8".

A firm in London are prepared to undertake the representation of Canadian firms exporting produce, woodenware, office furniture, etc., for the English market.

Inquiry has been received from Newcastle for the addresses of the leading Canadian wood pulp mills.

Cable address "Veneering."

12 Derby Road, LIVERPOOL.

New Mill Erected 1901. Capacity 100 Million a Year.

Spicer Shingle Mill Co., Limited

It is not the purpose of this advertisement to try and convince the Lumber Trade of Canada that we are the only company in British Columbia manufacturing and shipping shingles in large quantities, or that we "know it all." We recognize that "there are others" and that we are not the only "pebble on the beach." To try and make you believe that we are the only people who can supply you **promptly** and in **large quantities** with a **high-grade** shingle would not only be a **fish** and a **bear** story combined, but it would be gall of the bitterest kind.

Our competitors in the shingle business in B. C. are nice people, and we presume that they know their business ; but we are nice people too, and as we have been in the trade as long as any of them, and a **great deal longer** than the most of them, we know that we know our business, and that our competitors are not in the possession of any points of value regarding the manufacture of shingles which has not come to **our knowledge**.

Our old mill was burned down in May last, and in its place we have built what is at the present time the **Largest** Shingle Mill in B. C.

Our new Mill has 7 of the latest improved type of Dunbar machine, which we run night and day—giving us a capacity of about **100 Million** a year.

Competent judges who have seen our new mill, tell us that it is one of the most **substantial**, carefully **constructed**, and best **planned** mills in this province. We ourselves think it is **the very best** shingle mill in B. C. ; and we know that it is **equipped** with all the very latest improved Shingle Machinery.

Will the trade please note that our contract with the Pacific Coast Lumber Co. closed on December 31, 1901. Orders sent to us by letter or telegraph shall have our best attention.

We want our share of your shingle business, and can **guarantee** you satisfaction in **every particular.**

Spicer Shingle Mill Co., Limited,
VANCOUVER, B. C.

Another Little Mill

There will be over a million feet of sawn lumber used in this one plant for construction only ; over 30,000 lin. feet of piling, besides rock foundations ; two car-loads of shingle machines only ; over 7 miles steam pipe 1 1-2 inch and up in diameter. A summary of all the material that will be used in the construction of this plant shows that there will be over 320 car-loads, or 21 trains of 15 car-loads each.

With all our past experience in the shingle business, of which we make a specialty, and with all the latest and best improvements in machinery and mill construction, we expect it to be the most complete and up-to-date mill in North America, where shingles can be made better than in the ordinary mill.

The above plant will be in operation about the first of June, and although this mill will have a daily (24 hours) capacity of 1,250,000 shingles, the dealers and consumers need not be afraid of any particular surplus, but can rest assured that there will be one firm on the coast manufacturing red cedar shingles from whom they can get their wants supplied in a hurry with that old reliable "Hastings Brand" so much talked about.

CUSTOMERS' ATTENTION.—Please take notice that on and after the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles will be ended, and until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipeg, Man , for Manitoba and the North-West ; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

Shingle Mill, Hastings, B.C.; Lumber and Shingle Mill, Vancouver, B.C.; Shingle Mill, New Whatcom, Wash.; Shingle Mill, Sumas, Wash.; Shingle Mill, Carroll Siding, Wash.

The Hastings Shingle Mfg. Co., Limited
Office, 450 Westminster Ave., Vancouver, B.C.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, ONT., APRIL 23, 1902 No. 12

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the "Canada Lumberman."

Toronto, Canada
C. H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of six 2 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m on Tuesday to insure insertion in the current week's issue.

WANTED—A RAFT OF PINE LOGS ON Georgian Bay; apply at once to Box 20, CANADA LUMBERMAN.

WANTED.

BASSWOOD; ONE MILLION FEET BASSWOOD, 12 ft. long, common and better. Also elm and red birch. JAMES S. BARRON & CO., Box No. 726 New York city

WANTED—SEVERAL FIRST-CLASS DUNBAR Shingle Sawyers. Apply the Hastings Shingle Mfg. Co., Limited. See our ad in this paper about our new mill. Mill to be free from dust.

FOR SALE.

SAW AND SHINGLE MILL WITH BIG stock of logs, been running all winter. IMPERIAL LUMBER CO, Toronto, Ont.

WANTED—TO SAW BY THE THOUSAND or to purchase for spot cash, two to four million feet of pine logs, delivered North Shore or Georgian Bay, as early as possible after this date. Write, giving description, price and where located, to A. P. EBERT, Wiarton, Ont.

WANTED — POSITION BY A TRUSTWORTHY man, 34 years old, 5 years commercial accounting, eleven years railroading experience. Strictly sober and well recommended. Address Rhobythal, P. O. Box No. 163, St. Hyacinthe, Que.

WANTED—HARDWOOD LUMBER.

SOFT ELM, BIRCH, BLACK ASH, 1STS and 2nds preferred. J. F. STENGAL, 990 Ellicott Square, Buffalo, N.Y.

DRY PINE.

WE HAVE ABOUT 1,500,000 FEET DRY PINE in 1, 2 and 3 inch common and better, prefer selling in bulk. Will quote freight rate to Buffalo, Chicago or Toronto on application. Correspondence solicited. N.B.—Would like to correspond with consumers of hardwoods. ST. JOE ISLAND LUMBER CO., Sault Ste. Marie, Ont.

Wanted—Cedar Shingles

16 INCH AND 18 INCH, ALL GRADES, good quality, White Cedar. Would purchase mill output.

Give quantities both on hand and to be manufactured. J. G. STRAIT & SON, Wolcott, New York.

SPECIAL TO LUMBERMEN.

WITH A THOROUGHLY EQUIPPED PLANING Mill at Orillia, we solicit orders for resawing and planing of lumber, in any quantity; can match 26 inches wide; all work guaranteed first-class; prices on application. Address, NATIONAL BOX CO., Orillia, Ont.

TO

Pine and Spruce MANUFACTURERS

CORRESPONDENCE IS SOLICITED WITH Canadian manufacturers of pine or spruce who wish to form a connection with a reliable British house. Advertiser is now in Canada and desires to have a personal interview with millmen now doing or seeking to do an export trade. Best of references as to reliability and standing. Box 42, CANADA LUMBERMAN.

WANTED.

ABOUT 300,000 FEET OF 10x10 HEMLOCK, sawn or hewn. Apply to ARTHUR BRYCE & COMPANY, 2 Toronto Street, Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber market may be designated both active and strong. Vessels are loading at Georgian Bay yards for the Eastern States and Michigan distributing points, and shipping by barge from Ottawa will commence next week. The lumber to be moved was in most cases purchased some time ago and is composed of last year's cut. Some mills have commenced sawing operations, while others are waiting for logs. A shortage in the log supply is feared, as there has been little rain and the streams are generally low. In view of the large portion of the cut of this season that has already been contracted for, any considerable decrease in the available supply of logs will be a serious matter and will likely result in a famine in white pine lumber. The buying by United States concerns has apparently not yet been satisfied, as one or two large transactions have taken place within the past week. Canadian dealers, on the other hand, are pursuing a more cautious policy, and are closing contracts only when prices offer an inducement. Comparing the prices with those of one year ago, it will be found that there has really been no advance in mill culls, box and common lumber, but that the upper grades are somewhat higher. For 1x10 and 12 mill culls $12 at the mill is asked. Hemlock lumber and timber continues in heavy demand, on the basis of $9.50 at the mill. An increase is reported in the number of inquiries for hardwood lumber. Dealers who have been holding stocks of elm for a considerable time now find that they can market them to advantage, which clearly indicates the upward trend of prices.

QUEBEC AND NEW BRUNSWICK.

Reports from the Eastern Provinces seem to indicate that manufacturers have every confidence in the future of spruce prices. They state that stocks are much below an average and that there are many inquiries for spruce regulars 3x9 and up. Sales have been made in Quebec at $13. In New Brunswick the uncertainty of the log supply is the most influential market factor. Shippers have in some instances refused to enter into contracts at current prices, fearing that they may be unable to secure the necessary stock. The outlook in Nova Scotia is towards higher prices. One report states that no stock is held over from last year, and that the cut of the present season will not be more than 65 per cent. that of last year. Spruce and pine shipping boards and South American specifications are moving actively. Still higher prices are ruling for cedar shingles. Sales are reported of extras at $3.50 and clears at $3.00, for Boston delivery. The mills are now resuming operations, and it is not expected that these prices will be maintained throughout the season, although a steady market at firm prices seems assured, as the demand for the cedar shingle is steadily increasing.

That there is great danger of a shortage in the log supply is shown by the fact that $11 per thousand feet was paid last week for a quantity of logs.

MANITOBA AND BRITISH COLUMBIA.

There is an unusually large demand throughout Manitoba and the Territories for building lumber, and it is probable that the mills will be taxed to their full capacity to supply the requirements of the trade. Retail dealers are stocking up heavily in anticipation of a brisk season. Prices of lumber are firm, and some lines are likely to advance in the near future. Large orders have recently been placed with British Columbia manufacturers for both lumber and shingles, chiefly for shipment to the east. The export trade, however, has not been neglected, as sixteen vessels sailed for foreign ports with lumber during the first three months of this year, six of them deing destined for Australia, five for China and Japan, and two for the United Kingdom. Lumber freight rates are low and declining.

UNITED STATES.

Another advance in lumber prices must be chronicled this week. At Albany good lumber has stiffened considerably. Uppers, selects, fine common and No. 1 cuts are marked up an average of $2 per thousand; 12-inch dressing has advanced $3; 12-inch No. 1 and No. 2 barn $1, and shaky clear $2. The short stocks of pine are restricting shipments, and there does not seem to be much prospect of early relief in that respect owing to a scarcity of logs. The box manufacturers are showing much concern regarding the supply of white pine, and scarcely know what prices to quote on time contracts. At eastern wholesale centres white pine is particularly scarce. Factory lumber and the upper grades are most enquired for, and it is said that sales of thick uppers have been made at $80. Yet this price, it is claimed, does not leave a fair margin for the dealer in consideration of the prices that are now being asked at the mills in the Lake Superior district. The freight rate

is $2.50, but an effort is being made to secure a reduction on this figure. In the Saginaw valley box lumber is worth from $14 to $16, and last week 1,000,000 feet of mill culls were sold at $13. A very active demand for hemlock is reported. At Buffalo the base price is $14.50, and at New York $16. At Alpena, Mich., sales are being made at $10 for 10 to 16-foot piece stuff, $11 for 18-foot, $12 for 20-foot and over, and $11 for boards. Delivered in Chicago by water, the price of hemlock is $11.

All hardwoods are sharing in the improved conditions. Ash, birch and basswood are leading, with elm and maple closely following. There has been an advance of $1 in the price of maple, believed to be due to the influence of the Michigan Association. Furniture factories are purchasing quite liberally.

It is almost impossible to give a quotation on lath, as there is practically none in first hands. Dry shingles are also exhausted, and manufacturers are selling green stocks as fast as they can be manufactured. Cedar shingles appear to be taking the lead, owing to the fact that for some time it has been impossible to purchase a supply of white pine.

GREAT BRITAIN.

The trade and navigation returns for the first quarter of this year contain statistics, as usual, bearing upon the import of timber into Great Britain. For the three months the quantity of hewn timber imported was 464,499 loads, as compared with 503,578 loads in the corresponding period last year. Of sawn lumber the import was 408,457 loads, against 415,862 loads in 1901. From Canada the import of hewn timber was 2,524 loads, as compared with 4,319 loads last year, and of sawn timber 72,956 loads, whereas in 1901 it was only 59,323 loads. Notwithstanding the depression in the British timber trade, it will be noticed that the total import for the quarter is only 46,000 loads less than for the same period last year. The outlook, if we can judge from reports, is gradually improving. There is a steady demand for the best grades of deals, but narrow dimensions are in large stock and less firm than the regular sizes. Up to the present time buyers have been content to purchase from the stock on hand, but it is thought that from now on there will be more liberal buying of stock to arrive. Seemingly, an opinion has prevailed that there is no possibility of a shortage in the supply of Canadian pine and spruce, but as the weeks go by this opinion is being dispelled, and importers are showing a greater disposition to contract. It is regarded as extremely likely that there will be an advance in the prices of 9 and 11 inch spruce and the standard sizes of pine. Two lots of 3x9 spruce which recently arrived at Liverpool have been stored by the shipper, on the belief that later he will be able to sell the stock to much better advantage. Waney and square pine are in strong request at firm prices. The stock of first-class oak is light, and an expansion in the demand would result in higher prices.

Barnhill Bros. cut 1,250,000 feet the past winter at Clarendon, N. B., with a portable mill.

The McGoldrick Lumber Company of Minneapolis, last week sold 9,000,000 feet of pine to the John Spry Lumber Company, of Chicago. It was mostly common good white pine, and the price is said to be $16 per thousand.

STOCKS AND PRICES.

J. A. Gregory, of St. John, N. B., has shipped 156,000 birch poles this season to Liverpool.

Spruce deals are retailing at Belfast, Ireland, equal to about £9 per St. Petersburg standard.

The tender of P. McLaren has been accepted for the supply of lumber for the city of Brockville, Ont.

The steamer Norden has been fixed to carry deals from St. John, N. B., to a Spanish Mediterranean port.

The contract for rafting the logs which drifted down the St. John river has been awarded to Emery Sewell, of Maugerville.

Dobell, Beckett & Company, of Quebec, are now loading the steamer Axminster at St. John, N.B., with deals for the United Kingdom.

The Hanbury Manufacturing Company, of Brandon, Man., took out 7,000,000 feet of logs last winter along the Shell River and Riding Mountains.

M. Ryan, of Smith's Falls, has secured the contract to supply the government with 137,000 feet of British Columbia fir timber for the Rideau canal improvements.

Prices for cooperage stock at Buffalo remain at $7.75 to $8 for first-class staves, 5½ to 5¾ cents for first-class heading, and $8.50 to $8.75 for 6-foot coiled hoops.

White pine 18-inch shingles are quoted Saginaw at $3 for clear butts and $4.05 for XXXX. The demand for lath exceeds the supply, and prices are strong at $4 for No. 1 and $3.50 for No. 2.

It is reported that Robinson Bros., of North Tonawanda, have closed a contract with the Ontario Lumber Company, of Toronto, for 20,000,000 feet of lumber to be manufactured at French River this season.

The early break-up of winter has enabled Samuel Bingham, of Ottawa, to get his logs down the Gatineau river much earlier than usual. At this date there are over 100,000 logs near the mouth of the Gatineau.

R. R. Dobell & Company, of Liverpool, England, have again secured the contract for supplying timber for the British Admiralty Department, they having last year given great satisfaction in delivery. The quantity required this year will be about 50 per cent. more than last year, and as follows: White pine, 196,500 cubic feet; red pine, 20,000 cubic feet; rock elm, 30,000 cubic feet; first quality pine deals, 150 standards; spruce deals, 580 standards; with about 74 standards of special spruce deals for the manufacture of oars, to be selected at the Hastings mill, Vancouver, B.C.

At a recent sale at Dublin, Ireland, spruce deals brought the following prices per Irish standard: 7 and 8 by 3, £12 to £12 15s per standard; 9, 10, 11, and up to 14 by 3, £13 to £14 12s 6d; Bay Verte spruce, 7, 8, 9 and 12 by 3, £13; 7 by 1 p. & j., 8s 10½d to 9s per square; 7 by 1¼ ditto, 10s 6d; 7 by ¾ ditto, 7s; 7 by 1¼ t. & g., 10s 9d; 9 by ¾ p. & j., 8s 6d; 9 by 1 ditto, 10s 7½d; 11 by 1 ditto, 12s 6d; 5 by ½ r. & v., 4s 6d per square.

Wright, Graham & Company, Glasgow, Scotland, quote the following prices for Quebec pine and spruce deals: 1st quality broad pine, £28 to £30 per std. of 1,980 feet; 11 in. £24 10s to £27; 7" to 10" £18 10s to £22. 2nd quality broad, £20 to £22; 11 in. £18 10s to £20; 7 in. to 10 in. £13 15s to £15 2s 6d. 3rd quality broad, £13 15s to £14 8s 9d; 11 in. £12 to £12 7s 6d; 7 to 10 in. £20 to £10 13s; 4th quality broad, £10 6s 3d to £11; 11 in. £9 12s 6d to £10 6s 3; narrows, £8 to £9. Red pine deals, 9 and 11 in. by 3 and 4 in. £9 5s to £11 per standard; 7 to 10 in. by 3 in. £7 10s to £8 5s. Spruce deals, 9 in. and up by 3 in., £18 10s to £9 12s 6d per standard; 7 and 8 in. by 3 in. £6 10s to £7 10s.

SPRUCE AND PINE WANTED.

Canadian manufacturers looking for export business should be interested in the advertisement in the Wanted and For Sale Department of a British firm which desires to arrange for importations of pine and spruce. The firm in question are, we believe, thoroughly reliable. Persons wishing an interview with their representative, who is now on this Continent, should drop a card to Box 42, CANADA LUMBERMAN office.

THE BOSTON MARKET.

The spruce quotations at Boston, while very firm all round, scarcely fairly represent the market. Many operators were obliged to leave logs in the woods, and this, followed by the threatened serious trouble in getting the logs down, has put the mills in a position where they are inclined to hold quotations $1 to $2 higher. The real position hinges on the mills obtaining logs. Quotations are not yet changed generally, though some of the leading houses are declining orders except at stronger prices: Ten and 12 inch dimensions, $20; 9-inch and under, $18; 10 and 12 inch random lengths, 10 feet and up, $19.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, $16.50; all other randoms, 9 inch and under, 10 feet and up, $17.50; 5-inch and up, merchantable boards, $16; matched boards, $18 to $19; out spruce boards, $13; bundle furring, $16 to $17.

Hemlock is in very small offering and very firm: Boards, 12, 14 and 16 feet stock, $15 to $15 50 for good eastern; Pennsylvania, No. 1, $16 to $17.50; No. 2, $15 to $15.50.

White pine is very strong at quotations: Here, uppers, 1-in, $75 to $80; 2½ and 3 in, $80 to $85; 4-in. $85 to $88; selects, 1 to 1½ in. $68; 2-in. $69 to $70; 2½ to 3 in. $74 to $76; 4-in. $79 to $80; fine common, 1-in. $56 to $58; 1¼ to 1½ in. $62 to $66; 2-in. $68 to $70; 2½ and 3 in. $69 to $71; 4-in. $80; barn boards, $23 to $33; coffin boards, $27 to $32.

Hardwood lumber is very firm, with a good demand at quotations: Quartered oak, $62 to $65; plain oak, $41 to $45; common and rejects, $38 to $42; whitewood, $42 to 43; sap and common, $30 to $35; brown ash, $41 to $44; white ash, $43 to $46; maple, $28 to $30; end-dried white maple, $38 to $42; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Shingles continue very firm, with spot prices 15c above quotations on extras and clears, with a very light demand for second clears: To arrive, extra cedar, $3.35; clear, $2.85; second clear, $2.35; extra No. 1, $1.75 to $1.90; Washington and British Columbia red cedar, 16-inch, five butts to 2 inches, $3.75 to $3.80; 18-inch, $4.25 to $4.50.

Clapboards continue very scarce and firm: Extra spruce, $38 to $40; clear, $36 to $38; second clear, $33 to $35; extra No 1, $24 to $26.

Laths continue firm at $3.15 to $3.20 for 1⅝ inch; 1½ inch, $3.

THE LUMBER OUTPUT.

Secretary George K. Smith, of the Southern Lumbermen's Association, in his annual report before that body, gave out statistical information which will be of interest to manufacturers of lumber throughout the United States and Canada. An average of 160 mills for the twelve months of the year, embracing 1,759 firms, cut 1,992,602,851 feet, while shipments for the same time were 2,090,120,270 feet. This is an increase of 200,000,000 feet in the output as compared with the previous year, or 11 per cent., while shipments were in excess of those of 1900 by 344,000,000 feet, or 20 per cent., thus reducing stocks held 100,000,000 feet, or about 10 per cent. These figures apply to the yellow pine lumber situation. With regard to white pine there was a reduction, through excess of shipments over cut, of 200,000,000 feet, or 13 per cent. in the visible supply up to December 1st, and an increase in output of 119,000,000 feet, or 5 per cent.

ST. JOHN SHIPMENTS.

United States Consul Myers reports that the exports of lumber from St. John to the United States from January 1st to March 31st was as follows:

NEW BRUNSWICK LUMBER.

Kind	Value
Long lumber	$8,959.23
Lath	6,989.01
Piling	2,642 50
Kiln wood	122.50
	$18,713.24

AMERICAN LUMBER (from Maine logs).

Kind	Value
Long lumber	$108,822.87
Lath	12,708.60
Shingles	8,176.86
Pickets	1,183.53
Clapboards	727.50
Box shooks	189.00
	$132, 808.36

DOORS AND MOULDINGS.

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in first instance to Empire, CANADA LUMBERMAN.

TO THE LUMBER TRADE

We will be represented in South Western Ontario by Mr. Frederick Shaw, of Forest, Ont., who comes with us as travelling salesman on May 1st, and who will call on the trade regularly. We are running our mills day and night and offer to the trade a well manufactured stock of band sawed lumber put up in grades under Michigan inspection rules. We solicit your inquiries, and all correspondence given prompt attention.

The Cleveland-Sarnia Saw Mills Co., Limited

SARNIA, ONT

THE POSITION OF SPRUCE IN GREAT BRITAIN.

The following reports from the chief spruce centres of the United Kingdom will give our readers an idea of the views held regarding the spruce market. The reports are reproduced from the Timber Trades Journal:

LONDON.

As regards London, where spruce occupies a very important place in the consumption, the present position of the market as regards stock is rather unfavorable to prices on this side. The various mills are well stocked, and at the docks there are considerably more deals and battens now than were held last year, the excess being about 100,000 pieces.

At the end of March, 1901, the dock stock was put down as representing about two and a half months' consumption; this year, by the same authority, the supply is estimated at more than equal to three and a half months. Without relying too much on these calculations, there can be no doubt that whatever the position of the spruce market in London was a year ago, the altered conditions of the stocks now can have no favorable influence attached to them. To maintain a healthy level of prices the increase in quantities should be accompanied by a corresponding increase in the consumption, but that such has been the case we are not prepared to say. Of course there are many factors operating to sway prices in this market, of which the influences, as yet, are only partially felt, such as the state of the stocks in Canada and the competition with other descriptions of whitewood; but, as far as our information goes, whatever proportions the expected curtailment of first-open-water stocks at Quebec and the Lower Ports, including St. John, may assume, we do not think the supply to London will be sufficiently diminished to buoy up prices. White deals, etc., from the Danube are now being offered at lower prices than the Quebec shippers are willing to accept, and though the wood may not be quite equal to best spruce, when it becomes a question of cost the cheaper article is generally preferred. But, as far as we can learn, the whitewood from Galatz, which is now being quoted at £8 5s. c.i.f. to London for 3x9, and 10s. more for 11 in., is viewed favorably by contractors and others, and might take the place of spruce while the present difference in price exists. The stock here is, however, unimportant, but it is fair to assume that plenty of it would be forthcoming if the spruce supplies fell off.

LIVERPOOL.

At this time of year the West Coast of England, Scotland, and all Ireland are awaiting with some perturbation as to the course of the spruce market for the coming import season. As an American humorist says, "It is not wise to prophecy unless you know." And how this season's business is going to work out is something more than anyone can say at present. We give some intelligence received by cable on March 30th, which states: "Great damages. . . having lost 1,000 standards of logs; other manufacturers have also suffered; to what extent is not yet known." And again, a day later, a cable comes: Withdraw all offers, and sell nothing at present." This, on the face of it, shows an alarming state of things. There may yet be further developments, but we prefer to wait events. The position on the shipping side may be all that is alleged; yet we have never forgotten how the late Mr. Dan Mackay, after having sold two or three cargoes by auction, would suddenly produce another catalogue, and blandly say: "They seem to drop from the clouds."

All this seems to show a hard market for the future. To this extent shipbrokers who have chartering for vessels from the spruce ports say to-day they cannot charter any sailer for future loading, for the simple reason charterers have no deals to load their vessels with when they get to a port of loading. As we have said before, importers are playing a waiting game. With a stock of 12,920 standards in Liverpool, and about 7/10,000 standards in Manchester, they are not likely to engage in future contracts to any large degree. Preston and Fleetwood carry no stock worth mentioning. But we do not anticipate any imports of spruce deals of the new cutting before August, and until then this market will have to depend upon Lower Port shipments.

MANCHESTER.

The position of spruce deals in the Manchester market is most difficult to understand. They touched £7 15s. c.i.f. last year, and it was the opinion of experts they would advance at least another £1 per standard. The expectation was not realized, and since then they have gradually drifted to £7 5s., at which they are firm to-day on a 35s. to 40s. freight basis, leaving the shipper a handsome f. o. b. price, but to any importer sanguine enough to buy, a certain loss on the current Manchester and Liverpool prices.

BRISTOL.

Stocks of spruce are rather broken, and while there is plenty of 7 and 8 inch available, supplies of 11 and 9 inch are very short, the latter width especially so. Shippers are still holding out for high prices, and profess to have only limited stocks, but at the figures asked we believe we are correct in saying that nothing has been bought at this port. With freights from St. John as low as 35s., the prices now asked would leave an excellent f.o.b. return to the shipper, who may be relied upon to strain every nerve to increase production. At the present time spruce is too far above its average value to indulge in heavy commitments, and if business is to result shippers should moderate their views.

CARDIFF.

The stock of spruce here is at present very low, and we believe this is also the case in the other South Wales ports. It is not likely that there will be any importation in quantity before June, and by that time what stock there is will be pretty well exhausted, though the demand is small. We do not hear of any considerable purchases being yet made, as importers do not see their way to buy at the high figures quoted by shippers, who, on the other hand, contend that the produce is light this season, and are, therefore, indisposed to give way. We may, on the whole, conclude that as time goes on prices will gradually harden, though not to an extreme extent, but we shall not see repeated the ill-judged importation of a few years since, which resulted in such heavy losses.

GLASGOW.

A very fair amount of business has been done here in contracting for supplies of spruce during the coming season, not far behind the quantity fixed a year ago, and further contracts are in course of being effected. Stock at March 31st is about 6,600 standards, slightly over the amount held at same date last year. Of the present stock fully half (3,400 standards) are in consumers' hands. The consumption during the past three months amounts to over 5,500 standards; better than same period last year. The import during the three months has been entirely by liners, and mostly by those from St. John, N.B., and Halifax, N.S., and were practically all disposed of at ship's side. Prices are very firm, and current rates are for 11 in., 1s 2d; 9 in., 1s 1d; 7 in., 11d per cubic foot.

THE LOG SITUATION IN NEW BRUNSWICK.

The following dispatches explain the situation in connection with driving operations on the St. John river and other streams in New Brunswick :

Chipman, April 11.—Several million feet of logs have arrived at the boom at Briggs' Corner and a crew of men are engaged in rafting the drives that are down. Several of the drives were about hung up, but the rain which set in yesterday has swollen the stream to such an extent that the lumbermen with drives hung up are in great hopes of getting their lumber out.

Fredericton, April 13.—Latest advices received here are to the effect that stream driving operations on the St. John have scarcely begun yet. The streams are still full of ice. There is about two feet of snow in the woods, but this is wasting away every day and without doing any good. What is wanted is warm rains to bring the streams up to a good driving pitch. On the Tobique operators have driving operations well in hand, water is at a good pitch, and prospects are that the season's cut will all be brought out. R. A. Estey has about half his cut of four million in the main Tobique, and expects soon to reach the corporation limits. F. H. Hale on Sisson brook is bringing out eight million, and expects to get out every stick. Water here is about at a standstill, but has risen six inches in the past few days.

Fredericton, April 16. — Telegrams received by lumbermen here to-day from the head-waters of the St. John state that stream driving operations are practically suspended owing to lack of water. Similar conditions prevail on the Aroostook, according to the same advices.

New Mill Erected 1901. Capacity 100 Million a Year.

Spicer Shingle Mill Co., Limited

It is not the purpose of this advertisement to try and convince the Lumber Trade of Canada that we are the only company in British Columbia manufacturing and shipping shingles in large quantities, or that we "know it all." We recognize that "there are others" and that we are not the only "pebble on the beach." To try and make you believe that we are the only people who can supply you **promptly** and in **large quantities** with a **high-grade** shingle would not only be a **fish** and a **bear** story combined, but it would be gall of the bitterest kind.

Our competitors in the shingle business in B. C. are nice people, and we presume that they know their business; but we are nice people too, and as we have been in the trade as long as any of them, and a **great deal longer** than the most of them, we know that we know our business, and that our competitors are not in the possession of any points of value regarding the manufacture of shingles which has not come to **our knowledge**.

Our old mill was burned down in May last, and in its place we have built what is at the present time the **Largest** Shingle Mill in B. C.

Our new Mill has 7 of the latest improved type of Dunbar machine, which we run night and day—giving us a capacity of about **100 Million** a year.

Competent judges who have seen our new mill, tell us that it is one of the most **substantial**, carefully **constructed**, and best **planned** mills in this province. We ourselves think it is **the very best** shingle mill in B. C.; and we know that it is **equipped** with all the very latest improved Shingle Machinery.

Will the trade please note that our contract with the Pacific Coast Lumber Co. closed on December 31, 1901. Orders sent to us by letter or telegraph shall have our best attention.

We want our share of your shingle business, and can **guarantee** you satisfaction in **every particular.**

Spicer Shingle Mill Co., Limited,
VANCOUVER, B. C.

Another Little Mill

There will be over a million feet of sawn lumber used in this one plant for construction only; over 30,000 lin. feet of piling, besides rock foundations; two car-loads of shingle machines only; over 7 miles steam pipe r 1-2 inch and up in diameter. A summary of all the material that will be used in the construction of this plant shows that there will be over 320 car-loads, or 21 trains of 15 car-loads each.

With all our past experience in the shingle business, of which we make a specialty, and with all the latest and best improvements in machinery and mill construction, we expect it to be the most complete and up-to-date mill in North America, where shingles can be made better than in the ordinary mill.

The above plant will be in operation about the first of June, and although this mill will have a daily (24 hours) capacity of 1,250,000 shingles, the dealers and consumers need not be afraid of any particular surplus, but can rest assured that there will be one firm on the coast manufacturing red cedar shingles from whom they can get their wants supplied in a hurry with that old reliable "Hastings Brand" so much talked about.

CUSTOMERS' ATTENTION.—Please take notice that on and after the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles will be ended, and until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipeg, Man, for Manitoba and the North-West; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

Shingle Mill, Hastings, B.C.; Lumber and Shingle Mill, Vancouver, B.C.; Shingle Mill, New Whatcom, Wash.; Shingle Mill, Sumas, Wash.; Shingle Mill, Carroll Siding, Wash.

The Hastings Shingle Mfg. Co., Limited
Office, 450 Westminster Ave., Vancouver, B.C.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, ONT., APRIL 30, 1902 No. 13

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermer. Its special articles on technical and mechanical subjects areespecially valuable to saw mi l and planing mill men and manufacturers of lumber products.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the "Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of six 2 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED—A RAFT OF PINE LOGS ON Georgian Bay; apply at once to Box 20, CANADA LUMBERMAN.

WANTED.

ABOUT 300,000 FEET OF 10 x 10 HEMLOCK, sawn or hewn. Apply to ARTHUR BRYCE & COMPANY, 2 Toronto Street, Toronto.

WANTED—SEVERAL FIRST-CLASS DUNBAR Shingle Sawyers. Apply the Hastings Shingle Mfg. Co., Limited. See our ad in this paper about our new mill. Mill to be free from dust.

FOR SALE.

SAW AND SHINGLE MILL WITH BIG stock of logs, been running all winter. IMPERIAL LUMBER CO, Toronto, Ont.

WANTED—TO SAW BY THE THOUSAND or to purchase for spot cash, two to four million feet of pine logs, delivered North Shore or Georgian Bay, as early as possible after this date. Write, giving description, price and where located, to A. P. EBERT, Wiarton, Ont.

WANTED — POSITION BY A TRUSTWORTHY man, 34 years old, 5 years commercial accounting, eleven years railroading experience. Strictly sober and well recommended. Address Rhobythal, P. O. Box No. 163, St. Hyacinthe, Que.

WANTED—HARDWOOD LUMBER.

SOFT ELM, BIRCH, BLACK ASH, 1STS and 2nds preferred. J. F. STENGAL, 990 Ellicott Square, Buffalo, N.Y.

DRY PINE.

WE HAVE ABOUT 1,500,000 FEET DRY PINE in 1, 2 and 3 inch common and better, prefer selling in bulk. Will quote freight rate to Buffalo, Chicago or Toronto on application. Correspondence solicited. N.B.—Would like to correspond with consumers of hardwoods. ST. JOE ISLAND LUMBER CO., Sault Ste. Marie, Ont.

Wanted—Cedar Shingles

16 INCH AND 18 INCH, ALL GRADES, good quality, White Cedar. Would purchase mill output.

Give quantities both on hand and to be manufactured. J. G. STRAIT & SON, Wolcott, New York.

SPECIAL TO LUMBERMEN.

WITH A THOROUGHLY EQUIPPED PLANING Mill at Orillia, we solicit orders for re sawing and planing of lumber, in any quantity; can match 26 inches wide; all work guaranteed first-class; prices on application. Address, NATIONAL BOX CO., Orillia, Ont.

TO

Pine and Spruce

MANUFACTURERS

CORRESPONDENCE IS SOLICITED WITH Canadian manufacturers of pine or spruce who wish to form a connection with a reliable British house. Advertiser is now in Canada and desires to have a personal interview with millmen now doing or seeking to do an export trade. Best of references as to reliability and standing. Box 42, CANADA LUMBERMAN.

WANTED

BY A THOROUGHLY COMPETENT shingle man, a position as foreman in a large shingle mill. Is good millwright, good mathematician, and an expert saw man. Best of references. Address FOREMAN, care of CANADA LUMBERMAN.

CANADIAN PACIFIC RAILWAY COMPANY

TENDERS

—FOR—

TRACK TIES, ETC.

SEALED TENDERS for the supply of track ties, fence posts, telegraph poles and piling required by the company for the next three or five years for the Ontario Division, will be received up to THURSDAY, MAY 15, 1902.

For specifications and other information apply to Jno. Wanless, Tie Inspector, C.P.R., Parkdale, or to the General Tie Agent, C.P.R., Montreal.

The Company does not bind itself to accept the lowest or any tender.

Tenders must be addressed to Geo. H. Webster, General Tie Agent, C. P. Ry., Montreal, and envelopes must be endorsed "Tenders for Ties, etc."

TIMBER BERTH

Township of Chisholm,

SAW MILL AND SHINGLE MILL

BY PUBLIC AUCTION,

AT THE

Orillia House, Orillia, on

THURSDAY, JUNE 12, 1902

at 2 p. m.

The subscriber will offer for sale by Public Auction at the above time and place

Timber Berth, Township of Chisholm
(Being 22 square miles.)

Together with Saw Mill, Shingle Mill, Buildings, Camp and Logging Outfit, Tools, Horses, about 650 Logs, Etc., as per inventory, which can be seen by applying to Mr. D. McRae, Powassen.

The whole of the above will be sold en bloc.

TERMS.—Half Cash, balance one year, with interest at Six per cent. on approved paper.

For further particulars apply to the Chisholm Timber Limit Co., Hamilton, Ont., or to Wm. Hendrie, Jr., and J. J. C. Thomson, Proprietors.

PETER RYAN,
Toronto.

NAME AND ADDRESS WANTED.

Messrs. Gellibrand, Heywood & Company, of Cardiff, Wales, would be pleased to receive the name and address of the person who, in answer to an advertisement in this paper, wrote them a letter from Bedford, N.S., quoting prices for birch chair seats, etc. If this paragraph should happen to meet the eye of the person referred to, he will confer a favor by communicating immediately with Messrs. Gellibrand, Heywood & Co.

The steamer Simonside is loading a cargo of deals at St. John, N.B., for the United Kingdom.

CURRENT TRADE CONDITIONS.

ONTARIO.

It is usual for the month of April to be characterized by a decline in the price of lumber in anticipation of the new cut, but the past month has been a notable exception. Prices of almost every grade of lumber are equally as firm as one month ago. The demand has been quite active, and sufficient to absorb nearly all the dry lumber on the market. There is practically no merchantable pine that has not passed out of first hands. A large percentage of the new cut has also been contracted for at prices considerably higher than those ruling one year ago. It is, probable, however, that those who have bought will be on the right side of the market, as should any quantity of logs be hung up, as now seems probable, the result would be a further stiffening of prices. That a shortage in the log supply is anticipated is shown by the fact that logs are changing hands in the Georgian Bay district at $11 per thousand feet. It is said that on the north shore several million feet are hung up. Among the grades of lumber most in demand are 10 and 12 inch dressing and better and 6 inch strips. Several sales of mill culls have been made at high figures. Manufacturers report more liberal buying of hardwoods, with less disposition to scrutinize the inspection.

QUEBEC AND NEW BRUNSWICK.

Interest now centres on the log drives. The situation has not improved and the prospects for getting the logs to the mills are not encouraging. Satisfactory progress is being made on the Tobique river but the conditions on the St. John have been less favorable. There has been considerable buying of spruce deals for the British market, as shippers seem to fear a shortage in the supply. It is estimated that the shipments from Nova Scotia will be considerably less than last year. Cedar shingles continue firm, while there has been a slight decline in the price of spruce lath.

MANITOBA AND BRITISH COLUMBIA.

The lumber trade in Manitoba and the Territories is steadily increasing in volume. Building operations in Winnipeg and the country towns are becoming quite active and will call for a large quantity of lumber. An advance in the price of white pine lumber has been put into effect by the manufacturers. It is equal to about fifty cents per thousand feet on timber and dimension, boards, shiplap, flooring, siding and ceiling. This is likely to be followed by a corresponding advance in retail prices. It is understood that the

mills in British Columbia are also considering the raising of prices probably one dollar per thousand, to offset the higher prices asked for logs. The demand is active and a prosperous season is expected by both lumber and shingle manufacturers.

UNITED STATES.

The lumber market generally is quite as strong as at last writing. The situation at the head of the lakes is not satisfactory to mill men, inasmuch as there is a shortage of logs and some of the mills may be compelled to close down unless good progress is made with the drives. Business is particularly active in Pennsylvania and New York States. The high prices of pine and spruce are causing the substitution of southern pine in a few instances. Piece stuff is selling in the Chicago market at $15.25. Dry stocks along the lakes are cleared up, and green lumber will not be ready for shipment for two or three weeks yet. It is not likely, however, that prices will be further advanced, as it would be better to maintain prices at the present basis than force them higher, and probably bring about a sharp reaction when the new cut is offered. In the Saginaw valley long run pine is selling at $17 to $25, box lumber at $14 to 16, and mill culls at $12 to $13. Norway pine has strengthened of late, an advance of $1 having been made at Toledo last week. The base price there is now $17.50 for 2x4 to 2x10, 12 to 16 feet. Hemlock prices are also moving upwards. Cargo shippers who were selling dry hemlock a few weeks ago on the basis of $9.50 to $10 at the mill now want $10.50 to $11. Recent sales were on the basis of $11 delivered in Chicago, so that the asking prices are an advance of over one dollar. At Toledo hemlock boards are quoted at $15. From the Pacific coast comes the report that the mills are crowded to their utmost with orders, and that shipments are limited only by the available stocks of lumber and the supply of cars. There has been within the past two months a complete reversal of the hardwood market. At that time all kinds were quiet, whereas there are few items that are not now moving freely. Higher prices are being asked for maple and birch.

Most of the lath to be cut at Duluth this season has been contracted for at high prices. In the Saginaw valley No. 1 laths are quoted at $4, and No. 2 at $3.50. The demand is good for all grades of shingles. It is said that sales of New Brunswick shingles are being made in Boston at a range from $3.50 to $3.75.

GREAT BRITAIN.

The knowledge that no import duty is to be placed on timber was no doubt responsible in part for the better tone of the British market during the past fortnight. The prospects of peace in South Africa have also had a reassuring influence. Buyers have entered the market to secure specifications that are likely to be required for early contracts. In addition, there have been large public sales of pine and spruce, as is usual at this season of the year, to make room for the new imports. The prices realized show a slightly advancing tendency. For a quantity of first quality pine, from Quebec, £27 5s was obtained. This price, however, seems low, inasmuch as £30 is asked by Quebec shippers for similar stock delivered at London. A parcel of regulars, containing a percentage of second-class deals, brought £24. Second quality pine, 14 to 15 feet in length, sold at £16. The stock of spruce deals is working down, and 9 and 11-inch bring good prices. For narrow sizes the market is dull. A correspondent at Liverpool writes that the stock of spruce on hand is of very poor quality, but that it is being firmly held owing to the attitude of shippers. It is said that contracts have been closed on the basis of £7 7s 6d per standard c. i. f. Liverpool, for June loading, and that for later delivery £7 10s is asked. The prices realized for square timber at a recent sale are given in another column.

STOCKS AND PRICES.

The Parrsboro Lumber Company, of Parrsboro, N. S., expect to ship 3,000,000 feet of lumber this season.

The barque Pallas sailed last week from the Hastings mill, Vancouver, B.C., with lumber, for the United Kingdom.

J. & C. Hickman, of Port Elgin, N.B., expect to cut this season about 3,250,000 feet of spruce deals and 2,000,000 lath.

The Keewatin Lumber Company, of Keewatin, Ont., expect to manufacture 20,000,000 feet of lumber this season.

McClellan Bros. have just finished sawing 370,000 feet of deals and boards at Hopewell, Hill, N.B., by a portable mill.

Sims Bros., of Little Current, Ont., last week sold to William Pulling & Company, of Windsor, 650,000 feet of mill culls at good figure.

J. Willard Smith, agent for Gibson's mill at Marysville, N.B., expects to place the first cargo of cedar shingles on the market this week.

It is estimated that 33,000,000 feet of deals were shipped to the United Kingdom from St. John's, N. B., during the past winter on the regular liners.

One of the novelties of recent shipments from British Columbia was a cargo of lumber from the Hastings Mill, Vancouver, for Philadelphia, Penn.

The CANADA LUMBERMAN would be pleased to learn of parties in a position to make immediate shipment of about 5,000 railway ties, in either cedar or tamarac.

The Moulthrop Lumber Company, of John's Island, Ont., have purchased a timber limit on the Vermillion river, estimated to contain 40,000,000 feet of pine.

John L. Peck and J. Nelson Smith, of Hillsboro, N.B., are reported to have purchased 1,400 acres of timber land in the vicinity of Albert Mines, N.B., from Capt. H. A. Calhoun.

It is estimated that there are 290,000,000 feet of logs to come out of the Spanish river and tributaries this spring. The water is low, however, and many of the logs may be hung up.

R. A. Estey, of Fredericton, N.B., has sold 1,500,000 feet of spruce logs of this winter's cut to John E. Moore, of St. John. Mr. Estey took out more logs than he can manufacture at his mill.

The Canadian Pacific Railway Company are asking for tenders in this issue for the supply of track ties, fence posts, telegraph poles and piling required by the Ontario division for the next three or five years.

The barque Rhoda cleared from Little Current, Ont., on the 18th inst., for Cleveland, with 541,000 feet of lumber for the Saginaw Bay Company. This is part of the stock purchased by the company from Sims Bros.

According to M. L. Tucker, the shipments of lumber from Parrboro, N. S, this season will be smaller than for some years. He estimates that the shipments from West Bay will not exceed 15,000,000 feet, compared with nearly 40,000,000 feet last year.

The Parrsboro Lumber Company, of Parrsboro, N.S., operated last winter in Newfoundland, getting out 2,500,000 feet of logs at Notre Dame Junction. The Highland Lumber Company, also a Nova Scotia concern, took out 3,000,000 feet at Norris Arm. The Exploits Lumber Company, operating at Botwoodville, Nfld., took out 10,000,000 feet last winter.

Messrs. S. P. Musson, Son & Company, in their report of April 12th, thus refer to the Barbadoes market: "There have been no arrivals of white pine, but the market is amply supplied at the moment. We could not venture to value a cargo at present over $20 to $20.50 for shipping, and $15 to $15.50 for second quality. In spruce we have had the "Josie," with 130,000 feet, which we placed at $18.37. The steamer "Bratsberg" brought a small parcel of long cedar shingles, which have been sold at $3.60; further arrivals, however, will probably not bring this price."

BRITISH TIMBER SALE.

The following prices were realized for Canadian deals, etc., at an auction sale held at London, England, by Foy, Morgan & Company, on April 16th:

PINE—Ex. Prome, from Quebec—10-17 ft. 3x5 in. unassorted red, £7 per std; 10-16 ft. 3x5, £6 15s. Ex. Manchester Shipper, from Quebec.—12-13 ft. 3x12-21 in. first quality white pine, £27 5s; 14 ft 3x12-23, £27 5s; 10-11 ft. 3x12-22, £25 15s; 12 ft. 3x11, £24; 13 ft. 3x11, £24 5s; 14 ft. 3x11, £24; 15 ft. 3x11, £23 15s; 16 ft. 3x11, £23 15s; 14 ft. 3x9-10, £18 15s; 15 ft. 3x9-10, £19 5s; 16 ft. 3x9, £19 10s; 14 ft. 3x7-8, £17 5s; 15 ft. 3x7, £17 5s; 9 ft. 3x11-19, £21 15s; 8 ft. 3x11-20 £19 15s; 7 ft. 3x11-21, £19 10s; 6 ft. 3x11-19, £19 10s; 9 ft. 3x7-10, £18 15s; 8 ft. 3x7-10, £18; 7 ft. 3x7, £17 10s; 6 ft. 3x7, £16 15s; 2-5 ft. 3x11-18, £15; 5 ft. 3x4-10, £15 5s; 4 ft. 3x4-10, £13 15s; 3 ft. 3x4-10, £12; 2 ft. 3x4-10, £9 5s; 12-13 ft. 3x12-22 in. second quality, £16; 14-16 ft. 3x12-22, £15; 10-11 ft. 3x12-22, £14 10s. Ex. TRADE OPENINGS.

The following were among the enquiries relating to Canadian trade received at the Canadian Government Office in London during the week ending 4th April, 1902. The names of the parties may be obtained from the publishers of this journal.

A firm of organ makers have asked to be furnished with the names of shippers of whitewood from Canada.

A firm at Leith, Scotland, make inquiry respecting the wood pulp trade of Canada, their object being to interest themselves in the importation of sulphite pulp.

The Canadian makers of butcher and other skewers ask to be placed in touch with English buyers.

DOORS AND MOULDINGS.

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in first instance to Empire, CANADA LUMBERMAN.

TO THE LUMBER TRADE

We will be represented in South Western Ontario by Mr. Frederick Shaw, of Forest, Ont., who comes with us as travelling salesman on May 1st, and who will call on the trade regularly. We are running our mills day and night and offer to the trade a well manufactured stock of band sawed lumber put up in grades under Michigan inspection rules. We solicit your inquiries, and all correspondence given prompt attention.

The Cleveland-Sarnia Saw Mills Co., Limited

SARNIA, ONT

THE OTTAWA VALLEY.

[Correspondence of the CANADA LUMBERMAN.]

The activity about the mills is the present prominent feature of the lumber business. Every preparation has been made for a big season's cut, and all that remains to transform expectations into realizations is a large and steady supply of logs. Gilmour & Hughson's large mill on the Hull side of the river is working on dimension timber. The W. C. Edwards Company's mill has also started for the season with a large gang of men. The Ottawa mill got down to business this year about a week before the larger mill at Rockland. Booth's mill is also running night and day, the night gang having been placed at work this week. Over 1,500 men are now employed in the Booth mill and yard. A large burner is in course of erection. In it the refuse sawdust will be disposed of. The E. B. Eddy Company's saw mill and the mills of smaller concerns in and about the city are all working on the season's cut.

From present indications very little lumber available for present sale is likely to be carried over. The mill men are daily in receipt of inquiries from local and outside dealers, and the prospects for a rapid turnover of lumber in the yards are good.

The Ottawa Transportation Company has got its fleet of 80 barges in readiness for the movement of the Ottawa and Hull mill cut. Shipments will commence early next week, and an extra busy season is looked for. The above company has a monopoly of the river carrying business. American barges carrying return cargoes of lumber have to get permission and pay for the privilege. Each of the Ottawa barges has a capacity of 350,000 feet of lumber, equal to 25 car loads. A couple of new barges will be placed in commission with the opening of the canal on Monday.

There is absolutely no change in the lumber prices this month. They are stationary and several lines are all held in second hands. Lath and shingles figure in this list, with several measurements of the better grade of lumber. Everyone is waiting for a slice of the new cut on which the mills have just started. When it is placed on the market it will no doubt have an effect on prices.

Building operations in the city have not as yet taken on the accustomed activity, but better things are looked for. The talk of strikes in the building trades is dying out, and local dealers are anticipating a busy season with the city trade. Shipments to the States have picked up, and the C. P. Railway and C. A. Railway report an increased inquiry for cars. The trade with the States by water will be large this season.

The dry weather has given the Ottawa lumbermen considerable trouble, and unless an abundance of rain marks the weather for the next week, many logs will be tied up, as the water is low. The Riordan Paper Company, of Hawkesbury, is said to have a considerable quantity of stuff on the Rough River which will have to be left there. This week a couple of large booms passed down the river to Grenville, en route to Montreal. The report that the Canadian Pacific Railway has purchased the Ottawa, Northern and Western Railway and the Pontiac line is good news for the local lumbermen, the improved service will facilitate the handling of supplies. If the C.P.R. extends the lines as is predicted, new and valuable territory will be opened up.

In the provincial campaign the local lumber trade is deeply interested, as two of its members are prospective candidates. They are ex-Mayor Bingham and Alex. Lumsden, ex-M.L.A. Mayor White, of Pembroke, son of the late Andrew White, M.L.A., will contest North Renfrew in the Conservative interests against Mr. Munro, the sitting member, who is a well-known lumberman. Mayor White controls his father's interests in the lumber business. Mr. Alex. Lumsden, who returned a few days ago from the Temiscamingue district, states that the Kippewa Temiscamingue, and smaller lakes are still full of ice. Navigation will not be opened for some time. None of the mills are running yet.

At the annual meeting held here last week Mr. W. C. Edwards, M.P., the well-known lumberman, was elected President of the Canadian Association for the Prevention of Tuberculosis.

OTTAWA, April 25th, 1902.

FIRES.

The saw mill of H. Elderkin & Co. at Port Greville, N.S., was destroyed by fire recently.

The saw mill of John Cooper, of Wallaceburg, Ont., was burned a few days ago. The loss is heavy.

The saw mill of George Tennant, at Bracebridge, Ont., together with a quantity of lumber, was burned last week.

The sash and door factory of Robertson & Hackett, Vancouver, B.C., was damaged by fire recently to the extent of $4,000.

Simmie's saw mill at Clavering, Ont., together with a quantity of lumber was destroyed by fire last week. The loss is about $6,000.

The sash and door factory of James York, at Chesterville, Ont., was destroyed by fire recently. The loss is estimated at $50,000, with no insurance.

THE BOSTON MARKET.

The spruce lumber situation still hinges on the log drives. The weather conditions east still continue unfavorable for driving, and the probabilities thoroughly favor a hang-up of a good portion of the new logs in the tributaries of the big rivers. Manufacturers, consequently, ev nce a determination to either withdraw otations entirely, or bid $1.50 to $2 per usand over last winter's prices. Quotations are $18 to $20 on ordinary frames; 10-in. and over, $20 to $22, with the lower quotations more nearly nominal than otherwise.

Hemlock is still very firm, with the supply limited: Boards, 12, 14 and 16 feet stock, $15 to $15.50 for good eastern; random, eastern, $14 to $14.50; Pennsylvania, No. 1, $16 to $17.50; No. 2, $15 to $15.50.

White pine continues remarkably strong: Here, uppers, 1-in, $75 to $80; 2½ and 3 in, $80 to $85; 4-in. $85 to $88; selects, 1 to 1½ in. $68; 2-in. $69 to $70; 2½ to 3 in. $74 to $76; 4-in. $79 to $80; fine common, 1-in. $60 to $63; 1¼ to 1½ in. $64 to $66; 2-in. $68 to $70; 2½ and 3 in. $69 to $71; 4-in. $80; barn boards, $23 to $33; coffin boards, $27 to $32.

Hardwood lumber is very firm, with exception of common plain, oak which is weak and easy: Quartered oak, $64 to $66; plain oak, $41 to $45; common and rejects, $20 to $25; red oak no market; white wood, $42 to 43; sap and common, $30 to $35; brown ash, $41 to $44; white ash, $43 to $46; maple, $28 to $30; end-dried white maple, $38 to $42; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Shingles continue very firm, with spot prices 15c above quotations on extras and clears, with a very light demand for second clears: To arrive, extra cedar, $3.35 to $3.40; clear, $2.85; second clear, $2.35; extra No. 1, $1.75 to $1.90; Washington and British Columbia red cedar, 16-inch, five butts to 2 inches, $3.75 to $3.80; 18-inch, $4.25 to $4.50.

Clapboards are very scarce and firm, with prices at wide range, depending on how badly they are wanted: Extra spruce, $38 to $40; clear, $36 to $38; second clear, $33 to $35; extra No 1, $24 to $26.

Laths are firm: 1⅝ inch at $3.15 to $3.20; 1½ inch, at $3.

New Mill Erected 1901. Capacity 100 Million a Year.

Spicer Shingle Mill Co., Limited

The purpose of this advertisement to try and convince the Lumber Trade of Canada that we are the only company in British Columbia manufacturing and shipping shingles in large quantities, or that we "know it all." We recognize that "there are others" and that we are not the only "pebble on the beach." To try and make you believe that we are the only people who can supply you **promptly** and in **large quantities** with a **high-grade** shingle would not only be a **fish** and a **bear** story combined, but it would be gall of the bitterest kind.

Our competitors ir the shingle business in B. C. are nice people, and we presume that they know their business; but we are nice people too, and as we have been in the trade as long as any of them, and a **great deal longer** than the most of them, we know that we know our business, and that our competitors are not in the possession of any points of value regarding the manufacture of shingles which has not come to **our knowledge**.

Our old mill was burned down in May last, and in its place we have built what is at the present time the **Largest** Shingle Mill in B. C.

Our new Mill has 7 of the latest improved type of Dunbar machine, which we run night and day—giving us a capacity of about **100 Million** a year.

Competent judges who have seen our new mill, tell us that it is one of the most **substantial**, carefully **constructed**, and best **planned** mills in this province. We ourselves think it is **the very best** shingle mill in B. C.; and we know that it is **equipped** with all the very latest improved Shingle Machinery.

Will the trade please note that our contract with the Pacific Coast Lumber Co. closed on December 31, 1901. Orders sent to us by letter or telegraph shall have our best attention.

We want our share of your shingle business, and can **guarantee** you satisfaction in **every particular.**

Spicer Shingle Mill Co., Limited,
VANCOUVER, B.C.

Another Little Mill

There will be over a million feet of sawn lumber used in this one plant for construction only; over 30,000 lin. feet of piling, besides rock foundations; two car-loads of shingle machines only; over 7 miles steam pipe 1 1-2 inch and up in diameter. A summary of all the material that will be used in the construction of this plant shows that there will be over 320 car-loads, or 21 trains of 15 car-loads each.

With all our past experience in the shingle business, of which we make a specialty, and with all the latest and best improvements in machinery and mill construction, we expect it to be the most complete and up-to-date mill in North America, where shingles can be made better than in the ordinary mill.

The above plant will be in operation about the first of June, and although this mill will have a daily (24 hours) capacity of 1,250,000 shingles, the dealers and consumers need not be afraid of any particular surplus, but can rest assured that there will be one firm on the coast manufacturing red cedar shingles from whom they can get their wants supplied in a hurry with that old reliable "Hastings Brand" so much talked about.

CUSTOMERS' ATTENTION.—Please take notice that on and after the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles will be ended, and until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipeg, Man, for Manitoba and the North-West; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

Shingle Mill, Hastings, B.C.; Lumber and Shingle Mill, Vancouver, B.C.; Shingle Mill, New Whatcom, Wash.; Shingle Mill, Sumas, Wash.; Shingle Mill, Carroll Siding, Wash.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, ONT., MAY 7, 1902 No. 14

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the 'Canada Lumberman."

Toronto, Canada
C. H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of six 2 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada.

WANTED AND FOR SALE

WANTED—A RAFT OF PINE LOGS ON Georgian Bay; apply at once to BOX 20, CANADA LUMBERMAN.

WANTED—SEVERAL FIRST-CLASS DUNBAR Shingle Sawyers. Apply the Hastings Shingle Mfg. Co., Limited, Vancouver, B.C. See our ad in this paper about our new mill. Mill to be free from dust.

WANTED—HARDWOOD LUMBER.

SOFT ELM, BIRCH, BLACK ASH, 1STS and 2nds preferred. J. F. STENGAL, 99 Ellicott Square, Buffalo, N.Y.

GOOD SAWYER ACCUSTOMED TO STEAM Feed and Nigger, also yardman and engineer. Apply PETER RYAN, Toronto, or JOHN SHIELDS, Kamloops, B. C.

WANTED — FROM TWENTY-FIVE TO fifty thousand acres pine or spruce limits; correspondence solicited with owner only; give full description with price. M. V. B. TURNER, Plattsburg, N. Y.

FOR SALE — THIS SEASON'S CUT OF lumber; about 700,000 feet; consisting of hemlock, pine, basswood, birch, oak, spruce and balsam For particulars apply to W. THOMSON, Thurso, Que.

Wante --Cedar Shingles

16 INCH AND 18 INCH, ALL GRADES, good quality, White Cedar. Would purchase mill output.

Give quantities both on hand and to be manufactured. J. G. STRAIT & SON, Wolcott, New York.

SPECIAL TO LUMBERMEN.

WITH A THOROUGHLY EQUIPPED PLANING Mill at Orillia, we solicit orders for re sawing and planing of lumber, in any quantity; can match 26 inches wide; all work guaranteed first-class; prices on application. Address, NATIONAL BOX CO., Orillia, Ont.

FOR SALE

STEAM SAW MILL AND TIMBER LIMIT. Mill is situated on the Quyon River, two miles from Bristol Station, on the Pontiac Pacific Railway, consists of one Waterous band mill with all necessary tools for grinding and fitting saws, one double power feed edger slash table, swing butting saw log haul up, and everything necessary to make a complete mill. Timber limit contains ten (10) square miles Mill is now in operation and can be seen running Proprietors are removing where a larger plant can be installed. Price $5,000, half cash, balance in six (6) and twelve (12) months secured. For further information apply to

DAVIDSON & THACKRAY,
250 Sparks St., Ottawa.

FOR SALE

Veneered Doors

Manufactured under our patent process.
In stock for immediate shipment.
Inspection invited.
Prices on application.

3664	Plain Red Oak	Veneered.
177	Unselected Birch	"
346	Brown Ash	"
290	Maple	"

GILMOUR & COMPANY, Limited,
Trenton, Ontario, Canada.

FOR SALE.

200,000 FEET OF PINE, TAMARAC and cedar, all lengths, can be cut to order; also 2,000 fence posts. N. H. HOWARD, Killean P. O., Leslie's Station, C. P. R.

FOR SALE.

150,000 FEET OF BLACK BIRCH plank, 1½" thick, graded common and better; a nice, clean stock, cut in the frost and well manufactured. W. DOHERTY & CO., Clinton, Ont.

STANDING TIMBER FOR SALE.

900 ACRES OF HEMLOCK, BASSWOOD, Oak, Pine, Maple and Beech, near R. R. station; will take all the cordwood part payment, delivered at the station. THOS. MYLES' SONS, Hamilton. There is a large amount of tan bark.

WANTED

BY A THOROUGHLY COMPETENT shingle man, a position as foreman in a large shingle mill. Is good millwright, good mathematician, and an expert saw man. Best of references. Address FOREMAN, care of CANADA LUMBERMAN.

CANADIAN PACIFIC RAILWAY COMPANY

TENDERS

—FOR—

TRACK TIES, ETC.

SEALED TENDERS for the supply of track ties, fence posts, telegraph poles and piling required by the company for the next three or five years for the Ontario Division, will be received up to THURSDAY, MAY 15, 1902.

For specifications and other information apply to Jno. Wanless, Tie Inspector, C.P.R., Parkdale, or to the General Tie Agent, C.P.R., Montreal.

The Company does not bind itself to accept the lowest or any tender.

TIMBER BERTH

Township of Chisholm,

SAW MILL AND SHINGLE MILL

TO BE SOLD BY PUBLIC AUCTION,

AT THE

Orillia House, Orillia, on

THURSDAY, JUNE 12, 1902

at 2 p. m.

The subscriber will offer for sale by Public Auction at the above time and place

Timber Berth, Township of Chisholm
(Being 22 square miles.)

Together with Saw Mill, Shingle Mill, Buildings, Camp and Logging Outfit, Tools, Horses, about 650 Logs, Etc., as per inventory, which can be seen by applying to Mr. D. McRae, Powassen.

The whole of the above will be sold en bloc.

TERMS.—Half Cash, balance one year, with interest at Six per cent. on approved paper.

For further particulars apply to the Chisholm Timber Limit Co., Hamilton, Ont., or to Wm. Hendrie, Jr., and J. J. C. Thomson, Proprietors.

PETER RYAN,
Toronto.

DRY PINE.

WE HAVE ABOUT 1,500,000 FEET DRY PINE in 1, 2 and 3 inch common and better, prefer selling in bulk. Will quote freight rate to Buffalo, Chicago or Toronto on application. Correspondence solicited. N.B.—Would like to correspond with consumers of hardwoods. ST. JOE ISLAND LUMBER CO., Sault Ste. Marie, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

From the standpoint of volume of business, the first week of May has not more than held its own. Enquiries for lumber have not been lacking, but the shortage in the supply of dry stock makes it almost impossible to fill large orders. The mill men are as firm as ever, and if one can judge by their attitude when approached by a buyer, prices are not likely to be marked down in the near future. It may be said that conditions favor the maintenance of present prices. American buyers are still in the market for pine lumber. A Georgian Bay manufacturer is reported as saying that within one month he has sold $350,000 worth of lumber for shipment to the United States. Notwithstanding the benefit of late rains, a considerable quantity of logs are yet in danger of being hung up. Even if a full stock of logs is secured, the quantity of lumber that can be offered by manufacturers will, on account of the heavy sales already made, be comparatively small, while if there should be an appreciable shortage in the log supply, conditions favoring still higher prices would be encountered. While these remarks apply to pine, they are equally applicable to hardwoods, the difference being that the shortage in the production of hardwood logs is a certainty, very light stocks having been taken out last winter. Holders of hardwood lumber are demanding full prices and find little difficulty in effecting a sale whenever the lumber is wanted. A strong market for hardwood lumber this season is confidently looked for.

The retail demand in Toronto has been quiet on account of labor troubles. A great deal of building has been held back awaiting a settlement with the different trades, and as soon as this is assured there is likely to be more than usual activity for two or three months.

QUEBEC AND NEW BRUNSWICK.

The first cargoes of lumber for the season left the St. Lawrence within the past week. The charters effected would indicate that the season will not be particularly active, but it is likely that the total shipments will not be materially less than last year. No doubt more lumber will be marketed in the United States, and this increase is likely to be made at the expense of British trade. Millmen in Quebec report numerous enquiries from the Eastern States for clapboards and other spruce lumber for immediate shipment, but it frequently happens that dry stock is not

available to fill the orders. The price of clapboards is exceptionally firm. This also applies to cedar shingles, for which $3.40 is obtained for extras, Boston delivery.

Vessels are being chartered to carry deals from St. John to the United Kingdom at 35 shillings. Shippers have apparently taken advantage of this low rate, as within the past fortnight a number of fixtures have been made. These are mostly for June and July loading. Prices of British deals are exhibiting firmness, partly due to the probability of a shortage in the log supply. While recent rains have improved the driving situation, the danger point is not yet passed. The cut of logs on the St. John river last winter was about 140,000,000 feet, but only one-half of this quantity was Canadian logs, the balance being cut in Maine to be manufactured by the American firms with mills at St. John. All the lumber from this stock will be marketed in the United States.

UNITED STATES.

Rains in many sections of the United States have improved the outlook in business circles generally, and particularly in the lumber trade. Most of the mills in the Lake Superior district are in operation, but a full stock of logs for the season's sawing is by no means yet assured and will depend to a large extent upon the weather conditions of the next two weeks. Wholesale stocks of lumber in the Mississippi valley district are the lowest ever known in the history of the trade. The demand for lumber is increasing, but orders are largely filled by second or third hands, as practically no dry stock is held by manufacturers. Prices show no change. Last week 23,000,000 feet of lumber was sold by Alger, Smith & Company, of Marquette, Mich., for shipment eastward. The stock was mainly No. 3 and better, and the price is believed to have been $26 per thousand. It will be seen that the eastern dealer will be obliged to turn over the stock at a very high figure in order to secure a margin of profit. The high prices do not appear to have restricted the consumption to any extent. Opinions differ, however, as to the future of prices. Some Buffalo dealers are predicting a decline later in the season and are consequently deferring purchases except for immediate requirements. At Buffalo and Tonawanda there is a scarcity of 4 and 6 inch No. 1, 2 and 3 barnboards, which are selling from $18 to $26. The demand for those items and 4-inch strips is brisk. In the Saginaw valley mill culls are selling readily at $13 and box lumber at $16.

All the better grades of hardwoods are in good demand, with elm, basswood, and black ash leading. Maple is showing a good deal of life, but the supply is comparatively large and it seems difficult to advance prices to a reasonable basis. Hemlock is showing more strength at the present time than any other lumber. The base price at Buffalo is $14.50. Dealers report a scarcity of stock and in some instances have been compelled for this reason to refuse orders.

GREAT BRITAIN.

The report of the British timber market this week is of a more encouraging character. The demand has improved, and as stocks of Canadian lumber are now comparatively light excepting at London, the tendency of prices is upwards. Quebec pine deals are at a premium and spruce deals are in much higher appreciation than they were two months ago. Importers have apparently realized at last that there will be no large quantity of Canadian pine and spruce for export to Great Britain this year. It is believed that regular sizes of deals will witness a sharp advance in the near future. There has been heavy buying at recent auction sales, which is taken as an indication that buyers do not anticipate a slump in prices. A Liverpool house is reported to have sold a large quantity of New Brunswick sprice deals at £7 10s c.i.f. Liverpool and Manchester, one cargo from St. John N. B., containing 60 per cent. 7 and 8 inch, being placed at that figure. Quebec second and third quality spruce have been sold for London delivery on the basis of £8 17s 6d for 3x9 seconds and £8 7s 6d for thirds. For deals in stock high prices are asked. Regular second quality spruce is particularly scarce. A London report states that £10 landed for 3x9 third quality will be obtained in the near future. At West Hartlepool forward buying is proceeding more briskly than heretofore, and Quebec shippers have been successful in placing several lots.

STOCKS AND PRICES.

White and Norway mixed pine laths are selling in the Chicago market at $3.50 to $3.75.

The schooner Abbie K. Kease cleared from the Miramichi last week for New York with a cargo of laths.

The barque Prince Louis sailed last week from the Hastings mill, Vancouver, B. C., for Candiff, England, with a cargo of lumber.

The steamer Edgar recently arrived at Charlottetown, P.E.I., from Charleston with 1,700,000 feet of southern pine for caisson construction.

The Hines Lumber Company, of Marinette, Wis., recently sold 2,000,000 feet of white pine to the R. Laidlaw Lumber Company, of Buffalo.

Hemlock shingles are quoted in Pittsburg at an advance of 15c a thousand, selling now at $2.65 and $3.05 for 16 and 18 inch respectively.

A drive of 4,000,000 feet of logs, to be cut for Mershon, Schuette, Parker & Company, of Saginaw, was last week reported to be hung up in Vermillion river.

The International Lumber Company, of Sault Ste. Marie, Ont., is reported to have closed a contract with the Government of Japan to supply 600,000 tea chests.

Dimension spruce is in short supply at Portland, Me., at $19. Three years ago there was an excess of supply at $12. Clapboards bring $35, $40, $45 and $50, according to grade.

The advance that has taken place in the price of pine lumber is illustrated by the position of mill culls. Five years ago this grade was selling at $5, whereas the current quotation is $13.

At Philadelphia dry inch uppers are bringing $75 to $79, and 1 1/2 and 2-inch $80. For 12-inch No. 1 common $34 to $36 is asked, while No. 2 common brings $28 to $30, and No. 3 $25.50 to $27.

The barge Komstock, from Georgian Bay to the Saginaw river with a cargo of lumber for Mershon, Schuette, Parker & Company, lost her entire deck load of about 250,000 feet, owing to rough weather, and the schooner Ketcham, in tow of the steamer Maine, from Georgian Bay with lumber for Bradley, Miller & Company, of Bay City, lost 125,000 feet of her deck load.

VENEER DOORS FOR SALE.

Messrs. Gilmour & Company, of Trenton, Ont., announce in this issue that they have for sale a considerable quantity of red oak, birch, brown ash and maple veneer doors. These doors are held in stock and it is their desire to clear them out preparatory to the installation of a new plant. Immediate shipment can be made.

NEW BRUNSWICK LOG DRIVES.

Recent rains in New Brunswick have improved the outlook for log driving. The Restigouche drives, as a rule, are safe. In Gloucester the main Nepisiquit drive is hanging and the work is very expensive. One drive of a million feet has already cost $5 per thousand. The Tracadie drive of Snowball & Company is only started and there is no certainty of getting it out. The large drive for Gibson & Company on the Bartholomew river is believed to be in safe waters. Mr. Gibson's cut on the Nashwaak and Bartholomew rivers last winter was about 37,000,000 feet.

On May 1st the water in the St. John river rose several inches. As there is yet some snow in the woods, according to latest reports, a further rise may be anticipated, in which case all the drives may come out safely.

R. A. Estey's Rockway drive of 2,000,000 feet, William Lynch's drive of 1,000,000 feet on Green river, and Randolph & Baker's drive of 2,000,000 feet on Grand river, are into the main stream. James Burgess & Son, 2,000,000 feet, J. A. Patterson, 5,000,000 feet on Salmon river, and the Tobique Manufacturing Company, 5,500,000 feet, expect to be in corporation limits this week. Robert Aiken is bringing about 4,500,000 feet out of Rocky Brook, a branch of the Machias river, and at time of writing his logs are in safe water. Darius Nixon is bringing 3,000,000 feet out of the Restigouche river for the William Richards Company and is making fair progress. Jacob Hazleton has 2,000,000 feet in safe waters.

The cut on the St. John river last winter is estimated at 138,750,000 feet. Of this 71,750,000 are American logs and 67,000,000 feet Canadian logs, for the following parties:

A. Cushing & Company, St. John, 20,000,000 ft. American logs, 7,000,000 ft. Canadian; total, 27,000,000.

Stetson, Cutler & Co., St. John, 17,000,000 American.

W. H. Murray, 23,250,000 American, 12,000,000 Canadian; total, 35,250,000. Mr. Murray has sold 3,250,000 feet of his cut on Fish River to Cushing & Burleigh.

Miller Bros., 3,000,000 American, 3,000,000 Canadian; total, 6,000,000.

R. A. Estey, 6,000,000 Canadian.

Randolph & Baker, 11,500,000 Canadian.

Douald Fraser & Sons, 9,000,000 Canadian.

John Morrison, for J. G. Murchie, 3,500,000 American.

F. H. Hale, 12,000,000 Canadian, of which 6,500,000 have been sold to W. H. Moore and the remaining 5,500,000 are to be sawn by the Tobique Manufacturing Company at Plaster Rock.

Hilyard Bros., 4,000,000 Canadian.

Purvis, 3,000,000 American, 2,500,000 Canadian; total, 5,500,000.

Dunn Bros., 2,000,000 American.

The logs of the cut of the season of 1901, held in the ice over winter, and now in the river, total 25,600,000 feet, as follows:

Murray	10,000,000 feet
Stetson	1,800,000 "
Miller Bros.	1,800,000 "
Dunn Bros.	2,500,000 "
Murchie	3,000,000 "
Cushing	3,500,000 "
Other operators	3,000,000 "
Total	25,600,000

CANADIAN LUMBER SHIPMENTS.

The following shipments of lumber, etc., from Canadian ports are reported since last issue:

From Montreal: April 30th, str. Roman, for Liverpool, 11,691 piece deals and ends by Watson & Todd; April 19th, str. Mignonette for St. Pierre, 100,000 feet lumber, by Lemoine, Martineau & Fils.

From Chatham, N.B.: April 28th, str. Falco, for Dublin, 1,788,535 ft. deals, etc., by F. E. Neale; May 1, str. Ramleh, for Barrow, 2,134,298 ft. deals, etc., by F. E. Neale.

From Vancouver, B. C.: Str. Queen Mary, for Taku, China, 106,894 ft. dressed fir, 14,717 ft. rough fir, value $1,275, by British Columbia Mills, Timber and Trading Co.; tug Dauntless, for United States, 319,000 ft. cedar logs, value $1,433, by F. McCrae; 250,000 ft. cedar logs, value $1,125, by Malloy & Larkins.

From Halifax, N.S.: April 22, str. Brairdene, for Manchester, Eng., 1,838,184 ft. deals, value $20,020. April 23, str. Chiclade, for Avonmouth, 1,988,703 ft. deals, value $23,384. April 25, str. Urenia, for Browhead, Eng., 2,065,711 ft. deals, value $166,855; April 28, str. Peruvian, for Liverpool, 1,272,509 ft. lumber, etc., value $15,415. Str. Ionian, for Liverpool, 173,458 ft. deals, value $1,700. April 30, str. Magda, for Preston, Eng., 1,885,115 ft. deals, value $21,363. Str. Damara, for Liverpool, 398,691 ft. deals, value $3,882.

B. C. SPRUCE AND CEDAR WANTED.

A British firm writes to the CANADA LUMBERMAN as follows: "We shall feel much obliged if you could put us in communication with a reliable firm or firms who are in a position to furnish us with information, with a view to doing business, with regard to what is known as Pacific Coast spruce or Washington spruce, suitable for yacht spars. These spars are being brought over by rail to some place in New York State, manufactured into spars and sent to this country. Our yacht and boat builders would like to receive the spars in the rough round and manufacture them themselves. The spars would require to be free from knots and blemishes. We should also feel obliged if you could inform us as to who the best party would be to communicate with in regard to British Columbia cedar, either in the log or planks."

Persons interested may obtain the name and address of the firm by communicating ing with the publishers of this journal.

DOORS AND MOULDINGS.

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in first instance to Empire, CANADA LUMBERMAN.

TO THE LUMBER TRADE

We will be represented in South Western Ontario by Mr. Frederick Shaw, of Forest, Ont., who comes with us as travelling salesman on May 1st, and who will call on the trade regularly. We are running our mills day and night and offer to the trade a well manufactured stock of band sawed lumber put up in grades under Michigan inspection rules. We solicit your inquiries, and all correspondence given prompt attention.

The Cleveland-Sarnia Saw Mills Co., Limited
SARNIA, ONT

THE OTTAWA VALLEY.

(Correspondence of the Canada Lumberman.)

No changes can be located in the market lists for lumber in the Ottawa district, for the reason that very little is selling. American buyers who made the trip from Ottawa to Parry Sound last week had all the one report to give at Ottawa on their return. The burden of their wail was "not a stick to be had". They are now scouting the territory east of Ottawa. There will be "something doing" inside a few weeks, however, when business is transacted in which the new cut at the mills is involved.

Recent rains have improved matters, but the fact remains that a considerable percentage of the logs will likely be "hung up" on the creeks. Taken in conjunction with the companion fact that a goodly number of logs intended for this season's cutting at the mills, never got clear of the limits, it can be readily seen that a shortage in supply is not a wild guess. The above conditions will further supply one to the list of reasons why lumber should remain firm and probably advance in price.

Reports indicate that the export business to the United Kingdom is brisker than for the same period in previous years. The railroads are handling considerable stock to points in Western Ohio and Pennsylvania, but a lull has followed the activity noted a few weeks since in the shipments to New York points via Albany barge line. Presumably the extra demand of the early spring building and manufacturing trade has been satisfied.

The shipments to Canadian points are good, but the local trade is poor, as building operations are not being conducted on an extensive scale. On Tuesday the first shipment by barge was made from Ottawa, the objective point being Oswego, N.Y. The lumber was the property of the Standard Oil Company and will be used in the large box factory the concern operates at that town. It is early yet to state what the extent of the water shipments will be, as the land rates on frieghts are unsettled. As the demand is brisk, however, it is safe to predict a busy season for the "blue bottoms" of the Ottawa transportation line. While on this question of lumber movements, reference may be made to the boon gained by the mill owners of the Parry Sound district. The completion of a spur line connecting Parry Sound with Rose Point, on the western division of the Canada Atlantic Railway, will enable the mill men to place their stock in Ontario and American points in good time. Once on the C. A. Ry., they will be enabled to transfer at Scotia Junction to the northern division of the Grand Trunk Ry., and the connection with the Southern Canadian and the American markets will be completed.

When the C. P. Ry. builds the link connecting the Pontiac branch with the transcontinental line, the lumber operators of Ottawa and the Valley will be enabled to reach out for new markets.

Very little British Columbia fir or Southern pine is being received in Ottawa at present, as the nature of the building operations does not call for these woods.

Charles Desmaris, contractor, of Hull, has shipped 1500 poles for a new electric line in Cape Breton. They are 30 and 35 feet in length. The price obtained was considerably in advance of last year's. Mr. Desmaris took out about 4,000 poles in the Gatineau district during the past winter.

Talk in local lumber circles centres on the early movement of square timber. Mr. Robert Hurdman's first raft has been placed together, and forwarded from Deep River above Pembroke. It should reach Quebec inside of six weeks, breaking all records for early arrival at that port. The Munro Company, of Pembroke, have a large raft following close on the Hurdman raft.

Dobell, Beckett & Company have secured the Hurdman timber, which will, by reason of its early arrival at Quebec, be placed on the English market at an early date.

Brennan & Company are forwarding considerable square timber over the Parry Sound division of the C.A.Ry., from their limits at Rainy Lake, near Algonquin Park. This timber will be unloaded from the cars at Clarke's Island, in the St. Lawrence, and from thence floated down to Quebec in rafts. The timber will be exported to England by McArthur Bros., of Quebec.

McLachlin Bros'. large mill at Arnprior has been equipped with new and modern machinery, which will facilitate operations. By the addition of new boilers, the steam power has been increased 500 h.p. New band and circular saws have been added to the equipment. This concern has now two water power and two steam mills, and an increased cut will be obtained this season by operating night and day. The saws will likely take their first logs early next week. This firm escaped the smallpox on its limits last winter, and hence its operations were not interferred with. The logs have been released from the limits and streams, and a steady supply is assured for the summer months. The firm will cut again this season for the American, English and South American markets. Large quantities of

pickets will be turned out for Michigan factories to be manufactured into curtain poles.

It is understood that the logs cut on Fraser & Company's Coulonge River limits last winter will be cut at the Rockland mill of the W. C. Edwards Company. The manufactured stock will aggregate about 14,000,000 feet.

The acquirement of the Pontiac line by the C.P.Ry. has again brought to the front the question of the erection of the proposed mill at Deschenes near Ottawa. The difficulty that stood in the way earlier in the season was the question of rates between the Pontiac and other companies. Now the C. P. Ry. furnishes a through line and it is probable the mill will be built this fall.

The local contests in the approaching Provincial election are exciting great interest in the lumber trade. Mr. Alex. Lumsden, proprietor of the Temiscaminque mills, and Ex-Mayor Samuel Bingham, who contracts for the log drives on the Gatineau, are Liberal standard bearers. Mr. Dennis Murphy, president of the Ottawa River Transportation Company, is in the field in the Conservative interests.

E. Roberge, lumber jobber, Scotstown, Que., is reported to have assigned, with small liabilities.

BUSINESS NOTES.

The R. Laidlaw Lumber Company, of Toronto, have recently removed their central office from 700 King street west to room 67, Canada Permanent Building, 18 Toronto street.

Thomas Whaley & Son, wholesale lumber dealers, of Guelph, Ont., have removed to Toronto and opened an office at 37 Yonge Street Arcade. The firm deal chiefly in hemlock and pine.

TRENTON, CANADA

THE BOSTON MARKET.

In spruce lumber there are no new features to note. There is a tendency on the part of manufacturers to ask higher prices, or to withdraw quotations entirely, owing to the uncertainty of the eastern drives. Quotations are at $18 to $20 on ordinary frames; 10-inch and over, $20 to $22, with the lower quotations more nearly nominal than otherwise.

Hemlock is very firm, with the supply limited: Boards, 12, 14 and 16 feet stock, $15 to $15.50 for good eastern; random, eastern, $14 to $14.50; Pennsylvania, No. 1, $16 to $17.50; No. 2, $15 to $15.50.

The market for white pine continues strong: Here, uppers, 1-in, $75 to $80; 2½ and 3 in, $80 to $85; 4-in. $85 to $88; selects, 1 to 1½ in. $68; 2-in. $69 to $70; 2½ to 3 in. $74 to $76; 4-in. $79 to $80; fine common, 1-in. $60 to $63; 1¼ to 1½ in. $64 to $66; 2-in. $68 to $70; 2½ and 3 in. $69 to $71; 4-in. $80; barn boards, $23 to $33; coffin boards, $27 to $32.

Hardwood lumber is generally firm, though common plain oak is easy: Quartered oak, $64 to $66; plain oak, $41 to $45; common and rejects, $20 to $25; red oak no market; white wood, $42 to 43; sap and common, $30 to $35; brown ash, $41 to $44; white ash, $43 to 46; maple, $28 to $30; end-dried white maple, $38 to $42; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

There is no change to note in shingles, which are firm: To arrive, extra cedar, $3.35; clear, $2.85; second clear, $2.35; extra No. 1, $1.75 to $1.90; British Columbia red cedar, 16-inch, five butts to 2 inches, $3.75 to $3.80; 18-inch, $4.25 to $4.50.

Clapboards are scarce and firm, with prices at wide range: Extra spruce, $38 to $40; clear, $36 to $38; second clear, $33 to $35; extra No 1, $24 to $26.

Laths are firm: 1⅜ inch at $3.20 to $3.25; 1½ inch, at $3.

New Mill Erected 1901. Capacity 100 Million a Year.

Spicer Shingle Mill Co., Limited

The purpose of this advertisement to try and convince the Lumber Trade of Canada that we are the only company in British Columbia manufacturing and shipping shingles in large quantities, or that we "know it all." We recognize that "there are others" and that we are not the only "pebble on the beach." To try and make you believe that we are the only people who can supply you **promptly** and in **large quantities** with a **high-grade** shingle would not only be a **fish** and a **bear** story combined, but it would be gall of the bitterest kind.

Our competitors in the shingle business in B. C. are nice people, and we presume that they know their business; but we are nice people too, and as we have been in the trade as long as any of them, and a **great deal longer** than the most of them, we know that we know our business, and that our competitors are not in the possession of any points of value regarding the manufacture of shingles which has not come to **our knowledge**.

Our old mill was burned down in May last, and in its place we have built what is at the present time the **Largest** Shingle Mill in B. C.

Our new Mill has 7 of the latest improved type of Dunbar machine, which we run night and day—giving us a capacity of about **100 Million** a year.

Competent judges who have seen our new mill, tell us that it is one of the most **substantial**, carefully **constructed**, and best **planned** mills in this province. We ourselves think it is **the very best** shingle mill in B. C.; and we know that it is **equipped** with all the very latest improved Shingle Machinery.

Will the trade please note that our contract with the Pacific Coast Lumber Co. closed on December 31, 1901. Orders sent to us by letter or telegraph shall have our best attention.

We want our share of your shingle business, and can **guarantee** you satisfaction in **every particular.**

Spicer Shingle Mill Co., Limited,
VANCOUVER, B.C.

Another Little Mill

There will be over a million feet of sawn lumber used in this one plant for construction only; over 30,000 lin. feet of piling, besides rock foundations; two car-loads of shingle machines only; over 7 miles steam pipe 1 1-2 inch and up in diameter. A summary of all the material that will be used in the construction of this plant shows that there will be over 320 car-loads, or 21 trains of 15 car-loads each.

With all our past experience in the shingle business, of which we make a specialty, and with all the latest and best improvements in machinery and mill construction, we expect it to be the most complete and up-to-date mill in North America, where shingles can be made better than in the ordinary mill.

The above plant will be in operation about the first of June, and although this mill will have a daily (24 hours) capacity of 1,250,000 shingles, the dealers and consumers need not be afraid of any particular surplus, but can rest assured that there will be one firm on the coast manufacturing red cedar shingles from whom they can get their wants supplied in a hurry with that old reliable "Hastings Brand" so much talked about.

CUSTOMERS' ATTENTION. — Please take notice that after the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles ended. Until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipeg, Man., for Manitoba and the North-West; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, ONT., MAY 14, 1902 No. 15

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the "Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of six 2 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m on Tuesday to insure insertion in the current week's issue.

WANTED—A RAFT OF PINE LOGS ON Georgian Bay; apply at once to Box 20, CANADA LUMBERMAN.

WANTED—SEVERAL FIRST-CLASS DUNBAR Shingle Sawyers. Apply the Hastings Shingle Mfg. Co., Limited, Vancouver, B.C. See our ad in this paper about our new mill. Mill to be free from dust.

WANTED—HARDWOOD LUMBER.

SOFT ELM, BIRCH, BLACK ASH, 1STS and 2nds preferred. J. F. STENGAL, 990 Ellicott Square, Buffalo, N.Y.

Wanted--Cedar Shingles

16 INCH AND 18 INCH, ALL GRADES, good quality, White Cedar. Would purchase mill output.

Give quantities both on hand and to be manufactured. J. G. STRAIT & SON, Wolcott, New York.

Cedar Shingles Wanted

WILL BUY FOR CASH ANY QUANTITY of good quality Cedar Shingles. I handle all grades and will advance 75 per cent. cash on receipt of bill of lading. Write or telegraph. IVERS P. LAWRENCE, Fitchburg, Mass.

SPECIAL TO LUMBERMEN.

WITH A THOROUGHLY EQUIPPED PLANING Mill at Orillia, we solicit orders for re sawing and planing of lumber, in any quantity; can match 26 inches wide; all work guaranteed first-class; prices on application. Address, NATIONAL BOX CO., Orillia, Ont.

FOR SALE

STEAM SAW MILL AND TIMBER LIMIT. Mill is situated on the Quyon River, two miles from Bristol Station, on the Pontiac Pacific Railway, consists of one Waterous band mill with all necessary tools for grinding and fitting saws, one double power feed edger slash table, swing butting saw log haul up, and everything necessary to make a complete mill. Timber limit contains ten (10) square miles Mill is now in operation and can be seen running Proprietors are removing where a larger plant can be installed. Price $5,000, half cash, balance in six (6) and twelve (12) months secured. For further information apply to

DAVIDSON & THACKRAY,
250 Sparks St., Ottawa.

FOR SALE

Veneered Doors

Manufactured under our patent process.
In stock for immediate shipment.
Inspection invited.
Prices on application.

3664	Plain Red Oak	Veneered.
177	Unselected Birch	"
346	Brown Ash	"
290	Maple	"

GILMOUR & COMPANY, Limited,
Trenton, Ontario, Canada.

FOR SALE.

150,000 FEET OF BLACK BIRCH plank, 1½" thick, graded common and better; a nice, clean stock, cut in the frost and well manufactured. W. DOHERTY & Co., Clinton, Ont.

STANDING TIMBER FOR SALE.

900 ACRES OF HEMLOCK, BASSWOOD, Oak, Pine, Maple and Beech, near R. R. station; will take all the cordwood part payment, delivered at the station. THOS. MYLES' SONS, Hamilton. There is a large amount of tan bark.

WANTED

BY A THOROUGHLY COMPETENT shingle man, a position as foreman in a large shingle mill. Is good millwright, good mathematician, and an expert saw man. Best of references. Address FOREMAN, care of CANADA LUNBERMAN.

DRY PINE.

WE HAVE ABOUT 1,500,000 FEET DRY PINE in 1, 2 and 3 inch common and better, prefer selling in bulk. Will quote freight rate to Buffalo, Chicago or Toronto on application. Correspondence solicited. N.B.—Would like to correspond with consumers of hardwoods. ST. JOE ISLAND LUMBER Co., Sault Ste. Marie, Ont.

Wanted—A Partner

COMPETENT OR SILENT, WITH $6,000 OR $8,000, to increase the business of a good saw mill on the sea shore, Gulf St. Lawrence. Good facilities for shipping. Plenty Spruce, Cedar and Hardwood. Address J. DIDACE BEAULIEU, 188 St. Antoine Street, Montreal.

TIMBER LIMITS

FOR SALE IN

BRITISH COLUMBIA

WELL TIMBERED WITH DOUGLAS FIR, Cedar, Spruce and Hemlock and conveniently situated for operating cheaply.

Both large and small tracts of land at prices and terms to suit purchasers. H. G. ROSS, Drawer 805, Vancouver, B.C.

TIMBER BERTH

Township of Chisholm,

SAW MILL AND SHINGLE MILL

PUBLIC AUCTION,

AT THE

Orillia House, Orillia, on

THURSDAY, JUNE 12, 1902

at 2 p. m.

The subscriber will offer for sale by Public Auction at the above time and place

Timber Berth, Township of Chisholm
(Being 22 square miles.)

Together with Saw Mill, Shingle Mill, Buildings, Camp and Logging Outfit, Tools, Horses, about 650 Logs, Etc., as per inventory, which can be seen by applying to Mr. D. McRae. Powassen.

The whole of the above will be sold en bloc.

TERMS.—Half Cash, balance one year, with interest at Six per cent. on approved paper.

For further particulars apply to the Chisholm Timber Limit Co., Hamilton, Ont., or to Wm. Hendrie, Jr., and J. J. C. Thomson, Proprietors.

PETER RYAN,
Toronto.

FOR SALE.

200,000 FEET OF PINE, TAMARAC and cedar, all lengths, can be cut to order; also 2,000 fence posts. N. H. HOWARD, Killean P. O., Leslie's Station, C. P. R.

CURRENT TRADE CONDITIONS.

ONTARIO.

The quantity of the pine cut of this season that has already passed out of first hands has placed the manufacturer in an exceptionally favorable position. Even if there should be a slump in prices, it is not likely that he would be affected this year. Estimates of the proportion of the cut disposed of vary between 50 and 75 per cent. At the present time arguments are advanced by some that prices are too high, and by others that the cost of logging and manufacturing warrants a further advance. Granting that prices are abnormal, the responsibility therefor may be attributed to the buyer rather than the seller. The purchasing has not been conducted with as much caution as usual. It has seemed to be the aim of the American buyers in particular to secure the stock at any cost. Manufacturers still report numerous inquiries from dealers in Michigan and the Eastern States. The settlement of the carpenters' strike in Toronto should stimulate the retail demand for lumber. A dealer states that the resultant improvement is only noticeable and that there is not much buoyancy to the demand and a good deal of bartering over prices. Hemlock is inquired for considerably, and hardwoods are being bought by implement and furniture factories, which have allowed their stocks to run low. The quotations for lath and shingles are unaltered, with the stringency in the supply somewhat broken.

QUEBEC AND NEW BRUNSWICK.

The tone of the spruce market is gradually improving owing to an increased demand for clapboards and other lumber for shipment to the Eastern States and deals for the British market. Prices are decidedly stronger and manufacturers are exhibiting a firm attitude. It is regarded as only a matter of a few weeks before considerably higher prices will rule, as the supply is not likely to be sufficient to meet the demand. Reports of the log drives are favorable from the Miramichi, but somewhat gloomy from the Restigouche, where the water has fallen rapidly.

New Brunswick cedar shingles are very strong. The large manufacturers are accepting no orders at less than $3.50 for extras and $3.10 for clears, Boston delivery. We have been shown an order for a considerable quantity of shingles at

$3.65 for extras and $3.10 for clears, less 5 per cent. commission. This order was refused by the mill owner, who did not wish to accept more contracts than were already on his books. Simultaneously with this information, comes the report from Boston that prices have advanced. It would seem, therefore, that ruling quotations are about as given above, and that sales made at lower prices are by small mill owners whose production may not be of the best quality or who are not in touch with the market. From present indications a further advance in the price of cedar shingles is likely to take place.

MANITOBA AND BRITISH COLUMBIA.

Building operations are very active in Winnipeg and lumber is going into consumption at a rapid rate. In addition to the many important buildings under way in that city, there is a large volume of building in country districts. The crop outlook is favorable and everything points to a year of prosperity throughout Manitoba and the Territories. Wholesale prices of lumber have been advanced, as will be seen by the list published in another column. The lumber and shingle industry of British Columbia is also in a prosperous condition. The mills are operating steadily as far as it is possible to obtain logs. Some of the mill owners are putting in their own camps so as to insure a supply. A proposition is under way to form an intermediate company to act as sales agent for the logging contractors. It is thought that such an arrangement will benefit both the logger and the mill man.

UNITED STATES.

The lumber market of the United States has been somewhat featureless during the past week, the only important event being the issuance of a new price list on white pine by the Mississippi Valley Lumbermen's Association. This list, while intended largely to unify prices, shows several important changes as compared with the list issued in Febrnary last. Common lumber and piece stuff remain unchanged, timbers are advanced 50 cents, while a substantial advance was made in the price of good lumber, ranging from $2 to $5. There is practically no A grade finishing lumber or flooring in the Minneapolis market. Shop lumber was advanced $2, and dimension in 4x4 up to 8x8 50 cents. No. 4 fencing, 6-inch, in 12 to 20-foot lengths, was reduced 50 cents, and lath 25 cents. Current prices for lath are $4 for No. 1 white pine, $3.50 for mixed, and $3 for No. 2. It is believed that the new price list can be maintained without difficulty, as there is no dry lumber in the market and some of the mills are closed down on account of a scarcity of logs. The east is not buying lumber quite as liberally as earlier in the spring, probably on account of labor troubles in the building trade. Buffalo dealers are anxious that mill prices should decline, so as to remove the necessity of further advancing wholesale prices, which, it is believed, would restrict the consumption. In the Buffalo market mill culls are selling at $14 and box lumber at $15.50 to $19.

Hemlock is decidely strong. The base price of Michigan hemlock has been advanced to $14.50, while at Buffalo and Tonawanda it is $14.50 and at Boston $15.50, being an advance of 50 cents. A further expansion in the hardwood business is reported, with wholesale stocks badly broken and very little in the hands of mill men. If any change can be recorded in shingles and lath, it is in the direction of weakness. The assortment of shingles at Buffalo and Tonawanda is larger than it has been for several months. Since navigation red cedar shingles have declined about ten cents. Clear butt pine shingles are the scarcest in the market and are quoted at $2.85. White pine lath are selling in the Tonawanda market at a range from $3.75 to $4.50.

GREAT BRITAIN.

The outlook for peace in South Africa is now so bright that a marked improvement in general business is looked for. In the timber trade, however, there has not been as much activity as was expected, although the volume of business has been fairly satisfactory and of a sound character. The import during April was considerably less than in the corresponding month of last year; consequently an opportunity has been afforded importers to reduce stocks. That this has been accomplished is shown by the figures for Liverpool. Compared with one year ago the stock at that port of square and waney pine, red pine, birch, and New Brunswick spruce and pine deals is less than one-half, while Quebec pine deals are held in about the same quantity as one year ago. The stock of elm and ash is considerably larger. The stock, however, is largely of an inferior quality. Timber and deals of first-class quality meet with a ready sale. Birch timber is slightly higher, quotations being 18 to 19½d per cubic foot for 15 to 16 inch average. Elm is quoted at 3s to 3s 4d for 45 to 50 feet average. Red pine brings from 1s 7d to 1s 10d.

STOCKS AND PRICES.

The steamer Philae is loading timber at Indian Cove, Quebec, for England.

The Charlton Saw Mill Co., of Collingwood, Ont., expect to cut 25,000,000 feet of lumber this season.

The tender of D. E. Sprague has been accepted for the supply of lumber for the city of Winnipeg.

By the breaking of a boom at Atkin's mill, St. Raymond, Que., 60,000 logs were allowed to float down stream.

The United Lumber Company expect to cut 12,000,000 feet of lumber this season at their mills at Sherbrooke and Jordan River, N.S.

Hilyard Bros. will supply 2,000 yards of paving blocks for the city of St. John, N. B., and Murray & Gregory 3,000 yards, at 50 cents per yard.

At Ashland, Wis., 4-inch pine is held at $15.50, 5-inch at $16.50, 6-inch at $18, 8-inch at $17, 10-inch at $18 and 12-inch at $19. Lath are held at $3.50 for No. 1 white pine, $2.75 for No. 2, $3 for No. 1 Norway and $2 for No. 2.

H. L. McCall, of Simcoe, Ont., had a quantity of square timber, pine, rock elm and cherry in a slip at Bay City last week, when a steamer struck the boom, breaking it and allowing the logs to get away. The loss to Mr. McCall is considerable.

The Department of Interior at Ottawa is asking for tenders up to May 28th for a license to cut timber on berth No. 296, situate in the Province of British Columbia, comprising two blocks of 640 acres and 860 acres.

Statistics have been compiled showing the winter shipments of the port of St. John for the past season. The lumber shipped from the port was valued at $101-661, compared with $127,668 in the previous season, and $98,662 in the winter of 1899.

Toner & Gregory, of Collingwood, are cutting a quantity of Norway pine for Playfair & White, of Midland. On the arrival of a raft of hemlock logs they will turn their attention to cutting a large bill for the Cramp Steel Co. The contract for supplying timber for the proposed building of this company has been secured by Toner & Gregory and A. McKean.

Messrs. S. P. Musson, Son & Co., under date of April 26, refer to the Barbadoes market as follows: "The fortnight has been bare of any transactions in either white pine or spruce. Stocks, however, are ample, particularly of white pine, and the season for spruce is virtually over. A small lot of long cedar shingles arrived by the steamer Ororo and were placed at $3.30. The demand is limited. Dimension shingles by same steamer brought $8 for 7 and 8-inch, $6.50 for 6-inch, $5.50 for 5-inch and $4.50 for 4-inch."

The Sutherland-Innes Company, of Chatham, Ont., state that the tone of the hoop market has somewhat moderated from the extremely high prices that manufacturers have been asking. The price of staves has not advanced any higher than warranted during the past few weeks, the cost of timber not admitting of their being sold at lower figures. First quality basswood heading is in good demand and becoming scarcer all the time.

LUMBERING IN BRITISH COLUMBIA.

[COMMUNICATED.]

From the items touching on the lumber business in British Columbia that have already appeared in your paper, it will have been noticed that this business, and that of shingles, are in a much more prosperous condition than they have ever been. The estimated output of shingles, when the new shingle mills that are now building, together with the present mills, are in full operation, will be 800,000,000 shingles per annum. Of this amount it is expected that 300,000,000 will be sold in the Canadian market and 500,000,000 in the United States market.

The estimated cut of logs for 1902 is 260,000,000 feet, roughly speaking. Two-thirds of this quantity will be fir, with a small percentage of spruce. One-third will be cedar. Of the amount of fir cut one-quarter will run from 35 to 100 feet in length. The prevailing prices for logs are as follows:

No. 1 long deck plank	$9.00	per M.
Fir merchantable	7.00	"
Fir flooring	8.00	"
No. 2 merchantable	6.00	"

50 cents per M. is added for each additional 10 feet from 40 feet in length and upwards. No. 1 cedar is held at $7.50 per M. and merchantable at $6.50. All the above prices are delivered at the mills. The local market is entirely bare of logs, as up to the end of last year it was possible to export, especially cedar logs, to Puget Sound, while the past winter has been a very wet and unfavorable one for working in the woods.

The mills holding leases are increasing the number of camps operating on their own account.

A help to the placing of the lumber business on a better footing in British Columbia is the passing of an Act by the present local Legislature, entitled, "A Bill for the Measurement of Timber". This Bill provides for the payment of the Supervisor and Official Scalers for the performance of this important duty.

All the mills in British Columbia have more orders on hand than they can fill. In some cases their agents in Manitoba and the North-West Territories have been withdrawn. The large crops of last year and the influx of settlers that is now taking place is causing an abnormal demand for lumber.

R.E.G.

QUEBEC TIMBER LIMIT SALE.

An auction sale of timber limits in Quebec will be held in the Department of Mines, Lands and Fisheries, Quebec City, on Tuesday, June 3rd, commencing at 11 o'clock a. m. About 3,500 square miles of limits will be offered at upset prices fixed by the Department. The limits are situated in the Upper and Lower Ottawa, St. Maurice, St. Charles, Lake St. John Centre, Lake St. John West, Saguenay, Metapedia Valley, Rimouski East and West, Bonaventure West, Gaspe West, and Gaspe Centre district.

THE GLASGOW MARKET.

Messrs. Allison, Cousland & Company furnish the following particulars of the Glasgow market:

WHITE PINE—WANEY— The stock is now reduced to some small parcels of inferior and 2nd class wood, which however is not easily disposed of at the prices asked by sellers.

SQUARE—Business has been rather quiet, but prices remain steady at former quotations.

RED PINE—There has been some enquiry for 1st class wood of large average.

ELM— Prime wood is in moderate request, prices are little altered, 45 to 50 feet average being quoted at 3s to 3s 4d per c. ft.

OAK— Stocks are small. There is a steady demand.

ASH—Stocks have been largely reduced, but prices except for large prime wood keep low.

BIRCH—Is in moderate request, prices are somewhat firmer. Quotations: 18d to 19½d for 15½ to 16½ inch average.

PINE—The stock of white pine deals is now very light and some very high prices have been paid for small shipments arriving per liners. It is difficult to quote prices, as in many cases the stock is practically nil, and while some buyers will pay high figures through necessity, others can for the present hold off, and expect to purchase cheaper. Broad 1st pine are quoted at £28 17s 6d to £33. Undersized £21 6s 3d to £22 13s 9d per standard. Seconds.—Regulars and broad are quoted at £19 18s 9d to £22 13 9d. Undersized £15 2s 6d to £16 10s per standard. Thirds.—There has been a steady demand and very little stock is now in first hands. Quotations—£12 to £13 1s 3d for regulars. Undersized, £10 6s 3d to £11 per standard. Fourths.—The stock is practically exhausted, but the enquiry has been limited. Quotations.—Regulars, £9 19s 4d to £10 6s 3d per standard. Reds—Business is very slow and stocks still appear to be too heavy. 9 and 11 inch are quoted at £10 6s 3d to £12 7s 6d. Undersized, £6 17s 6d to £8 11s 10d per standard.

QUEBEC SPRUCE. — Continues healthy and prices are well maintained at £6 17s 6d to £9 5s 7d per standard.

DOORS AND MOULDINGS.

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in first instance to Empire, CANADA LUMBERMAN.

TO THE LUMBER TRADE

We will be represented in South Western Ontario by Mr. Frederick Shaw, of Forest, Ont., who comes with us as travelling salesman on May 1st, and who will call on the trade regularly. We are running our mills day and night and offer to the trade a well manufactured stock of band sawed lumber put up in grades under Michigan inspection rules. We solicit your inquiries, and all correspondence given prompt attention.

The Cleveland-Sarnia Saw Mills Co., Limited

SARNIA, ONT

NEW PRICE LIST FOR WINNIPEG.

A new wholesale price list for white pine lumber for the city of Winnipeg and vicinity was put into effect last week. The prices show an advance of fifty cents per thousand feet on nearly all grades. The terms applicable to these prices are 60 days or 2 per cent. off for cash in 20 days from date of invoice. These prices are on a delivered basis. The new list is given below:

TIMBER AND DIMENSION—Timber, 4x10 and 12, 6x10 and 12, 8x8 to 12x12, 12, 14 and 16 feet long, $19; timber, 6x6 to 6x8, 4x4 to 4x8 and 3x6 to 3x12, 12, 14 and 16 feet long, $17.50; dimension, 2x4 to 2x8, 12, 14 and 16 feet long, $17; 2x10, 2x12, 12, 14 and 16 feet long, $17.50; 2x4, 10 feet long, $18; 2x8 to 2x12, 10 feet long, $16.50; 2x6, 10 feet long, $15.50; 2x4 to 2x12, 6 and 8 feet, $14; cull planks, all widths, $11; cull planks, re-sawn, $11. $1 per M advance on each inch over 12 inches in depth and width. $1 per M advance on each two feet over 16 feet.

BOARDS — First common boards, red pine, 10 to 18 feet, $23; second do., 10 to 18, $17.50; third do., 10 to 18, $16.50; fourth do., 10 to 18, $14 50; fifth do., 10 to 18, $10.50; ¼ in. sheathing, S.I.S., 10 to 18, $14.50; second common stock, 12 in., 10 to 18, $19; do., 8 to 10 in., 10 to 18, $18; No. 1 wide box boards, 10 to 18, $27.50; No. 2 wide box boards, 10 to 18, $20. $2 per M less for 6 and 8 feet. Resawing boards, $1 per M extra.

SHIPLAP—Shiplap, 8 to 10 in., $18.50; 6 in., $17.50; culls, 8 to 10 in., $16; do., 6 in., $13. $2 per M less for 8 feet and under.

FLOORING, SIDING AND CEILING—Flooring and siding, 8 and 10 in., $19.50; do., 8 and 10 in. culls, $16; flooring, siding and ceiling, 4, 5 and 6 in., first white pine, $36.50; do., second white pine, $33.50; do., third white pine, $26.50; do., 5 and 6 in. first and second red pine, $29; do., 4 in. first and second red pine, $26.50; do., 5 and 6 in. third red pine, $24; do., 4 in. third red pine, $22; do., 5 and 6 in. fourth red and white pine, $20; do., 4 in. fourth red and white pine, $18; do., 4, 5 and 6 in. culls, $16; first and second red pine ceiling, ½x4 in., $20.50; do., ⅜x4, $17.50; third red pine ceiling, ½x4, $16.50; do., ⅜x4, $13.50; $2 per M less for 8 feet and under. $1 per M advance for dressing two sides. 1¼ and 1½ in. flooring $1 per M advance over 1 inch. Bevel siding, No. 1, ½x6 in., $22; No. 2, ½x6, $19.

FINISHING—1¼, 1½ and 2 in. first, second and third clear white pine, under 12 in. wide, $47; do., 12 in. and wider, $49; do., select white pine, under 12 in. wide, $37; do., 12 in. and wider, $39; do., shop, under 12 in. wide, $32; do., shop, 12 in. and wider, $34. $5 per M advance on 2½ in. and thicker. 1¼, 1½ and 2 in. clear red pine, under 12 in. wide, $33; do., 12 in. and wider, $35; do., select red pine, under 12 in. wide, $28.50; do., 12 in. and wider, $30.50; 1 in. first and second clear white pine, under 12 in. wide, $49.50; do., 12 in. and wider, $51.50; 1 in. third clear white pine, under 12 in. wide, $38.50; do., 12 in. and wider, $40.50; 1 in. B select white pine, under 12 in. wide, $32; do., B, 12 in. and wider, $34; 1 in. C select white pine, under 12 in. wide, $27; do., 12 in. and wider, $29; 1 in. clear red pine, under 12 in. wide, $33; do., 12 in. and wider, $35; 1 in. select red pine, under 12 in. wide, $28; do., 12 in. and wider, $30.

MOULDINGS—Parting strips, per 100 lineal feet, 40c.; window stops, 50c.; door stops, 75c., quarter round and cove, 50c.; 4 in. casing, $1.75; 5 in. casing, $2.25; 6 in. casing, $2.65; 8 in. base, $3.50; 10 in. base, $4.40. All other mouldings, 50 per cent. discount off universal moulding list.

LATH—Per M, $3.75.

THE BOSTON MARKET.

Spruce lumber prices at Boston are firm at the advance, which amounts to fully $1 per M over the prices of a month or two ago. Still, the trade is scarcely fair, the stronger prices having helped to discourage building. Indeed, the present demand is rather limited, owing, doubtless, to strikes and labor troubles.

Spruce quotations are nominally firm: Ten and 12 inch dimensions, $20 to $22; 9-inch and under, $19 to $20; 10 and 12 inch random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, $17.50; all other randoms, 9-inch and under, 10 feet and up, $18 50; 5-inch and up merchantable boards, $17; matched boards, $19 to $20; out spruce boards, $13.50 to $14; bundle furring, $17 to $18.

Hemlock lumber is very firm, with the supply small: Boards, 12, 14 and 16 feet stock, $15 to $15.50 for good eastern; Vermont $14 to $14.50; random, eastern, $14 to $14.50; Pennsylvania, No. 1, $16 to $17.50; No. 2, $15 to $15.50.

Western pine is exceedingly firm, with even more than quotations paid in many instances: Here, uppers, 1-in, $75 to $80; 2½ and 3 in, $80 to $85; 4-in. $85 to $88; selects, 1 to 1¼ in. $68; 2-in. $69 to $70; 2½ to 3 in. $74 to $76; 4-in. $79 to $80; fine common, 1-in. $60 to $63; 1¼ to 1½ in. $64 to $66; 2-in. $68 to $70; 2½ and 3 in.

WHOLESALE LUMBER
Montreal - - Canada
e presently for sale at various points of shipment, by either rail or water route, on Ottawa River, pine cuttings of different grades from seasons 1900 and 1901. Will [illegible] lots or large blocks
Correspondence Solicited.

$69 to $71 ; 4-in. $80; barn boards, $23 to $33; coffin boards, $27 to $32.

Hardwood lumber is well held, except that plain oak is rather easy for common. Mahogany is unchanged. Quartered oak, $64 to $66; plain oak, $41 to $45; common and rejects, $20 to $25 ; red oak no market; white wood, $42 to 43; sap and common, $30 to $35 ; brown ash, $41 to $44; white ash, $43 to 46 ; maple, $28 to $30; end-dried white maple, $38 to $42; birch, $27 to $30 ; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Shingles are in small supply at present and spot shingles have been sold at a premium. Shingle to arrive, May and June, are steady. The high prices are not favorable to the demand for forward delivery. Extra cedar to arrive, $3.40 to $3.50 ; clear, $3 to $3.10 ; second clear, $2.50 ; extra No. 1, $1.90 to $2.00; British Columbia red cedar, 16-inch, five butts to 2 inches, $3.75 to $3.80 ; 18-inch, $4.25 to $4.50.

Clapboards continue firm because scarce, none of the new make of the season yet having been received. Prices are nominally as follows, but some lots have sold at a premium : Extra spruce, $38 to $40; clear, $36 to $38; second clear, $33 to $35; extra No 1, $24 to $26.

Laths are firm and quoted at $3.20 to $3.25 for 1⅝ inch, and $3 for 1½ inch.

SHIPPING MATTERS.

The barque Russell and the steamer Avon are about to load deals at St. John, N.B., for the United Kingdom.

The following charters are reported : Barque Laura, St. John, N.B., to Belfast, deals, 37s 6d ; str. Peerless, St. John to w.c. England, deals, 35s ; barque Alborga, Sheet Harbor, N.S., to w.c. England, deals, 38s 9d ; barque Avenire C., St. John to w.c. England, deals, 40s.

12 Derby Road, LIVERPOOL.

New Mill Erected 1901. Capacity 100 Million a Year.

Spicer Shingle Mill Co., Limited

It is the purpose of this advertisement to try and convince the Lumber Trade of Canada that we are the only company in British Columbia manufacturing and shipping shingles in large quantities, or that we "know it all." We recognize that "there are others" and that we are not the only "pebble on the beach." To try and make you believe that we are the only people who can supply you **promptly** and in **large quantities** with a **high-grade** shingle would not only be a **fish** and a **bear** story combined, but it would be gall of the bitterest kind.

Our competitors in the shingle business in B. C. are nice people, and we presume that they know their business ; but we are nice people too, and as we have been in the trade as long as any of them, and a **great deal longer** than the most of them, we know that we know our business, and that our competitors are not in the possession of any points of value regarding the manufacture of shingles which has not come to **our knowledge**.

Our old mill was burned down in May last, and in its place we have built what is at the present time the **Largest** Shingle Mill in B. C.

Our new Mill has 7 of the latest improved type of Dunbar machine, which we run night and day—giving us a capacity of about **100 Million** a year.

Competent judges who have seen our new mill, tell us that it is one of the most **substantial**, carefully **constructed**, and best **planned** mills in this province. We ourselves think it is **the very best** shingle mill in B. C. ; and we know that it is **equipped** with all the very latest improved Shingle Machinery.

Will the trade please note that our contract with the Pacific Coast Lumber Co. closed on December 31, 1901. Orders sent to us by letter or telegraph shall have our best attention.

We want our share of your shingle business, and can **guarantee** you satisfaction in **every particular.**

Spicer Shingle Mill Co., Limited,
VANCOUVER, B.C.

Another Little Mill

There will be over a million feet of sawn lumber used in this one plant for construction only ; over 30,000 lin. feet of piling, besides rock foundations ; two car-loads of shingle machines only ; over 7 miles steam pipe 1 1-2 inch and up in diameter. A summary of all the material that will be used in the construction of this plant shows that there will be over 320 car-loads, or 21 trains of 15 car-loads each.

With all our past experience in the shingle business, of which we make a specialty, and with all the latest and best improvements in machinery and mill construction, we expect it to be the most complete and up-to-date mill in North America, where shingles can be made better than in the ordinary mill.

The above plant will be in operation about the first of June, and although this mill will have a daily (24 hours) capacity of 1,250,000 shingles, the dealers and consumers need not be afraid of any particular surplus, but can rest assured that there will be one firm on the coast manufacturing red cedar shingles from whom they can get their wants supplied in a hurry with that old reliable "Hastings Brand" so much talked about.

CUSTOMERS' ATTENTION. — Please take notice that on the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles ended. Until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipeg, Man , for Manitoba and the North-West ; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

Shingle Mill, Hastings, B.C.; Lumber and Shingle Mill, Vancouver, B.C.; Shingle Mill, New Whatcom, Wash.; Shingle Mill, Sumas, Wash.; Shingle Mill, Carroll Siding, Wash.

The Hastings Shingle Mfg. Co., Limited

Office, 450 Westminster Ave., Vancouver, B.C.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, ONT., MAY 21, 1902 No. 16

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING. MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations or everyday service to lumbermen.

Prepared by the Editor of the Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of six 2 cent Canadian postage stamps

THE CANADA LUMBERMAN,

Toronto, Canada.

NDITIONS OF SALE.

No limit will be adjudged at less than the minimum price fixed by the department.

The limits will be adjudged to the highest bidder on payment of the purchase price, in cash or by cheque accepted by a duly incorporated bank. Failing payment they will be immediately re-offered for sale.

The annual ground rent of three dollars per mile, with fire tax, is also payable immediately.

Those timber limits, when adjudged, will be subject to the provisions of all timber regulations now in force or which may be enacted hereafter.

Plans of limits offered for sale are open for inspection in the Department of Lands, Mines and Fisheries, in this city, and at the office of the Crown lands and timber agents in the different agencies in which said limits are situated, up to the day of sale.

N.B.—No account for publication of this notice will be recognized, if such publication has not been expressly authorized by the department.

S. N. PARENT,
Minister of Lands,
Mines and Fisheries.

No. 1 pine lath are selling in the Tonawanda market at $4.

Messrs. Churchill & Sim, wood brokers, London, England, announce that in order to give closer attention to American shipments which pass through Liverpool, they have decided to open a branch office at Albert Buildings, 12 Presson's road, Liverpool, which will be under the direction of Mr. Walter J. Sharp.

CURRENT TRADE CONDITIONS.

ONTARIO.

Recognizing the fact that prices for lumber cannot go much higher without curtailing the demand, some manufacturers are endeavoring to prevent prices from advancing. If prices should advance much above ruling quotations, it is altogether probable that a sharp reaction would occur, and that the market would be unsettled thereby. It would not be a difficult matter for manufacturers, by concerted effort, to advance prices, as buyers recognize the great scarcity of white pine lumber. There are few water mills on the Georgian Bay that have not sold most of their stock. We have seen letters from wholesale dealers almost pleading for stock and admitting the difficulty of securing sufficient for a cargo. The present is distinctly a millman's market. Retail trade in Toronto is not picking up as might be expected. Dealers are filling orders as far as possible from old stock and are not buying heavily of the new cut, as it is claimed that prices are too high to leave a fair margin of profit. It may be, however, that they will be compelled to stock up at present prices and to advance retail quotations accordingly. The supply of lath is more plentiful, with prices slightly easier. There is a famine in shingles in Toronto. It is impossible to secure any dry pine shingles at the mills, and it is claimed that the production this year will be unusually light. British Columbia shingles are also out of the market, and dealers who have placed orders with the mills have been advised that it will be impossible to make shipment earlier than from one month to six weeks, on account of the advance orders.

Hemlock lumber is very strong. The retail price in Toronto is about $14.

QUEBEC AND NEW BRUNSWICK.

Manufacturers are in good spirits owing to the improved outlook for spruce lumber. The shippers have succeeded in placing the bulk of the deals that will be manufactured for the British market. Several spruce cuts which are usually secured by London buyers have this year gone to Liverpool and Manchester. The Joly cut, for instance, has been divided between two London firms and buyers at Manchester. Reports from the New Brunswick drives are not favorable. Water in the St. John river and tributaries has fallen rapidly and several million feet are hung up.

The cedar shingle market is decidedly strong. The lowest quotations are $3.50 for extras and $3 for clears, on Boston rate of freight. Some manufacturers are said to be making sales at $3.60 and predicting that $3.70 will be reached at an early date.

MANITOBA AND BRITISH COLUMBIA.

Salesmen report no difficulty in selling lumber throughout Manitoba and the Territories. Retail dealers are stocking up liberally on the belief that the demand will gradually expand as the season advances. Prices of all grades are strong, with finishing lumber leading. The lumber business of British Columbia continues most prosperous, the volume of trade being limited only by the ability of manufacturers to supply the lumber. The saw mill owners of the Boundary district have entered into an agreement to advance the price of lumber to $14 per thousand, delivered. The activity in the shingle industry is almost unprecedented.

UNITED STATES.

In some quarters there has been a slight falling off in the demand for lumber. Retail dealers are not buying as freely as two weeks ago, probably on account of the decreased building operations in New York and the New England States. Conditions are favorable, however, for a satisfactory summer trade and for the maintenance of lumber prices generally. Wholesale buying has absorbed all the dry stock, and manufacturers have been unable to meet the demand. Heavy rains in the Lake Superior district have relieved the logging situation and assured an ample supply of logs for the mills. Albany sends higher quotations for uppers, of which the supply has become almost exhausted. Box lumber and mill culls are among the best sellers of the lower grades, at the highest prices that have been reached for years. It is reported from Buffalo and Tonawanda that the proportion of uppers and high grades that are received is growing less each year, which accounts for the fancy prices which are now being paid for these grades. There is a large amount of hardwoods moving and stocks have become somewhat depleted.

In spite of efforts to advance the price of maple, sales are still being made at a low figure. At a meeting of the Maple Flooring Manufacturers' Association held in Chicago recently, prices of clear and common flooring were advanced two dollars and factory grades one dollar. Spruce lumber is strong. In New York city random lengths, 6 and 8-inch, are quoted at $19 to $19.50, and spruce lath at $3.25 to $3.50.

GREAT BRITAIN.

There is a more cheerful tone to the reports of the British timber market. Buyers are realizing that those who bought early in the season followed the wisest course, as prices are gradually hardening, and those who have not supplied their requirements will be under the necessity of paying higher prices. This applies not only to retail trade, but also to cargo lots. The possibility of securing cheaper lumber later in the year becomes more remote as time goes on. The higher prices appear to be firmly established. Shippers are now asking £9 10s c. i. f. London for 3 x 9 second quality Quebec spruce, and £9 for thirds. It is understood that 1,500 standards of New Brunswick spruce, with 50 per cent. 7 and 8-inch, have been placed at £7 10s c. i. f. London, and that three small cargoes have been sold to the Mersey on the basis of £7 7s 6d. At Glasgow white pine deals of all grades are out of first hands, and the first arrivals will doubtless meet a ready market. Birch, elm, ash, oak, and white pine timber have all improved slightly in about the order named.

DOORS AND MOULDINGS.

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire ontput of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in first instance to Empire, CANADA LUMBERMAN.

STOCKS AND PRICES.

The A. C. Dutton Lumber Company, of Sayabec, Que., are turning out 400,000 shingles daily.

In Chicago No. 1 white pine and Norway mixed lath are bringing $3.50 and No. 2 $2.75 to $3.

E. H. Heaps & Company, of Vancouver, B. C., are reported to have purchased a large timber limit at Wharnock.

Stevens & Milton, of Riverside, N. B., are shipping 1,000,000 feet of deals to Cape Tormentine, to load on steamer for export.

The "Manchester City" sailed from Montreal last week for Manchester with a general cargo, consisting principally of deals and grain.

The Collins Inlet Lumber Company have sold their entire pine cut of this season, receiving an advance over last year's prices for every grade.

W. H. McAuliffe, of Ottawa, has purchased the 1902 spruce cut of the St. Anthony Company at Whitney and McLachclin Bros. at Arnprior.

It is estimated that there are 8,000,000 ft. of new logs in the Douglas boom at Fredericton, N. B., and 12,000,000 feet in the Sugar Island boom. Rafting at the Douglas boom commenced last week.

The steamers Excalona, Westphalia, Jessie H. Farwell, and Ionia are loading timber cargoes at the Louise Basin, Quebec, the Dunmore Head at Indian Cove and the Aquilla at the Sillery Cove.

The tender of S. G. Parkin has been accepted for supply of lumber for the corporation of Lindsay, Ont., at the following prices: Hemlock plank, $10 per thousand; pine, $15; tamarac and cedar, $12.

Mr. Peter Ryan will offer for sale at Orillia, Ont., on June 12th, 23¾ square miles of timber lands in the township of Proudfoot. The limit is estimated to contain 1,500,000 feet of pine, 3,500,000 feet of birch and 250,000 feet of hemlock, besides a large quantity of maple and beech cordwood.

The Sutherland Innes Co., Chatham, Ont., write: "There is very little to say in regard to the condition of the cooperage

---

TO THE LUMBER TRADE

We will be represented in South Western Ontario by Mr. Frederick Shaw, of Forest, Ont., who comes with us as travelling salesman on May 1st, and who will call on the trade regularly. We are running our mills day and night and offer to the trade a well manufactured stock of band sawed lumber put up in grades under Michigan inspection rules. We solicit your inquiries, and all correspondence given prompt attention.

The Cleveland-Sarnia Saw Mills Co., Limited
SARNIA, ONT.

stock market. It is just about in the same condition as it was a month ago. Both the coopers and manufacturers are waiting to see what the future will bring forth in the way of an apple crop. If there is a good apple crop it will affect prices considerably, especially towards the end of the season after the accumulation of the apple barrel staves and No. 2 stock on hand now have been worked off. Most of the mill men in Canada have already contracted their stock for the season. We expect that trade will open up next month, or just as soon as it is settled one way or the other whether the frost has hurt the fruit crop or not."

THE NEW BRUNSWICK DRIVES.

Advices from the Upper St. John and tributaries are not of an encouraging nature. Robert Aiken, of Fredericton, reports that after getting his drive of 8,000,000 feet across the Machais Lake, there was not sufficient water to enable him to proceed any further and he had to abandon the drive. Alfred Grafton, who operates on the Aroostook, has his logs hung up. He was taking out 8,000,000 feet for the Ashland Lumber Company.

The Tobique drives are in the limits of the corporation. F. H. Hale is holding his Gulquac drive in the mouth of that stream and will run it to its mill as soon as the corporation drive is out of the way.

CANADIAN LUMBER SHIPMENTS.

The following shipments of lumber, etc., from Canadian ports are reported since last issue :

From Vancouver, B. C.: Barque Prince Louis, for England, 940,090 ft. rough fir, value $14,660, by British Columbia Mills, Timber & Trading Co. Str. Moana, for Fiji, 18,050 ft. rough fir, 10,222 ft. flooring, value $500, by Spicer Mill Co.; for New South Wales, 16,211 ft. rough fir, value $300, by British Columbia Mills, Timber & Trading Co.

From Halifax, N. S.: Barque Padosa, for Garston, England, 546,939 ft. deals, etc., value $6,033. Schr. Regina B., for St. Pierre, 54,000 ft. lumber, value $648. Str. Aureola, for Liverpool, 1,971,000 ft. deals, value $19,710. Str. Ulanda, for Liverpool, 294,803 ft. deals, value $2,969. Schr. J. W. Hill, for New York, 95,486 ft. lumber, value $1,050.

From Montreal, Que. : Str. Montcalm for Avonmouth, 290 pcs. lumber by W. & J. Sharples ; 951 pcs. lumber, by Charlemagne Lumber Co.; 15,562 pcs. lumber. by Watson & Todd ; 24,669 pcs. lumber, by Dobell, Beckett & Co. Str. Cervons, for England, 5,780 pcs. deals, by Robert Cox & Co.; 1,083 pieces deals, by McArthur Export Co. Str Lake Manitoba, for Liverpool, 16,591 pcs. lumber, by Watson & Todd; 19,434 pcs. lumber, by Charlemagne Lumber Co.; 8,885 pcs. lumber, by Dobell, Beckett & Co.; 14,105 pcs. lumber, by McLaurin Bros.; 2,082 doors, 1,176 bundles lumber, 3,465 maple blocks, by C.P.R. Str. Forest Holme, for London, 21 pcs. oak lumber, 30 pcs. elm lumber, 24,088 pcs. spruce deals, 2,835 pcs. spruce ends, by Dobell, Beckett & Co.; cargo completed at Pierreville.

From St. John, N.B.: Schr. G. H. Perry, for Bridgeport, 103,629 ft. plank, 10,509 ft. scantling, 172,400 laths, by A. Cushing & Co. Schr. Sirocco, for Bridgeport, 1,050 pcs. piling, by J. E. Moore. Schr. Eastern Light, for Lubec, 25,000 ft. deals, by Charles Miller. Schr. Adelene, for City Island, 251,036 ft. deals, by Dunn Bros. Schr. Lyra, for Providence, 600,000 laths, by A. Cushing & Co. Str. Simonside, for Manchester, England, 2,377,343 ft. deals, 85,573 ft. scantling, 102,267 ft. ends, 236,521 ft. boards, by A. Gibson Railway & Mfg. Co. Schr. Beaver, for Queen City Island, 222,489 ft. planks, 42,579 ft. scantling, by A. Cushing & Co. Schr. Walter Miller, for City Island, 34,010, ft. deals, 149,184 ft. boards, by Stetson, Cutler & Co. Schr. P. C. Thompson, for Washington, 908,000 laths, by A. Cushing & Co. Schr. Frank L. P., for Salem, 161,983 ft. plank, 19,992 ft. scantling, by Stetson, Cutler & Co. Schr. Georgie, for Neponsett, 100,064 ft. boards, 25,000 laths, by Stetson, Cutler & Co.; 275,000 shingles, by Charles Miller.

Owing to the death of Hon. R. R. Dobell, the lumber firm of Dobell, Beckett & Company, Quebec, has been reorganized and is now comprised of the following: R. M. Beckett, Ottawa ; W. M. Dobell and Lorenzo Evans, Quebec ; Thomas Stevenson, London, England.

THE BOSTON MARKET.

Spruce lumber continues firm, though the demand is not very active. The mills have a moderate supply of logs and generally want orders, though they all seem to expect strong prices. Quotations are fully sustained : Ten and 12 inch dimensions, $20 to $22 ; 9-inch and under, $19 to $20; 10 and 12-inch random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, $17.50 ; all other randoms, 9 - inch and under, 10 feet and up, $18.50; 5-inch and up merchantable boards, $17 ; matched boards, $19 to $20 ; out spruce boards, $13.50 to $14 ; bundle furring, $17 to $18.

Hemlock continues firm, with the supply small : Boards, 12, 14 and 16 feet stock, $15 to $15.50 for good eastern ;

New Mill Erected 1901. Capacity 100 Million a Year.

Spicer Shingle Mill Co., Limited

It is the purpose of this advertisement to try and convince the Lumber Trade of Canada that we are the only company in British Columbia manufacturing and shipping shingles in large quantities, or that we "know it all." We recognize that "there are others" and that we are not the only "pebble on the beach." To try and make you believe that we are the only people who can supply you **promptly** and in **large quantities** with a **high-grade** shingle would not only be a **fish** and a **bear** story combined, but it would be gall of the bitterest kind.

Our competitors in the shingle business in B. C. are nice people, and we presume that they know their business ; but we are nice people too, and as we have been in the trade as long as any of them, and a **great deal longer** than the most of them, we know that we know our business, and that our competitors are not in the possession of any points of value regarding the manufacture of shingles which has not come to **our knowledge**.

Our old mill was burned down in May last, and in its place we have built what is at the present time the **Largest** Shingle Mill in B. C.

Our new Mill has 7 of the latest improved type of Dunbar machine, which we run night and day—giving us a capacity of about **100 Million** a year.

Competent judges who have seen our new mill, tell us that it is one of the most **substantial**, carefully **constructed**, and best **planned** mills in this province. We ourselves think it is **the very best** shingle mill in B. C. ; and we know that it is **equipped** with all the very latest improved Shingle Machinery.

Will the trade please note that our contract with the Pacific Coast Lumber Co. closed on December 31, 1901. Orders sent to us by letter or telegraph shall have our best attention.

We want our share of your shingle business, and can **guarantee** you satisfaction in **every particular.**

Spicer Shingle Mill Co., Limited,
VANCOUVER, B. C.

Another Little Mill

There will be over a million feet of sawn lumber used in this one plant for construction only ; over 30,000 lin. feet of piling, besides rock foundations two car-loads of shingle machines only ; over 7 miles steam pipe 1 1-2 inch and up in diameter. A summary of all the material that will be used in the construction of this plant shows that there will be over 320 car-loads, or 21 trains of 15 car-loads each.

With all our past experience in the shingle business, of which we make a specialty, and with all the latest and best improvements in machinery and mill construction, we expect it to be the most complete and up-to-date mill in North America, where shingles can be made better than in the ordinary mill

The above plant will be in operation about the first of June, and although this mill will have a daily (24 hours) capacity of 1,250,000 shingles, the dealers and consumers need not be afraid of any particular surplus, but can rest assured that there will be one firm on the coast manufacturing red cedar shingles from whom they can get their wants supplied in a hurry with that old reliable "Hastings Brand" so much talked about.

CUSTOMERS' ATTENTION. — Please take notice that on the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles ended. Until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipeg Man , for Manitoba and the North-West ; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

Shingle Mill, Hastings, B.C.; Lumber and Shingle Mill, Vancouver, B.C.; Shingle Mill, New Whatcom, Wash.; Shingle Mill, Sumas, Wash.; Shingle Mill, Carroll Siding, Wash.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, ONT., MAY 28, 1902 No. 17

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the "Canada Lumberman."

Toronto, Canada
C. H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of six 2 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada.

NDITIONS OF SALE.

No limit will be adjudged at less than the minimum price fixed by the department.

The limits will be adjudged to the highest bidder on payment of the purchase price, in cash or by cheque accepted by a duly incorporated bank. Failing payment they will be immediately re-offered for sale.

The annual ground rent of three dollars per mile, with fire tax, is also payable immediately.

Those timber limits, when adjudged, will be subject to the provisions of all timber regulations now in force or which may be enacted hereafter

Plans of limits offered for sale are open for inspection in the Department of Lands, Mines and Fisheries, in this city, and at the office of the Crown lands and timber agents in the different agencies in which said limits are situated, up to the day of sale.

N B.—No account for publication of this notice will be recognized, if such publication has not been expressly authorized by the department.

S. N. PARENT,
Minister of Lands,
Mines and Fisheries.

CURRENT TRADE CONDITIONS.

ONTARIO.

The conditions in the lumber trade are almost the same as at last writing. Lumber sells very readily and is sought after by buyers. The movement during the month of May was quite heavy, water mills especially showing an increase in business over the corresponding month last year. Buyers for wholesale dealers in the Eastern States are constantly travelling through the white pine territories in search of suitable stock. In the face of such conditions prices are not likely to weaken. In the Ottawa valley good pine strips and sidings have been marked up about $2 a thousand. While the price lists of manufacturers do not show a general advance, certain grades for which there is an exceptionally good demand are quoted at higher figures than one month ago. Hemlock lumber and timber is in strong demand and owing to the limited supply an advance of about fifty cents has been made. For 2 x 4 hemlock in 12-foot lengths $10 is asked at the mill, and for 1 x 13 inch and wider $11 is the current quotation. For such small lots of dry No. 1 lath as can be found $3 is willingly paid, f.o.b. cars at the mill. Sales of 32-inch lath have been made at $1.50 at the mill. The stock of dry hardwood lumber is being steadily absorbed, although prices have shown little disposition of late to advance. On the other hand, the prospects of a decline are considered very remote, owing to the certainty of a light production this season.

QUEBEC AND NEW BRUNSWICK.

A large quantity of the early cut of the spruce mills has been contracted for. The demand is improving and it would seem that manufacturers are in a position to advance prices for later shipments very easily. Should the quantity of logs hung up be as great as predicted, it will doubtless result in higher prices towards the fall. Clapboards are very scarce and bring $40 for best quality, Boston delivery. There is no perceptible weakening of the cedar shingle market. Dealers are experiencing much difficulty in filling orders, nothwithstanding that as high as $3.60 for extras on Boston rate of freight has been offered in some instances. Laths are also firm.

Reports from the Upper St. John river state that 40,000,000 feet of logs are hung up. Of this quantity 12,000,000 feet are for Cushing & Company and 13,000,000 feet for W. H. Murray. Crews are being kept on hand in the hope that the water may rise.

MANITOBA AND BRITISH COLUMBIA.

The weather throughout Manitoba and the Territories has not been favorable for building operations, but still a large quantity of lumber has gone into consumption. The demand for the better grades has caused another slight advance in prices. British Columbia spruce lumber has been marked up $1.50 per thousand and is very scarce. Conditions in British Columbia, while satisfactory from the standpoint of demand, are not altogether favorable to manufacturers. It is almost impossible to secure labor for the mills and logging camps, and it is probable that some of the mills will be compelled to close down for this reason. While there is a strong demand for Canadian shingles, it is reported that the shingle market in Washington is somewhat depressed and that several of the largest manufacturers have decided to close down their mills in order to sustain prices. The Puget Sound Timbermen's Association recently advanced the price of fir logs fifty cents per thousand.

Vancouver mills have just figured on a contract for 1,000,000 feet of lumber for the building of twenty barges to be operated on the Yukon river.

UNITED STATES.

Reports from the Eastern States say that the lumber market is somewhat quiet on account of strikes and consequent checking of building operations. In the Lake Superior district and in Michigan the situation seems to be fully as strong as one week ago. A Bay City firm last week purchased 12,000,000 feet of lumber in the Georgian Bay at a reported consideration of $18 for log run. Buyers generally are showing a disposition to purchase at current prices whenever the desired stock can be found. It is evident that the supply of the upper grades of pine will be inadequate to meet the demands. The Wisconsin Valley Lumbermen's Association have issued a new list making a substantial advance in the upper grades. Two-inch dimension in all widths and lengths was advanced 50 cents; 8 and 10-inch No. 1 rough and their products 50 cents and $1, according to length; rough lumber, 13-inch and up wide, $1; and shop lumber, selects and finishing $1.50 to $2.50. Hardwoods continue to make a gain. Basswood is scarce and higher, and maple is firm, although the supply is comparatively large. There is some difference in the prices of lath. Recently it has been retailed in Buffalo and Tonawanda at $4.25, but a correspondent states that it is now selling as low as $3.75. As lath prices have been abnormal, it would not be surprising if lower prices should rule.

GREAT BRITAIN.

A healthier tone pervades the British timber market. The peace negotiations have stimulated buying and restored in some degree confidence to the trade. Prices are being well sustained and indications point to higher values in the near future. Spruce deals have shown exceptional strength, 3x9 and 3x11 being very scarce and wanted. There is a fair stock stock in first hands of 3x9 of long average width, but they are scant in thickness. It is understood that shippers some time ago refused £8 5s c.i.f. for such stocks and are holding them for £9. Spruce deals of the best quality have advanced 7s 6d a standard within the past three months. Pine deals are meeting with favor, but the stock of the poorer grades has prevented any noticeable advance in price. Red pine deals have not sold well at recent auction sales, but they will no doubt recover with the general market.

BIRCH SQUARES AND SEATS.

A large buyer of Birch chair seats and of Birch squares is open to contract with a mill for their output. Also open for Broom Handles and Dowels in large quantities. Write in first instance to "Finance," care of CANADA LUMBERMAN.

STOCKS AND PRICES.

The steamer Holmea is completing her cargo at Quebec for the United Kingdom.

The steamer Pydna left the Miramichi last week for Manchester, England, with a cargo of deals.

The Tobique Manufacturing Company, of Plaster Rock, N.B., expect to cut 6,000,000 feet of deals this season for the British market.

Graham & Horne, of Fort William, Ont., have secured the contract for piles for the new Canadian Northern Railway elevator at Port Arthur.

It is reported that Chew Bros., of Midlane, Ont., have purchased timber limits and a saw mill on Wilson Creek in British Columbia, from Hill Bros.

Recent shipments of pulp wood from Quebec included the following: 245 cords for Ticonderoga, by Auger & Son; 85 cords for Ticonderogo, by John Breakey.

An auction sale of unmarked logs was held at St. John, N.B., last week. The spruce was purchased by N. H. Murchie for $11.20 per thousand, the hemlock by J. F. Gregory for $4 per thousand, the cedar by Hilyard Bros. for $9 per thousand, and the pine by the same firm at $6 per thousand.

Messrs. S. P. Musson, Son & Company, say of the Barbados market: We have only one arrival of white pine to report, the "Rachael H. Boyd," from Liverpool, N.S., with 85,000 feet, which has sold at $24.36 for shipping and $19.36 for second quality. The market having been suddenly strengthened and a large demand created by the information that another batch of Boer prisoners would be sent here, for which building to a considerable extent must be undertaken, several cargoes could be placed at the above figures or a little better. No receipts of spruce have taken place, and we think one or two cargoes could be placed at about $18 to $19. The "Boyd" brought 23,000 feet of hemlock, which sold at $16.06 for shipping and $12.06 for second quality. Gaspe shingles would bring $3.50 to $4 and laying $2 or over."

Mr. W. J. Raynham, representing Walcot, Limited, London, England, is now in this country visiting the different firms whose English and Continental wood business is handled by Messrs. Walcot. Any letters sent to the CANADA LUMBERMAN for him will be forwarded.

TO THE LUMBER TRADE

We will be represented in South Western Ontario by Mr. Frederick Shaw, of Forest, Ont., who comes with us as travelling salesman on May 1st, and who will call on the trade regularly. We are running our mills day and night and offer to the trade a well manufactured stock of band sawed lumber put up in grades under Michigan inspection rules. We solicit your inquiries, and all correspondence given prompt attention.

The Cleveland-Sarnia Saw Mills Co., Limited
SARNIA, ONT.

CANADIAN LUMBER SHIPMENTS.

The following shipments of lumber, etc., from Canadian ports are reported since last issue :

From Chatham, N. B.: May 21, barque Aureola, for Manchester, 733,963 ft. deals, scantling, etc., by F.E. Neale.

From Ship Harbor, N.S.; Str. Aureola, for Liverpool, spruce deals, etc., value $23,000.

From Hopewell Cape, N.B.: Str. Peerless, for Manchester, 3,105,663 ft. deals, value $34,030, by J. Nelson Smith. Schr. R. Emmerson, for Boston, 118,647 ft. scantling, value $1,186, by John M. Hicks. Str. Derota, for Bristol, Eng., 2,715,156 ft. deals, value $26,584, by W. Malcolm Mackay.

From Parrsboro, N. S.: May 19, Str. Gena, for Cardiff, Wales, 2,058,839 ft. deals, 260,451 ft. ends, value $22,322, by George McKean.

From Vancouver, B.C.: May 16, barque Challenger, for Delagoa Bay, South Africa, 1,090,233 ft. rough fir, value $12-000, by British Columbia Mills, Timber & Trading Co.

From Halifax, N. S.: May 22, barque Globus, for Sharpness, Eng., 840,590 ft. lumber, value $9,734. Str. Bratsburg, for British West Indies, 73,326 ft. lumber, value $1,079.

From St. John, N.B.: Ship Honolulu, for Bristol, Eng , 1,095,792 ft. deals, 100,-170 ft. scantling, 33,944 ft. ends, 37,942 ft. boards, 117,865 ft. plank, 20,000 ft. birch ends and scantling, by George McKean.

From Montreal: Str. Frisia, for Hamburg, 11,771 pieces pine boards, 10 pieces pine timber, by Dobell, Beckett & Co.; Str. Livonian, for Glasgow, 902 pieces deals by C.P.R., 234 bundles boards by D. Cream & Co; 4,283 pieces deals by Dobell, Beckett & Co.; 321 pieces logs, 19,254 pieces deals, by W. & J. Sharples; 2,602 pieces deals by E. H. Lemay. Str. Anatolia, for Antwerp, 42,925 pieces deals, etc., by Watson & Todd; 39,726 pieces deals by Dobell, Beckett & Co. Str. Dunmore Head, for Dublin, 4,617 pieces deals by W. & J. Sharples. Str. Dominion, for Liverpool, 23,220 pieces deals and boards by Watson & Todd; 858 pieces oak lumber by C. P. R. Str. Pretorian, for Liverpool, 3,195 pieces boards by E. H. Lemay. Str. Lakonia, for Glasgow, 13,476 pieces deals, ends and boards by Robert Cox & Co.; 6,774 pieces deals, ends and planks, 277 pieces timber, by Dobell, Beckett & Co. Str. Bellonia, for Leith, 10,204 pieces deals and ends by Robert Cox & Co.; 6,672 pieces deals and ends, by Watson & Todd; 78 pieces timber by G. T. R. Str. Montfort, for Bristol, 3,732 pieces lumber, by R. Cox & Co.; 1,020 pieces lumber, by McArthur Export Co.; 9,311 pieces lumber by J. Burstall & Co.; 6,499 pieces lumber by Watson & Todd. Str. Lycia, for London, 3,184 pieces ends, by McArthur Export Co.; 9,663 pieces lumber, by Watson & Todd; 6,594 pieces lumber, by Dobell, Beckett & Co.; 22,314 pieces lumber by Charlemagne Lumber Co.; 209 pieces lumber by McLaurin Bros.; Str. Loughrigg Holme, for London, 54,465 pieces deals and ends, by Watson & Todd. Str. Sardinian, for Glasgow, 564 pieces elm lumber by C. P. R.; 494 pieces deals by D. Cream & Co.; 4,312 pieces deals, 100 pieces logs, by W. & J. Sharples. Str. Tiger, for Rotterdam, 105 pieces deals by W. & J. Sharples; 300 pieces deals by J. Burstall & Co.; 216 pieces deals by McArthur Export Co.

The saw and shingle mills of W. Porter & Sons at Minesing, Ont., were destroyed by fire last week, at a loss of $5,000.

A shingle mill at Pike Bay, Ont., belonging to L. Mouke, was burned recently. No insurance.

THE OTTAWA VALLEY.

[Correspondence of the CANADA LUMBERMAN.]

Lumber prices, as predicted, have advanced on account of the increased spring and early summer demand. These prices will hold until the present season's cut is available, which will not be for several weeks. The present prices are as follows : Good pine sidings, 1¼ in. and 1½ in., 8 in. and up, $42 to $48 per M ; 2x8 in. and up, $48 to $52 ; good strips, one in., $30 to $32 ; strips, 1¼ and 1½ in., $32 to $36 ; strips, 2 in., $34 to $38. These prices were paid for stock in small quantities. Holders are not soliciting trade and can afford to quote stiff prices, as the stock must be had, and it is not at all plentiful. No changes are reported in other lines of lumber, but the maximum figure in nearly every case represents the actual selling price.

While building operations in Hull and Ottawa are only fairly active, the outside demand for good lumber is such as to make the prediction of a strong market almoct a certainty.

Bush fires during the past week did considerable damage in the vicinity of Ottawa, but fortunately the efforts of the rangers and the assistance of Nature in the way of heavy rains, combined to check the threatened ruin of valuable limits. Ex.-Ald. R. J. Davidson, of the firm of Davidson & Thackray, returned today from the firm's mill and limits on the Coulonge. He states that fully six miles

of young pine was destroyed through the carelessness of a settler. The latter started a fire on Wilson's and Argue's limits. It got beyond his control and soon worked its way into the Davidson & Thackray limits adjoining. Rain fell at an opportune time and the larger standing timber was saved. Smith Bros. mill on Long Lake, near Campbell's Bay, was threatened. The fire had eaten its way through the firm's limits to within a few acres of the mill when the rain fell. The loss in this district can hardly be estimated, but it will not be large. On the Parry Sound or Western Division of the C. A. Railway fire swept a territory extending about 25 miles between Egan Estate and Whitney. Fortunately little or no green timber suffered, the fire being confined to territory cut over before. The St. Anthony Lumber Company and Mr. J. R. Booth were interested in this fire. South of the city bush fires threatened property along the Canadian Atlantic Railway. It was kept in check.

Davidson & Thackray's new mill at the junction of the Ottawa and Coulonge rivers is being operated. It has a capacity of 5,000,000 feet for a seven months' run. Shipments will be made in about three weeks. The mill is a well equipped affair and there is sufficient standing timber to keep it running for years.

Reports from the drives now go to show that many logs will be hung up if frequent rains do not keep the water in the creeks at a good level. On the Coulonge river Gillies Bros., of Braeside, W. C. Edwards & Co., Rockland, McLaurin & McLaren, East Templeton, and other firms have large numbers of logs waiting movement to the mills. What applies to the Coulonge applies to the other lumbering streams tributary to the Otta-

GILMOUR & COMPANY, LIMITED

TRENTON, CANADA

wa. Several rafts of logs of last year's cut have reached the Ottawa and the supply of logs in sight is a large one.

This week the first raft of square timber of the season passed down the Ottawa river. The raft, which contained about 150,000 square feet, belonged to Mr. Robert Hurdman. The trip from Pembroke to Ottawa was made in two weeks. At Ottawa, however, a delay of five days was experienced. The repairs at the Government slides at the Chaudiere delayed the movement a couple of days.

Mr. George Fowler, lumber agent of the C. P. R., reports a brisk movement from all the mills between Biscotasing and Montreal. Shipments to the United Kingdom via Montreal and to the States are better than they were during the same period last year. Pennsylvania and Ohio points are receiving Canadian lath in considerable quantities. Mr. Fowler has been appointed railway lumber agent for the Ottawa Northern and Western Railway and the Pontiac and Pacific Junction Railway recently acquired by the C.P.Ry. He will be in a position to give shippers and manufacturers better facilities in the way of car accommodation and time service than were possible under the old order of things. Mr. Fowler is conversant with every detail of the lumber business, and will be able to satisfy to the limit the requirements of each particular case.

Hurdman & Elmitt, lumber dealers, of Ottawa, have been appointed agents for Gilmour & Company, of Trenton. Their territory will include Ottawa, Hull and district. They will handle all the products of the Trenton mills and factories operated by the Gilmour Company. The Ottawa end of the business could not have been placed in better hands, as all members of the firm of Hurdman & Elmitt have gained the experience and enjoy in the fullest degree the confidence of the buying public.

Inquiries have been received in Ottawa for pulp wood. The Raymondville Paper Company, of Watertown, N.Y., invites quotations on the following stock : Spruce pulp wood 24 inches long either barked with machine or hand shaved. Prospective sellers should communicate direct with the company.

Spicer Shingle Mill Co., Limited

It is the purpose of this advertisement to try and convince the Lumber Trade of Canada that we are the only company in British Columbia manufacturing and shipping shingles in large quantities, or that we "know it all." We recognize that "there are others" and that we are not the only "pebble on the beach." To try and make you believe that we are the only people who can supply you **promptly** and in **large quantities** with a **high-grade** shingle would not only be a **fish** and a **bear** story combined, but it would be gall of the bitterest kind.

Our competitors in the shingle business in B. C. are nice people, and we presume that they know their business ; but we are nice people too, and as we have been in the trade as long as any of them, and a **great deal longer** than the most of them, we know that we know our business, and that our competitors are not in the possession of any points of value regarding the manufacture of shingles which has not come to **our knowledge**.

Our old mill was burned down in May last, and in its place we have built what is at the present time the **Largest** Shingle Mill in B. C.

Our new Mill has 7 of the latest improved type of Dunbar machine, which we run night and day—giving us a capacity of about **100 Million** a year.

Competent judges who have seen our new mill, tell us that it is one of the most **substantial**, carefully **constructed**, and best **planned** mills in this province. We ourselves think it is **the very best** shingle mill in B. C. ; and we know that it is **equipped** with all the very latest improved Shingle Machinery.

Will the trade please note that our contract with the Pacific Coast Lumber Co. closed on December 31, 1901. Orders sent to us by letter or telegraph shall have our best attention.

We want our share of your shingle business, and can **guarantee** you satisfaction in **every particular.**

Spicer Shingle Mill Co., Limited,
VANCOUVER, B. C.

Another Little Mill

There will be over a million feet of sawn lumber used in this one plant for construction only ; over 30,000 lin. feet of piling, besides rock foundations two car-loads of shingle machines only ; over 7 miles steam pipe 1 1-2 inch and up in diameter. A summary of all the material that will be used in the construction of this plant shows that there will be over 320 car-loads, or 21 trains of 15 car-loads each.

With all our past experience in the shingle business, of which we make a specialty, and with all the latest and best improvements in machinery and mill construction, we expect it to be the most complete and up-to-date mill in North America, where shingles can be made better than in the ordinary mill

The above plant will be in operation about the first of June, and although this mill will have a daily (24 hours) capacity of 1,250,000 shingles, the dealers and consumers need not be afraid of any particular surplus, but can rest assured that there will be one firm on the coast manufacturing red cedar shingles from whom they can get their wants supplied in a hurry with that old reliable "Hastings Brand" so much talked about.

CUSTOMERS' ATTENTION. — Please take notice that on the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles ended. Until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipe Man , for Manitoba and the North-West ; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

Shingle Mill, Hastings, B.C.; Lumber and Shingle Mill, Vancouver, B.C.; Shingle Mill, New Whatcom, Wash.; Shingle Mill, Sumas, Wash.; Shingle Mill, Carroll Siding, Wash.

The Hastings Shingle Mfg. Co., Limited
Office, 450 Westminster Ave., Vancouver, B.C.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, ONT., JUNE 4, 1902 No. 18

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of six 2 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED—A RAFT OF PINE LOGS ON Georgian Bay; apply at once to Box 20, CANADA LUMBERMAN.

WANTED TO BUY—CEDAR AND TAMARAC Ties, F. O. B. Brantford, 8 ft. x 6 in. x 7 in face, (first-class). E. TODD, 131 Brant street, Brantford.

WANTED—SEVERAL FIRST-CLASS DUNBAR Shingle Sawyers. Apply the Hastings Shingle Mfg. Co., Limited, Vancouver, B.C. See our ad in this paper about our new mill. Mill to be free from dust.

WANTED—HARDWOOD LUMBER, BIRCH, Soft Elm, White and Black Ash, in firsts and seconds, and common. We inspect at shipping point. STANDARD LUMBER CO., 1075 Clinton St., Buffalo, N. Y.

WANTED—LUMBERMAN'S BOOKKEEPER, one who understands grading, shipping and manufacturing of lumber, especially hardwoods. Address Box 16, this office.

WANTED—PRICE ON LARGE TRACT OF Balm of Gilead timber; must be near the waters of Lake Ontario and not too far from the mouth of the Niagara river, with waterway if possible; name price per acre; give exact situation, rail and water facilities. Address "W", Lewiston, N. Y., Box 51.

WANTED—HARDWOOD LUMBER.

SOFT ELM, BIRCH, BLACK ASH, 1STS and 2nds preferred. J. F. STENGAL, 990 Ellicott Square, Buffalo, N.Y.

FOR SALE.

200 WHITE PINE TREES, FROM 10 TO 20 in. diam., 50 to 75 ft., at Middleport, Ont., near Grand River, and some oak. Apply to E. TODD, 131 Brant street, Brantford, Ont.

FOR SALE.

1,000,000 feet B. M. Round Hemlock.
300,000 feet B. M. Round Spruce.
Ready to be sawn into any size and lengths. Shipment by rail or water. Address JAS. SHEPPARD & SON, Box 630, Sorel, Que.

Wanted—Cedar Shingles

16 INCH AND 18 INCH, ALL GRADES, good quality, White Cedar. Would purchase mill output.

Give quantities both on hand and to be manufactured. J. G. STRAIT & SON, Wolcott, New York.

Cedar Shingles Wanted

WILL BUY FOR CASH ANY QUANTITY of good quality Cedar Shingles. I handle all grades and will advance 75 per cent. cash on receipt of bill of lading. Write or telegraph. IVERS P. LAWRENCE, Fitchburg, Mass.

FOR SALE.

THE ENTIRE CUT OF 1902 OF SEVERAL mills on the Ottawa Valley of all number one white pine mill culls, strips and sidings, 1" to 3" thick, and also other grades. Shipments by water or rail. Write for particulars and quotations to A. F. BURY AUSTIN, Wholesale Lumber & Timber, Room 507 Merchants Bank Bldg., Montreal. Also spruce lumber of all grades.

WANTED FOR A MILL IN BRITISH COLumbia, 1 Shingle Jointer, 1 Shingle Packer. Apply to G. O. Buchanan, Kaslo, B.C.

DRY PINE.

WE HAVE ABOUT 1,500,000 FEET DRY PINE in 1, 2 and 3 inch common and better, prefer selling in bulk. Will quote freight rate to Buffalo, Chicago or Toronto on application. Correspondence solicited. N.B.—Would like to correspond with consumers of hardwoods. ST. JOE ISLAND LUMBER CO., Sault Ste. Marie, Ont.

Wanted—A Partner

COMPETENT OR SILENT, WITH $6,000 OR $8,000, to increase the business of a good saw mill on the sea shore, Gulf St. Lawrence. Good facilities for shipping. Plenty Spruce, Cedar and Hardwood. Address J. DIBACE BEAULIEU, 188 St. Antoine Street, Montreal.

SPECIAL TO LUMBERMEN.

WITH A THOROUGHLY EQUIPPED PLANING Mill at Orillia, we solicit orders for re sawing and planing of lumber, in any quantity; can match 26 inches wide; all work guaranteed first-class; prices on application. Address, NATIONAL BOX CO., Orillia, Ont.

TIMBER BERTH

Township of Chisholm,

SAW MILL AND SHINGLE MILL

BY PUBLIC AUCTION,

AT THE

Orillia House, Orillia, on

THURSDAY, JUNE 12, 1902

at 2 p. m.

The subscriber will offer for sale by Public Auction at the above time and place

Timber Berth, Township of Chisholm
(Being 22 square miles.)

Together with Saw Mill, Shingle Mill, Buildings, Camp and Logging Outfit, Tools, Horses, about 650 Logs, Etc., as per inventory, which can be seen by applying to Mr. D. McRae. Powassen.

The whole of the above will be sold en bloc.

TERMS.—Half Cash, balance one year, with interest at Six per cent. on approved paper.

For further particulars apply to the Chisholm Timber Limit Co., Hamilton, Ont., or to Wm. Hendrie, Jr., and J. J. C. Thomson, Proprietors.

PETER RYAN,
Toronto.

LARGE TIMBER LIMIT PURCHASE.

Kilgour Shives, of Campbellton, N. B., is reported to have purchased from the Muskoka Lumber Company, of Toronto, all their Crown timber limits in the Provinces of Quebec and New Brunswick, amounting to about 100 square miles in Quebec and 470 square miles in New Brunswick. Mr. Shives formerly owned 387 square miles in these provinces, and this purchase makes him the largest holder of Crown lands in New Brunswick.

CURRENT TRADE CONDITIONS.

ONTARIO.

Varying opinions are expressed regarding the lumber market. Manufacturers are perfectly satisfied with the volume of business, while dealers frequently express some disappointment. Those who expected and depended upon a heavy local demand have not witnessed a realization of their anticipations, but it is probableth at the activity in the lumber business for the past year led them to expect too much. In any case, retail dealers state that they could handle a larger volume of trade without increasing their facilities.

vast quantity of white pine that has been bought for export has placed manufacturers in a position somewhat independent of local trade so far as the better grades are concerned, but they must still look to the home market to consume a large proportion of the lower quality. Almost every pine manufacturer has sold all the lumber that he can manufacture within the next sixty days, and several have contracted for their entire output. So long as the demand from the United States continues in its present volume, there is not likely to be a perceptible weakening of prices. Dry hardwood stocks are low. The necessity of providing piling ground for the new cut has resulted in forced sales at lower prices in one or two cases, but the market generally is strong and likely to advance as the light production of this year becomes more generally recognized. Buyers are in the market for shingles of all kinds and those having a stock in shipping condition can realize very readily. Hemlock is being bought as vigorously as ever, in some cases as a substitute for white pine.

QUEBEC AND NEW BRUNSWICK.

The improvement in the demand for spruce lumber has been encouraging to manufacturers and shippers. It has been difficult to convince buyers in Great Britain that the quantity of stock available for that market this year will be comparatively small, but the recent advance in prices seems to indicate a recognition, at last, of the conditions existing in the eastern provinces. The log supply is still uncertain. One week ago it was reported that 30,000,000 feet of logs were hung up on the St. John river. Since that time some rain has fallen, which has improved the prospects of getting the logs to the mills, but even if the log supply is sufficient for a full season's operations, there will not be an abnormal quantity manufactured for the British market, as the Eastern States is taking spruce clapboards and other lumber very freely,

and considerable shipments are being made to the West Indies, South America and other countries. Manufacturers report many inquiries for stock and expect to have no difficuty in disposing of their output. Waney pine timber is strong. Sales have been made at Quebec at 56 cents per cubic foot for best quality.

MANITOBA AND BRITISH COLUMBIA.

Lumber is moving quite actively throughout Manitoba and the North-West Territories. The excellent crop prospects are an incentive to dealers to increase their stocks in anticipation of a heavy fall trade. The tendency of prices is upwards. The mills in British Columbia continue busy, and are behind with orders for local and eastern account. Export business, however, shows no improvement over last year. The prices now quoted for B. C. shingles delivered in Ontario are as follows: XXX, 6 to 2″, $2.90; XXXX, 6 to 2 3-16″, $3.05; XXXXX, 5 to 2″, $3.30; No. 2 shingles, 6 to 2″ and 6 to 2 3-16″, $2.40; No. 2, 5 to 2″, $2.55.

UNITED STATES.

The demand for lumber during the past week has been a little slow, partly on account of the strike of coal miners. Prices, however, have been easily sustained, as there has been the usual amount of buying by wholesale houses. It is this buying rather than the actual retail trade that is sustaining prices. The time is near at hand for prices to yield as the result of the marketing of new stock, but as yet there are no indications of any price recessions in white pine unless it might be in ordinary short piece stuff. The purchase is reported of a large quantity of Norway log run at $15 at Duluth. This is a high price and in line with recent sales. The buying of manufacturers and railroad companies was a feature of the month of May. The outlook for crops is good, and railroads are preparing for heavy traffic during the summer and fall months. Several railroads will materially increase their rolling stock.

Spruce clapboards are readily marketable, and while the fancy prices now being paid may stimulate production, the present scarcity cannot be relieved for some time. Spruce lath meets with a quick sale, the price at Boston being $3.25 for 1⅝ inch. Extra cedar shingles are selling between $3.50 and $3.60, with the more important manufacturers holding for the latter price. Shingles are moving steadily. At Buffalo best white pine brings about $4.15, but it is impossible for dealers to secure a steady supply. In the Saginaw valley XXXX pine shingles are held at $4 and clear butts at $3 for 18 inch. For 16 inch $3.05 is quoted for *A* and $2.45 for clear butt stocks. White cedar shingles are in active request there at $3.90 for 18 inch. Birch leads the hardwoods in point of demand, followed by ash, basswood and elm. There has been no change in prices, as small mills have placed considerable stock on the market at prices below the actual ruling quotations. As stocks are not large, there is likely to be an improvement in the near future.

GREAT BRITAIN.

The declaration of peace is expected to have an important and reassuring effect upon the timber market. There is much speculation as to the volume of shipments that will be made to South Africa, but the concensus of opinion seems to be that a brisk revival of trade cannot be expected for a year or two. Nevertheless, there will doubtless be some immediate improvement in business, as it is known that several orders were placed for execution upon the termination of the war. It is thought the cessation of the war will materially assist in bringing about higher prices. The first arrivals from the St. Lawrence are reported to have met with a ready demand, as the stock of the standard sizes of pine and spruce deals had become limited. First quality pine is particularly wanted, as the stock in the yards is practically nil. The prospects for spruce are good. Importers are meeting the shippers more willingly and apparently do not expect that lower prices will rule this season. A report from Dublin says: "The first steamer from the St. Lawrence has arrived, and the various consignments of deals will find a good market, as all the stocks of second and third quality Quebec spruce, 12 feet x9x3 inches, have been cleared long since. Good waney pine timber is scarce and prices are high. It is said to be impossible to buy any quantity of first grade".

STOCKS AND PRICES.

The mill of W. Burgess at Grand Falls, N.B., will likely cut about 8,000,000 feet of lumber this year.

The steamer Manchester Shipper is about to load a cargo of deals at Halifax, N.S., for a French port.

Last week 2,500,000 feet of logs on skids near Sudbury, Ont., and valued at $10.50 a thousand, were destroyed by fire.

At Manistee, Mich., green hemlock piece stuff, 10 to 16 feet, is being sold at $9.50 and the 18-foot lengths at $12. Pine stuff is selling at $14.

The Saginaw Lumber & Salt Company have just finished shipping by rail from Georgian Bay to Quebec 140,000 cubic feet of square timber, for export trade.

Chicago dealers are paying from $13 to $14 for No. 1 short dry hemlock delivered by rail, and from $11 to $11.50 for No. 2 hemlock. Piece stuff is quoted at $15 by rail.

The steamer Scarp is loading a cargo of deals at Montreal for the United Kingdom. The steamer Fashoda is about to load timber and deals at Montreal for the same destination.

The steamer Huntcliffe sailed from Montreal last week for London with a cargo of timber and deals. The steamer Forest Brook also sailed for London with deals only.

It is reported that Andrew Haslam, of Nanaimo, B. C., has been awarded the contract to furnish 1,000,000 feet of lumber for the building of a saw mill at Vancouver for T. Ludgate.

A report received last week stated that by the breaking of the boom at Grandes Piles, St. Maurice river, 300,000 logs are on their way to the St. Lawrence river. The water is so high at Three Rivers that the logs are in great danger.

A large raft of hemlock logs for Toner & Gregory reached Collingwood last week. The second raft of the season for the Charlton Saw Mill Company, of Collingwood, has also arrived. It contained about 2,000,000 feet and was made at Little Current.

The agreement of the Washington manufacturers to shut down the red cedar shingle mills is the most generally observed of any movement the western shingle men have made. The manufacturers are quoted as being determined to keep the shingle market up, for they cannot see a living in lower prices while logs cost as much as at present. If necessary, they say they will extend the period for remaining inactive until the market is sure of being steady.

Henry Atkinson, of Etchemin, Que., who last winter got out a very choice lot of spruce logs (about 7½ million feet) on the upper reaches of the St. John river, has been successful in delivering same inside the corporation limits. This is good work considering the small quantity of rain there has been to assist the drives.

The Edward S. Hartwell Lumber Company, of Chicago, have established Canadian headquarters at Parry Sound, Ont. They have recently purchased the cut of logs of Ferguson & McFadden, of Sudbury, Ont., amounting to about 15,000,000 feet, and have contracted for the cut of the Conger Lumber Company, of Parry Sound. Of the latter cut the bulk will be shipped to eastern points. About 30 per cent. will be shipped to Chicago, consisting mostly of 4, 5 and 6-inch strips.

LUMBERING IN THE MARITIME PROVINCES.

The following estimate has been made of last winter's lumbering operations in the Maritime Provinces:

NEW BRUNSWICK.

In New Brunswick the cut of logs the past winter is estimated at 450,000,000 feet, of which 400,000,000 are saw logs and 50,000,000 pulp wood. On the Upper St. John the provincial lumbering operations are as follows: H. Atkinson, 5,000,000; Kilburn, old and new, 9,000,000; Flavius Chinouard, 2,250,000; Holmes Morrison, old and new, 2,800,000; Oliver Gurrett, old and new, 1,500,000; Gilbert Gurrett, 250,000; Fraser & Lowe, 1,000,000; Thos. Clair, 3,000,000; Purvis & Murchie, 3,000,000; R. A. Estey, 2,000,000; Hale & Murchie Mfg. Co., 12,000,000; Baird, 1,500,000; Hilyard Bros., 4,000,000; Randolph & Baker, 4,000,000; James Scotts, 4,000,000; D. Fraser & Lowe, 4,000,000; John Morse, 2,000,000; St. John River bank logs, 2,000,000; hemlock for Esty, 4,000,000; and to the above add 23,000,000 old logs on St. John River.

The past winter the Miramichi was the scene of very extensive operations and the cut aggregates 125,000,000 feet. The Snowball Lumber Company at Chatham are extensive operators and their cut reaches a large figure. Wm. Richards & Company, of Chatham, are also extensive, operators in the woods as well as manufacturers, and Ernest Hutchinson, of Douglasstown, is also a large lumber operator. Allan Ritchie, at Newcastle, manufactures about 10,000,000 feet annually. Burchill & Sons manufacture about 10,000,000 feet at Nelson. On the Richibucto lumbering operations have been light, but on the Restigouche a fair amount has been secured.

The Tracadie Lumber Company, on the Tracadie river, Gloucester county, cut the past winter about 10,000,000 feet, largely pine.

NOVA SCOTIA.

The cut in Nova Scotia last winter aggregated about 365,000,000 feet, of which 300,000,000 are saw logs, 50,000,000 pulpwood and 25,000,000 piling. The most extensive operator is Alfred Dickie, of Lower Stewiacke. His operations will be slightly less than last year, but will amount to about 50,000,000 feet in all.

The Dominion Lumber Company, successors to Young Brothers, cut the past winter about 10,000,000 feet of logs in the vicinity of Margaret's Bay, twenty-five miles from Halifax. The Shulee Lumber Company carry on an extensive business and cut about 10,000,000 feet. The Newville Lumber Company, in Cumberland County, cut about 6,000,000. The Nova Scotia Lumber Company carried on extensive operations on St. Mary's River, Guysboro County. Mr. McMullen, on the St. Croix River near Windsor, will manufacture in the vicinity of 50,000,000. Below is appended a list of the operations in the western part of Cumberland county: B. B. Barnhill, Two Rivers, 1,000,000 superficial ft. spruce logs, 7,000 piling; Newton Pugsley, River Hebert, 2,500,000; Kelley Brothers, River Hebert, 2,500,000; Rufus Chester, River Hebert, 500,000 s. ft. spruce logs, 1,000 piling; R. A. E. Chester, Two Rivers, 500,000 s. ft., spruce logs, 1,000 piling; Prescott, Gillespie & Co., Shulee, 3,000,000 s. ft. spruce logs, 6,000 piling; Shulee Lumber Co., Shulee, 8,000 piling; E. I. White & Sons, Sand River, 600,000 s. ft., spruce logs, 20,000 piling; C. T. White, Apple River, 2,000,000 s. ft. spruce logs, 18,000 piling; John Leslie, Apple River, 3,000 piling.

LARGE TIMBER DEAL.

The Newville Lumber Company, of Newville, N.S., are reported to have sold their steam saw mill and other property at that place, as well as their timber lands, to Percy E. Spencer, of Spencer's Island, and J.W. Kirkpatrick, of Dilligent River. The price is said to be in the neighborhood of $60,000.

DOORS AND MOULDINGS.

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire ontput of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in first instance to Empire, CANADA LUMBERMAN.

TO THE LUMBER TRADE

Our mill No. 2, erected for the purpose of manufacturing special bill timber, is fast nearing completion. After June 15th we will be in a position to furnish special bills in White Pine, Red Pine or Fir, in any length np to sixty feet. Specialties: White Pine Ship Timber and Decking, Bridge and Car Timber.

Send us your inquiries.

BRITISH COLUMBIA SHINGLES.

Editor CANADA LUMBERMAN:

DEAR SIR:—Referring to your issue of the "CANADA LUMBERMAN" of June, would say that on page 7 in the article on Shingle Conditions in British Columbia, in the paragraph near the end of the article, the following statement is made:

"Notwithstanding the increased cost of lumber, prices on red cedar shingles are 15c. per thousand lower in Ontario than they were last year."

I beg to call your attention to the fact that while B. C. shingles were 15c. lower at the beginning of this season than they were at the close of last season, the price was, on April 1st, advanced to $2.90, which is the highest price they were sold at last year, and they are at present 15c. higher than they were for the corresponding month last year.

Yours truly,
ONE INTERESTED.

BRITISH COLUMBIA CONDITIONS.

There is still a great scarcity of logs in British Columbia, both cedar and fir, and although there are numerous booms on their way from up the coast, the mills will not be adequately supplied. Mr. McNair, the biggest operator at Vancouver, is said to have offered $11 a thousand for logs.

A point in connection with the taking of timber limits which is unique in the history of the province has just been raised and has been referred to the Commissioner of Lands and Works for a decision. A man operating under a hand loggers' license on the coast recently found that the limits on which he was working had been staked by another party and an application for the right to cut timber on the lands forwarded to the Department of Lands and Works at Victoria. The hand logger says that for the past seven years he has been operating under a hand loggers' license. Such a license allows the holder to move his camp from time to time, as circumstances dictate, and the license holder has not been required to stake the limits on which he has worked. The question now raised by the hand logger is whether any person has the legal right to stake upon the land which he is working under his license.

Special permits that have been granted to cut and carry away timber on Crown lands of the province have a new condition added to them. The latest permits issued contain a clause reading as follows: "This permit is granted on the special condition that no Chinese or Japanese shall be employed in working the said limits mentioned in this permit." All permits are issued from Victoria, the capital of British Columbia, but applications are received through the Vancouver office. For the past month permits arriving from Victoria have included this ominous clause. The principal effect of the new condition will be that permits taken out from now on will prevent Japanese and Chinese working in shingle bolt camps. This will be another serious set-back for the shingle mills, who are compelled to employ Japs owing to the scarcity of white labor.

HARDWOODS IN GREAT BRITAIN.

Canadian hardwoods brought the following prices at an auction sale held by Foy, Morgan & Company, London, England, on May 14th:

BIRCH TIMBER — Ex. Lynedale, from Quebec—18¼ x 21 in., 10-14 ft. in lengths, 70s. per load of 50 cubic feet.

ASH TIMBER — Ex. Bostonian, from Quebec—13¾ x 17 in., 12-19 ft., 52s. 6d. per load.

BIRCH PLANKS — Ex. Hurono, from Quebec—7-13 ft. 4 x 7-16 in. first-class, 1s. 3d. per cubic ft.; 7-16 ft. 2 x 7-17 in., 1s. 4d. Ex. Dalton Hall, from Halifax—3 x 12-16 in., 10½d per cubic ft.; 3 x 11 in., 9d; 3 x 10 in., 8d; 3 x 9 in., 11d; 3 x 8 in., 8d; 3 x 6-7 in., 8d.

A quantity of spruce slating battens, from Quebec, sold from 12½d to 1s. 3d. per 144 ft. run.

K., deals, 37s 6d, June loading: str. Hackney, 2,606 tons, St. John to w. c. England, deals, 35s, June.

The Ottawa Lumber Company announce that, owing to increased trade necessitating larger office accommodation, they have purchased the large cut stone building at 141 Rideau street and have converted it into modern offices and show rooms. They will carry at their head offices full samples of the different lines of dressed lumber, hardwood flooring, imported hardwood veneers, etc.

SPICER SHINGLE MILL CO., LIMITED
MANUFACTURERS OF
Red . .
Cedar
Shingles
VANCOUVER, B. C.

Another Little Mill

There will be over a million feet of sawn lumber used in this one plant for construction only ; over 30,000 lin. feet of piling, besides rock foundations ; two car-loads of shingle machines only ; over 7 miles steam pipe 1 1-2 inch and up in diameter. A summary of all the material that will be used in the construction of this plant shows that there will be over 320 car-loads, or 21 trains of 15 car-loads each.

With all our past experience in the shingle business, of which we make a specialty, and with all the latest and best improvements in machinery and mill construction, we expect it to be the most complete and up-to-date mill in North America, where shingles can be made better than in the ordinary mill.

The above plant will be in operation about the first of June, and although this mill will have a daily (24 hours) capacity of 1,250,000 shingles, the dealers and consumers need not be afraid of any particular surplus, but can rest assured that there will be one firm on the coast manufacturing red cedar shingles from whom they can get their wants supplied in a hurry with that old reliable "Hastings Brand" so much talked about.

CUSTOMERS' ATTENTION. — Please take notice that on the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles ended. Until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield, of Winnipeg, Man., for Manitoba and the North-West ; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

Shingle Mill, Hastings, B.C.; Lumber and Shingle Mill, Vancouver, B.C.; Shingle Mill, New Whatcom, Wash.; Shingle Mill, Sumas, Wash.; Shingle Mill, Carroll Siding, Wash.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, ONT., JUNE 11, 1902 No. 19

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the 'Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of six 2 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada.

Bismarck Station, M. C. R., West Lorne, P. O. I. C. SCHLEIHAUF.

CURRENT TRADE CONDITIONS.

ONTARIO.

Some dissatisfaction is expressed with the volume of business in Western Ontario, but on the whole the demand for lumber is heavy, as any falling off in the local trade is offset by increased shipments to the Eastern States. It is understood that Ottawa dealers are receiving orders for lumber faster than they can be filled. The new cut, however, will relieve the scarcity in certain grades that has prevailed for some time. Prices for the new stock, as furnished by the manufacturers' lists, are only slightly changed from the recent selling prices of the old stock. In a few cases a slight advance is being asked. One or two manufacturers are shading the price of certain lines which are not at any time very marketable, preferring to clear off the old stock at a sacrifice rather than carry it over and probably be obliged to re-pile it. For inch mill cull sidings $11 is asked at the mill, with one dollar more for the 10 and 12-inch stock. Inch dead Cull sidings are offered at $6.50, and 1½ inch at $7. Box and common ranges from $15 to $16, the latter for 1x12 inch in 14 and 16 feet lengths. Hemlock lumber, which has been in large demand for some time, is a little quieter, with a slight weakening in prices. It is expected that this will be only temporary; in fact, some of the largest dealers in this class of timber contend that prices are as strong as ever. Hardwoods are unchanged, with prices steady. For inch mill run birch $16 at the mill is being asked.

QUEBEC AND NEW BRUNSWICK.

The prices realized at the Government sale of timber limits last week show that lumbermen anticipate still higher prices for spruce timber, whether it is manufactured into pulp wood or into deals and other lumber. The present outlook is towards a gradual advance in the price of spruce stocks, this being evidenced by the number of buyers that are prepared to contract for mill cuts. A few shipments of clapboards are being made to the Eastern States, but the supply of dry stock is almost exhausted. Cedar shingles continue firm on the basis of $3.50 for extras, Boston delivery.

Waney pine timber leads all other classes in point of strength. British buyers apparently realize that no large supply is obtainable and that Canadian lumbermen prefer to manufacture their logs into lumber rather than into board timber. The wintering stock of waney pine at Quebec last spring was only 361,488 cubic feet, as compared with 506,001 feet the previous year and 1,324,384 feet as the average stock for the past five years.

From New Brunswick comes the report that satisfactory progress is being made with the drives, although Stetson, Cutler & Company have 4,000,000 feet of logs hung up on the St. John river.

UNITED STATES.

Less activity is reported in the movement of white pine lumber for building purposes. In the New England States the teamsters' strikes in all the larger cities have interfered with business. West of the Mississippi river, however, there has been heavy buying by dealers in anticipation of a heavy trade as soon as the farmers enter the market, as the wheat production promises to be large. Prices of pine lumber are unchanged, though there is talk of an advance by wholesalers in everything from No. 2 up. Failing to secure lower prices from the producers, dealers are apparently endeavoring to advance their selling prices to a point which will give a fair margin of profit. Box lumber is showing less strength than the other grades, as the supply is more in keeping with the demand. There is still a scarcity of the better grades, especially cutting up lumber. At Buffalo mill culls are selling at $15, 1x12 No. 1 barn at $30, and inch No. 1 cuts at $40.

Hardwoods are showing exceptional strength. Large quantities of hardwood lumber are finding a market in the west, thus placing manufacturers less dependent on the eastern trade. Michigan firms are asking $14 to $14.50 for maple, $20 for long run basswood, and $25 for black ash that will not run more than 25 to 30 per cent. firsts and seconds. By many in the trade a material advance in the price of birch lumber is predicted. It is being bought heavily by furniture manufacturers.

Eastern shingles are strong and selling more briskly than at any other time since

the building season opened. The supply is not equal to the demand. While reports come from the Pacific coast that red cedar shingle prices are uncertain, dealers at Buffalo and Tonawanda are finding no difficulty in obtaining $4 for Perfections. No. 1 pine lath are scarce and selling at $4 wholesale in the Eastern States. Although the mills are producing lath, they are moving off as fast as manufactured.

GREAT BRITAIN.

The British timber market has made a showing of strength during the past week. The trade is coming to the opinion that lumber will be dearer after the summer, when the limitation of the production shows itself. The demand is steadily expanding, and but for the supply of low grade stock, a sharp advance in prices would probably take place. Stocks in first hands are almost entirely cleared out. High figures have been paid for broad first quality pine deals, of which the supply is especially light. Quotations range from £31 12s to £34 7s, which is an advance upon the prices of one month ago. Broad second quality pine deals bring about £22, third quality £14, and fourth quality £11. Spruce deals continue in good request, especially 7 and 8-inch, which range from £6 10s to £7 10s per standard. While transactions in red pine have been limited, contracts have been closed at £10 10s c. i. f. Glasgow for 9 and 11 inches, and the prospect for this class of lumber is somewhat better. At recent auction sales slating battens have shown improvement, while plasterers' laths sold at the same prices as for some time past. The market for waney pine timber is strong. It is reported that sales have been made at 3s 3d per cubic foot c. i. f. London, the higher prices being due in part to the smaller wintering stock at Quebec. Sales of square timber have been made at 2s 8d c. i. f. London, with a rather light inquiry except for the larger dimensions.

STOCKS AND PRICES.

At Philadelphia hemlock is selling on the basis of $16.

The steamer Skarp sailed from Montreal last week for Hull, England, with a cargo of deals.

The City Council of Victoria, B. C., has just taken tenders on the supply of 430,000 fir paving blocks.

The tug Hudson arrived at Quebec last week with a raft of timber for Dobell, Beckett & Company.

The steamer Avona sailed from Montreal last week for the United Kingdom with a cargo of deals.

George Lewis has a contract to take out 5,000,000 feet of logs for the Cowichan Lumber Company, of Cowichan, B.C.

Mershon, Schuette, Parker & Company have recently bought several million feet more lumber in the Georgian Bay district.

The Saginaw Lumber & Salt Company, of Sandwich, Ont., have sold considerable stock to the M. G. Browne Lumber Company, of Cleveland, Ohio.

Martin & McKinnon have successfully brought their drives to the mouth of La Vallee river. It consists of 22,000 ties for the Rat Portage Lumber Company.

At Buffalo coiled hoops are quoted at $10 for 6-foot ; first-class elm flour barrel staves $7.50 and $7.75 ; basswood heading 5¼ to 5½ cents, and tierce staves $28.

Joseph Dobson held an auction sale of timber at Hull on May 29th, at which the following prices were obtained for spruce : 9-16 ft. 3x11 in. Quebec, unassorted, £8 7s 6d ; 11-14 ft. 2x11 in. £8 7s 6d ; 9-16 ft. 1¼x11 in. £8 10s; 10-13 ft. 1½x11 in. £8 7s 6d.

A quick drive has just been completed on the St. Marguerite river, Province of Quebec, by Price Bros. & Company, who made 100,000 spruce logs at St. Catharines Bay. Within four days the entire quantity was safely landed in the boom at the mouth of the river. On two occasions, in the course of three hours each, 20,000 logs came into the boom.

Munro & Company's first raft of timber reached Ottawa last week. It contained 150,000 feet. Two other rafts are following containing 150,000 and 100,000 feet. The Munro Company took out over 800,000 feet of square timber last winter. They shipped 150,000 feet by the C.P.R. from points west of Sudbury and are shipping 200,000 feet by boat from Sault Ste. Marie. The saw logs that were taken out, 10,000,000 feet, were sold to the Moulthrop Lumber Company and will be manufactured at John's Island.

Messrs. S P. Musson, Son & Company, under date of May 24th, say of the Barbadoes lumber market : "There have been no arrivals of either white pine or spruce during the fortnight, but a small cargo of 40,000 feet shipping and 60,000 feet second quality white pine, offered to arrive shortly, was placed at $25.50 and $20.50 ; a cargo has also been contracted for at $25 and $20 for shipping and second quality respectively, delivered terms. In spruce we can only repeat our last advices and valuation of $18 to $19. There have have been no arrivals of shingles, and we maintain our valuation of Long Gaspe. A lot of 500,000 feet of Laying Cedar, second clears, is on the way by steamer for a dealer "

A report from Chicago says: The scarcity of lumber all over the country is confined largely to No. 1 common and better. Dry piece stuff is almost phenomenally scarce, and in a few items, as in 2x12s and 3x12s, it is found that the scarcity is verging on a famine. Prices on 2x12s range from $21 for 14, 16 and 18-foot to $22 and $21.50 for 12 and 20-foot respectively. In joists 3x12—12s are quoted at $23, 14s at $22, 16s at $21, 18s at $22 and 20s at $22.50. In 12-inch boards the same preference is shown, No. 1, 10 and 12 feet long, selling at $26; No. 2, 10 to 16 feet long, selling at $22 to $23 and No. 3 at $17.50. No. 1 4-inch fencing sells at from $18 to $21.50 according to length and No. 1 6-inch fencing at from $20 to $24.50 according to length. No. 1 hemlock piece stuff is selling from the yards at $13.50 for 2x4s and 2x10s and $14.50 to $15 for 2x12s.

TIMBER STATEMENT.

Following is a comparative statement for three years of the timber, etc., measured and culled at the port of Quebec up to 10th June, 1902, as reported by the Supervisor of Cullers :

	Cu. ft. 1900	Cu. ft. 1901	Cu. ft. 1902
W'n'y w'te pine	90,202	257,924	1,008,101
White pine....	89,642	57,948	140,060
Red pine.....	6,926	861	11,337
Oak.....	196,408	144,481	54,662
Elm	204,441	169,837	297,023
Ash.....	27,601	52,331	10,450
Butternut.....	92	462	.....
Birch & Maple	247,154	251,218	75,486

THE BOSTON MARKET.

The demand for spruce lumber at Boston is scarcely more than normal, with prices about steady. The mills generally have logs and are ready for orders : Ten and 12 inch dimensions, $20 to $22 ; 9-inch and under, $19 to $20; 10 and 12-inch random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, $17.50 ; all other randoms, 9 - inch and under, 10 feet and up, $18 50; 5-inch and up merchantable boards, $17 ; matched boards, $19 to $20 ; out spruce boards, $13.50 to $14 ; bundle furring, $17 to $18.

Hemlock is in fair demand with the market firm, by reason of the small supply : Boards, 12, 14 and 16 feet stock, $15 to $15.50 for good eastern ; Pennsylvania, No. 1, $16 to $17.50 ; No. 2, $15 to $15.50.

Western pine is in small supply, with the market very firm. The demand is only fair : Uppers, 1-in. $75 to $80 ; 2½ and 3 in. $80 to $85 ; 4-in. $85 to $88 ; selects, 1 to 1½ in. $68 ; 2-in. $69 to $70 ; 2½ to 3 in. $74 to $76 ; 4-in. $79 to $80; fine common, 1-in. $60 to $63; 1¼ to 1½ in. $64 to $66 ; 2-in. $68 to $70 ; 2½ and 3 in. $69 to $71 ; 4-in. $80 ; barn boards, $23 to $33 ; coffin boards, $27 to $32.

Hardwood lumber is not much changed, with the request moderate : Quartered oak,$64 to $66; plain oak, $41 to $45; common and rejects, $20 to $25; red oak, no maket; whitewood, $42 to $43; saps and common, $30 to $35 ; brown ash, $41 to $44 ; white ash, $43 to $46 ; maple, $28 to $30; end-dried white maple, $38 to $42 ; birch, $27 to $30 ; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Extra cedar shingles are still in very moderate supply, and sell at a premium. Quotations are firm on all grades : Extra cedar to arrive, May and June, $3.50 ; clear, $3 ; second clear, $2.50 ; extra No. 1, $1.90 to $2.00; British Columbia red cedar, 16-inch, five butts to 2 inches, $3.75 to $3.80 ; 18-inch, $4.25 to $4.50.

Clapboards continue scarce and firm : Extra spruce, $38 to $40; clear, $36 to $38; second clear $33 to $35 ; extra No. 1, $24 to 26.

Laths continue very firm at $3.20 to $3.30 for 1⅝-inch ; 1½-inch $3.

GLASGOW PRICES.

Messrs. Wright, Graham & Company, Glasgow, Scotland, quote the following prices on pine and spruce deals, etc:

WANEY BOARDWOOD. — The demand holds strong and stocks have been still further depleted. Prices are much the same as before, prime wood being quoted at 2s 10d to 3s 6d per cubic foot, according to the average length ; second-class stock at 2s 6d to 2s 9d per cubic foot.

OAK LOGS.—There is some demand for long logs of prime quality to sell at about 3s. per cubic foot. Logs of inferior quality are quoted at about 2s 3d per cubic foot.

ELM.—The demand continues light, but the price for prime quality logs of good average length remains firm at 3s to 3s 3d per cubic foot. Parcels of poor specification and inferior quality are difficult to sell.

ASH.—The bulk of the stock is held by consumers. Prices are quoted at about 22d per cubic foot for 14 in. average, and 2s to 2s 2d per cubic foot for 15 in. average.

BIRCH.—Since our last report the position has not undergone any change of importance. Logs continue to be quoted at about 1s 6d for 16 in. average. Planks of ordinary quality are a drug in the market ; only prime quality are saleable at 15d to 16d per cubic foot.

QUEBEC WHITE PINE DEALS.—There has been no weakening in the demand for broad first quality deals, and prices have stiffened. Quotations are as follows : 1st quality, broad, £31 12s 6d to £34 7s 6d per standard ; 11 inch, £24 10s to £27; 7 inch to 10 inch, £21 to £22 7s 6d. 2nd quality, broad, £20 12s 6d to £22 13s 9d ; 11 inch, £19 12s 6d to £20 12s 6d ; 7 inch to 10 inch, £15 2s 6d to £16 10s. 3rd quality, broad, £13 15s to £14 8s 9d ; 11 inch, £12 7s 6d to £13 1s 3d ; 7 inch to 10 inch, £10 to £11. 4th quality, broad, £10 6s 3d to £11 ; 11 inch, £9 12s 6d to £10 6s 3d ; narrows, £8 to £9.

QUEBEC WHITE PINE SIDINGS.—There is still an active demand for first quality 1½ and 2 in., and parcels arriving meet with ready sale.

RED PINE DEALS.—There is very little enquiry, and few sales are reported. The following prices are quoted: 9 and 11 in. by 3 and 4 in., £10 6s 3d to £12 7s 6d, per St. Pet. Std.; 7 to 10 in. by 3 in., £7 15s to £8 11s 10d.

SPRUCE DEALS.—A moderate amount of business has been done this month, and prices keep firm. Prices quoted are: 9 in. and up by 3 in. at £9 2s 6d to £9 12s 6d, per St. Pet. Std.; 7 and 8 in. by 3 in. at £6 10s to £7 10s.

BIRCH SQUARES AND SEATS.

A large buyer of Birch chair seats and of Birch squares is open to contract with a mill for their output. Also open for Broom Handles and Dowels in large quantities. Write in first instance to "Finance," care of CANADA LUMBERMAN.

CANADIAN LUMBER SHIPMENTS.

The following shipments of lumber, etc., from Canadian ports are reported since last issue :

From Chatham, N. B.: June 6, schr. Palma, for New York, 214 tons pulp, by Estate Maritime Sulphite Fibre Co.; 545,000 laths, by E. Hutchison. June 2, schr. Raeburn, for New York, 500,000 laths, by A. F. Bentley. June 3, brig. Hamlet, for Clarecastle, Ireland, 256,639 ft. deals and ends, by F. E. Neale. June 7, barque Vemira, for Manchester, England, 744,000 ft. deals, boards and ends, by J. B. Snowball Co.

From Chemainus, B.C.: May 7, barque Sononea, for Sydney, Australia, 562,000 ft. lumber, 456,000 laths, 93,000 staves, value $6,168, by Victoria Lumber & Mfg. Co. May 9, ship Ostari, for Port Natal, 1,696,000 ft. lumber, value $15,014, by Victoria Lumber & Mfg. Co. May 28, schr. Kingleyras, for Sydney, Aus., 679,000 ft. lumber, 418,000 laths, 100,000 staves, value $7,504, by Victoria Lumber & Mfg. Co. Bargue Star of Bengal, for Adelaide, Aus., 1,468,000 ft. lumber, 120,000 laths, 20,000 ft. pickets, value $12,542, by Victoria Lumber & Mfg. Co.

From St. John, N. B.: Barque Austria, for Queenstown, 14,714 ft. birch deals, 727 ft. birch scantling, 16,693 ft. birch ends, 1,257 ft. boards, 831,488 ft. spruce deals 68,555 ft. spruce scantling, 23,712 ft. spruce ends, 3,562 ft. spruce boards. Str. Sarham, for Manchester, 2,464,987 ft. deals, and battens, 72,139 ft. scantling, 64,161 ft. ends, 12,483 ft. boards, by W. M. Mackay.

From Montreal: Str. Pomeranian, sailed May 26th, for Glasgow, 5 pieces timber by G. T. R. ; 4,664 pieces deals and 20 pieces logs by W. & J. Sharples; 1,251 pieces deals by D. Cream & Co; 18,110 pieces deals by Watson & Todd. Str. Romore Head, sailed May 27th, for Belfast, 3,131 pieces deals by W. & J. Sharples; 1,169 pieces deals by Dobell, Beckett & Co.; 8,270 pieces deals and boards by Watson & Todd; 8,256 pieces sidings and boards by Robert Cox & Co.; 5,393 pieces deals and boards by Charlemagne Lumber Co; 9,926 pieces deals, boards and ends by J. Burstall and Co.; 948 pieces lumber by C.P.R. Str. Lake Ontario, for Liverpool, sailed May 26th, 8,708 pieces lumber, by Watson & Todd; 132 pieces lumber by Dobell, Beckett & Co; 116 pieces maple lumber, 1,344 maple blocks, 550 maple squares, 2,814 doors, 2,542 pieces oak lumber, 1,484 bundles flooring, by C.P.R. Str. Alcides, sailed May 29th, for Glasgow, 3,415 pieces deals and boards by Robert Cox & Co.; 8,341 pieces deals and ends by Watson & Todd; 4,812 pieces deals and ends by Dobell, Beckett & Co.; 3,386 pieces deals by McLaurin Bros; 197 pieces fir lumber by C.P.R. Str. Belgian, sailed May 30th, for London, 6,919 pieces ends by W. & J. Sharples; 3,314 pieces deals by Watson & Todd; 35,934 pieces deals and boards by McArthur Export Co; 169 pieces timber by Dobell, Beckett & Co. Str. Roman, for Liverpool, sailed May 31st, 22,091 pieces deals, boards and ends by Watson & Todd; 165 pieces oak lumber by C.P.R. Str. Yola, sailed May 26th, for Bristol, 1,478 pieces lumber by Watson & Todd; 4,292 pieces lumber by W. & J. Sharples; 26,038 pieces lumber by Dobell, Beckett & Co. Str. Forestbrook, sailed May 31st, for London, 80,983 pieces deals, ends, etc., by Robert Cox & Co. Str. Hurona, sailed June 1st, for London, 4,848 pieces deals by Cox, Long & Co ; 3,530 pieces deals, by Charlemagne Lumber Co. Str. Norwegian, for Glasgow, 356 pieces deals and boards by D. Cream & Co; 4,414 pieces deals by E. H. Lemay; 6,600 pieces deals and boards by W. & J. Sharples. Str. Langford, sailed June 6th, for Rotterdam, 2,159 pieces pine deals, 1,357 pieces pine deals by Dobell, Beckett & Co. Str. Manchester Importer, sailed June 4th, for Manchester, 106 rolls pulp boards, 1,144 bundles pulp board by Laurentide Pulp Co; 938 packages planed boards, 1,866 pieces deals, 15 pieces ends by Charlemagne Lumber Co; 3,866 pieces deals and ends, 984 pieces boards by W. & J. Sharples; 4,377 pieces deals by McArthur Export Co; 3,385 pieces deals and boards by Robert Cox & Co; 5,665 pieces deals, boards and ends by Watson & Todd; 569 pieces deals by Imperial Lumber Co.

From Ship Harbor, N.S.: Barque Gamma, for St. Nazairre, France, deals, value $61,000, by Alfred Dickie. Barque Freenad, for Menia Bridge, Wales, deals, value $3,800, by Alfred Dickie.

From Parrsboro, N. S.: June 7, str. Farnham, for Manchester, Eng., 2,849,332 ft. deals, 339,276 ft. ends and scantling, value $37,419, by W. M. Mackay.

QUEBEC TIMBER LIMIT SALE.

Three hundred and thirty-six square miles of timber limits in the Province of Quebec were sold by the Department of Woods and Forests on June 3rd, the sum realized being $43,710.49. The bidding was at times quite animated and the prices received are considered very satisfactory. A limit on the Lower Ottawa on which the up-set price was $200 per mile was sold to R. Deschambault at $1,780 per mile. The timber on this limit is almost exclusively spruce. The result of the sale is given below :

Upper Ottawa—Riv. du Lievre, N.W. branch 3, and branch 4, 100 miles at $55, McLaren Estate, total $5,500.

Lower Ottawa—Harrington East, River Rouge, 6 miles at $150, Geo. Dansereau, total $900 ; Harrington West, River Rouge, 3¾ miles at $1,780, R. Deschambault, total $4895.

Saint Charles—River Jacques Cartier, N.W. branch 2, 37 miles, at $40, J. P. Lazure, total $1,480 ; River Jacques Cartier, 2 west, 42 miles at $201, J. P. Lazure, total $8,442.

River Jacques Cartier, N.E. branch 1 w., 42 miles at $116, J. P. Lazure, total $4,872.

Lake St. John Centre—Tp. Dequen, range 4, and Tp. Metabetchouan 1, 2½ miles at $51, Metabetchouan Pulp Co., total $127.

Lake St. John N.W.—Range 1 north of Lake St. John, 3, 29 miles at $61, B.A. Scott, total $1,769 ; Range 2 north of L. St. John, 25 miles at $61, Peribona Pulp Co., total $1525 ; Range 3 north of L. St. John, 4, 18 miles at $61, Peribona Pulp Co., total $1,098 ; Range 3, north of L. St. John, 29 miles, at $61, B. A. Scott, total $1,769; Little Riv. Peribonka, 10 miles at $61, B. A. Scott, total $610.

TRADE OPENINGS.

The following were among the enquiries relating to Canadian trade received at the Canadian Government Office in London during the week ending 23rd May, 1902. The names of the parties may be obtained from the publishers of this journal.

A house engaged in the manufacture of furniture for wholesale, wishes to get in touch with a Canadian shipper of furniture wood in a knock-down condition, such as legs, splots, etc.

A north of England firm desire to get into communication with shippers in Canada of wood chimney pieces.

A firm interested in the shipment of mahogany logs make inquiry for the names of merchants in Canada who are prepared to import this wood.

ARTHUR RUSHFORTH
Exporter of Mahogany Logs and Lumber
Veneer Logs and Crotches, English Brown and Pollard Oak.

12 Derby Road, LIVERPOOL.

SPICER SHINGLE MILL CO., LIMITED
MANUFACTURERS OF
Red . . Cedar Shingles
VANCOUVER, B. C.

Another Little Mill

There will be over a million feet of sawn lumber used in this one plant for construction only; over 30,000 lin. feet of piling, besides rock foundations; two car-loads of shingle machines only; over 7 miles steam pipe 1 1-2 inch and up in diameter. A summary of all the material that will be used in the construction of this plant shows that there will be over 320 car-loads, or 21 trains of 15 car-loads each.

With all our past experience in the shingle business, of which we make a specialty, and with all the latest and best improvements in machinery and mill construction, we expect it to be the most complete and up-to-date mill in North America, where shingles can be made better than in the ordinary mill.

The above plant will be in operation about the first of June, and although this mill will have a daily (24 hours) capacity of 1,250,000 shingles, the dealers and consumers need not be afraid of any particular surplus, but can rest assured that there will be one firm on the coast manufacturing red cedar shingles from whom they can get their wants supplied in a hurry with that old reliable "Hastings Brand" so much talked about.

CUSTOMERS' ATTENTION. — Please take notice that on the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles ended. Until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield, of Winnipeg, Man., for Manitoba and the North-West; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

Shingle Mill, Hastings, B.C.; Lumber and Shingle Mill, Vancouver, B.C.; Shingle Mill, New Whatcom, Wash.; Shingle Mill, Sumas, Wash.; Shingle Mill, Carroll Siding, Wash.

The Hastings Shingle Mfg. Co., Limited
Office, 450 Westminster Ave., Vancouver, B.C.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, ONT., JUNE 18, 1902 No. 20

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of six 2 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED—A RAFT OF PINE LOGS ON Georgian Bay; apply at once to Box 20, CANADA LUMBERMAN.

WANTED—HARDWOOD LUMBER, BIRCH, Soft Elm, White and Black Ash, in firsts and seconds, and common. We inspect at shipping point. STANDARD LUMBER CO., 1075 Clinton St., Buffalo, N. Y.

WANTED—PRICE ON LARGE TRACT OF Balm of Gilead timber; must be near the waters of Lake Ontario and not too far from the mouth of the Niagara river, with waterway if possible; name price per acre; give exact situation, rail and water facilities. Address "W", Lewiston, N. Y., Box 51.

WANTED—HARDWOOD LUMBER.

SOFT ELM, BIRCH, BLACK ASH, 1STS and 2nds preferred. J. F. STENGAL, 99 Ellicott Square, Buffalo, N.Y.

DRY PINE.

WE HAVE ABOUT 1,500,000 FEET DRY PINE in 1, 2 and 3 inch common and better, prefer selling in bulk. Will quote freight rate to Buffalo, Chicago or Toronto on application. Correspondence solicited. N.B.—Would like to correspond with consumers of hardwoods. ST. JOE ISLAND LUMBER CO., Sault Ste. Marie, Ont.

SPECIAL TO LUMBERMEN.

WITH A THOROUGHLY EQUIPPED PLANING Mill at Orillia, we solicit orders for re sawing and planing of lumber, in any quantity; can match 26 inches wide; all work guaranteed first-class; prices on application. Address, NATIONAL BOX CO., Orillia, Ont.

Wanted--Cedar Shingles

16 INCH AND 18 INCH, ALL GRADES, good quality, White Cedar. Would purchase mill output.

Give quantities both on hand and to be manufactured. J. G. STRAIT & SON, Wolcott, New York.

TO SPRUCE MANUFACTURERS

WANTED, FOR PERIODICAL SHIPMENT, lots of about 20 St. Petersburg Standards, seconds white spruce boards, 12ft. long and over; one inch x 7" to 11"; planed both sides and edges or both sides only. Quotations f.o.b. with particulars of shipping facilities to C. L. Jones, Post Office Contractor, Church Street, Islington, London, England.

TELEPHONE POLES FOR SALE

THE UNDERSIGNED HAVE IN STOCK, and ready for shipment, 2,000 Cedar Telephone Poles, all lengths, 25 to 60 feet. Prices quoted by mail or wire for car lots f. o. b. cars this station or delivered at points required.

GEORGE & McGREGOR,
Killaloe Station, Ont.

FOR SALE.

THE ENTIRE CUT OF 1901 OF SEVERAL mills on the Ottawa Valley of all number one white pine mill culls, strips and sidings, 1" to 3" thick, and also other grades. Shipments by water or rail. Write for particulars and quotations to A. F. BURY AUSTIN, Wholesale Lumber & Timber, Room 507 Merchants Bank Bldg., Montreal. Also spruce lumber of all grades.

TIES FOR SALE.

FIFTEEN THOUSAND HEMLOCK AND Five Thousand Cedar Standard Railway Ties. HODGE & WALLEY, Box 339, Sherbrooke, Que.

FOR SALE

ABOUT 400,000 FEET OF CEDAR, SPRUCE and Tamarac, also some Balsam, Ash, Poplar, Balm of Gilead (white wood), white and yellow Birch and Soft Elm, all ready to be sawn to order. Address C. S. DIT BLONDIN, Chelmsford, Ont.

STANDING TIMBER FOR SALE.

600 ACRES OF CHESTNUT, WHITE WOOD, Hard and Soft Maple, Red and White Oak, Black and White Ash, Basswood, Soft Elm, Beech; a little Hickory, Butternut and Cherry; two railroads running through property; 10M per day mill, 40x100 ft., planer and matcher, shingle machine and other machinery; large dwelling house and house for men; barn and sheds; large bearing orchard; plenty of water; splendid market for wood; best lot of hardwood in this western Ontario; good investment for enterprising man. Bismarck Station, M. C. R., West Lorne, P. O. I. C. SCHLEIHAUF.

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber market is decidedly firm. While it may be that prices of white pine lumber have reached their height, there are no indications of an early decline, and if the outlook for crops should continue good, there seems little doubt as to the maintenance of present values for some time to come. It would not be strange, however, if temporary weakness should develop during the summer season, to be followed by a strong market during the fall months. The yard dealers of Saginaw and Bay City are still in the market for stock whenever they can find anything which meets their requirements. Evidently they can purchase to advantage on this side of the border even in the face of a two-dollar duty. Log run is held at $17 to $19 at the mills on the Georgian Bay, and mill culls range from $9 to $10. Some inquiries have been received from Great Britain for red pine, the production of which last winter was very light. A revival of the demand for this timber might possibly result in a sharp advance in price. The manufacturers of hardwood lumber are making no concessions in the matter of price, but on the other hand there is a disposition to advance certain grades. The buying of hardwoods by furniture manufacturers and other consumers is quite active, and it would not be surprising to witness higher prices in the near future.

QUEBEC AND NEW BRUNSWICK.

Prices of spruce lumber have shown wider fluctuations during the past week than for some time. Recent rains have so far improved driving conditions that there is a good prospect of a sufficient quantity of logs reaching the mills to permit of continuous sawing throughout the season. This, coupled with unfavorable reports as to the markets of the Eastern States, has caused one or two manufacturers to reduce their asking prices on certain lines. One exception to this is clapboards, which are in short supply and firm. There are no signs, however, of a general break in prices, as the largest manufacturers are more inclined to advance quotations than reduce them. Cedar shingles are still selling on the basis of $3.50 for extras, Boston delivery. The strength of waney pine and birch is a feature of the timber market. At Quebec the quotations range from 18 cents per cubic foot for 14-inch average to 30 cents for 18-inch average.

MANITOBA AND BRITISH COLUMBIA.

The demand for lumber throughout Manitoba and the Territories is quite insistent. A heavy yield of wheat is promised, and another year of prosperity is looked for. A large quantity of lumber is being consumed in building operations, and manufacturers are finding difficulty in keeping up with their orders. Complaint is heard that British Columbia shingles cannot be had fast enough to supply the demand. Maple flooring has been advanced $2 per thousand at Winnipeg, making the present price $47. Whitewood is also $2 higher at $53. The activity of the lumber and shingle business of British Columbia continues. Railroads are being built in order to increase the available supply of logs. The lumber concerns are working more in harmony with each other than usual.

UNITED STATES.

The strike of the coal miners has had a depressing effect upon the lumber demand in the Eastern States. Retailers are placing orders for small lots only, declining to enter into contract for future requirements until business becomes more settled. A report comes from Philadelphia that prices are a little weak, hemlock, for instance, selling on the basis of $15 to $15.50. Contrary advice is to hand, however, from Buffalo and Tonawanda, where inch cutting-up stock has been advanced to $42, 12-inch No. 1 barn to $30, 10-inch No. 2 to $24, and 12-inch No. 2 to $26. It is said that the demand at these points is more uniform than it usually is. Some of the lower grades, such as No. 3 barn, are decidedly scarce, and it is believed that with the settlement of the coal strike there would be a rush of orders and a con-

tinuation of an active demand until the end of the year. The strength of piece stuff is a feature of the market. Hardwood lumber is doing well. Dry stocks are scarce and advancing. Basswood in particular is scarce. The Buffalo list this week shows a slight advance in the price of maple. It is the opinion of the trade that this lumber should on its merits sell somewhat higher. White pine shingles are a little off on account of weakness in the quotations for red cedar shingles. The demand at the present time is chiefly for 18-inch. Some 32-inch lath has been offered at Buffalo at $2, and it is said that it has been well received.

GREAT BRITAIN.

The business done in Great Britain in wood goods during the past fortnight shows a considerable expansion, and points to the early recovery of that market. The cessation of hostilities in South Africa has been followed by easiness in money, and accounts are being met with greater promptitude than usuul. The trade is disposed to regard the outlook as favorable. The timber requirement for Coronation purposes has made inroads upon the London stocks, which are now generally less than at the corresponding period last year. The stock of red and white pine is a little heavier, but the decrease in the stock of rough boards is 1,314,000 pieces and of prepared boards 4,180,000 pieces. The stock of oak and elm timber is considerably less, but ash is held in larger supply. The Liverpool stock makes a somewhat similar showing, with a decrease in New Brunswick spruce and pine deals, square and waney timber, birch logs and planks and oak timber. Quebec pine deals are in slightly heavier supply, but it is understood that the stock is chiefly low grade. Canadian oak is in brisk request and promises to advance in price. There has also been heavy buying of rock elm, the supply of which has become almost exhausted. The quotations for that timber are 2s 9d to 3s 3d per cubic foot. Quebec birch is held at 1s 6d to 2s and birch planks at 10d to 11d per cubic foot.

Canadian timber is apparently proving satisfactory for paving purposes. The city of Cardiff has used Canadian wood extensively for street paving, and it is learned that the Corporation of Gravesend has accepted a tender for the supply of 7,000 yards of spruce blocks at 11s 4d per yard, including the laying.

STOCKS AND PRICES.

The steamer Bengor Head sailed from Miramichi, N. B., last week for Belfast, with deals.

About 4,000,000 feet of deals were towed from Gibson to St. John, N. B., last week for shipment to England.

The steamer Whitefield has just sailed from Yarmouth, N. S., for West Hartlepool, England, with a cargo of deals.

Twenty thousand shingles, owned by Nathan Eaton, of Canning, N. S., were carried to sea by a high tide last week.

The ship Rouce arrived at Sydney, Aus., last week from the Hastings mill, Vancouver, with a cargo of 1,251,030 feet of lumber.

The ship J. D. Everett sailed last week from the Hastings mill, Vancouver, B. C., for Cork, Ireland, with a cargo of lumber.

The Standard Lumber Company, of Buffalo, have recently bought a considerable quantity of birch lumber in Ontario.

Up to June 1 of this year receipts of lumber at Buffalo were 41,000,000 feet, compared with 12,000,000 feet for same period last year.

Recent rains have greatly assisted log driving in New Brunswick. All the logs for the Mispec pulp mill at St. John are expected to reach the mill.

R. A. Brown is driving 4,000,000 feet of logs down the north fork of Kettle river, in British Columbia. The logs will be sawn by Lequime & Powers, of Grand Forks.

During a storm on June 10th a raft of 86 cribs of square timber belonging to Munro & Co., of Pembroke, went to pieces at Britannia. Several days were required to put the raft together again.

In the Saginaw valley white pine shingles are quoted at $4.05 for 4 x 18-inch stock, and $3 for clear butts. For 16-inch stock $3.05 and $2.45 are the quotations. Eighteen-inch cedar shingles are selling at $3.90 for XXXX and $2.90 for clear butts.

The Central Lumber Company, of Saginaw, Mich., has just received a raft of 5,000,000 logs from Parry Sound. This is the only raft of Ontario logs that will cross the lake this season, the logs being cut from deeded lands.

By the breaking of a boom at Hanbury's saw mills at Brandon, Man., a large number of logs were swept away. It is reported that it is proposed to intercept the logs at Winnipeg and manufacture them there.

THE OTTAWA VALLEY.

(Correspondence of the Canada Lumberman).

The lumber business this month in Ottawa presents a series of contradictions. While some shippers report dullness in trade, others express inability to keep up with the orders. The strikes across the line have had a reflex action on the local market, business with the States of Connecticut, New York and Massachusetts suffering to the greatest extent. However, there's "something doing" in a superlative degree and prospects are such as to keep everyone in good spirits.

A careful scrutiny of the Ottawa market quotations made by a couple of leading operators failed to establish any change. The first of this year's cut in the shape of lath is on the market, and no trouble is experienced placing it in the hands of outside parties looking to Ottawa for their supply. None of the lumber, however, will be ready for some weeks. Continued rains have kept the stock on the piles wet and heavy, whereas with bright, breezy weather it would have been ready for transportation. A shortage is reported in the supply of factory lumber, short ends used principally in the sash and door business. Dealers are averse to paying the rather fancy price asked for this line of stock. The presence of this season's cut of lath has relieved the stringency felt a month ago in this quarter.

The Ottawa Transporation Company's fleet of barges is busily employed moving seasoned stock from the Chaudiere mill yards. It is stated, however, that this branch of the transportation business is not as brisk as it was in former years, owing to the increased attention paid to it by the railways. Through rates are now given from Ottawa to Boston, New York, Quebec and other seaport points, which makes it more advantageous to ship by rail than it was a few years ago. Considerable lumber was also shipped by American barges from Ottawa last week, but owing to the coal strike few of these boats have reached the local port this season.

A well known river man stated yesterday that the drives are a month in advance of those of former years. The continued rains kept the creeks high and made the "running" comparatively easy work. For the past month the Ottawa river below the city has been full of logs of last year's output. This year's cut of logs will soon be replacing them in large numbers. Rivermen are arriving daily by scorces and the Lower town hotels are humming with life.

Last week the W. C. Edwards Company was fined for piling lumber within the area forbidden by the city by-law. The case was taken up on complaint of residents in the neighborhood. The lumber was piled in a railway yard leased for the purpose.

The towering burner at the Booth mill at the Chaudiere has been completed. It is one of the largest in the district, and will be utilized to consume the sawdust, the presence of which in the river created considerable dissatisfaction.

OTTAWA, June 16th, 1902.

CANADIAN LUMBER SHIPMENTS.

The following shipments of lumber, etc., from Canadian ports are reported since last issue:

From Halifax, N.S.: June 12, str. Damara, for Liverpool, 294,144 ft. deals, value $4,009. Schr. Bolf, for Wales, 254,299 ft. deals, value $2,984. June 13, str. Florence, for London, England, 190,780 ft. deals, value $1,706. June 7, str. Hong Hanken, for Preston, England, 1,725,471 ft. deals, etc., value $20,093.

TO THE LUMBER TRADE

Our mill No. 2, erected for the purpose of manufacturing special bill timber, is fast nearing completion. After June 15th we will be in a position to furnish special bills in White Pine, Red Pine or Fir, in any length up to sixty feet. Specialties: White Pine Ship Timber and Decking, Bridge and Car Timber.

Send us your inquiries.

The Cleveland-Sarnia Saw Mills Co., Limited

SARNIA, ONT.

THE LIVERPOOL MARKET.

In their last report, Messrs. Farnworth & Jardine review the Liverpool market as follows:

The arrivals from British North America during the past month have been 18,587 tons register, against 12,605 tons register during the corresponding month last year, and the aggregate tonnage to this date from all places during the years 1900, 1901, and 1902 has been 119,404,117,416, and 137,121 tons respectively.

The business during the past month has on the whole been of a satisfactory character, the deliveries have realized expectation, and values have been well maintained; stocks, with the exception of pitch pine, are within a moderate compass.

CANADIAN WOODS. — Pine Timber — There have been no importations of either waney or square pine during the past month, the consumption has been small, but the stock is very light; values are firm. RED PINE.—There has been little enquiry; stocks are small. OAK has not been imported during the past month; there has been a fair enquiry for 1st class wood, the stock of which is now considerably reduced, and prices are firm. ELM.—Rock elm is in fair demand; the stock of this wood is moderate. ASH is in limited demand, and the stock is sufficient. QUEBEC PINE DEALS have arrived freely, consumption has been satisfactory, but stocks are still too large; values remain practically unchanged. RED PINE DEALS are not in good demand; stocks are sufficient.

NEW BRUNSWICK AND NOVA SCOTIA SPRUCE AND PINE DEALS.—The import amounting to 8,870 standards, is considerably in excess of the quantity imported during the corresponding month last year. The deliveries, however, have been satisfactory, and the present stock, amounting to 9,450 standards,is light; values are well maintained. PINE DEALS continue in fair request, stocks are moderate; prices firm.

BIRCH.—Logs have been imported on a moderate scale; the consumption has been satisfactory, and the stock is not excessive; values remain unchanged. PLANKS have been imported more moderately; there has been a good consumption, but the stock is still heavy.

BRITISH COLUMBIAN AND OREGON PINE. —One cargo has arrived containing 71,000 cubic feet; there has been a satisfactory consumption, and stocks are not excessive.

The following table shows the stock on hand May 31st:

	1901.	1902.
	Cubic Feet.	
Quebec Square Pine	62,000	29,000
" Waney "	59,000	24,000
Red Pine	12,000	2,000
Oak, Canadian and American	130,000	66,000
" Plank	153,000	98,000
Elm	30,000	33,000
Birch, Logs	96,000	69,000
" Planks	186,000	165,000
Ash	27,000	50,000
Quebec Pine Deals, Ptg. stg	9,810	10,890
" Spruce "	1,120	1,370
N.B.,N.S., &c., Spruce & Pine Deals	16,500	9,450

TIMBER LIMIT SALE.

Harold Kennedy, of Quebec, is reported to have purchased the Atkinson saw mills at St. Raymond and Lake Long, on the line of the Quebec and Lake St. John Railway, together with about 190 miles of timber limits.

BRITISH TIMBER SALE.

The following is the result of a timber sale held by Foy, Morgan & Company, London, England, on June 5th:

PINE—Ex. Huelva, from Quebec—12-16 ft. 3x12-24in. first quality, £16. Ex. Vera, from Montreal—17-20 ft. 3x11 in. 10 5s. Ex. Ovidia, from Quebec—12-19 ft. 3x11 in. unassorted red, £11; 14-18 ft. 3x11, £10, 15s; 10-18 ft. 3x11, £10 15.

SPRUCE—Ex. Montauk, from Quebec—12 ft. 3x9 in. fourth quality, £8 5s per standard. Ex. North Eastern, from Quebec—9-14 ft. 3x10-11 in., fourth quality, £12 15s; 10-15 ft. 3x6 in. second quality, £7 10s. Ex. Riplingham, from Chatham, N. B. — 16-20 ft. 2½x7 in. unassorted £7. Ex. Etolia, from Montreal—11 ft. 3x9 in. second quality, £9 5s and £9 10s; 10 ft. 3x9, £9 5s.

SPRUCE SLATING BATTENS—Ex. Mexican, from Quebec—6-15 ft. ¾x2in, 1s 2½d per 144 ft. run.

OAK TIMBER—Ex. Highfield, from Quebec—22-28 ft. x 13-20 in., 70s per load of 50 cubic feet.

Fenderson & Company's shingle and rotary mill at Campbellton, N.B., was burned on June 9th. The loss is about $5,000, and it is said there is no insurance.

The assignment is announced of T. H. Buck & Company, retail dealers, of Chelsea, Mass., one of the oldest concerns in the lumber business. A number of firms are interested in the failure. The Sheppard & Morse Lumber Company have been appointed assignees.

GILMOUR & COMPANY, LIMITED

TRENTON, CANADA

THE BOSTON MARKET.

Spruce lumber is in a little better demand at Boston, with decidedly more orders within the past two or three days; Ten and 12 inch dimensions, $20 to $22; 9-inch and under, $19 to $20; 10 and 12 inch, random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17.50; all other randoms, 9-inch and under, 10 feet and up, $18.50; 5-inch and up, merchantable boards, $17; matched boards, $19 to $20; out spruce boards, $13.50 to $14; bundle furring, $17 to $18.

Hemlock is very firm, with the offerings small: Boards, 12, 14 and 16 feet stock, $15 to $15.50 for good eastern; random eastern, $14 to $14.50; Pennsylvania, No. 1, $16 to $17.50; No. 2, $15 to $15.50.

Western pine is very firm indeed, with the mills demanding still higher prices: Uppers, 1-in., $75 to $80; 2½ and 3 in. $80 to $85; 4-in. $85 to $88; selects, 1 to 1½ in. $68; 2-in. $69 to $70; 2½ to 3 in. $74 to $76; 4-in. $79 to $80; fine common, 1-in. $60 to $63; 1¼ to 1½ in. $64 to $66; 2-in. $68 to $70; 2½ and 3 in. $69 to $71; 4-in. $80; barn boards, $23 to $33; coffin boards, $27 to $32.

In hardwood lumber the demand is very fair, with the tendency decidedly strong. Lots of desirable stock are quickly taken up: Quartered oak, $64 to $66; plain oak, $41 to $45; common and rejects, $20 to $25; whitewood, $42 to $43; sap and common, $30 to $35; brown ash, $41 to $44; white ash, $43 to $46; maple, $28 to $30; end-dried white maple, $38 to $42; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Shingles are very firm, with the demand better than anticipated. It looks as though the market might be higher from the fact that manufacturers are full of orders: Extra cedar to arrive, June and July, $3.50 to $3.60; clear, $3; second clear, $2.50; extra No. 1, $1.90 to $2; British Columbia red cedar, 16-inch, five butts to 2 inches, $3.75 to $3.80; 18-inch, $4.25 to $4.50.

Clapboards are in a remarkably strong position, with but few offering. They have been sold as high as $40 for extra spruce. The last sales of pine were at $55, and they would bring even up to $60 now, if there were any: Clear, $36 to $38; second clear, $32 to $35; extra No. 1, $24 to 26.

Laths continue very firm at $3.20 to $3.30 for 1⅝-inch; 1½-inch $3.

Another Little Mill

There will be over a million feet of sawn lumber used in this one plant for construction only; over 30,000 lin. feet of piling, besides rock foundations; two car-loads of shingle machines only; over 7 miles steam pipe 1 1-2 inch and up in diameter. A summary of all the material that will be used in the construction of this plant shows that there will be over 320 car-loads, or 21 trains of 15 car-loads each.

With all our past experience in the shingle business, of which we make a specialty, and with all the latest and best improvements in machinery and mill construction, we expect it to be the most complete and up-to-date mill in North America, where shingles can be made better than in the ordinary mill.

The above plant will be in operation about the first of June, and although this mill will have a daily (24 hours) capacity of 1,250,000 shingles, the dealers and consumers need not be afraid of any particular surplus, but can rest assured that there will be one firm on the coast manufacturing red cedar shingles from whom they can get their wants supplied in a hurry with that old reliable "Hastings Brand" so much talked about.

CUSTOMERS' ATTENTION. — Please take notice that on the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles ended. Until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield, of Winnipeg, Man., for Manitoba and the North-West; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

Shingle Mill, Hastings, B.C.; Lumber and Shingle Mill, Vancouver, B.C.; Shingle Mill, New Whatcom, Wash.; Shingle Mill, Sumas, Wash.; Shingle Mill, Carroll Siding, Wash.

The Hastings Shingle Mfg. Co., Limited

Office, 450 Westminster Ave., Vancouver, B.C.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, ONT., JUNE 25, 1902 No. 21

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the "Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of six 2 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED—A RAFT OF PINE LOGS ON Georgian Bay; apply at once to BOX 20, CANADA LUMBERMAN.

WANTED FOR A MILL IN BRITISH COLumbia: 1 man to joint and one man to pack shingles. Apply to G. O. BUCHANAN, Kaslo, B. C.

WANTED—HARDWOOD LUMBER, BIRCH, Soft Elm, White and Black Ash, in firsts and seconds, and common. We inspect at shipping point. STANDARD LUMBER CO., 1075 Clinton St., Buffalo, N. Y.

WANTED—HARDWOOD LUMBER.

SOFT ELM, BIRCH, BLACK ASH, 1STS and 2nds preferred. J. F. STENGAL, 99 Ellicott Square, Buffalo, N.Y.

DRY PINE.

WE HAVE ABOUT 1,500,000 FEET DRY PINE in 1, 2 and 3 inch common and better, preferselling in bulk. Will quote freight rate to Buffalo, Chicago or Toronto on application. Correspondence solicited. N.B.—Would like to correspond with consumers of hardwoods. ST. JOE ISLAND LUMBER CO., Sault Ste. Marie, Ont.

SPECIAL TO LUMBERMEN.

WITH A THOROUGHLY EQUIPPED PLANING Mill at Orillia, we solicit orders for re sawing and planing of lumber, in any quantity; can match 26 inches wide; all work guaranteed first-class; prices on application. Address, NATIONAL BOX CO., Orillia, Ont.

Wanted—Cedar Shingles

16 INCH AND 18 INCH, ALL GRADES, good quality, White Cedar. Would purchase mill output.

Give quantities both on hand and to be manufactured. J. G. STRAIT & SON, Wolcott, New York.

TO SPRUCE MANUFACTURERS

WANTED, FOR PERIODICAL SHIPMENT, lots of about 20 St. Petersburg Standards, seconds white spruce boards, 12ft. long and over; one inch x 7" to 11"; planed both sides and edges or both sides only. Quotations f.o.b. with particulars of shipping facilities to C. L. Jones, Post Office Contractor, Church Street, Islington, London, England.

TELEPHONE POLES FOR SALE

THE UNDERSIGNED HAVE IN STOCK, and ready for shipment, 2,000 Cedar Telephone Poles, all lengths, 25 to 60 feet. Prices quoted by mail or wire for car lots f. o. b cars this station or delivered at points required.

GEORGE & McGREGOR,
Killaloe Station, Ont.

FOR SALE.

THE ENTIRE CUT OF 190· OF SEVERAL mills on the Ottawa Valley of all number one white pine mill culls, strips and sidings, 1" to 3" thick, and also other grades. Shipments by water or rail. Write for particulars and quotations to A. F. BURY AUSTIN, Wholesale Lumber & Timber, Room 507 Merchants Bank Bldg., Montreal. Also spruce lumber of all grades.

TIES FOR SALE.

FIFTEEN THOUSAND HEMLOCK AND Five Thousand Cedar Standard Railway Ties. HODGE & WALLEY, Box 339, Sherbrooke, Que.

STANDING TIMBER FOR SALE.

600 ACRES OF CHESTNUT, WHITE-WOOD, Hard and Soft Maple, Red and White Oak, Black and White Ash, Basswood, Soft Elm, Beech; a little Hickory, Butternut and Cherry; two railroads running through property; 10M per day mill, 40x100 ft., planer and matcher, shingle machine and other machinery; large dwelling house and house for men; barn and sheds; large bearing orchard; plenty of water; splendid market for wood; best lot of hardwood in this western Ontario; good investment for enterprising man. Bismarck Station, M. C. R., West Lorne, P. O. I. C. SCHLEIHAUF.

CURRENT TRADE CONDITIONS.

ONTARIO.

The demand for white pine lumber has been so great as to prevent any accumulation of stock at the mills. Buyers report that it is impossible to place orders for immediate shipment. Manufacturers are asking $18 for log run, which figure is being readily paid by some United States buyers. The mill man has this season been relieved of anxiety as regards the selling of his lumber, as the mills have been visited regularly by dealers anxious to contract for stock. There is on the market a quantity of the coarse grades of Norway pine, but it is anticipated that this will be taken later in the year, when the buying for fall and winter trade is under way. Hardwood prices are stiffening. The cut this year will be unusually light, and it is probable that a scarcity of certain kinds will be encountered in the fall. Large shipments of birch have been made to the Eastern States, for which satisfactory prices were received. Shingles are in brisk demand, although the new production has had a weakening influence on prices. In Toronto XXX white pine, 16-inch, are selling at $3.50, and cedar shingles at $2.75. The scarcity which has prevailed for some time in the supply of the standard sizes of lath has brought 32-inch lath into some prominence. These are now being held by mill men at $1.40 to $1.50, whereas last year the quotation was $1.00.

QUEBEC AND NEW BRUNSWICK.

The volume of the spruce lumber business this season has been quite up to the average, although smaller shipments have been made to Great Britain. The Eastern States are buying quite largely of clap boards. A considerable quantity of lumber has also been exported to South America, and it is expected that the exports of lumber to that conntry will show an increase in future on account of a rearrangement of the lumber duties. The duty on pitch pine has been increased to $11 per thousand, whereas the former duty was 15 per cent. ad valorem, equal to about $4 per thousand. Thus Canadian lumber will have a material preference over pitch pine in the South African market.

Everything points to higher prices for cedar shingles. A few sales are still being made on the basis of $3.50 for extras and $3.00 for clears, Boston delivery, but the largest manufacturers are obtaining $3.60 without difficulty. The mills are behind with orders, and the situation seems to warrant at least $3.60 for extras. The market for white cedar shingles is gradually widening, and they are now looked upon as a strong competitor to the white pine variety.

MANITOBA AND BRITISH COLUMBIA.

Continued rains throughout Manitoba and the Territories for the past week have had a depressing effect upon general business. Little damage, however, has been done to crops, and present prospects are for an abundant yield. A general advance of $1 per thousand on white pine lumber has been made, the increase being due to a heavy demand, coupled with excessive cost of logs and labor. Favorable reports continue to be received regarding the lumber industry of British Columbia. The declaration of peace in South Africa is regarded as very favorable to the export trade, and will no doubt result in the resumption of shipments to that country.

UNITED STATES.

It was expected that by midsummer the white pine mills in the Lake Superior district would have accumulated considerable stock. This period is now reached and finds the mills with very little stock that has not already been contracted for. The demand has consumed the production, with the result that prices have been maintained with ease. There is an easier feeling in low grade boards than in anything else, but even these are not expected to decline in the face of the existing demand. The situation in the east is to a large extent dominated by the coal strike, which may extend to the entire coal mining industry of the country. In this event all branches of industry, including lumber, would be at least temporarily influenced. Chicago dealers are receiving quotations of $15 on pine piece stuff at Lake Superior mills, which would make it about $17.50 Chicago delivery. The last sales that have been made of No. 4 boards were effected at $12.50 to $13. Buffalo reports

a scarcity of 10-inch box lumber and barn grades. The spruce market continues firm, with the larger dimensions very strong. It is believed that no lower prices will rule on spruce during the summer. Prices of hemlock have been well maintained on the basis of $16 at New York. In Chicago sales of green hemlock are being made around $11 delivered by water, the dry selling 50 cents higher. Hardwoods are holding their own, with dry birch and basswood scarce and strong. Black ash is also in good demand. Orders are being placed quite freely for lath and shingles. Spruce lath is a little weaker and is selling in the Albany market at $3. At Buffalo there is a tendency to use the 32-inch length, which sells at $2 per thousand.

GREAT BRITAIN.

The outlook for lumber in Great Britain is steadily improving. Prices are higher than they were one year ago, while the Board of Trade returns show that for the five months ending May 31st the import of sawn lumber was about 200,000 loads less than in the corresponding period last year. In view of these conditions, lumber is likely to seek a higher price level before the end of the year. A favorable feature is the information received from Sweden that the log production last winter was over 600,000,000 feet less than during the previous winter. Baltic shippers believe that the turning point has been reached, and in some cases they have withdrawn their stocks from the market. According to the dock returns the consumption in London has been especially lively, the last week under review showing an increase of some 1000 standards of deals, battens and flooring. The c.i.f. market for spruce is distinctly firmer. Of the Quebec timber which has reached Liverpool deliveries have been on a very satisfactory scale, large quantities having been sent direct into consumption ex quay. The demand for lumber for shipment to South Africa has as yet been of small volume, but it is believed that eventually an extensive market will be developed there.

STOCKS AND PRICES.

The steamer Laura is loading deals at St. John, N.B., for the United Kingdom.

The steamer Magda is loading a cargo of deals at Montreal for the United Kingdom.

Receipts of shingles at Buffalo for the week ending June 14th were 6,462,000, and of lumber only 1,919,000 feet.

J. R. Edger, of the Interior Lumber Company, Pittsburg, Pa., has recently been in the Ottawa district in search of pine lumber and lath.

The council of Fort William, Ont., are this week taking tenders on the supply of one hundred cedar poles, 45 feet long, fifty 40 feet long and fifty 35 feet long.

The timber limits of Alger, Smith & Company, on Pigeon River, west from Lake Superior, will probably be sold to the Pigeon River Lumber Company, of Port Arthur, Ont.

In the Saginaw valley 18-inch white pine shingles are bringing $4 for No. 1 and $3 for No. 2, and 16-inch stocks $3.05 and $2.45. Cedar shingles are held at $3.90 and $2.90 for 18-inch and $2.85 and $2.25 for 16-inch.

Lewis, Miller & Company, of Millerton, Nfld., are prepared to let contracts to log one million to five or ten million feet of pine and spruce per annum on the Red India Lake, Nfld. Contracts will be given for one or several years.

Tenders are invited by the Department of Public Works, at Ottawa, up to July 8th, for the supply of poles for the construction of about 125 miles of telegraph lines in Nova Scotia and Cape Breton. Particulars may be obtained from F. Gelinas, Secretary of the Department.

E. R. Tobin, M.P., of Brompton Falls, and F. M. McCrae, of Sherbrooke, Que., are reported to have purchased the Lotbiniere county lumbering interests of King Bros., Limited, of Quebec. The property comprises about 100 square miles of timber limits and 30 miles of railroad, with equipment. The price is said to have been $250,000.

The following quantities of timber of the past winter's cut have reached Ottawa en route to Quebec: Hurdman & Company, 75 cribs, 90,000 cub. ft; Gillies Bros., 95 cribs, 110,000 cub. ft; Munro Lumber Co., 308 cribs, 390,000 cub. ft. The following will arrive very shortly: Rideau Lumber Co. 90 cribs, 110,000 cub. ft; Hurdman & Co., 125 cribs, 150,000 cub. ft.

The Manchester Timber trade Association furnishes the following particulars of the stocks of timber at Manchester:

Description.		May 1st, 1902.	June 1st, 1902.
Hewn pitchpine	logs,	269	249

Baltic redwood deals	"	900	692
Baltic whitewood deals	"	53	54
Baltic flooring boards,&c.	"	2,269	2,211

At Buffalo there is some stir in slack cooperage stock on account of the promise of a good apple crop, while the flour barrel trade is better than it usually is. Hoops are scarce and the price promises to be higher before long. Elm staves are stronger. Coiled hoops are quoted at $9.50 to $10.00 for 6-foot and $9 to $9.50 5½-foot. Elm flour barrel staves bring $7.75 to $8 for first-class and $4.25 to $4.50 for second-class. Basswood heading is unchanged at 5½ cents for first-class and 3¾ cents for second-class.

White cedar shingles are selling in Chicago at $2.75 to $2.80 by water and $2.85 to $2.90 by rail. Recent sales of car load lots of lath have been made there at $3 50 for No. 1 mixed delivered.

Alfred Dobell & Co., Liverpool, refer to the market for Canadian woods as follows: The stock of prime waney board and square pine is practically exhausted, and new arrivals will meet a good market. First quality oak continues to diminish, and improved values are current. The stock of prime rock elm is exhausted, and fresh wood is wanted. Arrivals of birch logs have been liberal and the consumption fair. Planks are still excessively stocked, and no improvement in prices can be reported. The market is over-stocked with lower grades of pine deals and boards, but the supply of the best quality is short. Considerable sales of New Brunswick and Nova Scotia spruce deals for forward delivery are reported. The market is firm and stocks moderate, standard sizes being very scarce.

Cerning the Barbadoes market Messrs. S.P. Musson,Son & Company say: "The only arrival to note in lumber is the "Ophelia," from Shelburne, N.S., on the 2nd inst., with 114,000 feet of white pine, which was placed at $26.22 for shipping and about $20.70 for second quality. In spruce no arrival has taken place, but we have sold a cargo on c. i. f. terms, for shipment this month. The conclusion of the war in South Africa may result in the abandonment of work for Boer prisoners, in which case there will, no doubt, be an almost total cessation of demand for all kinds of lumber. The only receipts of shingles are a lot of Laying Cedar, 500,000, by the "Bratsburg," in fulfilment of contract; 12,000 Long Gaspe, which have been sold at $4.95, and 50,000 dimension, which brought $4.55 for 4-inch, $6.75 for 5-inch, $7.75 for 6 and 7-inch, and $8.35 for 8-inch."

About 10,000,000 feet of lumber is being cut in the Georgian Bay district for the Eastern Lumber Company at Tonawanda. The Skillings, Whitney & Barnes Lumber Company have also contracted for a large block to be shipped to their yard at Ogdensburg, N. Y.

BRITISH TIMBER IMPORTS.

The Board of Trade returns show that the imports of timber into the United Kingdom for the first five months of the year were considerably less than during the same period in 1901. The official figures are as follows:

Timber (hewn)	1901 Loads	1902 Loads
Russia	76,908	85,878
Sweden	193,156	167,316
Norway	154,536	135,706
Germany	107,795	78,974
United States	66,951	67,075
British E. Indies	16,854	20,104
Canada	6,740	6,248
Other countries	366,345	404,894
Total	1,019,285	966,225
Timber sawn or split, planed or dressed.		
Russia	150,777	97,955
Sweden	283,446	165,080
Norway	233,380	243,349
United States	228,431	209,884
Canada	168,113	181,063
Other countries	59,224	50,518
Total	1,123,371	947,849
Total of hewn and sawn.	2,142,656	1,914,074
Staves (all sizes)	36,436	35,338
Mahogany (tons)	27,656	26,204
Other sorts	97,646	89,687

The following table shows the decrease in imports of timber for the first five months of 1902, as compared with the similar period in 1901:—

Timber	Decrease loads.
Hewn	53,060
Sawn	175,522
Staves (all sizes)	1,098
Mahogany (tons)	1,452
Other sorts	7,959

BRITISH TIMBER SALE.

The following is the result of a timber sale held by Churchill & Sim, London, England, on June 11th:

PINE.—Ex. Scottish King, from Montreal—14-18 ft. 3 x 11 in. red, £18 15s per std. Ex. Everingham, from Miramichi, N. B.—11 ft. 3x11 in. third quality, £8 10s.

SPRUCE.—Ex. Riplingham, from Chatham, N.B.—15-16 ft. 2½x7 in. unassorted, £7 5s. Ex. Annie M. Smull, from Rimouski, Que.—6-16 ft. 3x11 in. first quality, £11 10s; 7-16 ft. 3x9, £11 5s; 14-16 ft. 3x7, £11. Ex. Evangeline, from St. John, N. B.—19-23 ft. 3x7 in. first, second and third quality, £7 5s. Ex. Anna Camp, from Quebec—10-19 ft. 2x9 in. unassorted, £8 15s; 10-20 ft. 2x8, £8 10s; 10-22 ft. 2x6, £6 15s; 6-8 ft. 2x4-9, £6. Ex. Simonside, from Quebec—1014 ft. 2x6 in. third quality, £6 10s and £6 15s; 11-14 ft. 2x5, £6 5s; 10-13 ft. 2x5, £6 5s. Ex. Courant, from Pentecost, 12 ft. 2x6 in. unassorted, £7. Ex. Coringa, from Quebec, 12-14 ft. 3x9 in. fourth quality, £9 5s; 10-14 ft. 3x7, £7 5s and £7 10s. Ex. Nyanga, from Quebec—10-13 ft. 3x10 in. third quality, £9 5s; 10-16 ft. 3x6, £7 and £7 5s; 10-16 ft. 3x5, £6 10s. Ex. Yoruba,from Quebec—13 ft. 3x9 in. fourth quality, £9 and £9 5s. Ex. Iberian, from Quebec, 10-16 ft. 2x4 in. unassorted, £6 15s; 7-16 ft. 2x4, £7.

BIRCH.—6-18 ft. 3x13-16 in., 9d per cub. ft.; 3-18 ft. 3x12, 8½d.

BRITISH COLUMBIA LUMBER SHIPMENTS.

The following cargoes of lumber were shipped from British Columbia to foreign countries during the five months ending May 31st, 1902:

From	For	Cargo—Ft.
Chemainus	South Africa	1,300,011
Chemainus	Melbourne	1,137,861
Hastings	China and Japan	142,516
Hastings	Yokohama	25,404
Hastings	Shanghai	653,509
Hastings	Wilmington, Del.	875,843
Hastings	Ostend, Belgium	956,449
Chemainus	Sydney	1,166,082
Hastings	Sydney	1,251,030
Hastings	Freemantle	595,669
Hastings	Iquiqui	879,020
Hastings	Sydney	1,087,562
Hastings	Taku	1,380,414
Chemainus	Adelaide	1,378,381
Hastings	U.K	1,080,573
Hastings	Delagoa Bay	1,090,233
Chemainus	South Africa	1,665,061
Chemainus	Adelaide	1,508,402
Chemainus	Sydney	731,419
Chemainus	Sydney	849,427

BIRCH SQUARES AND SEATS.

A large buyer of Birch chair seats and of Birch squares is open to contract with a mill for their output. Also open for Broom Handles and Dowels in large quantities. Write in first instance to "Finance," care of CANADA LUMBERMAN.

Orillia Planing Mills

and Sash and Door Factory

Near G. T. R. Station.

PLANING, MATCHING AND RE-SAWING

Done in any quantity. We guarantee satisfaction. Write for prices. Address,

S. POMEROY, Box 428, Orillia.

TO THE LUMBER TRADE

Our mill No. 2, erected for the purpose of manufacturing special bill timber, is fast nearing completion. After June 15th we will be in a position to furnish special bills in White Pine, Red Pine or Fir, in any length up to sixty feet. Specialties: White Pine Ship Timber and Decking, Bridge and Car Timber.

Send us your inquiries.

The Cleveland-Sarnia Saw Mills Co., Limited

SARNIA, ONT.

TIMBER STATEMENT.

Following is a comparative statement for three years of the timber, etc., measured and culled at the port of Quebec up to 10th June, 1902, as reported by the Supervisor of Cullers:

	Cu. ft. 1900	Cu. ft. 1901	Cu. ft. 1902
Waney white pine	457,074	278,537	1,1 6,417
White pine	165,312	58,153	199,854
Red pine	6,926	361	41,565
Oak	210,181	179,421	169,529
Elm	330,458	321,412	359,465
Ash	55,749	77,923	33,858
Basswood		332	
Butternut	92	462	
Tamarac		22	
Birch and Maple	284,065	285,322	83,898

WHITE PINE IN LAKE SUPERIOR DISTRICT.

Reviewing the lumber situation on the upper lakes the Mississippi Valley Lumberman says:

"The past week has seen an increase in the demand for white pine lumber and if the succeeding weeks show like gains a substantial volume of business will characterize the July market. All the manufacturers report that the number of inquiries has grown greatly, doubtless caused by the curtailed stocks in retail hands and the knowledge that lumber is becoming more plentiful on this market. The present demand is of normal proportions, but a shortage in many items prevents its total volume being shown in the local shipments. Crop conditions in the country are most promising and visiting retailers on this market in most cases predict a large trade. The last government summary of crop conditions states that corn has made rapid growth and in most sections a good crop is promised. Winter wheat has made generally favorable progress. Spring wheat has been damaged in flooded valleys of Iowa, but in the dry portions of the state and through the rest of the wheat region, is in excellent shape. The oat crop has advanced favorably and with the exception of a few localities, promises good returns.

"With the current normal demand and the excellent prospects for a large trade the remainder of the year, added to the short stocks, it is not surprising that white pine prices should remain firm with no prospects for a decline soon. Not even rumors of concessions have been heard of, which in itself would indicate great strength. Buyers admit the situation could hardly be stronger and are more concerned in getting orders filled than in prices. The higher grades, as finish, siding, etc., are in small supply, as are also long dimension."

THE BOSTON MARKET.

For schedules the spruce lumber market at Boston is all right. The big mills have a good many orders, and continue to take orders at quotations. Spruce sidings, planed one side, are scarce and very firm. But small randoms are easy, and have to be sold low. It is known that the high prices of spruce have induced manufacturers to saw small pulp logs into lumber, and such lumber is easy; in fact, dull and easy on all small randoms: Ten and 12 inch dimensions, $20 to $22; 9-inch and under, $19 to $20; 10 and 12 inch, random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $16.50 to $18; 5-inch and up, merchantable boards, $17; matched boards, $19 to $20; out spruce boards, $13.50 to $14; bundle furring, $17 to $18.

Hemlock continues very firm: Boards, 12, 14 and 16 feet stock, $15 to $15.50 for good eastern; random eastern, $14 to $14.50; Pennsylvania, No. 1, $16

WHOLESALE LUMBER
Montreal - - Canada
Have at present for sale at various points of shipment, by either rail or water route, on the Ottawa River, pine cuttings of different grades from seasons 1900 and 1901. Will ote upon small lots or heavy blocks
Correspondence Solicited

to $17.50; No. 2, $15 to $15.50.

White pine is very firm, with a good demand. Still stronger reports come from the west. Dealers say that the supply is growing less very rapidly: Uppers, 1-in., $75 to $80; 2½ and 3 in. $80 to $85; 4-in. $85 to $88; selects, 1 to 1½ in. $68; 2-in. $69 to $70; 2½ to 3 in. $74 to $76; 4-in. $79 to $80; fine common, 1-in. $60 to $63; 1¼ to 1½ in. $64 to $66; 2-in. $68 to $70; 2½ and 3 in. $69 to $71; 4-in. $80; barn boards, $23 to $33; coffin boards, $27 to $32.

Hardwood lumber is in very good demand, with the market strong: Quartered oak, $64 to $66; plain oak, $41 to $45; common and rejects, $20 to $25; whitewood, $42 to $43; sap and common, $30 to $35; brown ash, $41 to $44; white ash, $43 to $46; maple, $28 to $30; end-dried white maple, $38 to $42; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Shingles are firm for the present at least, with lots of orders not yet caught up with. Considerable losses of shingle logs are reported, on the recent high water: Extra cedar, $3.50 to $3.60; clear, $3 to $3.10; second clear, $2.50; extra No. 1, $1.90 to $2; Washington and British Columbia red cedar, 16-inch, five butts to 2 inches, $3.75 to $3.80; 18-inch, $4.25 to $4.50; California redwood, $3.70 to $3.75.

Clapboards continue in very small supply and remarkably firm: Clear, $36 to $38; second clear, $33 to $35; extra No. 1, $24 to $26; California redwood clear, $42.50 to $45; second grade, $40 to $42.

Laths are about steady at $3.15 to $3.20 for 1⅝-inch; 1½-inch $2.95.

From Shediac, N. B. : Barque Alf, for River Mersey, deals, etc., value $6,500, by J. L. Black & Sons

---

A saw and shingle mill owned by James McNair, and situated at Red Rapid, N.B., on the Tobique river. was destroyed by fire last week. There was no insurance.

Fire in the lumber yard of G.A. Grier, 2,204 Notre Dame street, Montreal, last week caused a loss of about $20,000. Over a million feet of lumber was destroyed.

WANTED

MESSRS. JOSEPH OWEN & SONS, Ltd., of Liverpool, Eng., are open to treat for regular supplies of large quantities of HARDWOOD LUMBER, and will be glad to hear from holders who have to offer WHITE ASH, WHITE OAK, SCALY BARK and SECOND GROWTH HICKORY, POPLAR and WALNUT, in logs, planks and boards, also primefresh BIRCH LOGS of large dimensions.

SPICER SHINGLE MILL CO., LIMITED
MANUFACTURERS OF
Red . . Cedar Shingles
VANCOUVER, B. C.

Another Little Mill

There will be over a million feet of sawn lumber used in this one plant for construction only ; over 30,000 lin. feet of piling, besides rock foundations two car-loads of shingle machines only ; over 7 miles steam pipe 1 1-2 inch and up in diameter. A summary of all the material that will be used in the construction of this plant shows that there will be over 320 car-loads, or 21 trains of 15 car-loads each.

With all our past experience in the shingle business, of which we make a specialty, and with all the latest and best improvements in machinery and mill construction, we expect it to be the most complete and up-to-date mill in North America, where shingles can be made better than in the ordinary mill

The above plant will be in operation about the first of June, and although this mill will have a daily (24 hours) capacity of 1,250,000 shingles, the dealers and consumers need not be afraid of any particular surplus, but can rest assured that there will be one firm on the coast manufacturing red cedar shingles from whom they can get their wants supplied in a hurry with that old reliable "Hastings Brand" so much talked about.

CUSTOMERS' ATTENTION. — Please take notice that on the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles ended. Until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield, of Winnipeg, Man., for Manitoba and the North-West ; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

Shingle Mill, Hastings, B.C.; Lumber and Shingle Mill, Vancouver, B.C.; Shingle Mill, New Whatcom, Wash.; Shingle Mill, Sumas, Wash.; Shingle Mill, Carroll Siding, Wash.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, ONT., JULY 2, 1902 No 22

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the "Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of six 2 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED—A RAFT OF PINE LOGS ON Georgian Bay; apply at once to Box 20, CANADA LUMBERMAN.

WANTED FOR A MILL IN BRITISH COLumbia: 1 man to joint and one man to pack shingles. Apply to G. O. BUCHANAN, Kaslo, B. C.

St. Johnsbury, Vt.

CURRENT TRADE CONDITIONS.

ONTARIO.

July and August are usually quiet months in the lumber business. Consumers have by that time supplied their nearby requirements, and dealers are content to relax their efforts to sell lumber and prepare for fall trade. Consequently it is often a period of temporary weakness in prices. It remains to be seen what the coming two months will bring forth. If prices are to recede, there should be some indications at the present time of such a movement. But, on the contrary, everything points towards higher prices. Our Toronto price list this week shows an advance of about one dollar on common, mill run and flooring. This is owing to the fact that no old stock is now coming in and the value of the new cut has been advanced by the heavy buying that has taken place.

The condition of the crops in Ontario is good and should do much towards maintaining the degree of general prosperity now prevailing, in which case lumber will continue to be in active demand.

Hardwood lumber is showing exceptional strength. The light production this season is apparently recognized by buyers, who are in almost every case meeting the manufacturer's price. Basswood is a very scarce article, and any manufacturer having a quantity which he desires to market should make the fact known. Dealers are meeting great difficulty in finding a supply to fill orders. In Toronto 1½ and 2 inch basswood has sold as high as $26 per thousand. White ash is also wanted at higher prices, and elm is in good enquiry.

QUEBEC AND NEW BRUNSWICK.

The spruce lumber market is gradually strengthening. Clapboards have been bought up as fast as manufactured, and if the demand continues there will be very little stock available for the late fall and winter trade and a further appreciation in price may take place. Manufacturers report numerous inquiries for British deals, which bring about $14 per thousand alongside vessel for a cargo of about 50 per cent. 7 and 8-inch, 15 per cent. 11-inch, and balance 9-inch x 3-inch. SouthAmerican lumber is worth $14.50 per thousand with 15 per cent. 12-inch and 50 per cent. 6-inch. Some sales of deals for shipment to France have been made recently. Nova Scotia spruce scantlings and boards are finding a ready market at $8 to $9. It is estimated that the production in Nova Scotia is sold up to September, and as the mills usually cease operations about October 1st, there will be very little stock to be carried over the winter by manufacturers. The tendency of prices is higher, owing to the greater cost of production, but it is probable that they will remain at about the present level, as a further advance of any account might curtail the demand. Spruce prices are now higher than pitch pine at points of production. Cedar shingle prices have not weakened in the least. Extras are being being sold at $3.50 to $3.60, clears at $3 to $3.10, and second clears and saps at $2.40 to $2.50, Boston delivery.

MANITOBA AND BRITISH COLUMBIA.

The outlook for crops in the North-West could scarcely be better. The wet weather of a fortnight ago has given place to favorable harvesting weather, and busi-

ness generally has improved in response to better conditions. There is much building in progress and lumber is going into consumption actively. Several advances in prices have been made. Under the new white pine list, first common pine boards are quoted at $25 for 12-inch and $24 for 8 and 10-inch, while the corresponding prices for second grade are $20 and $19. There has also been an advance of $1 per thousand in the wholesale price of British Columbia fir lumber, and of $2 per thousand in the price of cedar. The higher price of British Columbia cedar shingles which went into effect two months ago have been maintained without difficulty. The movement is quite brisk and the mills are behind with orders.

UNITED STATES.

Farmers are now busily engaged with their crops, and for that reason are not purchasing lumber in any quantity. The consumption for building purposes in the cities is as heavy as ever, the record of building operations for May showing a substantial gain over the corresponding month of the previous year. The movement of lumber, taken as a whole, is entirely satisfactory. The eastern requirement is large, and notwithstanding the labor troubles in the anthracite mining district, a considerable quantity of lumber is finding a market there. A report just received from Pittsburg states that the outlook is for an early advance in the price of lath. Stock is more plentiful in eastern wholesale centres than it has been for months, but there is still a scarcity of some grades owing to the fact that dealers have not yet been able to get their lumber shipped from the mills. At Buffalo and Tonawanda slight advances have been made on some of the better grades within the past week. No. 1 and No. 2 barn in 12-inch has been advanced 50 cents. In Chicago dealers are experiencing greater competition than earlier in the year, in consequence of which prices have been shaded in one or two instances. A cargo of common inch pine, practically No. 2, but with 10 per cent. of No. 1 and 15 per cent. of No. 3, was sold last week from $17.50 to $18. Piece stuff is reasonably firm at $15.50 for short and $17.50 for long. Spruce lumber is strong with the exception of small randoms, the demand for which has been curtailed by the recent strikes in the New England States, which have interfered with the class of building in which they are used.

GREAT BRITAIN.

The lumber market of Great Britain remains steady. The volume of business is not unusnally large, but it is encouraging to learn that Canadian spruce and pine lumber has held stronger than almost any other class. Cargoes of spruce have been sold at £7 10s to £7 12s 6d c. i. f. Liverpool for New Brunswick stock. The former price is for inferior specifications and the latter for the usual proportion of 10 per cent. 3 x 11. At recent auction sales high prices were obtained for spruce, third quality bringing £9 10s and fourth quality £9. What effect the postponement of the Coronation celebration will have upon the lumber market is yet unknown, but it has involved considerable loss to persons who had invested heavily in undertakings of various kinds.

Accurate figures have been compiled showing the reduction in the log production in Sweden last winter. The total number of logs taken cut by one hunured of the leading firms was 18,930,430, as compared with 31,735,503 in the previous winter. This is a reduction of about 40 per cent., which, taken in conjunction with the lessened quantity of lumber for export from Canada to Great Britain, should cause an all-round advance in prices. The fact that freight rates are so low is an indication that there is no great quantity of lumber awaiting shipment. A steamer has been chartered at 30s from St. John, N. B., to Liverpool, which is about the lowest rate on record.

STOCKS AND PRICES.

Extra cedar shingles are selling at $2.80 delivered in Chicago.

Owing to the water rising at St. Francis, N.B., a number of cedar logs were carried away.

The Newville Lumber Company, of Parrsboro, N.S., shipped 171,381 feet of scantling to Vineyard Haven last week by the steamer St. Bernard.

The steamer Mechamician sailed from St. John, N. B., last week for Liverpool with 1,500 standards of deals and a quantity of box shooks and pulp.

All the logs cut on the St. John river and its tributaries are now believed to be in safe quarters except 3,000,000 feet for Stetson, Cutler and Company.

It is reported that the Cook-Lummis Company have sold their cut, estimated at over 25,000,000 feet,to Mershon, Schuette, Parker & Company, of Saginaw.

The steamer Inishowen Head sailed from Montreal last Saturday for Davenport and Plymouth, England, with a cargo of timber and deals for the Imperial Government.

Eddy Bros. & Company, of Blind River, Ont., are reported to have sold the Norway lumber in their stock to Walworth & Neville, of Bay City. It is estimated at 4,000,000 feet.

The Tobique Manufacturing Company, of Plaster Rock, N.B., have shipped in the past two weeks fifty cars of lumber. Their cut this season will be about 5,000,000 of spruce and 25,000,000 shingles.

McArthur Bros. & Company, of Little Current, Ont., are operating their mill day and night, cutting their own stock and about 2,000,000 feet for the Edward Hines Lumber Company, of Chicago. The mill will cut about 30,000,000 feet this season.

L. H. Swan & Company, of North Tonawanda, have bought the balance of the stock, 750,000 feet of white pine, which was purchased by Montgomery Bros., of Buffalo,from the Clark-Swan-Jackson Company. Swan & Company have also bought the remainder of Shepherd & Morse's stock of white pine, nearly 1,000,000 feet.

N. N. Wright & Company have been cutting 5,000,000 feet of logs at Cutler, Ont., for Frank Perry, the stock being sold to E. B. Foss & Company, of Bay City. About 5,000,000 feet will be cut for Pitts & Company, which has been purchased by Prescott & Company, of Cleveland. The Spanish River Lumber Company's mill will cut 16,000,000 feet for Foss & Company, of Bay City.

DOORS AND MOULDINGS.

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in first instance to "Empire," CANADA LUMBERMAN.

PRICE OF B. C. SHINGLES.

VANCOUVER, B.C., June 23, 1902.

Editor CANADA LUMBERMAN:

DEAR SIR,—I notice in your weekly issue of June 4th, that a correspondent who signs himself as "One Interested" takes objection to my letter in your monthly edition of June in relation to the price of B.C. shingles in Ontario. Your correspondent is quite correct in stating that the prices were advanced 15 cents a thousand about April 1st. Now, while this statement is quite right in this respect, at the same time it is a fact, which I have no doubt all the manufacturers in B.C. very much regret, that practically all the shingles which have been sold so far in Ontario this year have gone on the market at last year's prices, and I have very grave doubts if more than a few car loads have been sold at the advanced price. The simple reason of this is that about all the mills had contracted their shingles before the advance at the old price. This is, of course, unfortunate for the manufacturers, but it is nevertheless true.

Yours truly,

S. H.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN).

The June activity in the local lumber market was fairly well pronounced. The railway report a good movement of lumber to Montreal for export, and consignments for points in the States are numerous. While the mining and other industrial strikes across the line had a depressing effect on the lumber trade with the New England States, the demand from other States comprising new territory is quite strong.

Generally speaking, the business can be said to have a buoyant tone. The voice of the chronic kicker is heard in the land, but the majority of the mill men and operators speak well of the present and hopefully of the future. While prices have not advanced they have not declined, and it would appear as if they had reached a limit. Be this as it may, the trade does not seem to fear an early decline. Inquiries for good stock continue to roll in with every mail and there will be "doings" when the present season's cut is ready for shipment.

Mr. George H. Fowler, Lumber Agent of the C.P.R., reports a brisk movement of telephone and telegraph poles,a movement in advance of that of previous years. From points on the Pontiac and Gatineau branches and Buckingham, Araprior and Ottawa the "long fellows" are being shipped in large numbers.

Other stock that is moving freely from points in the vicinity of Ottawa is wood pulp and lath. The wood pulp is bound for mills in New York State. The lath is consigned to points in Pennsylvania and Ohio. While this year's cut of lath is being handled in large quantities, shippers are still busy with last year's cut. There is a brisk movement of lath from Rockland. The Interior Lumber Company, of Pittsburg, Pa., last fall closed a deal with the W. C. Edwards Company for two millions and a half of lath cut at the Rockland mill. This stock is being shipped now. J. R. Wheeler, a lumber operator of the same American city, closed a big deal with the Hawkesbury Lumber Company for a large stock of lath, which is now being shipped from the Hawkesbury yards.

"Everything is moving along O.K., there's no chance for a break in prices." This parting shot from a well known operator sums up the situation.

The tributaries of the Ottawa are full of logs these days, and the main stream has received several of the drives. A large quantity of pulp wood is in sight ready for the saws. The Rouge river, which enters the Ottawa on the Quebec side at Calumet village, is literally floored with logs and pulpwood. The logs belong to Mr. George H. Perley, who operates a large mill night and day at Calumet. This mill was formerly operated by the Ottawa Lumber Company. Last winter Mr. Perley overhauled it and fitted it up anew. The pulp wood on the Rouge river belongs to the Riordan Paper Company, of Hawkesbury. Mr. Thos. Mackey, M.P., who was in the city this week, reports the mills in and about Pembroke doing a rushing business. Steady rains have brought along the drives which were in the early part of the season accepted as abandoned for this year at least. The same report applies to the Coulonge, Gatineau and Black rivers.

Mr. W. A. Sheriff, slide master at Chats Rapids, states that fully two-thirds of the present season's cut of square timber has passed down the Ottawa river en route to Quebec. He figures that fully 590,000 cubic feet of square timber has passed down in cribs, with 250,000 feet to follow, making 840,000 feet to traverse the water route this summer. So far 478 cribs have been moved.

This year's movement of square timber has been the best and largest in recent years. The timber taken out by Mr. Hurdman is, according to knowing ones, of the first quality. Much of the timber is being handled by Dobell, Beckett & Company for export to England. It is there used largely in pattern making.

The square timber trade has an advantage over the saw mill business, as it gives quick cash returns. The monetary equiv-

alent leaves Quebec the day the timber arrives. A delay of a year or so often confronts the man who saws his lumber and allows it to season. He has also to run the risk of seeing his logs hung up for a considerable period if the weather conditions are not favorable.

The St. Anthony Lumber Company, operating at Whitney, on the Western or Parry Sound division of the Canada Atlantic Railway, is building a branch railroad 15 miles in length. It will run from Opeongo to Whitney and will be used for the purpose of conveying logs from the company's limits to the mill. The Canada Atlantic Railway Company is building 25 flat cars at its car shops in Ottawa for use on the new road. This is the second distinctive lumber road on the western division, Mr. J. R. Booth having one extending from Madawaska to his limits. He is thus able to convey logs during the winter season and the St. Anthony Lumber Company will likely follow suit.

A few days ago 111 cribs of timber belonging to Munro & McCool, of Pembroke, and valued at $150,000, were seized at a small village on the St. Lawrence river near Quebec City. The seizure was made at the instance of four river men who claimed they were dismissed at Ottawa while a balance of $85 was due them. As the firm was anxious to rush the timber to Quebec the costs of the seizure and the back bill of wages were paid and the release of the lumber thus secured.

ORDERS PROMPTLY FILLED

GILMOUR & COMPANY, LIMITED
TRENTON, CANADA

THE BOSTON MARKET.

Spruce lumber is in better request at Boston for schedules. For a couple of days the past week orders were very brisk, with an improved inquiry all the time. Prices are thoroughly maintained on frames, with the mills having a good many orders. The lots of small and short random recently shipped here, that had to be sold, have been pretty well worked off. Such randoms are still weak, however: Ten and 12 inch dimensions, $20 to $22; 9-inch and under, $19 to $20; 10 and 12 inch, random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $16.50 to $18; 5-inch and up, merchantable boards, $17; matched boards, $19 to $20; out spruce boards, $13.50 to $14; bundle furring, $17 to $18.

Hemlock lumber is very firm, with offerings small; Boards, 12, 14 and 16 feet stock, $15 to $15.50 for good eastern; random eastern, $14 to $14.50; Pennsylvania, No. 1, $16 to $17.50; No. 2, $15 to $15.50.

All the firmness in white pine is continued: Uppers, 1-in., $75 to $80; 2½ and 3 in. $80 to $85; 4-in. $85 to $88; selects, 1 to 1½ in. $68; 2-in. $69 to $70; 2½ to 3 in. $74 to $76; 4-in. $79 to $80; fine common, 1-in. $60 to $63; 1¼ to 1½ in. $64 to $66; 2-in. $68 to $70; 2½ and 3 in. $69 to $71; 4-in. $80; barn boards, $23 to $33; coffin boards, $27 to $32.

Hardwood lumber continues in good demand, with the position firm: Quartered oak, $64 to $66; plain oak, $41 to $45; common and rejects, $20 to $25; whitewood, $42 to $43; sap and common, $30 to $35; brown ash, $41 to $44; white ash, $43 to $46; maple, $28 to $30; end-dried white maple, $38 to $42; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Shingles continue firm, with the supply yet small. The demand is not large but well up to the supply: Extra cedar, $3.60; clear, $3.10; second clear, $2.50; extra No. 1, $1.90 to $2; Washington and British Columbia red cedar, 16-inch, five butts to 2 inches, $3.75 to $3.80; 18-inch, $4.25 to $4.50.

Clapboards are yet in small supply with a very firm market: Clear, $36 to $38; second clear, $33 to $35; extra No. 1, $24 to $26.

Laths are steady at $3.15 to $3.20 for 1⅝-inch; 1½-inch $2.95.

The flour and saw mills of the Wolverton Milling Company at Wolverton, Ont., were totally destroyed by fire last week. The loss is about $25,000.

The assignment is reported of A. Gagnon & Company, lumber and general store, Victoriaville, Que.

WANTED

MESSRS. JOSEPH OWEN & SONS, Ltd., of Liverpool, Eng., are open to treat for regular supplies of large quantities of HARDWOOD LUMBER, and will be glad to hear from holders who have to offer WHITE ASH, WHITE OAK, SCALY BARK and SECOND GROWTH HICKORY, POPLAR and WALNUT, in logs, planks and boards, also primefresh BIRCH LOGS of large dimensions.

SPICER SHINGLE MILL CO., LIMITED

MANUFACTURERS OF

Red . . Cedar Shingles

VANCOUVER, B. C.

Another Little Mill

There will be over a million feet of sawn lumber used in this one plant for construction only; over 30,000 lin. feet of piling, besides rock foundations; two car-loads of shingle machines only; over 7 miles steam pipe 1 1-2 inch and up in diameter. A summary of all the material that will be used in the construction of this plant shows that there will be over 320 car-loads, or 21 trains of 15 car-loads each.

With all our past experience in the shingle business, of which we make a specialty, and with all the latest and best improvements in machinery and mill construction, we expect it to be the most complete and up-to-date mill in North America, where shingles can be made better than in the ordinary mill.

The above plant will be in operation about the first of June, and although this mill will have a daily (24 hours) capacity of 1,250,000 shingles, the dealers and consumers need not be afraid of any particular surplus, but can rest assured that there will be one firm on the coast manufacturing red cedar shingles from whom they can get their wants supplied in a hurry with that old reliable "Hastings Brand" so much talked about.

CUSTOMERS' ATTENTION. — Please take notice that on the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles ended. Until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield, of Winnipeg, Man., for Manitoba and the North-West; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

Shingle Mill, Hastings, B.C.; Lumber and Shingle Mill, Vancouver, B.C.; Shingle Mill, New Whatcom, Wash.; Shingle Mill, Sumas, Wash.; Shingle Mill, Carroll Siding, Wash.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, ONT., JULY 9, 1902 NO 23

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly A 24-page journal, discussing fully and impartially subjects pertinent to the umber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the "Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of six 2 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED—A RAFT OF PINE LOGS ON Georgian Bay; apply at once to Box 20, CANADA LUMBERMAN.

WANTED FOR A MILL IN BRITISH COLumbia: 1 man to joint and one man to pack shingles. Apply to G. O. BUCHANAN, Kaslo, B. C.

HARDWOOD WANTED.

BASSWOOD, 1, 1¼ AND 2 INCH; SOFT Maple, 1½, 2, 3 and 4 inch; Soft Elm, 3 inch; all largely 12 feet long. State lowest price f.o.b. cars. Address J. W. COLLINS, Queen's Wharf, Toronto.

DRY PINE.

WE HAVE ABOUT 1,500,000 FEET DRY PINE in 1, 2 and 3 inch common and better, prefer selling in bulk. Will quote freight rate to Buffalo, Chicago or Toronto on application. Correspondence solicited. N.B.—Would like to correspond with consumers of hardwoods. ST. JOE ISLAND LUMBER CO., Sault Ste. Marie, Ont.

SPECIAL TO LUMBERMEN.

WITH A THOROUGHLY EQUIPPED PLANING Mill at Orillia, we solicit orders for re sawing and planing of lumber, in any quantity; can match 26 inches wide; all work guaranteed first-class; prices on application. Address, NATIONAL BOX CO., Orillia, Ont.

Wante --Cedar Shingles

16 INCH AND 18 INCH, ALL GRADES, good quality, White Cedar. Would purchase mill output.

Give quantities both on hand and to be manufactured. J. G. STRAIT & SON, Wolcott, New York.

TO SPRUCE MANUFACTURERS

WANTED, FOR PERIODICAL SHIPMENT, lots of about 20 St. Petersburg Standards, seconds white spruce boards, 12ft. long and over; one inch x 7" to 11"; planed both sides and edges or both sides only. Quotations f.o.b. with particulars of shipping facilities to C. L. Jones, Post Office Contractor, Church Street, Islington, London, England.

FOR SALE.

THE ENTIRE CUT OF 1902 OF SEVERAL mills on the Ottawa Valley of all number one white pine mill culls, strips and sidings, 1" to 3" thick, and also other grades. Shipments by water or rail. Write for particulars and quotations to A. F. BURY AUSTIN, Wholesale Lumber & Timber, Room 507 Merchants Bank Bldg., Montreal. Also spruce lumber of all grades.

STANDING TIMBER FOR SALE.

600 ACRES OF CHESTNUT, WHITE-WOOD, Hard and Soft Maple, Red and White Oak, Black and White Ash, Basswood, Soft Elm, Beech; a little Hickory, Butternut and Cherry; two railroads running through property; 10M per day mill, 40x100 ft., planer and matcher, shingle machine and other machinery; large dwelling house and house for men; barn and sheds; large bearing orchard; plenty of water; splendid market for wood; best lot of hardwood in this western Ontario; good investment for enterprising man. Bismarck Station, M. C. R., West Lorne, P. O. I. C. SCHLEIHAUF.

FOR SALE

ONE STEAM POWER PLANING FACTORY; will sell cheap for cash. For further particulars apply to MITCHELL & MCRAE, Powassan, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

Everyone seems well satisfied with present conditions and with the outlook for lumber. The advances recorded last week still represent current prices. While all kinds of lumber are pointing in the direction of strength, box and common have improved more than other grades. For inch box and common from $15 to $16 at the mill is being asked, and for 2 inch wide common, 12 to 16 feet, about $16. Some of the smaller mills are quoting about $1 below these figures, but as their grading is usually not as good as in the case of the larger mills, this difference is only reasonable. Complaint is still heard that the wholesale dealers' margin of profit is too small. With 10 and 12 inch common bringing $15 to $16 at the mill and selling in Toronto at $18, there seems ground for dissatisfaction. Efforts to advance prices to the consumer so as to leave a fair margin of profit for the dealer have not always met with success. Inch mill run Norway is held at $14 at the mill for the new cut, the thicker sizes running from $14 to $18, the latter for 22 feet stock. Consumers of hardwood lumber are showing a strong disposition to contract for their requirements. The conditions seem favorable for an advance in the price of hardwoods, and this will probably take place in the fall if not before. Best quality pine shingles are selling in Toronto at $3.50, with the demand steady. Inquiries for shingles for shipment to the Eastern States are quite numerous.

QUEBEC AND NEW BRUNSWICK.

The unusual quantity of rain this season has greatly facilitated the floating of timber, and as a result practically all the timber cut on the St. John and its tributaries, estimated at 135,000,000 feet, has been brought in. The mills are therefore assured of ample supply, and are in busy operation. Market conditions continue satisfactory. An order has been received by Mr. Robert Carson of St. Martins, N. B., from Shepard, Farmer & Co. of Boston, for 300 spruce poles, 35 feet long for use as spars in the United States navy. The suitability of Bay of Fundy spruce for this purpose is likely to result in further orders. At Quebec a difficulty has arisen resulting in a strike of the dock laborers. Some of the vessels have put to sea partly loaded. The matter is under consideration by the Quebec Board of Trade. At a meeting of the Board called to discuss the matter, Hon. John Sharples gave expression to the opinion that the export trade in timber and deals from the port of Quebec is drawing to a close.

MANITOBA AND BRITISH COLUMBIA.

The outlook for an abundant harvest in the Canadian North-West continues most promising. The danger from too much rain which has marred the prospect for some weeks has now passed away. It is estimated that the production of grain will exceed that of any previous year by at least thirty per cent. bringing the total yield close to 100,000,000 bushels. With such a crop, and the assurance of a good demand at fair prices, commercial conditions in the North-West during the coming year should be of a satisfactory character. With money plentiful it can reasonably be predicted that improvements on an extensive scale involving the consumption of large quantities of lumber, shingles, etc., will be carried out. The bulk of this trade will fall into the hands of the mills in Northern Ontario and British Columbia. In this connection Minneapolis capitalists are said to be organizing a company to erect a number of elevators in the Canadian North-West and to build a large number of houses on the line of the Canadian Northern Railway.

A certain amount of damage by bush fires is reported from British Columbia, but wet weather prevented their continuance. The usual demand for cars for shipment of grain is likely to prove an inconvenience to lumber and shingle manufacturers in the west, and may possibly have an effect upon prices of shingles. A party of lumbermen from Puget Sound are said to have recently travelled over a good portion of British Columbia with the object of securing cedar limits which might be conveniently and profitably turned into lumber. They report, however, that there is little good timber available except inland where the cost of manufacturing and shipping would be high. A test case is to be tried at an early date to determine whether timber on Crown Lands can be exported. An American syndicate is reported to have purchased timber on Government Land with the object of exporting the same to the United States.

At a meeting of the Pacific Coast Manufacturers' Association, of Washington Territory held recently in Tacoma, it was learned that the mills included in the membership of the Association had sufficient orders on hand to keep them running for two months. It was therefore decided to call in the travellers. The Loggers' As-

sociation of Washington Territory, advanced the price of logs fifty cents on the 1st inst.

It is reported from Vancouver that the Loggers' Association of British Columbia propose to test the legality of the Legislation enacted to prevent the export of timber out of the Province. The Association is said have obtained a high legal opinion to the effect that the Government cannot grant a special license to loggers to cut timber and then prevent them selling it where they may choose.

UNITED STATES.

The white pine market continues to rule strong with a large volume of trade doing. Northwestern manufacturers report a difficulty in securing required assortments; in consequence the volume of shipments is being restricted. Eastern buyers have been looking for a reduction in freights, but there is believed to be little prospect of a drop.

A steady demand is reported for doors and mill work, even in localities where dullness is reported in other lines.

The report comes from Alpena of a disposition by some members of the Hemlock Association to advance the price 50 cents per M. as the result of the brisk demand. At Philadelphia prices are somewhat erratic, varying from $15.50 to $17.50 for hemlock boards.

A gradual strengthening is reported of prices of hardwoods, advances having taken place in some of the cheaper varieties. Quartered white oak leads in demand. Maple flooring is a trifle weaker owing to the competition of yellow pine.

Prices of spruce are steady. Boston circulars quote as follows: Ten and 12-inch dimension, $20 to $22; 9-inch and under, $19 to $20; 10 and 12-inch, random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $16.50 to $18; 5-inch and up, merchantable boards, $13.50 to $14; bundle furring, $17 to $18.

At North Tonawanda there is a brisk demand for lath, of which stocks are very low, especially No. 1 white pine lath which is quoted as high as $4.25. Mixed pine lath are selling at $3.75. Red cedar shingles are plentiful and are reported to be selling in this market at $3.60 for 5 to 2 clears.

The use recently of 9 feet car siding instead of 8 feet as formerly, is said to be proving an obstacle in the way of the continued use of white pine for this purpose, owing to the scarcity of 18 feet stock. Other woods, the manufacturers of which are willing to cut to a greater variety of dimensions are being employed.

GREAT BRITAIN.

The timber trade, in conjunction with all other lines, has to a large extent been at a standstill by reason of public anxiety regarding the life of the King. Timber sales which had been arranged prior to the announcement of His Majesty's condition, were postponed. The recovery of the Sovereign being now assured, the trade may be expected to resume in some degree its normal activity, although conditions are likely to be more or less unsettled until after the Coronation next month. Beyond the demand created by the Coronation the requirements for building woods are small, and deliveries have consequently slackened. While the sales of timber required for street stands, etc., in connection with the Coronation, gave quite a stimulus to trade it is estimated that the demand from this source would not exceed in quantity more than one week's deliveries at London. When it is considered that all of this timber cannot be considered to have gone permanently into consumption, but that a part will find its way back to be resold for other purpoces, the gain after all is not so great as might at first sight appear.

The American Consul at Nottingham reports that there is an almost unlimited demand for material suitable for lace and hosiery boxes. He says the size generally required is 5-8 in. thick by 7 to 8 in. wide, and in lengths from 6 to 20 ft. The lumber should be planed on one side only, and edges grooved and tongued. The lumber used at present, is chiefly North Carolina pine, but white pine and poplar will do equally as well; a little sap or a few knots are not objected to, providing the timber is sound. The report states that the Nottingham case makers cannot afford to give more than £8 10s per standard for 3-4 in. c. i. f. Liverpool or Manchester. Swedish and Russian timber is bought at from £6 10s to £7, and coming into Hull or Grimsby, the inland carriage is only £1 2s per standard.

STOCKS AND PRICES.

Mr. Robert Baker states that the Turner Lumber Company, of Midland, Ont., expect to cut 40,000,000 feet this summer.

Mr. J. R. McConnell is operating Messrs. Hale & Murchies' mill near Fredricton, N.B., which until recently was closed down.

Messrs. Welsh Bros., of New Westminster, are rebuilding and fitting up with new machinery the Green shingle mill on the north shore of False Creek on Vancouver Island, which was recently burned.

Mr. R. R. Drysdale is said to have purchased from William Playfair 9 square miles of timber limits, a steam saw mill and a residence in Lanark county. Mr. Drysdale will commence operations in the fall.

The Vancouver Investment Company have applied to the local Government for 500 miners' inches of water to be taken out of the east branch of the Capilano for the purpose of floating timber. The proposal is to flume the timber from the limits to high water.

The first general meeting of the Cushing Box Company, Limited, was held recently at St. John, N. B., when the following officers were elected; W. H. Murray, president; Jos. Alliston, vice-president; Geo. F. Wilson, managing director; Alex. Wilson, secretary-treasurer. The company's mill at Milford gives employment to forty men and is crowded with orders.

Mr. Thomas Southworth, director of forestry for the Ontario government, is in receipt of inquiries from Ontario manufacturers for white ash, of which there appears to be a great scarcity. The wood is largely used by carriage and saddlery manufacturers. Mr. Southworth believes that it would pay Ontario farmers to plant ash trees in their wood lands, as this timber is a fast grower and would become commercially valuable in about ten years.

Messrs. James Levallee, George Chew and W. H. Turrip, of Orillia, have been in Vuncouver recently with the object of purchasing a site and establishing a large shingle and lumber mill in that city. They recently purchased a mill and timber limit at Slocam Lake, together with other timber, and have arranged to increase the capacity of the mill to 100,000 feet daily. In addition to this, as stated, they now propose to establish a large mill at Vancouver.

A Vancouver dispatch states that the Leamy & Kyle saw mill, which was at one time known to be an important industry of that city, has been purchased, by Messrs. Hunter & Fox, of Blaine, Wash., who will at once put it in operation and manufacture red cedar shingles for shipment to eastern points. Messrs. Hunter & Fox had previously imported cedar logs from British Columbia, but ran short of material after the passing of the law prohibiting the export of British Columbia timber.

Concerning the Barbadoes market Messrs. S. P. Musson Son & Co. under date of June 21st say: There has been no arrival of W. Pine; none of the cargoes contracted for having arrived, late prices cannot be maintained for transient arrivals, as the conclusion of peace has stopped all work on the Boer camp, and entirely checked demand. In Spruce—We had the "Mercedese" on the 16th from Belliveau Cove, with 90 m. shipping boards and 30 m. plank, which we placed at $19.40 and $16.40 respectively. For a small lot of Hemlock we had to accept $13; we doubt if next arrival will bring this price, as the crop season is virtually over. In P. Pine, no arrival has taken place—market amply supplied for ordinary requirements. Shingles—no arrival of Long Gaspe. The S.S. "Oruro" brought 2,544 bdls. Laying Cedar Clears, in fulfilment of an order, and we placed a small lot of Split Cypress ex "W. F. Green" at $9.75. Two Cargoes of Cedar Shingles from Paspebiac are shortly due. Shooks, Hoops and Staves—There is as usual at this time of the year nothing to advise. Regarding the same market, Messrs. Clairmonte, Man & Co. say: There has been one arrival with Lumber for the fort night. Last sale of White Pine $26.22 for merchantable and $20.65 for second quality, but we hardly think next arrivals will do as well; last sale of spruce at $19.40 for merchantable and $16.40 for second quality. Gaspe Long Cedar Shingles wanted — we value the first arrival of Large @ $4.50 to $5 per M. Cedar Laying, worth $2.00 per M. Spruce Laying, no recent sale worth $1.80 per M. Cypress, last sale, $9.40 per M. 6-in. hearts, $7 for 6-in. Saps, $5 for 5-in. and $5.30 for 6-in. sawn.

THE COOPERAGE MARKET.

The Sutherland, Innes Co., of Chatham, Ont., refer to the cooperage stock market as follows: The market for cooperage material is in a very unsettled condition at the present time. Trade is very quiet in all lines in Canada, and very little stock is being used. There is a great uncertainty yet as to how the apple crop will come out, and very few coopers are yet figuring on apple barrel material. The consequence is that prices will remain depressed, and there is no stock moving except to the United States market. It is almost impossible at the present time to fix market prices on stock. No. 2 staves remain very low, as there is no demand for them and will not be until the apple season starts in. The fact of the matter is, at the present time it is just between seasons, and until the trade brightens up it is impossible to give anything like a reasonable report of the state of the market.

RAILWAY TIMBER WANTED FOR SOUTH AFRICA.

Messrs. Pecyke & Co., of Capetown, South Africa, have written to the Secretary of the Toronto Board of Trade, sending specifications of hardwood railway ties and lumber required for the Cape Government railway at Port Elizabeth. There will be no duty on the ties, and probably none on the lumber, although if there is it will have to be added to the tender, which must be in by the 15th of next month.

Any firm tendering will have to get the best rates per steamer and sailing vessel to Port Elizabeth and Cape Town, and Peycke & Co. suggest that the firm should communicate with the Minister of Agriculture at Ottawa, when advantageous terms might be arranged for having them come out by steamer from St. John, N.B. For landing charges the firm tendering would have to figure on seven shillings and sixpence per ton of 40 cubic feet measurement. This would cover the expense either at Cape Town or Port Elizabeth.

If these sleepers could be obtained in Canada, Peycke & Co. consider that there is a field for a very large export business, as hundreds of thousands of them are used, and the demand will keep on increasing. For the information of the firm tendering they say that the last Jarrah wood sleepers the department bought came from Java, and cost about five shillings each, without landing charges. There are 40,000 sleepers required to be delivered into the railway trucks at the jetty, Port Elizabeth, at contractor's risk and expense.

have at present for sale at various points of shipment, by either rail or water route, on to Ottawa River, pine cuttings of different grades from seasons 1900 and 1901. Will quote upon small lots or heavy blocks

Correspondence Solicited

THE OTTAWA VALLEY.

(Correspondence of the Canada Lumberman).

The dull dog days are now upon the local lumber market, and from all reports business is slack. The old stocks are all out of the local yards, and little of the present season's cut, with the exception of lath is ready to ship. Prospects however for a brisk movement of the latter stock when it is in shape, are good. Prices in the higher grades remain firm, and are likely to continue so.

While the railways report a fair movement of lumber to Montreal for European export, and to American points, the Ottawa Transportation Company controlling the barge lines, pronounce business slack. There are several reasons for this. In the first place the railway companies have cut into the business by the the water route, and are carring more lumber during the months of navigation than they did a decade ago. Moreover the railways have nowadays a brisker winter business than they had in former years, and the approach of summer finds the stocks waiting transportation considerably reduced.

Another factor and a very important one is the coal strike. In the first place, it has crippled the industries badly in the States, and the demand for Canadian lumber has for the moment, dropped off. Again few if any barges are loading lumber for American ports. The Ottawa Transportation Company has not a single barge on the Ottawa-Oswego route, where in previous seasons they placed quite a large fleet. Coal was the common cargo for American and Canadian barges bound for Ottawa, thus providing business for the round trip. There is now no coal to handle and the barges not being in a

GILMOUR & COMPANY, LIMITED

TRENTON, CANADA

position to run empty one way at a profit have cut Ottawa out.

The local demand for the higher grades of lumber is particularly good and furnishes a contrast to the demand from a distance. The farmers in the neighboring townships are buying lumber which in the aggregate will reach a nice figure. The assurance of good crops has of necessity issued a call for extensive additions to standing buildings and Ottawa dealers are getting the benefit of the demand, and it's certainly a brisk one. City building operations were not retarded by the strikes this season, and although the wet weather was a drawback, the demand for lumber is brisk.

Local firms will soon be hiring men for the limits, and operations will start thereon in about nine week's time. The constant rains hastened the work on the drives, and the men have had a few extra weeks holidays as a result. From present indications wages and provisions etc., will run about the same as last year.

The Firm of Fraser & Co. contrary to the general rule was unable to get its present season's cut of logs out to the main streams. The rains unpleasantly prevalent around Ottawa, for the past six weeks, did not strike the Upper Coulonge country, where the Fraser firm's logs are all "hung up." This firm will start shortly to cut the logs on hand at the Edwards Mill, Rockland. Next season they will manufacture square timber logs.

The Ottawa export lumber business with South America was dealt a severe blow by the recent imposition of a higher duty by the Government of the Argentine Republic. Not a stick was shipped from the port of Montreal this season where in previous years a brisk shipping was carried on. The Ottawa Valley mills supplied the white pine, while the spruce was secured from Quebec and New Brunswick.

W. F. McAuliffe has secured the contract for the supply of hardwood flooring required by the Ottawa Separate School Board.

Recently the W. C. Edwards Company was forbidden to pile lumber in the fire area near the mill, the boundaries of which are defined by City by-laws. It is likely that the Council will restore the privilege, as many men have been deprived of employment, and the Company is taking logs to the Rockland mill first intended for the local saws.

According to notice just issued no men will be engaged for work in the Shanties or on the limits this season, who cannot give evidence of having been satisfactorily vaccinated or of having been attacked by smallpox making them immune from a second attack. This measure of precaution is being taken to prevent a recurrence of the mild but costly siege of the disease that closed several camps and curtailed operations in others last season.

OTTAWA, July 5th, 1902.

WANTED

MESSRS. JOSEPH OWEN & SONS, Ltd., of Liverpool, Eng., are open to treat for regular supplies of large quantities of HARDWOOD LUMBER, and will be glad to hear from holders who have to offer WHITE ASH, WHITE OAK, SCALY BARK and SECOND GROWTH HICKORY, POPLAR and WALNUT, in logs, planks and boards, also prime fresh BIRCH LOGS of large dimensions.

MANUFACTURERS OF

Red . . Cedar Shingles

VANCOUVER, B. C.

Another Little Mill

There will be over a million feet of sawn lumber used in this one plant for construction only ; over 30,000 lin. feet of piling, besides rock foundations ; two car-loads of shingle machines only ; over 7 miles steam pipe 1 1-2 inch and up in diameter. A summary of all the material that will be used in the construction of this plant shows that there will be over 320 car-loads, or 21 trains of 15 car-loads each.

With all our past experience in the shingle business, of which we make a specialty, and with all the latest and best improvements in machinery and mill construction, we expect it to be the most complete and up-to-date mill in North America, where shingles can be made better than in the ordinary mill.

The above plant will be in operation about the first of June, and although this mill will have a daily (24 hours) capacity of 1,250,000 shingles, the dealers and consumers need not be afraid of any particular surplus, but can rest assured that there will be one firm on the coast manufacturing red cedar shingles from whom they can get their wants supplied in a hurry with that old reliable "Hastings Brand" so much talked about.

CUSTOMERS' ATTENTION. — Please take notice that on the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles ended. Until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield, of Winnipeg, Man , for Manitoba and the North-West ; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, CANADA, JULY 16, 1902 No 24

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly A 24-page journal, discussing fully and impartially subjects pertinent to the umber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the "Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of six 2 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada.

STANDING TIMBER FOR SALE.

600 ACRES OF CHESTNUT, WHITE-WOOD, Hard and Soft Maple, Red and White Oak, Black and White Ash, Basswood, Soft Elm, Beech; a little Hickory, Butternut and Cherry; two railroads running through property; 10M per day mill, 40x100 ft., planer and matcher, shingle machine and other machinery; large dwelling house and house for men; barn and sheds; large bearing orchard; plenty of water; splendid market for wood; best lot of hardwood in this western Ontario; good investment for enterprising man. Bismarck Station, M. C. R., West Lorne, P. O. I. C. SCHLEIHAUF.

The steel ship Orient has been fixed to load deals at St. John, N. B., for Melbourne at 60s.

CURRENT TRADE CONDITIONS.

ONTARIO.

The holiday season has somewhat reduced the volume of lumber transactions during the past week, yet our reports show that more activity prevails than is usual at this period. Prices continue to be firmly maintained, and are practically on the same basis as last reported. Reports from Northern Ontario state that stocks are moving actively in the following order: Better grades white pine, basswood, birch, black ash. Sales have recently been made of mill run, culls out, at $16.50. All reports agree in stating that pine stocks with the exception of mill culls are light. The same is true of hardwood with the exception, perhaps, of maple, for which the demand seems somewhat less active. The prediction is made in some quarters of a rise in the price of the higher grades of pine as well as hemlock. The demand for shingles and lath continues strong. One report sums up the situation thus: "The lumber business is in fair and healthy condition here, and the outlook is that it will remain so for this year's stock."

QUEBEC AND NEW BRUNSWICK.

The returns of the British Board of Trade show a falling off in imports of square timber from Canada for the first half of the present year to the amount of £32,000 and of sawn wood to the amount of £184,000. The increased home and United States demand is no doubt responsible for this reduction in shipments, which in view of the heavy stocks previously on hand at British ports, has assisted in bringing about the more satisfactory conditions and prices now prevailing on the other side of the Atlantic. New Brunswick manufacturers and shippers of planks would do well to restrict shipments for a time, at least, in view of the fact that there is an oversupply of these goods in the British market, and prices are very unsatisfactory. Negotiations are understood to be in progress looking to an early settlement of the strike of the ship laborers at Quebec.

MANITOBA AND BRITISH COLUMBIA.

The lumber and shingle business in British Columbia is at present in a satisfactory condition. The mills are heavily stocked with orders but it is not thought that it will be impossible to fill them although some shipments may be delayed. The prospects for a good crop in Manitoba and the territories, and the large influx of settlers into that country has created an unusual demand for lumber to supply the trade there. This market, which in the past has called for the higher grades of lumber only, has this year placed orders in Coast mills for considerable quantities of the rougher grades which can be shipped at a small profit. Prices on rough grades have been advanced one dollar per thousand and on some of the better grades of fir two dollars and fifty cents, while cedar has risen in price on nearly all grades.

Logs are more plentiful than they have been for months but are firm in price, ranging in price from $5 to $7 at the mill according to quality. If the weather continues fine, large quantities of fir and cedar will be put in the water during the next few months. Foreign trade is brisk and prices are firm.

Owing to the fishing industry being now in operation labor is scarce both for mills and logging camps and good woodsmen are in good demand at from $2.75 to $4.00 per day.

UNITED STATES.

The results of the first half year's operations in the lumber trade are now known and are found to be of such a satisfactory character as to give assurance that the business for the entire year will reach a high standard. The heavy movement of white pine continues and prices remain firm. There is a scarcity of most kinds of hardwoods which accounts for the satisfactory character of prices. Basswood and birch are leaders. There is request for inch and thicker rock elm; white maple, particularly of good thickness, sells readily and is reported to have advanced in price 30 per cent. within the last six months on the Chicago market. Spruce continues in good demand in the eastern States market, with supply moderate. For No. 2 good stock $20.50 to $21 is being paid in New York. Lath is in brisk demand both east and west The closing down of the Pacific Coast mills for two weeks coupled with anticipated improved demand is expected to tone up the market for red cedar shingles. Lake freights are dull but firm, with the prospect of a rise latter on in the season.

GREAT BRITAIN.

The temporary check occasioned to business by the illness of the King has now passed away and the trade has resumed operations. The outlook from the shippers' point of view is decidedly encouraging. Notwithstanding that freights are extremely low deliveries in most lines are considerably under those of last year and much of the timber arriving is going directly into consumption. This is espec-

ially the case at Glasgow. In support of this statement we publish in another column a comparative table showing the stocks on hand at this port at 30th June 1901 and 1902. The belief that considerable quantities of timber will be required for South Africa, seems likely to assist in stiffening values in the British Market. It is stated however, that the demand from South Africa relates principally to the larger sizes of timber for mining and railway purposes. Aside from this it is believed that an advance in prices is probable later in the season, and that there will be a scarcity of deals for the opening of next season. Narrow sizes that have long been unsaleable are now bringing an advance of 10 to 15s. as compared with the prices which ruled early in the season. Importations of Quebec waney and square pine at Liverpool are very light and are mostly upon contract, while the consumption of pine deals and boards has been 1000 standards above the import. Canadian oak and birch logs are in demand. Of plank there is an oversupply. Steadiness marks the trade in hardwoods.

STOCKS AND PRICES.

Moore's new steam saw mill at Pleasant Point, St. John, N.B., is being tested and will shortly go into operation.

Winnipeg lumber dealers report difficulty in securing supplies of shingle and lath and prices hold very firm for good stock.

An Order-in-Council of the Ontario Government has fixed at $300 per thousand feet cubic as the trespass penalty on red and white pine square timber and $3 per standard of 200 feet board measure upon saw logs.

J. D. McLean, secretary Department of Indian Affairs, Ottawa, is inviting tenders until noon of the 16th inst. for the merchantable pine, spruce and other timber on the Indian Reserves Nos. 11 Manitou Rapids and 17 A Rainy Lake, Man.

A Wisconsin Syndicate organized by Col. H. A. Framback, is said to have bought 600,000 acres of spruce lands in Newfoundland and to be about to purchase large holdings in other parts of Canada, the intention being to manufacture paper on a large scale in Newfoundland and at different points in Canada.

Regarding lumber and cooperage stocks Messrs. Gordon, Grant & Co., of Port-of-Spain, W. I., in their trade circular of the 2nd inst., say :— The Britannia is the latest arrival with Pitch Pine, the stock of which is ample for present requirements Supplies of American and Nova Scotian White Pine are reduced and both are saleable to some extent.

Messrs. Alfred Dobell & Co.'s circular, dated Liverpool, the 1st inst., states : "Although the last days of the month have been practically devoted to holiday-making and the usual half-yearly stock-taking, there has been a healthy demand for most descriptions of wood goods. Canadian Woods — Waney Board and Square Pine—The only arrivals are going into consumption from the quays. Values are very firm. Oak continues in good demand and stocks are very light. Elm — The import is going steadily into consumption at full prices. Birch logs—There has been fair consumption at unchanged prices. Planks—The stocks are still too heavy and prices remain very low. Pine Deals and Boards—The higher qualities are in demand, but lower grades are dfficult to sell at the values shippers place upon them. New Brunswick and Nova Scotia Spruce Deals—The arrivals have been moderate and values well maintained with a good consumption."

There was a good attendance at the annual sale at Fredericton, N. B., on the 10th inst., of unmarked and mixed logs, rafted by the Fredericton Boom Company. There was sharp competition and the logs sold at high prices, spruce bringing the record price. The price paid for the spruce is for the merchantable, and battens go at two-thirds that price, and condemned is thrown in free. This sale was for such lumber as had been rafted up to July 8th, and that yet to be rafted is to go to the purchasers at the same rates. The sale this year was one month earlier than last year and was held early for the purpose of giving the purchaser the logs to use and also to get them off the shores and other places where the boom company has them tied up. The sales were: Hemlock, 24,900, purchased by John E. Moore at $4.35; Cedar, 83,400 feet, purchased by T. E. Babbott & Son, at $9.15; Pine, 12,880 feet, bought by T. E. Babbott & Son, at $9.50; Spruce 305,066 feet of merchantable at $13.45; 340,681 feet of battens, at $8.97; and 79,822 feet of condemned.

CANADIAN LUMBER SHIPMENTS.

From Montreal : SS. L'Ontario, sailed June 27th for Liverpool, 122 pcs. lumber, by McLaurin Bros.; 17,093 pcs. lumber by Elder Dempster Co.; 1,747 pcs. lumber by R. Cox & Co. SS. Rosarian sailed June 20th for Glasgow, 2,867 pcs. boards and deals, by E. H. Lemay ; 104 pcs. logs, 3,631 pcs. deals by W. & J. Sharples , 7,271 pcs. boards and deals, by Watson & Todd ; 2,344 pcs. deals by R. Cox & Co. SS. Kastalia sailed July 3rd for Glasgow, 17,563 pcs. deals, etc., by J. Burstall & Son; 1,522 pcs. deals, by Watson & Todd; 1,247 pcs. deals,by McLaurin Bros ; 6,132 pcs. deals by R. Cox & Co.; 18,383 pcs. deals by Dobell, Beckett & Co.; 344 pcs. fir lumber by C.P.R. SS. TIMBER STATEMENT.

Following is a comparative statement for three years of the timber, etc., measured and culled at the port of Quebec up to 15th July, 1902, as reported by the Supervisor of Cullers:

	Cu. ft. 1900	Cu. ft. 1901	Cu. ft. 1902
Waney white pine	617,842	655,214	1,293,370
White pine	190,794	241,58	258,295
Red pine	7,233	39,419	4 ,231
Oak	311,425	227,734	397,150
Elm	438,916	540,205	487,272
Ash	69,435	91,649	65,837
Basswood		332	
Butternut	92	642	
Tamarac	71	22	
Birch and Maple	292,551	295,641	86,540

SHIPPING MATTERS.

At Belfast the following deliveries of Canadian wood goods have recently been made: Str. "Ranmore Head" from Quebec, 23 loads hewn wood logs, 300 loads hewn wood fir, and 300 loads sawn fir deals; from Montreal, 8 loads oak staves and headings, 29 loads sawn wood elm planks, 1,234 loads sawn fir deals, and 365 loads sawn wood boards; from Riviere du Loup, 1,775 loads sawn fir deals, for T. Dickson & Sons; "Glen Head," from Miramichi, 2,114 loads sawn fir for P. J. Corry & Sons Co., Ltd.

Recent shipments of Canadian woods at Manchester include: Full cargoes of spruce by the "Farnham," from West Bay, and the "Trunkby," from Miramichi, for Crossfield & Co. From Quebec, the "Birmingham" a large cargo, which, with the exception of about 100 standards of spruce for Geo. Evans & Sons, is to the account of J. H. Holme & Co. The last mentioned firm's lot consists of about 3,000 waney pine logs, about 1,000 birch logs, and 150 standards spruce deals. The "Manchester Commerce," from Montreal has spruce deals for J. & W. Bellhouse and Southern & Nephew; pine deals for J. H. Holme & Co., May & Hassell, Ltd., and Watson & Todd; pine boards for Imperial Lumber Co. and maple flooring for Hollis Bros.

TRADE OPENINGS.

The following were among the enquiries relating to Canadian trade received at the Canadian Government Office in London during the week ending 4th April, 1902, The names of the parties may be obtained from the publishers of this journal.

A North of England firm inquire for names of Canadian manufacturers of wood chimney pieces, or overmantels.

A Hamburg firm ask to be referred to Canadian wood pulp manufacturers desiring representation on the Continent.

A commission house established for some years in London are open to do business with Canadian exporters of wood pulp, pulp wood, food and dairy products such as cheese, butter, eggs, etc., and fruit pulp.

Messrs. Mitchell & Blair have succeeded to the lumber business of John Mitchell at River John, Nova Scotia.

THE MARKET FOR LUMBER IN JAPAN.

A correspondent of The CANADA LUMBERMAN writing from Japan, promises to send for publication shortly some particulars regarding the lumber trade of that country and the methods of shipping and marketing there. "At this writing," he says, "I have not much time to cover the question of prospects of foreign lumber in Japan, but may say that sales can be effected if the business is entrusted to some one directly in the business who will introduce the lumber in various ways. Advertising alone will not do that in this country so far as my experience goes. Lumber in Japan, is as a rule sold on consignment, and merchants get their lumber which, when sold, rice is sent generally in return—therefore the price of rice affects the quotations on lumber.".

Jas. W. Johnstone has purchased W. F. Puffer's lumber business, at Lacombe, Alberta.

GILMOUR & COMPANY, LIMITED

TRENTON, CANADA

THE BOSTON MARKET.

The spruce lumber market is rather more quiet generally, though there is a good demand in the way of factory orders at full prices. Prices are generally well sustained, with the weaker position of small randoms less of a factor than previously noted. These small randoms are gradually disappearing. Quotations are steady: Ten and 12 inch dimensions, $20to $22; 9-inch and under, $19 to $20; 10 and 12 inch, random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $16.50 to $18; 5-inch and up, merchantable boards, $17; matched boards, $19 to $20; out spruce boards, $13.50 to $14; bundle furring, $17 to $18.

Hemlock lumber continues very firm, with the market quiet: Boards, 12, 14 and 16 feet stock, $15 to $15.50 for good eastern; random eastern, $14 to $14.50; Pennsylvania, No. 1, $16 to $17.50; No. 2, $15 to $15.50.

White pine is even firmer than last noted, with the tendency still upward: Uppers, 1-in., $75 to $80; 2½ to 3 in. $80 to $85; 4-in. $85 to $88; selects, 1 to 1½ in. $68; 2-in. $69 to $70; 2½ to 3 in. $74 to $76; 4-in. $79 to $80; fine common, 1-in. $60 to $63; 1¼ to 1½ in. $64 to $66; 2-in. $68 to $70; 2½ and 3 in. $69 to $71; 4-in. $80; barn boards, $23 to $33; coffin boards, $27 to $32.

Hardwood lumber is firm in almost every item: Quartered oak, $64 to $66; plain oak, $41 to $45; common and rejects, $20 to $25; whitewood, $42 to $43; sap and common, $30 to $35; brown ash, $41 to $44; white ash, $43 to $46; maple, $28 to $30; end-dried white maple, $38 to $42; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Shingles hold very firm, under the influence of a good many unfilled orders. While the demand has not been great, it has more than equalled the supply. A firm market is looked for for some time to come: Extra cedar, $3.50; clear, $3; second clear, $2.50; extra No. 1, $1.90 to $2; Washington and British Columbia red cedar, 16-inch, five butts to 2 inches, $3.75 to $3.80; 18-inch, $4.25 to $4.50.

Clapboards are still very firm, though a few samples of new spruce are being received, but with no promises of any quantity compared with other seasons: Clear, $38 to $40; second clear, $35 to $37; extra No. 1, $25 to $30.

Laths are steady and unchanged at $3.15 to $3.20 for 1⅝-inch; 1½-inch $2.95 to $3.

WANTED

MESSRS. JOSEPH OWEN & SONS, Ltd., of Liverpool, Eng., are open to treat for regular supplies of large quantities of HARDWOOD LUMBER, and will be glad to hear from holders who have to offer WHITE ASH, WHITE OAK, SCALY BARK and SECOND GROWTH HICKORY, POPLAR and WALNUT, in logs, planks and boards, also prime fresh BIRCH LOGS of large dimensions.

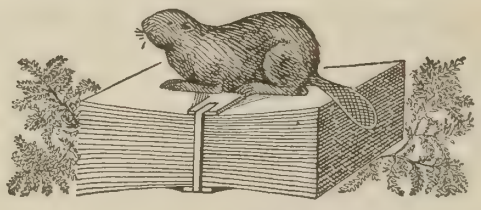
Head Office: Cedar Cove Mills, CEDAR COVE, B. C.



SPICER SHINGLE MILL CO., LIMITED

MANUFACTURERS OF

Red . . Cedar Shingles

VANCOUVER, B. C.

Another Little Mill

There will be over a million feet of sawn lumber used in this one plant for construction only; over 30,000 lin. feet of piling, besides rock foundations; two car-loads of shingle machines only; over 7 miles steam pipe 1 1-2 inch and up in diameter. A summary of all the material that will be used in the construction of this plant shows that there will be over 320 car-loads, or 21 trains of 15 car-loads each.

With all our past experience in the shingle business, of which we make a specialty, and with all the latest and best improvements in machinery and mill construction, we expect it to be the most complete and up-to-date mill in North America, where shingles can be made better than in the ordinary mill.

The above plant will be in operation about the first of June, and although this mill will have a daily (24 hours) capacity of 1,250,000 shingles, the dealers and consumers need not be afraid of any particular surplus, but can rest assured that there will be one firm on the coast manufacturing red cedar shingles from whom they can get their wants supplied in a hurry with that old reliable "Hastings Brand" so much talked about.

CUSTOMERS' ATTENTION. — Please take notice that on the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles ended. Until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield, of Winnipeg, Man, for Manitoba and the North-West; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, CANADA, JULY 23, 1902 No 25

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the "Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of six 2 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada.

WANTED AND FOR SALE

THE ENTIRE CUT OF 190- OF SEVERAL mills on the Ottawa Valley of all number one white pine mill culls, strips and sidings, 1" to 3" thick, and also other grades. Shipments by water or rail. Write for particulars and quotations to A. F. BURY AUSTIN, Wholesale Lumber & Timber, Room 507 Merchants Bank Bldg., Montreal. Also spruce lumber of all grades.

STANDING TIMBER FOR SALE.

600 ACRES OF CHESTNUT, WHITE-WOOD, Hard and Soft Maple, Red and White Oak, Black and White Ash, Basswood, Soft Elm, Beech; a little Hickory, Butternut and Cherry; two railroads running through property; 10M per day mill, 40x100 ft., planer and matcher, shingle machine and other machinery; large dwelling house and house for men; barn and sheds; large bearing orchard; plenty of water; splendid market for wood; best lot of hardwood in this western Ontario; good investment for enterprising man. Bismarck Station, M. C. R., West Lorne, P. O. I. C. SCHLEIHAUF.

TUG WANTED—Second-hand, 20 to 30 Horse Power. Box 99, CANADA LUMBERMAN.

CURRENT TRADE CONDITIONS.

ONTARIO.

Although the dull season is at hand, lumber is moving quite actively. The inquiries that are being received forecast a heavy fall trade, with possibly a stiffening of prices. Dealers are endeavoring to ship as much stock as possible during the summer months so as to lessen the inconvenience which is likely to be experienced by the usual shortage of cars in the fall. No doubt the condition of the crops is doing much to keep up the lumber market. The agricultural community will buy lumber for new buildings and improvements which will be decided upon as a result of the good crops. Practically no stock is accumulating at the mills, and the prospect is that when the sawing season closes the yards will be carrying much less than the usual quantity. Michigan wholesale dealers have recently visited Georgian Bay points, but in most instances have not been successful in finding any quantity of dry stock to meet their requirements. There is an occasional lot of low grade pine for sale. The demand for shingles is such that manufacturers cannot supply their orders.

Among the hardwoods basswood leads in point of demand For mill run, mill culls out, $16.50 at the mill is being asked. Ash follows closely, with a heavy inquiry from local consumers and for shipment to the Eastern States.

Retail trade in Toronto is quite up to the average for the season of the year. A large amount of building is under way, consisting chiefly of the better class of dwellings, for which considerable oak and other finishing lumber is required.

QUEBEC AND NEW BRUNSWICK.

The lumber business of the eastern provinces is quite active. The mills are now assured of an ample supply of logs and will likely continue in operation until late in the season, as the demand is absorbing all the available lumber. For the quarter ending June 30th the shipments of lumber to the United States from the Consular district of St. John were valued at $412,372.38, of which $128,079.57 represented Canadian lumber and $284,292.81 lumber cut from Maine logs. Shipments are being made to Australia, Spain, South America and the West Indies in considerable quantities, not to speak of the usual shipments to Great Britain. Some of the retail yards in the east complain of the difficulty in filling orders for thin lumber owing to the fact that a number of the mills manufacture only 3-inch deals for export. Extra cedar shingles are still selling on the basis of $3.60 for Boston delivery.

It is estimated that of the last winter's cut and what was hung up the year before, about 160,000,000 feet of logs have come safely into the booms on the St. John river.

UNITED STATES.

The lumber trade of the United States has assumed a still better tone. An abundant yield of wheat and corn is now almost assured and a continuance of the present commercial prosperity may be predicted. The effect of the strike of miners has also worn off to a large extent, which has been reflected by increased buying in the east. The sections where white pine and spruce are marketed have shown the greatest improvement. Buffalo, Cleveland and Saginaw all report a good volume of business, with prices firm and tending to advance. The usual midsummer falling off has scarcely been perceptible. There is a strong demand for piece stuff and a scarcity of 12 to 24 foot lengths. In Chicago $15.50 for short stock is freely paid. At Buffalo and Tonawanda certain grades of mill culls, barn and scoots are a little weaker, while other grades of these items are selling at the highest figures ever reached. Dealers there are endeavoring to come out on the right side without having to advance prices, as they fear that such a step would curtail the demand. From a few points a curtailment in the demand for hardwoods is reported, but on the whole confidence in the future of prices is strengthening. Maple in particular is strong. The product of Michigan is controlled by the Michigan Maple Company, and prices have been advanced to $8, $14 and $20, which on the first and seconds is about $5 above the low prices. White ash is none too plentiful, but there is about enough to supply the requirements. Basswood still remains scarce and is much sought for, as is also soft elm. Sales of the latter are reported to have been made in Boston at $20 for log run.

GREAT BRITAIN.

The weather in Great Britain of late has been favorable to outdoor operations and lumber has gone into consumption in satisfactory volume. The tone of the market is strong. The chief enquiry is for good deals, the supply of which is small. Some buyers are making arrangements in anticipation of a further advance

in free-on-board values for 1903 shipments. Owing to the moderate stock of Canadian lumber, the probability of a decline in prices is almost entirely removed. It claimed that floorings and spruce are likely to be advanced within the next two months, while all classes of pine deals are exhibiting strength. A correspondent at London reviews the spruce situation in the following manner: "The spruce market is really the only one which gives real evidence of brisk trading. The box-making industry is in a flourishing condition, and the demand from this quarter largely accounts for the high prices now ruling for all qualities of spruce. It is a real satisfaction to turn to a branch of the softwood trade wherein it can be said that the demand is good and orders are brisk, for from the ready way in which all the new arrivals from Canada are snapped up it is very conclusive that the spruce dealers experience no difficulty in finding a market for their importations. Second quality 3 by 9 spruce deals are unobtainable below £10 10s. landed, whilst it is difficult to find a merchant willing to accept less than £10 for his 3rds. The planks (3 by 11) are remarkably scarce."

STOCKS AND PRICES.

The steamer "Mountfields" is loading a cargo of deals at Quebec for the United Kingdom.

The steamer "Atbara" sailed from Montreal last week for London, England, with a cargo of deals.

The "Loughrigg Holme" sailed from Montreal on Saturday last for Cardiff with a cargo of timber and deals.

The steamer "Hutcliffe" is loading deals at Montreal for the United Kingdom. The steamer "Nord Kap" is loading at Quebec for London.

The steamer "Inishowen" arrived at Plymouth, England, last month from Montreal, with a cargo of timber for the Imperial Government.

The base price of 16-foot hemlock boards in the Tonawanda market is $15. In Chicago good No. 1 hemlock piece stuff is worth $13 in car-load lots.

For the fiscal year ending June 30th the exports of forest products from the Dominion of Canada were valued at $32,119,422, as compared with $30,003,857 for the previous year.

A. F. Bury Austin, wholesale lumber and timber merchant, Montreal, has been appointed sole agent for Canada for the W. W. Herron Lumber Company, of Mobile, Ala., who are large manufacturers of long leaf yellow pine.

The Department of Interior at Ottawa is asking for bids up to August 13th for a license to cut timber on Berth No. 1023, on the west shore of Lake Winnipeg, in the Province of Manitoba. The berth contains an area of ten square miles.

Skillings, Whitneys & Barnes, who have their principal yard at Ogdensburg, N.Y., have closed their yard on Little Island, North Tonawanda. The remainder of their stock, about 1,000,000 feet of white pine, was purchased recently by Smith, Fasset & Company.

The maple flooring manufacturers of the North-West held a meeting in Chicago on July 11th. The reports presented showed the industry to be in a satisfactory condition, except that prices were too low in view of the rapid advance in the raw product. It was decided to make an advance on No. 1 maple flooring of $2 per thousand, and on the clear and factory grades of $1 per thousand.

The demand for apple barrel stock has set in quite generally and has greatly helped the cooperage stock market, for there has been a falling off in the movement of flour and other products that require barrels. There is a great scarcity of hoops. Quotations at Buffalo are about as follows: No. 1 dry elm flour barrel staves, $7.75 to $8; mill-run fruit barrel staves, $6.25 to $6.50; No. 2 staves, $4.25 to $4.50; first-class basswood heading, 5¼ to 5½ cents; mill-run staves, 4¼ cents; No. 2 heading, 3¾ to 4 cents; coiled hoops, $10.50 to $11 for 6-foot, $10 to $10.50 for 5¼ foot.

The first warning of the approach of the end of the open season, says the American Lumberman, is given by the announcement of red cedar shingle dealers that it is time to begin to accumulate shingles for the winter. The Pacific Coast reports are that they are afraid that the approaching big salmon and grain season will interfere with the car supply. It does not look as though the amount of shingles sold in Buffalo would equal that of last year, though the dealers are not aware of the reason. Prices are fairly firm, though not so stiff as they were earlier. The quotation of $4.25 for perfections still holds, with white pines, when there are any, commanding about the same figure. There is always a small supply of white cedars, which sell for a trifle less.

Of the Barbadoes lumber market Messrs. S. P. Musson, Son & Company, under date of July 5th, say: "The Edyth", from St. John, N. B., brought 21,000 feet of white pine, which has been sold at $20, and the steamer "Dahome" brought 20,000 feet, which was placed at $20. 10, as it run. We have a cargo on the way contracted for, and we believe further supplies are expected. The market is, therefore, amply supplied. There has been no arrival of spruce since our last, but we are momently expecting a cargo. The "Bravo", from Paspebiac, Que., arrived on July 3rd, with 750,000 shingles, including Laying Cedar, Long Gaspe, and Dimension. None have been offered up to time of writing. The "Edyth" also brought 1,500,000 Laying Cedar shingles, which have been contracted for at landed terms.

Farnworth & Jardine refer to the Liverpool timber market as follows: Pine Timber.—Of waney, the first direct shipment (chiefly on contract) has arrived, and goes largely into consumption; values rule high and stocks are very light. Square Pine—Deck wood, also on contract, has been imported more freely, and has gone mostly into consumers' hands. Stocks are fairly moderate; values unchanged. Red Pine.—The import consists of about 5,000 cubic feet fresh wood, the demand is quiet, and stocks appear sufficient for present requirements; prices are steady. Oak.—The arrivals have been moderate, chiefly first class wood for special requirements. Deliveries have not been large, but stocks are light and values very firm; there has recently been more enquiry for later delivery. Elm has been imported more freely, and consisting generally of fresh rock elm, the deliveries have been fairly satisfactory, stocks are moderate and prices steady, but soft elm is practically unsaleable. Ash is only in limited demand; stocks are sufficient. Quebec Pine Deals.—The imports have been large, and deliveries show considerable improvement, but stocks all round are heavy; values are unchanged. Red Pine Deals are dull of sale; stock ample. New Brunswick and Nova Scotia Spruce and Pine Deals—The import of 10,000 standards, although exceeding the previous month, is slightly less than the corresponding month last season; the deliveries have fairly kept pace and stocks are still moderate; values have ruled steady. Pine Deals are in fair request; the stock is light and prices unchanged. Birch.—Of logs the arrivals have been chiefly from Quebec; there has been fair enquiry at firm rates, and stocks are moderate. Planks.—The imports show a marked falling off, but the deliveries have been very disappointing, and the stock is too large; there is little change in value to report.

THE GLASGOW MARKET.

The following particulars of the Glasgow market are found in the July report of Wright Graham & Co.:

WANEY BOARDWOOD. — The demand holds strong. Prices are much the same as before, prime wood being quoted at 2s 10d to 3s 6d per cubic foot, according to the average length; second-class stock at 2s 6d to 2s 9d per cubic foot.

OAK LOGS.—There is enquiry for long logs of prime quality to sell at about 3s to 3s 3d per cubic foot. Logs of poorer size and quality are quoted at from 2s 3d to 2s 6d per cubic foot.

ELM.—The demand continues slight, but the price for prime quality logs of good average length remains firm at 3s to 3s 3d per cubic foot. Parcels of poor specification and inferior quality are difficult to sell.

ASH.—The bulk of the stock is held by consumers. Prices are quoted at about 22d per cubic foot for 14 in. average, and 2s to 2s 2d per cubic foot for 15 in. average.

BIRCH.—Since our last report the position has not undergone any change of importance. Logs continue to be quoted at about 1s 6d for 16 in. average. Planks of ordinary quality are a drug in the market; prime quality only are saleable, price ranging from 15d to 16d per cubic foot.

QUEBEC WHITE PINE DEALS.—Prices of broad firsts have advanced, and there is a good demand for same. Quotations are as follows:

1st quality broad, £33 to £37 2s 6d per standard; 11 inch, £25 8s 9d to £28 10s; 7 in. to 10 in. £22 to £23 7s 6d. 2nd quality, broad, £22 to £23; 11 in. £20 to £21; 7 in. to 10 in., £15 16s to £16 10s. 3rd quality broad, £14 to £15; 11 in., £12 7s 6d to £13 5s; 7 in. to 10 in., £10 to £11. 4th quality, broad, £10 13s to £11 6s 10d; narrows, £8 5s to £9 5s.

QUEBEC WHITE PINE SIDING.—The is still an active demand for first quality 1½ and 2 in., and parcels arriving meet with ready sale. Prices have advanced, and are now quoted at from £22 13s 9d to £24 15s per standard.

RED PINE DEALS.—The demand is light and few sales are reported. The following prices are quoted: 9 and 11 in. by 3 and 4 in., £10 6s 3d to £12 7s 6d per standard; 7 to 10 in. by 3 in. at £7 15 to £8 11s 10d.

SPRUCE DEALS.—A moderate amount of business has been done this month, and prices keep firm. Prices quoted are: 9 in. and up by 3 in. at £9 2s 6d to £9 12s 6d per standard; 7 and 8 in. by 3 in. at £6 10s to £7 10s.

CANADIAN DOORS AND SASHES IN BERMUDA.

S. B. Ingham, of Hamilton, Bermuda, is a large importer of lumber. He states that his supply of doors and sashes comes from Binghampton, New York, and that he would like to get in touch with Canadian manufacturers of such articles. Mr. Ingham is anxious for closer trade relations with Canada and will do what he can to encourage them. At present he is buying spruce boards, scantlings, laths, box material and spars in this country, but would buy a good deal more if we gave him the opportunity. Trade in both rough and manufactured lumber has been very large during the past year because of the expenditures made by the Imperial Government. Probably the withdrawal of the Boer prisoners and their guards will have a tendency to reduce the volume of trade somewhat, but there is still a good business to be done.

BIRCH SQUARES AND SEATS.

A large buyer of Birch chair seats and of Birch squares is open to contract with a mill for their output. Also open for Broom Handles and Dowels in large quantities. Write in first instance to "Finance," care of CANADA LUMBERMAN.

The following charters are reported: Str. Falco, Miramichi, N. B, to Bristol, deals, 41s 3d; barque, Mary A. Law, Yarmouth, N.S., to Buenos Ayres, lumber, $8.50, option $9.50 to Rosaria; barque Egeria, Portland to Buenos Ayres, lumber, $8.

Responsible Agents Wanted in all Parts of the World

ORDERS PROMPTLY FILLED

GILMOUR & COMPANY, LIMITED
TRENTON, CANADA

THE BOSTON MARKET.

Spruce lumber is very steady for frames and the better classes, with short and small randoms still rather easy. The mills are busy, with orders fair: Ten and 12 inch dimensions, $20 to $22; 9-inch and under, $19 to $20; 10 and 12 inch, random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $16.50 to $18; 5-inch and up, merchantable boards, $17; matched boards, $19 to $20; out spruce boards, $13.50 to $14; bundle furring, $17 to $18.

All the firmness in hemlock lumber is continued, with the demand fair: Boards, 12, 14 and 16 feet stock, $15 to $15.50 for good eastern; random eastern, $14 to $14.50; Pennsylvania, No. 1, $16 to $17.50; No. 2, $15 to $15.50.

The great firmness in white pine is continued, though trade is dull, incident to the quiet season. Western reports mention a still greater scarcity, and quote higher prices: Uppers, 1-in., $75 to $80; 2½ to 3 in. $80 to $85; 4-in. $85 to $88; selects, 1 to 1½ in. $68; 2-in. $69 to $70; 2½ to 3 in. $74 to $76; 4-in. $79 to $80; fine common, 1-in. $60 to $63; 1¼ to 1½ in. $64 to $66; 2-in. $68 to $70; 2½ and 3 in. $69 to $71; 4-in. $80; barn boards, $23 to $33; coffin boards, $27 to $32.

Hardwood continues firm, with a fair demand: Quartered oak, $64 to $66; plain oak, $41 to $45; common and rejects, $20 to $25; whitewood, $42 to $43; sap and common, $30 to $35; brown ash, $41 to $44; white ash, $43 to $46; maple, $28 to $30; end-dried white maple, $38 to $42; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Shingles are very steady, with still a good many unfilled orders: Extra cedar, $3.60; clear, $3 to $3.10; second clear, $2.50; extra No. 1, $1.90 to $2; British Columbia red cedar, 16-inch, five butts to 2 inches, $3.75 to $3.80; 18-inch, $4.25 to $4.50.

Clapboards are scarce and firm, and dealers believe that the day of plenty in spruce clapboards is over. A few new are coming in, with the position very firm: Clear, $38 to $40; second clear, $35 to $37; extra No. 1, $25 to $30.

Laths are unchanged at $3.15 to $3.20 for 1⅝-inch; 1½-inch $2.95 to $3.

Goulet & Company, saw millers, Shawinigan Falls, Que., are said to be offering to compromise.

The lumber business of J. M. Green at St. Thomas, Ont., will in future be carried on by a limited company, under the name of J. M. Green & Sons, Limited. The capital is to be $50,000.

WANTED

MESSRS. JOSEPH OWEN & SONS, Ltd., of Liverpool, Eng., are open to treat for regular supplies of large quantities of HARDWOOD LUMBER, and will be glad to hear from holders who have to offer WHITE ASH, WHITE OAK, SCALY BARK and SECOND GROWTH HICKORY, POPLAR and WALNUT, in logs, planks and boards, also prime fresh BIRCH LOGS of large dimensions.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, CANADA, JULY 30, 1902 No 26

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly A 24-page journal, discussing fully and impartially subjects pertinent to the timber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the "Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of six 2 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED—A RAFT OF PINE LOGS ON Georgian Bay; apply at once to Box 20, CANADA LUMBERMAN.

LUMBER WANTED.

BIRCH SQUARES 5" x 5" and 6" x 6", dry or green. Liberal price on one or more cars. J. E. MURPHY, Hepworth Station, Ont.

HARDWOOD WANTED.

BASSWOOD, 1, 1½ AND 2 INCH; SOFT Maple, 1½, 2, 3 and 4 inch; Soft Elm, 3 inch; all largely 12 feet long. State lowest price f.o.b. cars. Address J. W. COLLINS, Queen's Wharf, Toronto.

DRY PINE.

WE HAVE ABOUT 1,500,000 FEET DRY PINE in 1, 2 and 3 inch common and better, prefer selling in bulk. Will quote freight rate to Buffalo, Chicago or Toronto on application. Correspondence solicited. N.B.—Would like to correspond with consumers of hardwoods. ST. JOE ISLAND LUMBER CO., Sault Ste. Marie, Ont.

SPECIAL TO LUMBERMEN.

WITH A THOROUGHLY EQUIPPED PLANING Mill at Orillia, we solicit orders for resawing and planing of lumber, in any quantity; can match 26 inches wide; all work guaranteed first-class; prices on application. Address, NATIONAL BOX CO., Orillia, Ont.

RAILROAD TIES AND TROLLEY POLES WANTED.

10,000 Sound Cedar Ties. 250 Cedar Trolley Poles, 30 feet long, 7 inch small end, fairly straight, delivered at Hamilton GEO. E. WALLER, Manager Hamilton, Grimsby & Beamsville Electric Railway Company, Hamilton.

FOR SALE

INTERNATIONAL CO. MILLS,

Newport, Vt.

Just across the line, on Lake Memphremagog; junction C. P. R. and B. & M.

Entire plant, consisting of saw-mill, 36x96, 2 stories, dressing and box-mill, 50x180, brick boiler house, office and other buildings; complete equipment of machinery, six 80 horse-power boilers and two 200 horse-power engines, all in good running order.

The best location and best plant in Vermont for handling Canadian Lumber.

Cost $104,000 in 1883.

Price $25,000.

Inquire of

RICKABY & CO.,
St. Johnsbury, Vt.

TUG WANTED—Second-hand, 20 to 30 Horse Power. Box 99, CANADA LUMBERMAN.

WANT TO CORRESPOND WITH PARTIES that wish to open up a trade in all kinds of Hardwood Blocks for the English market. Specifications, prices, etc., obtained from E. D. G. PIDGEON, St. John, N. B.

SECOND HAND GANG WANTED.

A GANG 48 INCHES OR WIDER, HAMILTON or Wickes make preferred. Give full description and lowest price for cash. Address X, care of CANADA LUMBERMAN.

Timber For Sale

THE UNDERSIGNED OFFER FOR SALE 44½ Square Miles of Timber Limits in the Township of Chapman, Parry Sound District, either in bulk or any part thereof to suit buyers. The limit comprises Pine, Birch, Hemlock, Cedar and other woods. Alternate offers are also invited for logging and manufacturing the timber on the basis of per thousand feet. For further particulars address CHARLES QUERENGESSER, Brodhagen, Ont.

FOR SALE.

THE ENTIRE CUT OF 190 OF SEVERAL mills on the Ottawa Valley of all number one white pine mill culls, strips and sidings, 1" to 3" thick, and also other grades. Shipments by water or rail. Write for particulars and quotations to A. F. BURY AUSTIN, Wholesale Lumber & Timber, Room 507 Merchants Bank Bldg., Montreal. Also spruce lumber of all grades.

MACHINERY FOR SALE
AT A BARGAIN

300 H. P. BROWN AUTOMATIC CUT-OFF Engine (Thompson & Williams make), in excellent order, cylinder 20 x 54; 175 h. p. Water Wheel; 4 Boilers, 1 only in good condition, with steam trap and connections; Worthington Steam Force Pump, with automatic sprinklers, complete for building 40 x 300 feet, 4 storeys, in good order; about 100,000 feet Steam Pipe; 1,000 feet 3 inch Shafting, with latest improved hangers, with couplings and pulleys; can be seen at Weston Woollen Factory, near Toronto. For further particulars apply PETER RYAN, Toronto.

STANDING TIMBER FOR SALE.

600 ACRES OF CHESTNUT, WHITE-WOOD, Hard and Soft Maple, Red and White Oak, Black and White Ash, Basswood, Soft Elm, Beech; a little Hickory, Butternut and Cherry; two railroads running through property; 10M per day mill, 40x100 ft., planer and matcher, shingle machine and other machinery; large dwelling house and house for men; barn and sheds; large bearing orchard; plenty of water; splendid market for wood; best lot of hardwood in this western Ontario; good investment for enterprising man. Bismarck Station, M. C. R., West Lorne, P. O. I. C. SCHLEIHAUF.

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber trade is not as lively as it was a few weeks ago, but there promises to be renewed buying for stocking-up purposes within a short time. No stocks of any consequence are accumulating at the mills, and we would not be surprised to witness a further advance in the price of white pine. Lower prices are usually caused either by a general depression in business or by an overstocked market. Neither of these conditions may be expected to exist within the next year, so that the stability of the market seems assured for some time to come. Wages in the woods during the coming winter will be high, probably $28 to $30 per month for first-class loggers, $27 to $28 for teamsters, and $20 to $23 for road-makers. This factor will have a tendency to further enhance the value of white pine lumber. Mill culls are now held at from $9 to $10 at the mill, and in no instance is stock being sacrificed to effect a sale, as American buyers are willing to purchase wherever any quantity can be secured.

Hardwoods are in the ascendancy, and it is generally believed that they will sell materially higher when the shortage in stocks becomes more generally known. Implement and furniture factories report that millmen are running short in their contracts, the reason being that they were unable to secure sufficient logs last winter to keep their mills in operation.

QUEBEC AND NEW BRUNSWICK.

The scarcity of clapboards is still commented upon. The demand from the Eastern States has absorbed almost the entire supply of dry stock, and prices have receded but little from the high point reached last spring. Spruce lath are also in good request at firm prices. The cedar shingle market is, if anything, a trifle easier, although the large manufacturers are still holding their extras at $3.60 for Boston delivery.

Square and waney pine timber is steadily seeking a high level. A few sales are reported to have been made at prices higher than those recently quoted, but the stock was in most instances of exceptionally good quality. Birch timber shows a tendency to appreciate.

MANITOBA AND BRITISH COLUMBIA.

Lumber is going actively into consumption throughout Manitoba and the Territories. The requirement at the present time is chiefly for building operations, which are being carried on extensively. The country demand will develop after the crops are harvested and will doubtless be of large proportions, as an abundant yield of grain is promised. Laborers are greatly in demand, it being almost impossible to secure a sufficient number of loggers to keep the camps in British Columbia in operation. Manufacturers there have large orders for lumber on their books and will be kept busy throughout the season. Five vessels are expected to arrive at Chemainus this week to load lumber for South America.

UNITED STATES.

The prospects for a very large yield of wheat and corn are having an effect upon the lumber market. When harvesting is over, there will no doubt be a heavy demand for lumber of all kinds and particularly for the class called for in the agricultural districts. Although white pine prices are high, influences are at work to bring about a further advance of about one dollar per thousand, as it is believed by many persons that such an advance could be put into effect without having any restrictive influence upon the demand. It is contended that the output of white pine this season will be inadequate to meet the demand, and that this is shown by the fact that up to the present time the mills have been unable to accumulate the usual quantity of stock. Our Buffalo list this week shows an advance in the price of 12 inch No. 1 barn boards. Chicago dealers last week put into effect an advance on several items of fifty cents and one dollar. Dealers state that they are finding a normal demand and are able to do business without as much effort as is customary. Albany advices state that good lumber is exceptionally firm, 3 and 4-inch uppers bringing from $78 to $80. There is more inquiry for hardwoods than at any previous time this season. An expansion in the demand for white ash has taken place, implement factories being reported as large buyers. Basswood continues scarce and birch is none too plentiful. Hemlock has advanced in the Chicago and Boston markets. In the former city it is sellling on the basis of $14 for 2x4, 2x6, 2x8 and 2x10, 12 to 16-foot, which is the highest price ever obtained for hemlock in that market. At Buffalo and Tonawanda the base price is still $14. There is no change in the shingle situation, but a heavy movement is looked for during the fall months, with possibly a rise in values.

GREAT BRITAIN.

While there has been some improvement in the tone of the British timber trade, the outlook for the future is still surrounded by uncertainty. The pessimist is predicting that prices have now reached the point where they are likely to react unless there should be an increased demand. On the other hand, the import this year is considerably behind that for the same period of last year. This has permitted stocks to become reduced in many instances. Building operations, which suffered from wet weather, are now more active and are assisting consumption. Importers seem to be surprised that shippers hold stocks so firmly and refuse to accept orders except at their own prices. It must be said that the foundation of the lumber business is on a better footing than it has been for some time. There have been no important failures and little tendency towards risky speculation. At recent auction sales prices were well maintained, fourth quality Quebec spruce bringing £8 10s. The London market is slightly overstocked with the common grades of red pine, but as the import this season will be light, the situation is likely to improve.

At Liverpool the stock of good spruce is comparatively low. Prices have shown an upward tendency, based upon £7 7s 6d to £7 10s per standard, according to specification, with about 60 per cent. of 7 and 8 inch. Other New Brunswick spruce, with a good proportion of 3x9 and 3x11, is being sold at extreme prices.

STOCKS AND PRICES.

M. Hyatt, of Revelstoke, is getting out 3,000,000 feet of logs, which will be used for bridges on the Canadian Northern Railway.

The steamer Kong Haaken is completing a cargo of deals at Montreal for the United Kingdom. The steamer Avona is expected to arrive in Montreal this week to load a cargo of deals for the U. K.

E. T. Carrington, Secretary of the Spanish River Boom Company, states that there are 185,000,000 feet of logs to be hauled by the Spanish River Boom Company this season, of which over 80,000,000 feet has been rafted.

White pine shingles are being offered in Chicago by rail at $3.20 for extras, $2.60 for standards and $1.50 for No. 1. Lath are in good request and bring $3.70 to $3.75 for No. 1 mixed by rail and about $3.50 by water. No. 2 lath are quoted at $3 by rail.

A report from Boston, Mass., says that the predominant feature of the hardwood market is the difficulty of securing the class of quartered oak needed, and this, of course, limits actual business. For the very highest grade quartered oak as high as $70 is asked.

J. & T. Charlton, of Collingwood, Ont., last week loaded the barge Carpenter and her consort the Tyson with lumber, consigned to Bradley, Miller & Company, of Bay City, Mich. The combined cargoes contained over 1,000,000 feet, entirely of this year's cut.

The lumber receipts at the Saginaw river during the week ending July 19th were as follows: Schooner J. B. Donaldson, from Midland, Ont., 440,547 feet, consigned to Mershon, Schuette, Parker & Company; schooner A. W. Wright, from Midland, 674,366 feet, same consignees; steamer Benton, from Spanish River, Ont., 307,117 feet to E. B. Foss & Company; schooner David Ferguson, from Spanish River, 47,785 feet lumber and 779,450 pieces lath, to Foss & Company; schooner C. J. Filmore, from Spanish River, 548,948 feet lumber and 68,000 pieces lath, to Foss & Company.

A Liverpool report says: The Quebec and Montreal season is now in full swing, but imports are chiefly by the liners. The chief exporters of pine goods are filling their contracts to other ports and are not sending here at present any larger quantity than they can help, except under their considerations for their positive engagements. For instance, Robert Cox & Co. have by the "Parisian" only 170 standards of deals and boards, and by the "Lake Ontario" only 15 standards of pine sidings; whilst Watson & Todd's importations per "New England" and "Roman" are only 200 standards of third pine deals, red pine deals, pine sidings, strips, etc.

THE SITUATION ON THE UPPER LAKES.

MINNEAPOLIS, MINN., July 23.—In local lumber circles there is already a sentiment in favor of making further advances in the list prices on white pine in the near future. It is improbable that these advances will occur before the meeting of the Mississippi Valley Lumbermen's Association, which is to be held August 20, but so firm are some of the local firms in their views that they want the advance to go into effect at that time and are beginning the agitation in favor of higher prices for the purpose of bringing it about at that time.

There are elements in the white pine situation which make it look much stronger than it has before this season. Owing to the favorable crop conditions in the spring wheat belt and in the states to the southwest, demand has kept up remarkably well during July thus far and has showed some gains over June. It was anticipated that the volume of business this month would be about normal on the June basis. An increased demand was therefore unexpected and is a source of surprise and is giving the market a firmer tone. And judging by the business that has been transacted the past three weeks and the outlook for the future August will also show a heavy consumption of white pine. At that time the crop movement in the winter wheat states will be on in full force and southern lumber manufacturers will have more difficulty in securing cars than they have at present. Harvest will be commencing in this section, but the crop movement will not have begun and northern manufacturers will therefore be in a position to supply the demand. They will have plenty of cars until well into September and their business will show a large increase. This will help the situation and will make prices stronger than ever.

Another feature which is contributing to a strong market is the continued shortage of assortments. White pine manufacturers are producing at the maximum of their ability, but apparently they are unable to accumulate stocks for next fall and winter after the sawing season will close, and this is causing a strong feeling. Manufacturers would prefer carrying over sufficient stocks so that they can take care of their customers in good shape next season to selling it out at the present time.

Whether those who are in favor of advancing prices will be able to accomplish this at the August meeting remains to be seen. It is known that they will use all of their influence in this direction. On the other hand, many of the large manufacturers, conservative in their views, are inclined rather to favor a list which is too low than one which is too strong, in the belief that prices on a steady and satisfactory basis are better than where they are irregular and where the list is not observed by all of the factors. It is certain, however, that the price list will be revised to some extent at that time and in all probability there will be advances on some items.—American Lumberman.

Messrs. Charles Querengesser and John Bennewies, of Broadhagen, Ont., have purchased from Burton Bros., of Barrie, a valuable timber limit in the township of Chapman, Parry Sound district. The limit comprises 44½ square miles and is well covered with pine, birch, hemlock and other commercial woods.

BRITISH COLUMBIA LETTER.

Owing to a continuance of fine weather during the last few weeks a large number of logs have been placed in the water, consequently the scarcity which prevailed during May and June has been relieved to a large extent. The mills are running full time and the trade is somewhat brisk, but it is thought that all orders coming in will be filled within a reasonable time. Prices on all grades of lumber and shingles are firm, and there is every reason to think that they will remain so for the next three months.

Owing to the high prices of logs, the millmen have decided to discount, in future, all payments for same 2 per cent.

A large number of orders for heavy donkey engines for logging have been placed with the foundries and the day of the hand-logger and man of small capital is nearing its end. The smaller class of donkey engines are being largely discarded for a heavier type, which are found to be more economical.

The rush to secure timber limits has practically subsided, although there are a few cruisers still in the field. Very few sales have taken place, although a number of United States millmen have been here looking over the ground.

The fight between the millmen and loggers re the prohibition of the export of logs to the United States still continues, but nothing is likely to be done with the law until the next sitting of the Legislature.

GILMOUR & COMPANY, LIMITED
TRENTON, CANADA

THE BOSTON MARKET.

Spruce lumber is only fairly steady, with a quiet demand. Still, the arrivals of small randoms are pretty free, and these have to be sold under the market. Nominally quotations are unchanged: Ten and 12 inch dimensions, $20 to $22; 9-inch and under, $19 to $20; 10 and 12 inch, random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $16.50 to $18; 5-inch and up, merchantable boards, $17; matched boards, $19 to $20; out spruce boards, $13.50 to $14; bundle furring, $17 to $18.

Hemlock is in quiet demand at full prices: Boards, 12, 14 and 16 feet stock, $15 to $15.50 for good eastern; Pennsylvania, No. 1, $16 to $17.50; No. 2, $15 to $15.50.

White pine does not lose one iota of the firmness noted all along, although trade is quiet Uppers, 1-in., $75 to $80; 2½ to 3 in. $80 to $85; 4-in. $85 to $88; selects, 1 to 1½ in. $68; 2-in. $69 to $70; 2½ to 3 in. $74 to $76; 4-in. $79 to $80; fine common, 1-in. $60 to $63; 1¼ to 1½ in. $64 to $66; 2-in. $68 to $70; 2½ and 3 in. $69 to $71; 4-in. $80; barn boards, $23 to $33; coffin boards, $27 to $32.

Hardwood lumber is in a firm position, with the demand fair: Quartered oak, $6 to $66; plain oak, $41 to $45; common an rejects, $20 to $25; whitewood, $42 to $43; sap and common, $30 to $35; brown ash, $41 to $44; white ash, $43 to $46; maple $28 to $30; end-dried white maple, $38 to $42; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Shingles are unchanged, with some unfilled orders: Extra cedar, $3.60; clear, $3; second clear, $2.50; extra No. 1, $1.90 to $2; British Columbia red cedar, 16-inch, five butts to 2 inches, $3.75 to $3.80; 18-inch, $4.25 to $4.50.

Clapboards continue scarce and firm. A few new are coming in, with the position very firm at: Clear, $38 to $40; second clear, $35 to $37; extra No. 1, $25 to $30.

Laths are about steady at $3.10 to $3.15 for 1⅝-inch 1½ inch, $2.95 to $3.

Henry Hunter, general store and lumber, Westchester Station, N. S., is advertising his property for sale.

The steamer Treasury sailed last week from West Bay, N. S, for Manchester, Eng., with 1,299 standard of deals.

The steamer Raymore Head sailed from Montreal last week for Dublin, with deals.

The La Ferriere Lumber Company, of Malbaie and Montreal, has been organized.

WANTED

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

Vol. VIII. TORONTO, CANADA, AUGUST 6, 1902 No 27

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the "Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of six 2 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m on Tuesday to insure insertion in the current week's issue.

WANTED—A RAFT OF PINE LOGS ON Georgian Bay; apply at once to Box 20, CANADA LUMBERMAN.

STANDING TIMBER FOR SALE.

600 ACRES OF CHESTNUT, WHITEWOOD, Hard and Soft Maple, Red and White Oak, Black and White Ash, Basswood, Soft Elm, Beech; a little Hickory, Butternut and Cherry; two railroads running through property; 10M per day mill, 40x100 ft., planer and matcher, shingle machine and other machinery; large dwelling house and house for men; barn and sheds; large bearing orchard; plenty of water; splendid market for wood; best lot of hardwood in this western Ontario; good investment for enterprising man. Bismarck Station, M. C. R., West Lorne, P. O. I. C. SCHLEIHAUF.

VALUABLE

TIMBER CONCESSION FOR SALE

The undersigned has had placed in his hands for disposal forty square miles of timber lands under a grant from the Dominion Government, to be selected anywhere on vacant Dominion lands for a distance of eight miles on either side of the Winnipeg River from its mouth to its junction with the English River.

The area may be selected in blocks to suit the purchaser.

Tenders will be received for the right to this concession up to 20th August next, accompanied by a marked cheque on a chartered bank for 10 per cent. of the purchase money. The highest or any tender not necessarily accepted. For further particulars apply to DAVID ROSS, Whitemouth, Manitoba, or

NEVILLE BAYLEY, *P. O. Box 1297,* Winnipeg.

CURRENT TRADE CONDITIONS.

ONTARIO.

Consumers are not delaying the purchasing of lumber in the hope of lower prices, as up to the present time there have been no indications of weakness and nothing to encourage such belief. The buying all season has been steady and of considerable volume, with only a slight falling off in the midsummer period. Everywhere lumbermen are wearing a look of satisfaction, apparently believing that the prosperity of the business will continue for some time yet. Stocks in the yards are in excellent position to sustain prices. In the Georgian Bay district there are only one or two large blocks of lumber on the market, and these would probably have been bought up before this but for extraordinary circumstances. Negotiations for one of these blocks are now under way. Inquiries are constantly being received by manufacturers and dealers for the better grades of pine, of which the supply is short. Unusually high prices are being offered. Hardwoods have not changed, being still in good demand at firm prices. Greater competition among buyers indicates a growing appreciation of the shortage in hardwood stocks which promises to be experienced in the near future. There is a little irregularity in prices quoted by Toronto dealers, those having none of last year's production being obliged in some instances to advance their prices in order to secure a margin of profit.

QUEBEC AND THE MARITIME PROVINCES.

Spruce lumber becomes more easily marketed as the season advances. Stocks have not accumulated at the mills, but have been bought up for export almost as quickly as they have been manufactured. The prevailing low freight rates have enabled shippers to compete very successfully in foreign markets, even in the face of the high first cost. The buying by United States concerns has been felt quite keenly by dealers this year, and has, of course, been the means of enabling the mill man to realize more for his lumber. Wide deals are scarce, the supply of all sizes above 8 inches being below the average of other years. Cedar products are firm, shingles ranging from $3.50 to $3.60 for extras on Boston rate of freight.

UNITED STATES.

The lumber market has had the benefit of fine weather during the past week. This has been reflected in increased trade and a general disposition to stock up. The white pine situation is most satis-

factory, and with the other branches of the business no fault can be found. The yield of corn this year promises to exceed anything in the history of the country, while the wheat crop will be an average one. This means much to the lumber business. Duluth reports a sharp inquiry for low grade pine. Sales of several million feet have been made at $10 to $10.25 for No. 4 boards and $4.50 to $5 for No. 5 boards. There is a scarcity of such stock in the Duluth district, which has created considerable discussion as to the advisability of putting an advance in price into effect. The better grades are likely to be advanced at the meeting of the Mississippi Valley Lumbermen's Association this week, and many manufacturers will doubtless urge that the conditions warrant higher prices for the lower grades also. In Chicago there is an enormous demand for No. 2 common and better in all grades. Short pine piece stuff is selling in that market at $15.50. There is a lessened inquiry for lath in Chicago, No. 1 mixed being quoted at $3 to $3.25, and No. 2 at $2.50 to $2.75. Hemlock prices are steadily advancing, and are now selling within $3 of pine. Hardwood lumber is moderately active and firm. Birch is almost as scarce as basswood, with prices firming up. Maple s also showing strength, in fact there is an all-round improvement in hardwoods. Shingles are rather quiet, with slight weakness in 16-inch at Buffalo and strength in 18-inch.

GREAT BRITAIN.

The receipts of timber at the Surrey Commercial Docks, London, this year are 50,000 tons less than for the corresponding period of last year. The light import has strengthened the market and caused some buying for fall delivery. At recent auction sales the bidding for stock has been quite brisk and prices well maintained. Some of the European markets are showing great strength. Germany and Holland have bought largely of whitewood,and Denmark bought freely early in the season. The French market has purchased little from English dealers, and is not likely to be much of a factor this year. Of the importing centres, Liverpool has improved ; a number of the brokers there having sold all the spruce which they will receive up to the autumn. There are distinct signs of a strenghthening in spruce values. Agents of shippers are looking for higher prices than they were willing to accept in the spring. The current asking quotations now for 3 x 9 Quebec third quality is £9 15s c.i.f. to London, and 3 x 7 and 8 inch £7 5s to £7 10s., according to specification. There has always been, as far as London is concerned, a keen competition between spruce and Riga, and now that the Riga shippers have advanced their prices it is only to be expected that the spruce shippers will try to obtain more for their goods. In square timber Quebec goods of all descriptions are firm, more especially waney board, square pine, and oak, of which there are very small stocks ; but the stiffness of prices does not seem to check sales.

Lath is scarce in the Buffalo market, No. 1 selling at $4.

Lumbermen in the Georgian Bay district are preparing for active operations in the woods during the coming winter. There is a scarcity of labor, but this wil be relieved when the mills cease operatons for the season.

STOCKS AND PRICES

The steamer Prone sailed from Montreal last week for London with a cargo of deals.

The red cedar shingle market in Washington is weak, notwithstanding the efforts of manufacturers to keep up prices.

In the Saginaw market 4 in. fine common pine lumber has advanced to $66, 2½ and 3 in. B fine common to $55, 4-inch to $58, and inch shaky clear, 10 in. and up wide, to $33.

Quotations for slack cooperage stock at Buffalo are about as follows : Dry elm flour barrel staves, $7.75 to $8 for first-class ; $4.25 to $4.50 for second-class. Basswood heading, 5¼ to 5½ cents for first-class ; 3¾ to 4 cents for second class ; coiled hoops, $10.50 to $11 for 6-foot, $10 to $10.50 for 5½-foot ; hickory hoops, $6 to $6.25.

We quote from the last report of S. P. Musson, Son & Company, Barbados : "Since the arrival of the "Gold Seeker" with 217,000 feet white pine for contractor's account, mentioned in foot note of our last, the "Canadian" has arrived from St. John, N.B., with 32,000 feet shipping and 90,000 2nd quality, which it is reported was contracted for, but it was put on market, and the shipping, which was of exceptionally nice quality, was fixed at $26, and the 2nd quality at $17½. We do not think this can be taken as an indication of the market. In spruce the only arrival is the "Moravia," from Liverpool, to our address, with 80,000 feet shipping and 35,000 feet 2nd quality, in fulfilment of contract made some time ago—season over, no enquiry. Shingles—Arrivals have been the "Bravo," with 357,000 laying, 23,000 long and 55,000 dimension to selves, 18,000 long and 357,000 dimension to neighbours ; we placed ours at $2.20 laying, $5.07 long, and for the dimensions obtained $8.57 8 in., $8.37 7 in., $7.37 6 in., $6.37 5 in., and $4.64 4 in.; other sales were $5.10 to $5.21 long, $7.50 8 in., $7.20 to $7.37 7 in., $7.05 to $7.37 6 in., $5.50 to $6.37 5 in., and $4.15 to $4.74 4 in. The "Acacia" arrived on 9th with 130,000 long, which were placed at $5.11 and $4.76, the quality of the former being very good. The "Canadian" has 242,000 laying contracted for some time ago at $2.20, and the "Lizzie Lindsay" is in this morning with a mixed cargo of long, laying and dimension.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

Stocks are moving steadily in the Ottawa district, and the prospects for the autumn business are receiving as much attention as actual operations. The local dealers report no change in prices as last reported in the Lumberman's market column.

While there is a movement of the present season's cut, it has not, outside the shipment of lath, reached any marked proportions. The local yards are practically clear of good pine sidings, strips and shorts. Good lath, which recently dropped back to $2.50, has again advanced to its old figure, $2.75.

The scarcity of white pine has created a demand for basswood, classified in this district with hardwoods. It is now selling from $14 to $18, the better quality showing an advance of $2 per M. Elm shows no advance, and is in poor demand. It is selling from $12 to $16 per M.

It is agreed that the prospects for a good September business are bright. Vacation season, particularly across the line, has placed a damper on present operations.

One of the largest and most important deals in local lumber circles is announced. By it the Hawkesbury Lumber Company secures the entire cut of logs taken off Mr. Robert Hurdman's limit at Deep River. The logs, about 73,000 in number, aggregate about 6,000,000 feet, board measure. The financial consideration was about $70,000. The logs, which were all cut during the past season, are now at the Quyon boom on the Upper Ottawa. They will be taken immediately to the mills at Hawkesbury, Ont., where the new owners will manufacture them into board lengths. The sale was negotiated through Messrs. Hurdman & Elmitt, of this city.

Mr. W. C. Edwards, M.P., who was in the Capital to-day, stated that business was brisk at his Rockland mill. The cut this year will equal last year's output. Men are being engaged for the Edwards' limits. No new territory will be cut over during the coming season. Mr. Edwards will confine his attention as heretofore to sawn lumber. He will not touch square timber.

Contrary to statements sent abroad, the scale of wages being paid limit workers this season is, with the exception of the square timber men, not in advance of last year's scale, which was in advance of that paid in former years. While labor is comparatively scarce, fully one thousand men have already been secured in Ottawa. The ruling wages are as follows : Road cutters, $18 to $22 per month ; general hands, $22 to $25 ; teamsters, $26 to $27 ; log cutters, $27 to $28 ; timber scorers, $30 to $35 ; timber liners, $35 to $40; timber hewers, $45 to $60, and cooks $45. Free board is included in the above list in every instance. While the figures for the square timber hewers, $45 to $60 per month, may seem high, it must be remembered that this branch of the business is enjoying a boom owing to the increased demand from the English market. It requires a keen, experienced eye and a sure trained hand to hew a timber twelve inches to the side which will pass the critical eye of the inspector at Quebec. Men who can do this can command a fancy figure, as their number is not large and the demand is increasing.

It is altogether likely that the output of square timber for the season will be in excess of that of last season. Fraser & Company, for instance, will pay almost exclusive attention to the production of square timber on their Coulonge limits.

The following firms have already engaged men in Ottawa : Gillies Bros., 200 for work on the Coulonge ; Hawkesbury Lumber Company, 300 men for the Dumoine and Petawawa ; J. R. Booth, 200 men for the Coulonge and Madawaska limits ; Fraser & Company, 200 men for the Coulonge limits ; C. Beck Mfg. Co., Penetang, 100 men. Wages may advance, but it is hardly likely.

Hurdman & Elmitt, of Ottawa, this week shipped a cargo of hardwood, elm and basswood, from Cornwall to the New York market. It was forwarded by the St. Lawrence route.

OTTAWA, Aug. 6th, 1902.

BRITISH COLUMBIA LETTER.

A very important enactment has been made by the Provincial Government whereby the exportation of all timber cut on licensed or leased land in the province is prohibited. The previous order restricted the export of cedar only. The effect will be that fir logs which have been scarce for the past three months will become more plentiful and prices will likely drop to some extent.

The great scarcity of cars has for the past two weeks seriously interferred with shipments of lumber to eastern points, causing considerable loss to the different mills. The shingle business is brisk and difficulty is experienced by some mills in getting a sufficient supply of bolts owing to the low water in some of the smaller rivers.

A number of small companies have been gazetted as being formed to engage in the shingle business, having been encouraged by the temporary period of prosperity. Indications at present are that this branch of the business is liable to be overdone.

VANCOUVER, July 25th, 1902.

TIMBER CONCESSION FOR SALE.

In this issue will be found an announcement by Mr. David Ross, of Whitemonth, Man., that he has had placed in his hands for disposal 40 square miles of timber lands under a grant from the Dominion Government, to be selected anywhere on vacant Dominion lands for a distance of eight miles on either side of the Winnipeg river from its mouth to its junction with the English river. Tenders for the right will be received up to August 20th.

BIRCH SQUARES AND SEATS.

A large buyer of Birch chair seats and of Birch squares is open to contract with a mill for their output. Also open for Broom Handles and Dowels in large quantities. Write in first instance to "Finance," care of CANADA LUMBERMAN.

GRADING OF PINE DEALS.

It will be remembered that the Timber Trade Federation some little time back took up the question of the change in the method of culling pine deals. Considerable pressure was brought to bear upon shippers to revert to the old system, but without success. Ultimately, however, says the Timber Trades Journal, of London, Eng., it was arranged that the culling which prevailed in the Ottawa district towards the end of last year, and which was understood to be better than the mode of sorting which preceded it, should become the trade standard for quality, and contracts were generally entered into on this understanding. From what we can gather the new goods which have come to hand under these contracts do not appear, in all instances, to have come up to importers' anticipations, and in one instance which has come more particularly under our notice the difference of opinion has been so acute as to lead to the intervention of the arbitrator. It is the third quality which buyers are more anxious to see improved, but as this forms the bulk of the pine production it is obviously a question of importance to the millmen and shippers. Much, indeed, might be said from the shippers' point of view on this subject, which is no doubt a complicated one, and shows the difficulty met with in altering established trade practises. If we may hazard our own opinion, it is that the gap between the price of seconds and thirds is too large, and that the matter could be adjusted by improving the quality, while raising the prices for the various specifications of thirds.

GILMOUR & COMPANY, LIMITED

TRENTON, CANADA

THE BOSTON MARKET.

Business in spruce lumber at Boston has been decidedly better for the week, but prices are somewhat irregular. The larger mills are busy, and well maintaining prices. Some of the smaller mills, for the sake of business, have made concessions. Still, the spruce position is considered pretty firm: Ten and 12-inch dimensions, $20 to $22; 9-inch and under, $19 to $20; 10 and 12 inch, random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $16.50 to $18; 5-inch and up, merchantable boards, $17; matched boards, $19 to $20; out spruce boards, $13.50 to $14; bundle furring, $17 to $18.

Hemlock is in quiet request at unchanged prices: Boards, 12, 14 and 16 feet stock, $15 to $15.50 for good eastern; Pennsylvania, No. 1, $16 to $17.50; No. 2, $15 to $15.50.

Western white pine is very firm indeed: Uppers, 1-in., $75 to $80; 2½ to 3 in. $80 to $85; 4-in. $85 to $88; selects, 1 to 1½ in. $68; 2-in. $69 to $70; 2½ to 3 in. $74 to $76; 4-in. $79 to $80; fine common, 1-in. $60 to $63; 1¼ to 1½ in. $64 to $66; 2-in. $68 to $70; 2½ and 3 in. $69 to $71; 4-in. $80; barn boards, $23 to $33; coffin boards, $27 to $32.

Hardwood lumber is quiet and firm: Quartered oak, $64 to $66; plain oak, $41 to $45; common and rejects, $20 to $25; whitewood, $42 to $43; sap and common, $30 to $35; brown ash, $41 to $44; white ash, $43 to $46; maple, $28 to $30; end-dried white maple, $38 to $42; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Shingles continue firm and well held: Extra cedar, $3.60; clear, $3 to $3.10; second clear, $2.50; extra No. 1, $1.90 to $2; British Columbia red cedar, 16-inch, five butts to 2 inches, $3.75 to $3.80; 18-inch, $4.25 to $4.50.

Clapboards are scarce and firm: Clear, $38 to $40; second clear, $35 to $37; extra No. 1, $25 to $30.

Laths are about steady at $3.10 to $3.15 for 1⅝-inch; 1½ inch, $2.95 to $3.

Mr. G. W. Hudson, of the firm of G. Hudson & Son, timber merchants, Sydney, New South Wales, was recently in Canada, with a view of placing some large orders with the lumber mills on the Pacific Coast for exporting British Columbia pine, fir and cedar to Australia.

The London & Western Trust Company, of London, Ont., have sold 200 acres of timber lands on the 1st concession of Aldborough for $10,225. A. McKillop & Sons, of West Lorne, were the purchasers. The timber is principally hickory, basswood, elm, ash and maple.

WANTED

MESSRS JOSEPH OWEN & SONS, Ltd., of Liverpool, Eng., are open to treat for regular supplies of large quantities of HARDWOOD LUMBER, and will be glad to hear from holders who have to offer WHITE ASH, WHITE OAK, SCALY BARK and SECOND GROWTH HICKORY, POPLAR and WALNUT, in logs, planks and boards, also prime fresh BIRCH LOGS of large dimensions.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, CANADA, AUGUST 13, 1902 No. 28

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the "Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of six 2 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

PINE SHINGLES FOR SALE, X, XX, XXX. DOBIE & CO., Thessalon, Ont.

GOOD SHINGLE PACKER WANTED. Apply to JAS. GORDON, Thessalon, Ont.

WANTED—A RAFT OF PINE LOGS ON Georgian Bay; apply at once to BOX 20, CANADA LUMBERMAN.

LUMBER WANTED.

BIRCH SQUARES 5" x 5" and 6" x 6", dry or green. Liberal price on one or more cars. J E. MURPHY, Hepworth Station, Ont.

DRY PINE.

WE HAVE ABOUT 1,500,000 FEET DRY PINE in 1, 2 and 3 inch common and better, prefer selling in bulk. Will quote freight rate to Buffalo, Chicago or Toronto on application. Correspondence solicited. N.B.—Would like to correspond with consumers of hardwoods. ST. JOE ISLAND LUMBER CO., Sault Ste. Marie, Ont.

SPECIAL TO LUMBERMEN.

WITH A THOROUGHLY EQUIPPED PLANING Mill at Orillia, we solicit orders for resawing and planing of lumber, in any quantity; can match 26 inches wide; all work guaranteed first-class; prices on application. Address, NATIONAL BOX CO., Orillia, Ont.

Timber For Sale

THE UNDERSIGNED OFFER FOR SALE 44½ Square Miles of Timber Limits in the Township of Chapman, Parry Sound District, either in bulk or any part thereof to suit buyers. The limit comprises Pine, Birch, Hemlock, Cedar and other woods. Alternate offers are also invited for logging and manufacturing the timber on the basis of per thousand feet. For further particulars address CHARLES QUERENGESSER, Brodhagen, Ont.

HAVE YOU ANY STOCK WHICH YOU wish to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

WANT TO CORRESPOND WITH PARTIES that wish to open up a trade in all kinds of Hardwood Blocks for the English market. Specifications, prices, etc., obtained from E. D. G. PIDGEON, St. John, N. B.

SECOND HAND GANG WANTED.

A GANG 48 INCHES OR WIDER, HAMILTON or Wickes make preferred. Give full description and lowest price for cash. Address X, care of CANADA LUMBERMAN.

WANTED

INSPECTOR OF WHITE PINE AND NORWAY Deals for the English market—Resident Midland district preferred; state age, experience salary, Box 105, CANADA LUMBERMAN.

FOR SALE

A QUANTITY OF ONE-INCH WHITEWOOD, Basswood, Soft Elm, Soft Maple and White Ash, log run, cut 3 months. Shipments by water or rail. Apply to

ROBT. LIGHT,
Napanee, Ont.

FOR SALE.

THE ENTIRE CUT OF 1902 OF SEVERAL mills on the Ottawa Valley of all number one white pine mill culls, strips and sidings, 1" to 3" thick, and also other grades. Shipments by water or rail. Write for particulars and quotations to A. F. BURY AUSTIN, Wholesale Lumber & Timber, Room 507 Merchants Bank Bldg., Montreal. Also spruce lumber of all grades.

STANDING TIMBER FOR SALE.

600 ACRES OF CHESTNUT, WHITE-WOOD, Hard and Soft Maple, Red and White Oak, Black and White Ash, Basswood, Soft Elm, Beech; a little Hickory, Butternut and Cherry; two railroads running through property; 10M per day mill, 40x100 ft., planer and matcher, shingle machine and other machinery; large dwelling house and house for men; barn and sheds; large bearing orchard; plenty of water; splendid market for wood; best lot of hardwood in this western Ontario; good investment for enterprising man. Bismarck Station, M. C. R., West Lorne, P. O. I. C. SCHLEIHAUF.

VALUABLE
TIMBER CONCESSION FOR SALE

The undersigned has had placed in his hands for disposal forty square miles of timber lands under a grant from the Dominion Government, to be selected anywhere on vacant Dominion lands for a distance of eight miles on either side of the Winnipeg River from its mouth to its junction with the English River.

The area may be selected in blocks to suit the purchaser.

Tenders will be received for the right to this concession up to 20th August next, accompanied by a marked cheque on a chartered bank for 10 per cent. of the purchase money. The highest or any tender not necessarily accepted. For further particulars apply to DAVID ROSS, Whitemouth, Manitoba, or

NEVILLE BAYLEY, *P. O. Box 1297,* Winnipeg.

Norway lumber is held at Saginaw, Mich., at $14, with the supply not plentiful. Log run ranges from $17 to $21.

The Goderich Lumber Company last week received a raft of logs from Sans Souci containing 1,500,000 feet.

CURRENT TRADE CONDITIONS.

ONTARIO.

Buying of lumber for fall requirements has not yet commenced to any extent. The local demand is rather quiet, but still sufficient to take care of all the stock that is offered. Harvesting operations are engaging the attention of the farmer, who, after his crops are housed, will enter the lumber market to a degree corresponding with the abundance of his crops. In some sections the crops have been damaged by rain, but on the whole an average yield is promised, and conditions from a consumer's point of view are satisfactory. The present prosperity of the lumber business is likely to continue for another year at least.

The chief activity is confined to clear lumber, shingles and lath. A scarcity of the best grades of pine has prevailed all season, and from time to time advances in price have been put into effect by the manufacturers. Retail dealers state that the frequent advances have been the cause of much dissatisfaction, as they felt that under the circumstances they were not in a position to quote prices to consumers excepting for immediate delivery. The higher prices have in a slight degree curtailed the demand for lumber for building purposes. Considering the season of the year, lath prices are firm. Most mills are asking from $2.75 to $3.00 for No. 1, although purchases are claimed to have been made recently at $2.50. The wholesale price in Toronto is about $3.50. Shingles are holding steady at $3.25 for best grade wholesale in Toronto.

MANITOBA AND BRITISH COLUMBIA.

With an estimated crop of wheat of 60,000,000 bushels in Manitoba and the Territories this year, the business community takes a hopeful view of the situation. Lumber is being purchased freely for present and prospective requirements, and prices promise to further advance in the near future. The consumer or dealer who buys at current prices is likely to find himself on the right side of the market. British Columbia lumber is firm. Fir logs have recently advanced in price. Red cedar shingles are steady, in contrast to the weakness which prevails in Washington.

UNITED STATES.

With a slightly smaller volume of trade, the lumber market of the United States has maintained its strength. The past week has been quite eventful, several associations having taken action regarding price lists. According to the new

list adopted by the Mississippi Valley Lumbermen's Association, sharp advances are made in high-grade lumber. First and second clear, A selects, B selects and high-grade thick finish were advanced $3 to $5 a thousand, 1¼ and 1½ inch C selects 50 cents, and 2-inch $1.50. Siding was heavily advanced in the better grades, but only slightly in the lower grades. Lath was reduced 25 cents, making the price $4 for No. 1 white, $3 for No. 2, and $s.50 for mixed. The advances were considered justified by the conditions, as the report of stocks presented by the secretary was a most favorable document. Some of the chief items are given elsewhere. A new official hardwood price list was decided upon by the Hardwood Manufacturers' Association on August 6th, although only some classes of lumber were included, the others to be considered later. Basswood was fixed at $32 to $34 for firsts and seconds, $25 to $27 for No. 1 common, and $16 to $21 for No. 2 common. A range of $36 to $48 for firsts and seconds and $26 to $38 for common was allowed for ash. While hemlock prices have not yet advanced, a meeting of the Northwestern Hemlock Manufacturers' Association is to be held this week, when action will likely be taken

Buffalo reports a scarcity of 10 and 12 inch box and cutting-up lumber. The demand for birch and basswood is in advance of the supply, with prices slightly higher. Black ash sells quickly. Lath prices are a shade weaker, with shingles firm.

GREAT BRITAIN.

The tone of the British timber market continues very good. The import has been on a moderate scale, and appearances point to firm prices throughout the year. Reports of a short supply have at last influenced importers, who are not disposed to delay the placing of orders. Canadian pine deals of first quality are very scarce, while the supply of the lower grades is plentiful. At Liverpool the maximum quotation for best quality is £28 per standard. Of the spruce market a recent report from Liverpool, says: "Unless the unforeseen happens, we think the spruce market has seen its worst for this season; the pressure to sell steamers "to arrive" has been relaxed, and the attitude of the shipper is now one of complacency." Advices from London are not so assuring, as the following from the Timber News, would indicate: "Several sales have taken place in spruce deals from the docks during the last week, at varying prices. If the report is correct that a firm of importers has sold a parcel of 3rd 3 by 9 12/13ft. at £9 7s 6d, it would appear that goods are to be purchased at cost price—at any rate, the sellers can only have made the "handsome" profit of 2s 6d per standard. The majority of contracts for deals are based on £9 12s 6d to £9 15s for 3 by 9 3rd spruce, and £10 2s 6d to £10 5s for second quality in dock." The best information, however, is to the effect that spruce prices are more likely to advance than to recede. In square and waney timber a steady trade is doing at firm prices. Birch logs are scarce at Liverpool, but more plentiful at Glasgow.

J. T. Marchand and T. Prefontaine & Company will supply the lumber required this year by the Montreal Waterworks Department.

STOCKS AND PRICES.

Messrs. Reid & Company, Esplanade street, Toronto, are still in the market for 4x4 cedar, 10 to 16 feet in length.

At an auction sale held by Foy, Morgan & Company, London, Eng., recently, waney ash, 8-21 feet long, 14-20 inches in diameter, brought 8d per cube; waney elm, 16-26 ft. long, 14-19 inches diameter, 9½d per cube, and American round ash from 5½d to 6d per cube.

Stocks of white pine in Chicago are geting into better shape, but there is no surplus of dry stock there or at the northern mills. A feature of the trade is the weakness in No. 3 and No. 4 common boards, which are in better supply. At the same time there is also a little easiness in short and narrow piece stuff, which is selling in Chicago at $15.75 to $16.00.

LUMBER IN THE LAKE SUPERIOR DISTRICT.

The following extracts from the report of the secretary of the Mississippi Valley Lumbermens' Association contain much interesting information regarding lumber stocks and demand:

Sales up to July 1st this year were 11 per cent. less than during the same time last year, or 1,132,218,890 feet as compared with 1,258,980,473, but they are 25 per cent. larger than during the same months of 1900, when the total was 903,228,163 feet. The apparent decrease this year is almost entirely due to the shortage of the stock. Shipments have been so much greater than the production for the past three years that the time was finally reached when sales were of necessity restricted because of scarcity of lumber. For the past five months the majority of our members have been unable to fill more than from 50 to 75 per cent. of the orders offered. There is little doubt but that shipments would have nearly equalled the high record of last year had there been as much stock in shipping condition.

Stocks of lumber held by the manufacturers of the Mississippi and Wisconsin valleys on August 1, 1900, were 11 per cent. less than those on hand August 1, 1899.

On August 1, 1901, stocks were 7 per cent. less than those on hand August 1, 1900.

On August 1, this year, stocks of lumber were 7 per cent. less than those on hand same date last year. This makes a total percentage of shortage August 1, 1902, over the same date 1899 of 25 per cent. These percentages were based upon comparative reports from practically the same firms each year.

On January 1 this year stocks were 16 per cent. less than those on January 1, 1901, as shown by the annual inventories.

Lath to-day is 35 per cent. more than the amount on hand August 1 last year.

Shingles are to-day 26 per cent. less than the amount on hand August 1, last year.

On January 1, this year, dimension constituted 24.9 per cent. of the whole amount of lumber on hand, which was a decrease of 5.8 per cent. over the proportion of dimension on hand the year previous, as shown by the inventories.

On August 1st the stock of dimension carried by our members was 61,450,000 feet less than that carried by them on August 1 last year. On January 1st the total stock of dimension was 286,006,513 feet. This shortage would indicate that there need be no fear of any accumulation of piece stuff of northern pine this year. It also indicates that there is an increasing percentage of inch stuff being sawed, largely due to the higher price for the latter.

On account of the deterioration of standing timber there is an increasing percentage of low grade stock being obtained, and there must consequently be an increasing discrepancy between the prices of common and better grades.

Our reports show that the members of this association will produce about the same amount of lumber that was sawed last year, provided conditions are favorable from now to the end of the season. There are a number of mills which will saw considerably less, as a few which last year sawed both night and day are now sawing but day only, but this decrease is offset by small increased estimates by many other mills. It is not at all likely that the production will be any greater than it was last year.

TRADE OPENINGS.

An eastern firm desires to purchase several carloads of hard maple logs from 22 to 27 inches in diameter and 10 to 12 feet long.

A letter from the Canadian secretary of the Wolverhampton Exhibition of Arts and Industries has been forwarded to the Manufacturers Association in Toronto, through the Department of Trade and Commerce, which states that large contractors in Bombay are very anxious to obtain a Canadian hardwood suitable for flooring which the white ants cannot penetrate. The secretary would be very glad to receive samples of wood for inspection.

F. K. Lyons, agent for L. W. Bates, of London, England, who has a contract for extensive harbor improvements to be made at Shanghai by the Chinese government, is touring the Pacific Coast, conferring with lumber manufacturers in regard to a heavy order for shipment to Shanghai. The order will include piling, sheeting and heavy timbers. The main work will be the erection of extensive wharves and docks along the river front, and these are to be sheathed up in a substantial manner.

CANADIAN LUMBER SHIPMENTS.

From Montreal: Str. Montreal, sailed July 28th, for London, 620 pieces hardwood lumber, by W. & J. Sharples; 5,031 pcs. lumber by G.T.R. Str. Tiger, sailed August 5th, for Rotterdam, Leith, 5,937 pcs. deals, 212 logs, by W. and J. Sharples; 5,204 pcs. deals by Dobell, Beckett & Co.; 518 pcs. deals by McArthur Export Co.; 5,905 pine boards by Watson & Todd. Str. Langford, sailed August 6th, for Newcastle, 2,864 deals by J. Burtsall & Co.; 33,365 pcs. deals, 375 boards, by Dobell, Beckett & Co. Str. Bengore Head, sailed July 29th, for Chatham, 15,694 pcs. deals by Watson & Todd. Str. Marina, sailed July 30th, for Glasgow, 4,544 pcs. deals by McLaurin Bros.; 6,201 pcs. deals by R. Cox & Co.; 1,588 pcs. deals by J. THE GLASGOW MARKET.

Wright, Graham & Company, in their report of July 31st, give the following particulars of the Glasgow timber market:

During the latter half of the month just ended business has been practically at a standstill, the local mills and yards having been closed for the annual holidays, and buyers are only now beginning to resume work again. A moderate amount of business was done in the early part of the month and prices have kept firm. The cabinet trade continues dull, but both the shipbuilding and housebuilding trades are doing a good steady business.

WANEY BOARDWOOD. — The demand holds strong, and stock is very light. Prices are much the same as before, prime wood of long average length having been sold at 3s. to 3s. 6d. per cubic foot; second-class stock is quoted at 2s. 3d. to 2s. 9d. per cubic foot.

OAK LOGS. — There is a market for prime logs of long average length. Prices are quoted at 3s. to 3s. 3d. per cubic foot. Logs of poorer size and quality are quoted at from 2s. 3d. to 2s. 6d. per cubic foot.

ELM.—The demand continues light, but the price for prime quality logs of good average length remains firm at 2s. 9d. to 3s. per cubic foot. Parcels of poor specification and inferior quality are difficult to sell.

ASH.—The bulk of the stock is held by consumers. Prices are quoted at about 22d. per cubic foot for 14 in. average, and 2s. to 2s. 2d. per cubic foot for 15 in. average.

BIRCH, since our last report, has gone well into consumption, and stocks have been well reduced. Logs continue to be quoted at about 1s. 6d. for 16 in. average. Planks of ordinary quality are a drug in the market; prime quality only are saleable, price ranging from 15d. to 16d. per cubic foot.

QUEBEC WHITE PINE DEALS.—Price of broad firsts continues firm, and there is a good demand for same. Quotations are as follows : 1st quality, broad, £33 to £37 2s. 6d. per standard; 11 in., £25 8s. 9d. to £28 10s; 7" to 10", £22 to £23 7s. 6d; 7" and up by 6/9', £18 11s. 3d. to £19 18s. 9d. 2nd quality, broad, £22 to £23; 11 in., £20 to £21; 7 in. to 10 in., £15 16s. to £16 10s; 7" and up by 6/9', £13 to £14. 3rd quality, broad, £14 to £15; 11 in., £12 7s. 6d. to £13 5s; 7 in. to 10 in., £10 to £11; 7" and up by 6/9', £8 5s. to £9 12s. 6d. 4th quality, broad, £10 13s. to £11 6s. 10d; 11 in., £10 to £10 10s; narrows, £8 5s. to £9 5s.

QUEBEC WHITE PINE SIDINGS.—There is still an active demand for first quality 1½ and 2 in., and parcels arriving meet with ready sale. Prices are now quoted at from £22 13s. 9d. to £24 15s. per Std.

RED PINE DEALS. — The demand is light, and few sales are reported. The following prices are quoted: 9 and 11 in. by 3 and 4 in., £9 12s. 6d. to £11 per standard; 7 to 10 in. by 3 in., £7 15s. to £8 11s. 10d.

SPRUCE DEALS.—A moderate amount of business has been done this month, and prices keep firm. Prices quoted are: 9 in. and up by 3 in. at £9 2s. 6d. to £9 12s. 6d per standard; 7 and 8 in. by 3 in. at £6 10s. to £7 10s.

The steamship Nordboen sailed from Montreal on Friday last for Newcastle and West Hartlepool with a cargo of deals.

The schooner A. T. Wright has just loaded lumber and lath at Collingwood, Ont., for Bay City, shipped by J. & T. Charlton.

BRITISH COLUMBIA LETTER.

(Correspondence of the CANADA LUMBERMAN.)

Owing to the high prices prevailing for both fir and cedar logs, prices on all grades of fir and cedar lumber have advanced one dollar per thousand since August 1st. Labor is also scarce owing to the large supply required to handle the cannery business during the fishing season. Although prices of lumber have risen considerably above those of last year, manufacturers' profits have not increased owing to the high price of logs and labor. The price of logs has risen owing to the increase in wages, which range from $2.50 to $5.00 per day, the average being about $3 per day, and the increased demand by the mills over previous years. Several joint meetings of millmen and loggers have been held lately with the Government regarding the law prohibiting the exports of logs, and the Chief Commissioner of Lands and Works has the subject under consideration with a view to a modification of the law if found in the interests of the industry.

Considerable dissatisfaction exists among lumbermen against eastern speculators bidding on limits cruised by them on Dominion Government lands. It is considerable expense to locate and cruise limits, and eastern speculators can afford to bid higher on limits put up for tender, as they are not under the expense of locating and cruising them. It is proposed to have put up for tender large tracts of stunted pine lands for the timber sharks around Ottawa, and if they wish to pay a bonus and yearly rental on rocks and useless scrub timber the Government will be so much the richer. It would be well in future for eastern men with a mania for gambling in timber to make a thorough investigation of the lands put up by tender by the Dominion Government.

TIMBER STATEMENT.

Following is a comparative statement for three years of the timber, etc., measured and culled at the port of Quebec up to 12th August, 1902, as reported by the Supervisor of Cullers:

	Cu. ft. 1900	Cu. ft. 1901	Cu. ft. 1902
Waney white pine	1,278,222	880,117	1,519,699
White pine	502,248	348,250	297,570
Red pine	60,735	46,527	59,947
Oak	352,010	288,924	505,742
Elm	485,736	759,802	527,884
Ash	76,274	124,956	68,438
Basswood	241	464	. . . .
Butternut	92	740	. . . .
Tamarac	71	22	. . . .
Birch and Maple	387,739	297,755	9 ,410

THE BOSTON MARKET.

Business in spruce lumber at Boston s better, with prices more steady. Some of the large mills even are done sawing for the season, and others are near to this condition, and this will shorten the supply a good deal. The small randoms that have been making the market weak are well worked off: Ten and 12-inch dimensions, $20 to $22; 9-inch and under, $19 to $20; 10 and 12 inch, random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $16.50 to $18; 5-inch and up, merchantable boards, $17; matched boards, $19 to $20; out spruce boards, $13.50 to $14; bundle furring, $17 to $18.

Hemlock lumber is very steady, with quotations unchanged: Boards, 12, 14 and 16 feet stock, $15 to $15.50 for good eastern; Pennsylvania, No. 1, $16 to $17.50; No. 2, $15 to $15.50.

The very firm position of western pine is continued, though trade is quiet: Uppers, 1-in., $75 to $80; 2½ to 3 in. $80 to $85; 4-in. $85 to $88; selects, 1 to 1½ in. $68; 2-in. $69 to $70; 2½ to 3 in. $74 to $76; 4-in. $79 to $80; fine common, 1-in. $60 to $63; 1¼ to 1½ in. $64 to $66; 2-in. $68 to $70; 2½ and 3 in. $69 to $71; 4-in. $80; barn boards, $23 to $33; coffin boards, $27 to $32.

Hardwood lumber is in fair demand with a generally firm market: Quartered oak, $64 to $66; plain oak, $41 to $45; common and rejects, $20 to $25; whitewood, $42 to $43; sap and common, $30 to $35; brown ash, $41 to $44; white ash, $43 to $46; maple, $28 to $30; enddried white maple, $38 to $42; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Shingles are still firm, with orders behind: Extra cedar, $3.50 to $3.60; clear, $3 to $3.10; second clear, $2.50; extra No. 1, $1.90 to $2; British Columbia red cedar, 16-inch, five butts to 2 inches, $3.75 to $3.80; 18-inch, $4.25 to $4.50.

Clapboards are still very scarce and firm: Clear, $38 to $40; second clear, $35 to $37; extra No. 1, $25 to $30.

Laths are about steady at $3.10 to $3.15 for 1⅜-inch; 1½ inch, $2.95 to $3.

WANTED

STANDING TIMBER FOR SALE.

600 ACRES OF CHESTNUT, WHITE-WOOD, Hard and Soft Maple, Red and White Oak, Black and White Ash, Basswood, Soft Elm, Beech; a little Hickory, Butternut and Cherry; two railroads running through property; 10M per day mill, 40x100 ft., planer and matcher, shingle machine and other machinery; large dwelling house and house for men; barn and sheds; large bearing orchard; plenty of water; splendid market for wood; best cut of hardwood in this western Ontario; good investment for enterprising man. Bismarck Station, M. C. R., West Lorne, P. O. I. C. SCHLEIHAUF.

FOR SALE

SAW MILL AND FLOUR MILL

FOR SALE AT VERNER, IN THE DISTRICT of Nipissing, Ont., on the C. P R. line and located on the banks of the river Veuve, the following properties in first-class running order in every respect:

1. A Saw-mill, two stories high, 84x48 feet, well built and having a sawing capacity of 25,000 feet of wood per day. A 100 horse power engine works the mill. A planing machine is also attached to the above, with a capacity of 8000 feet per day. There is also a shingle mill capable of turning out 40,000 shingles a day.
2. A six miles square pine wood limit, located two miles from the saw-mill.
3. Two large houses in perfect order, sheds, etc.
4. A flour mill capable of preparing 300 bushels of bran per day and 150 bushels of flour.
5. 18 acres of land under cultivation.

Good reasons for selling. For terms apply to W. LALONDE & CO.,
Verner, Ont.

WANTED—MACHINERY SUITABLE FOR A good circular mill that would have a capacity of 30,000 feet per day. Apply at once to Box 20, CANADA LUMBERMAN.

FOR SALE — First-Class Portable Saw and Shingle Mill; good locality; plenty of timber. For further particulars apply to GEO. A. PATRICK, Emo P.O., Rainy River District.

SITUATION WANTED AS BOOK-KEEPER in lumber office by man experienced in Canadian and British trade. State salary given. Answers to "BOOK-KEEPER," CANADA LUMBERMAN office, Toronto.

SECOND HAND GANG WANTED.

A GANG 48 INCHES OR WIDER, HAMILTON or Wickes make preferred. Give full description and lowest price for cash. Address X, care of CANADA LUMBERMAN.

WANTED

INSPECTOR OF WHITE PINE AND NORWAY Deals for the English market—Resident Midland district preferred; state age, experience salary, Box 105, CANADA LUMBERMAN.

BOOM CHAINS FOR SALE.

A LARGE QUANTITY OF 9/16 AND 11/16 Wire, B B. grade, Cable Chain at second-hand. Lengths 10 to 16 feet. In quantities as desired. Write for prices. DETROIT LUMBER Co., Detroit, Mich.

DRY PINE.

WE HAVE ABOUT 1,500,000 FEET DRY PINE in 1, 2 and 3 inch common and better, prefer selling in bulk. Will quote freight rate to Buffalo, Chicago or Toronto on application. Correspondence solicited. N.B.—Would like to correspond with consumers of hardwoods. ST. JOE ISLAND LUMBER CO., Sault Ste. Marie, Ont.

SPECIAL TO LUMBERMEN.

WITH A THOROUGHLY EQUIPPED PLANING Mill at Orillia, we solicit orders for resawing and planing of lumber, in any quantity; can match 26 inches wide; all work guaranteed first-class; prices on application. Address, NATIONAL BOX CO., Orillia, Ont.

HARD MAPLE LOGS

ANY person able to supply us with from 10 to 25 carloads hard Maple l gs, 50% to be large enough to turn 22" in diameter and 5 % large enough to turn 27" in diameter, 10 to 12 ft. in length, not over 25% under 12 ft., to be free of knots, shake and seam, for immediate shipment, write us at once, quoting price and naming point of shipment. OTTAWA LUMBER COMPANY, Ottawa, Can.

Lumber Specialties Wanted

A BRITISH IMPORTER DESIRES TO communicate with Canadian manufacturers of wooden specialties, such as broom and tool handles, picture mouldings, back boards for pictures, etc. The party has been established in business for twelve years, and offers as references several of the leading banks of Europe. Representation upon a commission business is preferred. For particulars address, "T.M.W.", care CANADA LUMBERMAN.

TIMBER LIMIT TRANSACTION.

One of the largest transactions in timber limits that has taken place in Ottawa in recent years was quietly concluded recently, when the W.C. Edwards Company purchased from the Arthur Hill Company, of Saginaw, Michigan, a large limit in the Temiskaming region, said to contain some of the best timber in Canada. The purchase price is in the neighborhood of $300,000.

CURRENT TRADE CONDITIONS.

ONTARIO.

There are no visible signs of weakness in the pine lumber market. All grades are firm and moving quite actively. Persons who earlier in the year predicted lower prices have now changed their attitude towards the market, and expect the sustenance of present prices at least. Good crops throughout the province have inspired confidence in a continuance of business prosperity. A large manufactnrer who sold his season's production of pine lumber early in the season tells us that he is constantly in receipt of letters from dealers and customers to the effect that they would regard it as a favor if he could supply them with a certain quantity of lumber. This, perhaps more than anything else, illustrates the strength of the market. There are practically no large blocks of lumber that have not passed out of first hands. Log run pine delivered on the water's edge of the Georgian Bay has been sold as high as $23.

The activity in hardwoods is looked upon in a very favorable light. There will doubtless be a heavy consumption of hardwood lumber this fall for building and factory purposes, and the supply of stock will be none too great to go round. Some of the standard varieties are likely to witness a further advance.

QUEBEC AND NEW BRUNSWICK.

There has been quite active buying of spruce lumber of late and the mills will likely go into the winter with very light stocks. Prices have gradually strengthened and are now at a point where they represent a fair margin of profit to manufacturers. Shipments from Montreal to the British market are quite active, although the total for the season will probably show a falling off as compared with last year. In spruce clapboards we find an extraordinary condition of affairs. The supply is insufficient to meet the demand; in fact there is something closely resembling a dearth. Where the supply for the fall and winter trade will come from is a question. Shingles continue strong on the basis of $3.50 to $3.60 for extras on Boston freight rate. It is predicted that there will be an advance in cedar shingles in September, when dealers commence to buy for the fall trade.

MANITOBA AND BRITISH COLUMBIA.

The active building movement in all parts of the west has created a demand for lumber which mills have much difficulty in meeting. So great has been the pressure upon stocks that prices have again advanced and are now $1 per thousand

higher for all kinds of white pine, red pine and British Columbia lumber. Lath has also advanced to the extent of 25 cents per thousand, making the wholesale price in Winnipeg now $4.00. British Columbia mills are very busy, but logging operations are still handicapped by the scarcity of men.

UNITED STATES.

The conditions outlined in last issue still prevail. Wholesale dealers could do a little more business, but still their sales are greater than is usual in midsummer. The recent advances put into effect are being easily sustained. Wide box lumber is a good seller in the eastern markets. Building at Buffalo and Tonawanda is quite brisk and has had a good effect upon the market. A few Michigan dealers report that it is not so difficult to pick up lumber at manufacturing points as it was in the spring. This, however, might be expected after the mills have been in operation for several months. Spruce lumber is strong and quite active. On frames prices are being well sustained. On an easy schedule there are small mills ready to concede a little in price, but the large producers refuse to give way except in the case of random, which is weak. Hemlock is steady at last quotations. Hardwood lumber is showing considerable life and will probably be somewhat higher before many weeks. The demand for cedar shingles is quite heavy. There has been no cutting of prices except by one or two of the small manufacturers. This is almost remarkable for the season of the year, as it has been quite customary for weakness to exhibit itself during the months of July and August. It is predicted that shingles will advance next month, as the stock in the hands of manufacturers is practically of no account. Lath is moving quite freely without any great exertion on the part of the seller.

GREAT BRITAIN.

Lumber prices in the British market continue to show a hardening tendency. Business is progressing favorably, and indications point to a firm market throughout the year. The statistical position of the timber in the London public docks is a very strong one, all classes of lumber showing a decrease as compared with the stock on hand August 1, 1901. The decreases are as follows: Pine deals, 132,610 pieces; pine battens, 25,080 pieces; spruce deals, 171,590 pieces; spruce battens, 119,458 pieces. There is a decided shortage in the supply of the upper grades. At the Millwall Docks pine deals show an increase of about 650 standards. The belief is growing that the falling off in the importations this year will represent a larger percentage than was at first expected, whereupon certain importers are speculating in deals and battens for fall shipment. Higher prices are anticipated at Liverpool. The best quality of pine deals are selling readily at high figures, but the poorer grades move slowly. The stock of waney pine and first-class oak at Liverpool is lighter than has been known for some time. Birch logs continue firm in price.

STOCKS AND PRICES.

The steamer Hempshire is loading deals at St. John, N. B., for the United Kingdom.

The Bank of British North America is asking for tenders up to October 31st for 13,776 acres of British Columbia timber leases.

The Savanne Lumber Company, of Savanne, Ont., have received their last tow of logs for the season, numbering 200,000 pieces.

Vigars & Company, of Port Arthur, Ont., will supply a large quantity of timber for the new storage elevator to be built there by Barnet & Record.

There were exported from Canada to Bay City during the month of July 13,483,937 feet of pine lumber and 2,491,850 pieces of lath, with a total value of $216,345.67.

P. A. Smith, who has had charge of the logging operations for the Rat Portage Lumber Company, states that all of the company's logs are now in deep water ready for towing.

A fortnight ago Hale & Bell disposed of their limits in the township of Ermatinger to N.N. Wright & Company, who recently purchased a mill at Cutler. It is said that the consideration was $160,000.

The Montgomery Door & Box Company, of Buffalo, have purchased the entire stock of lumber belonging to the Sheppard & Morse Lumber Company at North Tonawanda. The latter intend giving up their yard at that point.

Bliss & Van Auken, of Saginaw, Mich., are offering to dispose of their entire stock of white pine, as they intend to discontinue that part of their business. They claim that white pine cannot now be handled from that market with advantage.

The total stock of wood in the public docks at London, England, on August 1st, 1902, was 20,439,000 pieces, as compared with 25,663,000 pieces in 1901, 16,882,000 pieces in 1900, and 15,127,000 pieces in 1899. Deliveries for the first seven months of this year were 22,960,000 pieces, against 23,786,000 pieces for same period last year.

Commenting upon the cooperage stock market, the Sutherland-Innes Company, of Chatham, Ont., say: The situation is not a good one from the manufacturer's standpoint. There is hardly a mill in the country running, being closed down either for lack of logs or rather than see stock mildew just as soon as it is placed in the yard. At present it looks as if the price of No. 1 stave will approach the present price of hoops before the season is over. The difficulty this season will not be to get enough hoops, but to get enough staves for the trade. Hoops are a little easier, staves are going up, while heading remains about the same.

We quote from the market report of S. P. Musson, Son & Company, Barbadoes, under date of August 2nd, as follows: There have been no further arrivals of white pine since our last, and a small cargo will probably bring fair prices. In spruce, the "Civilian" arrived from Tusket, N.S., on 21st ult., with 94,000 feet, which was placed at $19.60. The demand is very limited at present. The Civilian had a small lot of 22,000 laying spruce shingles, extra good quatity, which were sold at $2.21. A cargo of cedar by the "Lizzie Lindsay" was placed at $4.07 to $3.67½ for long; $6.27 for 5-inch; $7.27 for 6-inch; and $8.27 for 7-inch.

Spruce deals, say the Timber Trades Journal, keep on their recent firm basis of £7 7s. 6d. c.i.f. for common run of a mill, with corresponding increase for better specifications and assortments. Whilst on the subject of spruce deals, we may say David Roberts, Son & Co., Ltd., of this port, have just received a shipment of Roumanian spruce, chiefly 3x11 and 3x9, and of an extraordinary long average length, some running up to 32 ft. We saw some going though the planing machine and they come out with clear and satiny surface. These were being prepared for one of the Liverpool liners which has been chartered by the Government for five years for transport duty. As these fixtures will be permanent until the time charter is over, it speaks well for the quality of the new import. We hear, however, that the brokers are already asking a large advance in price, which in general opinion is likely to strangle the baby in its birth.

WAGON OAK.

Considerable activity marks the railway carriage and wagon building trade in the Midlands, says the Timber Trades Journal, of London, Eng. Orders, we learn from a good source, have come in from the chief foreign countries, some of which had previously been delayed owing to political complications. It is estimated that foreign orders worth £120,000 have come in by the last one or two mails, while recent government and other South African requirements will make up an additional £100,000. The home railways are also in the market for rolling stock. Oak being so largely used in railway carriage and waggon building, it is not surprising to find that prices both for Baltic hewn oak logs and for American white oak scantlings have advanced. Of the former, stocks at Danzig and Stettin are within unusually small compass, and the knowledge that one of the large English railroads were on the market with large inquiries led to shippers promptly advancing prices. With short stocks and higher prices at the Baltic ports the question of obtaining supplies from Odessa is one which is being urged by agents representing interests in that port. As regards American white oak scantlings, shippers appear to be very much behind hand with their contracts, owing to the scarcity of stock, and for further orders for prime planks advanced prices are being asked.

LONDON IMPORTS OF TIMBER.

Churchill & Sim say: From the St. Lawrence the arrivals have been: Pine deals, 712,000 pieces, against 1,005,000 pieces in 1901; spruce deals, 777,000 pcs., against 1,443,000 pieces in 1901. From New Brunswick and Nova Scotia: Pine deals, 90,000 pieces, against 176,000 pieces in 1901; spruce deals, 119,000 pieces, against 244,000 pieces in 1901; birch planks, 79,000 pieces, against 108,000 pieces in 1901. The importation of pine and spruce to this market has been very much reduced by the great demand elsewhere in the United Kingdom, and especially in America. Pine deals have been a quiet market, and prices have hardly moved except for the very best descriptions, which show some slight improvement. Spruce has been eagerly competed for at higher prices, and the small quantities available have mostly gone direct into consumption, leaving the stock in the docks a very small one. The position of hardwoods has slightly improved during the month, and the stocks have been refreshed by a few importations.

ALL CANADA AT TORONTO.

There will not be a province or a piece of territory in the Dominion that will not be represented at the exhibition to be opened in Toronto by Earl of Dundonald on Labor Day and to be continued from Monday, September 1st, (Labor Day) to Saturday, September 13th. To mark their appreciation of this evidence of the country's confidence, the Executive have increased the Prize List until now it is proudly boasted that, with specials, upwards of $37,000 will be distributed in prizes among the exhibitors, six-sevenths of which will find its way to the agricultural community. While this large sum proves the magnitude of the exposition, the enterprise of its managers, and the comprehensiveness of the exhibits, the fact that $30,000 is to be spent in attractions and special features, the latest inventions as well as the latest novelties in the amusement world, and including $7,000 for music, shows that while the agricultural and industrial interests of the country are to be well looked after, the people's enjoyment will not be neglected. America and Europe have been scoured for all that is best in every line of attraction. Bolossi Kirally, the greatest master of spectacle on earth, has been secured to produce in all its brilliancy and gorgeousness his stupendous production "The Orient," which was the wonder of London, Eng., at Olympia for a year, and that is only one of the really costly features that have either been engaged or are being negotiated for. Then there are the new Dairy Building and the new Art Gallery, which will greatly increase the value of the exhibition as a factor in the education and elevation of the people. Reduced rates will, of course, be available on all lines of travel.

TIMBER STATEMENT.

Following is a comparative statement for three years of the timber, etc., measured and culled at the port of Quebec up to 12th August, 1902, as reported by the Supervisor of Cullers:

	Cu. ft. 1900	Cu ft. 1901	Cu. ft. 1902
Waney white pine	1,362,382	953,431	1,519,699
White pine	504,366	594,847	297,570
Red pine	60,799	00,435	59,947
Oak	380,966	371,305	505,742
Elm	542,077	828,137	527,884
Ash	8 ,907	127,565	68,438
Basswood	241	464	. . . .
Butternut	242	850	. . . .
Tamarac	71	22	. . . .
Birch and Maple	392,149	298,193	9 ,410

THE BOSTON MARKET.

Spruce lumber seems to be a little firmer at Boston, with the demand rather better and less desire on the part of manufacturers to urge business. The low grade randoms that have recently hung over the market have mainly been worked off. Quotations are firm : Ten and 12-inch dimensions, $20 to $21; 9-inch and under, $19 to $20; 10 and 12 inch, random lengths, 10 feet and up, $20.50 ; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $16.50 to $18; 5-inch and up, merchantable boards, $17; matched boards, $19 to $20; out spruce boards, $13.50 to $14 ; bundle furring, $17 to $18.

Hemlock lumber is steady, with offerings small: Boards, 12, 14 and 16 feet stock, $15 to $15.50 for good eastern ; Pennsylvania, No. 1, $16 to $17.50 ; No. 2, $15 to $15.50.

White pine is even firmer and higher, with quotations advanced : Uppers, 1-in. to 2 in. $82.50 to $85; 2½ to 3 in. $87 to $88; 4-in. $90 ; selects, 1 in. $68 ; 1¼ to 1¾ in. $70 ; 2 in. $72 ; 2½ to 3 in. $80 ; 4 in. $82 ; fine common, 1-in. $62 to $63 ; 1¼ to 1½ in. $65 ; 2-in. $67.50 ; 2½ and 3 in. $72.50; 4-in. $82.50 ; barn boards, $23 to $33 ; coffin boards, $28 to $32.

Hardwood lumber is firm, with a steady request : Quartered oak, $64 to $66; plain oak, $41 to $45 ; common and rejects, $20 to $25 ; whitewood, $42 to $43 ; sap and common, $30 to $35; brown ash, $41 to $44 ; white ash, $43 to $46 ; maple, $28 to $30; end-dried white maple, $38 to $42 ; birch, $27 to $30; birch, 75 per cent. red, $45 to $50 ; elm, $29 to $31.

Shingles are in pretty good demand and firm, with shippers wanting 10 cents more for next month's shipment : Extra cedar, $3.50 to $3.60 ; clear, $3 to $3.10; second clear, $2.50 ; extra No. 1, $1.90 to $2 ; British Columbia red cedar, 16-inch, five butts to 2 inches, $3.75 to $3.80 ; 18-inch, $4.25 to $4.50.

Clapboards are scarce and high : Clear, $38 to $40 ; second clear, $35 to $37 ; extra No. 1, $25 to $30.

Laths are firmer, with the New York market higher : One and five-eighths inch, $3.10 to $3.15 ; 1½ inch, $2.95 to $3.00.

WANTED
